#	ARTICLE	IF	CITATIONS
1	Opioids for the palliation of refractory breathlessness in adults with advanced disease and terminal illness. The Cochrane Library, 2019, 2019, CD011008.	1.5	116
2	High levels of psychosocial distress among Australian frontline healthcare workers during the COVID-19 pandemic: a cross-sectional survey. Annals of General Psychiatry, 2021, 34, e100577.	1.1	76
3	<scp>COVID</scp>â€™19 infection and the broader impacts of the pandemic on healthcare workers. Respiriology, 2022, 27, 411-426.	1.3	63
4	Integrated respiratory and palliative care may improve outcomes in advanced lung disease. ERJ Open Research, 2018, 4, 00102-2017.	1.1	55
5	Moral Distress and Perceived Community Views Are Associated with Mental Health Symptoms in Frontline Health Workers during the COVID-19 Pandemic. International Journal of Environmental Research and Public Health, 2021, 18, 8723.	1.2	42
6	Coping strategies adopted by Australian frontline health workers to address psychological distress during the COVID-19 pandemic. General Hospital Psychiatry, 2021, 72, 124-130.	1.2	41
7	â€™Covid Just Amplified the Cracks of the Systemâ€™ Working as a Frontline Health Worker during the COVID-19 Pandemic. International Journal of Environmental Research and Public Health, 2021, 18, 10178.	1.2	35
8	Occupational Disruptions during the COVID-19 Pandemic and Their Association with Healthcare Workersâ€™ Mental Health. International Journal of Environmental Research and Public Health, 2021, 18, 9263.	1.2	28
9	Management of refractory breathlessness with morphine in patients with chronic obstructive pulmonary disease. Internal Medicine Journal, 2015, 45, 898-904.	0.5	27
10	Thoughts of suicide or self-harm among Australian healthcare workers during the COVID-19 pandemic. Australian and New Zealand Journal of Psychiatry, 2022, 56, 1555-1565.	1.3	25
11	Attitudes to specialist palliative care and advance care planning in people with COPD: a multi-national survey of palliative and respiratory medicine specialists. BMC Palliative Care, 2018, 17, 115.	0.8	23
12	Mental health among healthcare workers during the <scp>COVID</scp>â€™19 pandemic. Respiriology, 2021, 26, 1016-1017.	1.3	22
13	Mental Health Symptoms and Workplace Challenges among Australian Paramedics during the COVID-19 Pandemic. International Journal of Environmental Research and Public Health, 2022, 19, 1004.	1.2	22
14	Integrated respiratory and palliative care leads to high levels of satisfaction: a survey of patients and carers. BMC Palliative Care, 2019, 18, 7.	0.8	21
15	A time for self-care? Frontline health workersâ€™ strategies for managing mental health during the COVID-19 pandemic. SSM Mental Health, 2022, 2, 100053.	0.9	21
16	A conceptual model: Redesigning how we provide palliative care for patients with chronic obstructive pulmonary disease. Palliative and Supportive Care, 2018, 16, 452-460.	0.6	20
17	Individualized breathlessness interventions may improve outcomes in patients with advanced COPD. Respiriology, 2018, 23, 1146-1151.	1.3	19
18	Thoughts of suicide or self-harm among healthcare workers during the COVID-19 pandemic: qualitative analysis of open-ended survey responses. BJPsych Open, 2022, 8, .	0.3	19

#	ARTICLE	IF	CITATIONS
19	Differing Approaches to Managing the Chronic Breathlessness Syndrome in Advanced COPD: A Multi-National Survey of Specialists. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2018, 15, 294-302.	0.7	18
20	Equal or not? Women hold less prestigious roles at respiratory medicine conferences than men. <i>European Respiratory Journal</i> , 2020, 55, 1900701.	3.1	15
21	Patients With Fibrotic Interstitial Lung Disease Receive Supportive and Palliative Care Just Prior to Death. <i>American Journal of Hospice and Palliative Medicine</i> , 2021, 38, 154-160.	0.8	15
22	Junior doctors' attitudes to opioids for refractory breathlessness in patients with advanced chronic obstructive pulmonary disease. <i>Internal Medicine Journal</i> , 2017, 47, 1050-1056.	0.5	14
23	The complexity of mental health care for people with COPD: a qualitative study of clinicians' perspectives. <i>Npj Primary Care Respiratory Medicine</i> , 2021, 31, 40.	1.1	14
24	Differences in Coping Strategies and Help-Seeking Behaviours among Australian Junior and Senior Doctors during the COVID-19 Pandemic. <i>International Journal of Environmental Research and Public Health</i> , 2021, 18, 13275.	1.2	13
25	Respiratory depression secondary to morphine use in a patient with COPD and refractory breathlessness. <i>European Respiratory Journal</i> , 2017, 49, 1601858.	3.1	12
26	Differences in psychosocial distress among rural and metropolitan health care workers during the COVID-19 pandemic. <i>Australian Journal of Rural Health</i> , 2022, 30, 683-696.	0.7	11
27	A Palliative Approach is Adopted for Many Patients Dying in Hospital with Chronic Obstructive Pulmonary Disease. <i>COPD: Journal of Chronic Obstructive Pulmonary Disease</i> , 2018, 15, 503-511.	0.7	10
28	Referral criteria to palliative care for patients with respiratory disease: a systematic review. <i>European Respiratory Journal</i> , 2021, 58, 2004307.	3.1	10
29	Barriers to Palliative Care Referral and Advance Care Planning (ACP) for Patients With COPD: A Cross-Sectional Survey of Palliative Care Nurses. <i>American Journal of Hospice and Palliative Medicine</i> , 2022, 39, 169-177.	0.8	10
30	Thoracic Society of Australia and New Zealand Position Statement on Acute Oxygen Use in Adults: "Swimming between the flags". <i>Respirology</i> , 2022, 27, 262-276.	1.3	10
31	Antimicrobial prescription in patients dying from chronic obstructive pulmonary disease. <i>Internal Medicine Journal</i> , 2019, 49, 66-73.	0.5	9
32	Mental health illness in chronic respiratory disease is associated with worse respiratory health and low engagement with non-pharmacological psychological interventions. <i>Internal Medicine Journal</i> , 2021, 51, 414-418.	0.5	8
33	The workplace and psychosocial experiences of Australian junior doctors during the COVID-19 pandemic. <i>Internal Medicine Journal</i> , 2022, 52, 745-754.	0.5	8
34	Care of older people and people requiring palliative care with COVID-19: guidance from the Australian National COVID-19 Clinical Evidence Taskforce. <i>Medical Journal of Australia</i> , 2022, 216, 203-208.	0.8	7
35	Mapping non-malignant respiratory palliative care services in Australia and New Zealand. <i>Australian Health Review</i> , 2020, 44, 778.	0.5	6
36	The Palliative Approach and Terminal Heart Failure Admissions "Are We Getting it Right?". <i>Heart Lung and Circulation</i> , 2022, 31, 841-848.	0.2	6

#	ARTICLE	IF	CITATIONS
37	Real-world opioid prescription to patients with serious, non-malignant, respiratory illnesses and chronic breathlessness. <i>Internal Medicine Journal</i> , 2022, 52, 1925-1933.	0.5	5
38	Gaps in Opioid Prescription for Severe Breathlessness in Hospitalized Patients With Chronic Obstructive Pulmonary Disease or Interstitial Lung Disease. <i>Journal of Pain and Symptom Management</i> , 2020, 60, e36-e39.	0.6	4
39	Breathlessness and palliative oxygen therapy in advanced chronic obstructive pulmonary disease. <i>Internal Medicine Journal</i> , 2018, 48, 483-484.	0.5	3
40	Equality for women in respiratory and sleep medicine in the Asia-Pacific region: Opportunities for change. <i>Respirology</i> , 2020, 25, 360-362.	1.3	3
41	Managing Severe Chronic Breathlessness in Chronic Obstructive Pulmonary Disease Is Challenging for General Practitioners. <i>American Journal of Hospice and Palliative Medicine</i> , 2021, 38, 472-479.	0.8	3
42	Chronic breathlessness in advanced cardiorespiratory disease: patient perceptions of opioid use. <i>BMJ Supportive and Palliative Care</i> , 2023, 13, e334-e343.	0.8	3
43	Opioids in advanced lung malignancy: a clinical audit of opioid prescription, patient education and safeguarding. <i>Internal Medicine Journal</i> , 2022, 52, 1698-1706.	0.5	3
44	Assisting People With Their Living, Not Their Dying: Health Professionals' Perspectives of Palliative Care and Opioids in ILD. <i>American Journal of Hospice and Palliative Medicine</i> , 2022, 39, 211-219.	0.8	3
45	Leading by example: The women of respiratory health in Australia. <i>Respirology</i> , 2021, 26, 997-998.	1.3	3
46	The Workplace and Psychosocial Experiences of Australian Senior Doctors during the COVID-19 Pandemic: A Qualitative Study. <i>International Journal of Environmental Research and Public Health</i> , 2022, 19, 3079.	1.2	3
47	Doctors' Attitudes to Palliation and Palliative Care in Patients With Advanced Chronic Obstructive Pulmonary Disease. <i>Journal of Pain and Symptom Management</i> , 2018, 55, e9-e11.	0.6	2
48	Approaches to palliative oxygen therapy in chronic obstructive pulmonary disease: a multi-national survey of specialists. <i>Internal Medicine Journal</i> , 2019, 49, 252-256.	0.5	2
49	Patient-reported Outcomes for Clinical Trials in Idiopathic Pulmonary Fibrosis: New Opportunities to Understand How Patients Feel and Function. <i>American Journal of Respiratory and Critical Care Medicine</i> , 2020, 202, 1620-1622.	2.5	2
50	Investigation burden for patients with fibrotic interstitial lung disease at the end of life. <i>Internal Medicine Journal</i> , 2020, 50, 748-752.	0.5	2
51	Respiratory Nurses Have Positive Attitudes But Lack Confidence in Advance Care Planning for Chronic Obstructive Pulmonary Disease. <i>Journal of Hospice and Palliative Nursing</i> , 2021, 23, 442-454.	0.5	2
52	Nasal high flow oxygen therapy during acute admissions or periods of worsening symptoms. <i>Current Opinion in Supportive and Palliative Care</i> , 2021, Publish Ahead of Print, 205-213.	0.5	2
53	Nasal High Flow Therapy For Symptom Management in People Receiving Palliative Care. <i>Journal of Pain and Symptom Management</i> , 2021, , .	0.6	2
54	Palliative and symptomatic care of patients with fibrotic interstitial lung disease. , 2018, , .		2
