#	ARTICLE	IF	CITATIONS
1	Ancestry informative markers for distinguishing between Thai populations based on genome-wide association datasets. <i>Legal Medicine</i> , 2015, 17, 245-250.	0.6	15
2	A minimal number CpGs of ELOVL2 gene for a chronological age estimation using pyrosequencing. <i>Forensic Science International</i> , 2021, 318, 110631.	1.3	11
3	<i>Pseudomonas aeruginosa</i> septicemia causes death following liposuction with allogenic fat transfer and gluteal augmentation. <i>International Journal of Legal Medicine</i> , 2015, 129, 815-818.	1.2	9
4	Genetic variation study of 12 X chromosomal STR in central Thailand population. <i>International Journal of Legal Medicine</i> , 2016, 130, 1497-1499.	1.2	7
5	Gene and haplotype diversity of 23 Y-chromosomal short tandem repeat loci in the central Thai population. <i>Forensic Science International: Genetics</i> , 2015, 14, 191-193.	1.6	5
6	A SNP panel for early detection of artificial chimerism in HSCT patients using TaqMan technology. <i>International Journal of Legal Medicine</i> , 2020, 134, 1553-1561.	1.2	5
7	Circulatory microRNA in acute myocardial infarction: A candidate biomarker for forensic investigation. <i>Forensic Science International: Genetics Supplement Series</i> , 2017, 6, e294-e295.	0.1	3
8	Considering a performance test of forensic genomics system on massively parallel sequencing technology. <i>Forensic Science International: Genetics Supplement Series</i> , 2017, 6, e599-e600.	0.1	2
9	Ancestry informative markers for Asian subcontinent. <i>Forensic Science International: Genetics Supplement Series</i> , 2017, 6, e260-e262.	0.1	1
10	Determination of morphologic and immunohistochemical stain (p57 kip2) discrepancy of complete and partial hydatidiform mole by using microsatellite genotyping. <i>Taiwanese Journal of Obstetrics and Gynecology</i> , 2020, 59, 570-574.	0.5	1
11	Synovial fluid: An alternative source for forensic DNA. <i>Forensic Science International: Genetics Supplement Series</i> , 2011, 3, e323-e324.	0.1	0
12	Eye colour single nucleotide polymorphisms (SNPs) variants in Thai population. <i>Forensic Science International: Genetics Supplement Series</i> , 2013, 4, e198-e199.	0.1	0
13	Massively parallel sequencing of 24 Y-STR loci in Thai population. <i>Forensic Science International: Genetics Supplement Series</i> , 2017, 6, e310-e313.	0.1	0
