#	ARTICLE	IF	CITATIONS
1	Odor-based mate choice copying in deer mice is not affected by familiarity or kinship. <i>Animal Cognition</i> , 2022, 25, 241-248.	0.9	3
2	Progesterone and disgust: A response to œprogesterone does raise disgust. <i>Hormones and Behavior</i> , 2022, 137, 104936.	1.0	1
3	Developmental age and biological sex influence muscarinic receptor function and neuron morphology within layer VI of the medial prefrontal cortex. <i>Cerebral Cortex</i> , 2022, 32, 3137-3158.	1.6	5
4	Neuroendocrine underpinning of social recognition in males and females. <i>Journal of Neuroendocrinology</i> , 2022, 34, e13070.	1.2	23
5	Social factors and the neurobiology of pathogen avoidance. <i>Biology Letters</i> , 2022, 18, 20210371.	1.0	9
6	Sex Differences in Social Cognition. <i>Current Topics in Behavioral Neurosciences</i> , 2022, , 207-234.	0.8	6
7	The role of oxytocin in shaping complex social behaviours: possible interactions with other neuromodulators. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2022, 377, .	1.8	5
8	Endocrine Insights into the Pathophysiology of Autism Spectrum Disorder. <i>Neuroscientist</i> , 2021, 27, 650-667.	2.6	13
9	Differential effects of progesterone on social recognition and the avoidance of pathogen threat by female mice. <i>Hormones and Behavior</i> , 2021, 127, 104873.	1.0	18
10	Where are you from? Female mice raised in enriched or conventional cages differ socially, and can be discriminated by other mice. <i>Behavioural Brain Research</i> , 2021, 400, 113025.	1.2	5
11	New directions in behavioral neuroscience: Sometimes old is new. <i>Neuroscience and Biobehavioral Reviews</i> , 2021, 125, 108-109.	2.9	0
12	Protein synthesis and actin polymerization in the rapid effects of 17Î²-estradiol on short-term social memory and dendritic spine dynamics in female mice. <i>Psychoneuroendocrinology</i> , 2021, 128, 105232.	1.3	8
13	Pathogen and Toxin Disgust in Rodents. , 2021, , 53-78.		1
14	Estrogenic regulation of social behavior and sexually dimorphic brain formation. <i>Neuroscience and Biobehavioral Reviews</i> , 2020, 110, 46-59.	2.9	32
15	Low dose prenatal testosterone exposure decreases the corticosterone response to stress in adult male, but not female, mice. <i>Brain Research</i> , 2020, 1729, 146613.	1.1	6
16	The promises and pitfalls of sex difference research. <i>Frontiers in Neuroendocrinology</i> , 2020, 56, 100817.	2.5	50
17	Pathogens, odors, and disgust in rodents. <i>Neuroscience and Biobehavioral Reviews</i> , 2020, 119, 281-293.	2.9	24
18	A place for behavior in neuroscience: Recent advances in behavioral neuroscience. <i>Neuroscience and Biobehavioral Reviews</i> , 2020, 110, 1-2.	2.9	1

#	ARTICLE	IF	CITATIONS
19	Amygdala. , 2020, , 142-145.		0
20	Social neuroscience of disgust. Genes, Brain and Behavior, 2019, 18, e12508.	1.1	35
21	Neurophysiological correlates of stereotypic behaviour in a model carnivore species. Behavioural Brain Research, 2019, 373, 112056.	1.2	9
22	Does demonstrator relevance affect social preferences and the social transmission of food preferences in female mice (Mus musculus)? Behavioural Processes, 2019, 169, 103983.	0.5	3
23	Dissociable involvement of estrogen receptors in perirhinal cortex-mediated object-place memory in male rats. Psychoneuroendocrinology, 2019, 107, 98-108.	1.3	21
24	Conspecific infection threat rapidly biases the social responses of female mice: Involvement of oxytocin. Hormones and Behavior, 2019, 113, 67-75.	1.0	10
25	Structural plasticity of the hippocampus in response to estrogens in female rodents. Molecular Brain, 2019, 12, 22.	1.3	119
26	Steroids and the brain: 50 years of research, conceptual shifts and the ascent of non-classical and membrane-initiated actions. Hormones and Behavior, 2018, 99, 1-8.	1.0	68
27	Sex differences in the brain: Implications for behavioral and biomedical research. Neuroscience and Biobehavioral Reviews, 2018, 85, 126-145.	2.9	170
28	Estrogens and their receptors in the medial amygdala rapidly facilitate social recognition in female mice. Psychoneuroendocrinology, 2018, 89, 30-38.	1.3	52
29	Female Clock <sup>fl/fl</sup> mice are protected from the development of age-dependent cardiomyopathy. Cardiovascular Research, 2018, 114, 259-271.	1.8	37
30	Rapid actions of oestrogens and their receptors on memory acquisition and consolidation in females. Journal of Neuroendocrinology, 2018, 30, e12485.	1.2	40
31	Rapid effects of steroids in the brain. Hormones and Behavior, 2018, 104, 1-3.	1.0	3
32	The role of social cognition in parasite and pathogen avoidance. Philosophical Transactions of the Royal Society B: Biological Sciences, 2018, 373, 20170206.	1.8	42
33	Rapid effects of estrogens on short-term memory: Possible mechanisms. Hormones and Behavior, 2018, 104, 88-99.	1.0	46
34	Why estrogens matter for behavior and brain health. Neuroscience and Biobehavioral Reviews, 2017, 76, 363-379.	2.9	123
35	Out-Group Threat Responses, In-Group Bias, and Nonapeptide Involvement Are Conserved across Vertebrates: (A Comment on Bruintjes et al., "Out-Group Threat Promotes Within-Group Affiliation in a Tj ETQq1d 0.784314 rgBT (C	1.4	14
36	The Role of Dorsal Hippocampal Dopamine D1-Type Receptors in Social Learning, Social Interactions, and Food Intake in Male and Female Mice. Neuropsychopharmacology, 2017, 42, 2344-2353.	2.8	28

#	ARTICLE	IF	CITATIONS
37	Rapid effects of dorsal hippocampal G-protein coupled estrogen receptor on learning in female mice. <i>Psychoneuroendocrinology</i> , 2017, 77, 131-140.	1.3	57
38	Mate-choice copying, social information processing, and the roles of oxytocin. <i>Neuroscience and Biobehavioral Reviews</i> , 2017, 72, 232-242.	2.9	50
39	Social Cognition and the Neurobiology of Rodent Mate Choice. <i>Integrative and Comparative Biology</i> , 2017, 57, 846-856.	0.9	28
40	LUMAN/CREB3 is a key regulator of glucocorticoid-mediated stress responses. <i>Molecular and Cellular Endocrinology</i> , 2017, 439, 95-104.	1.6	25
41	Sex, hormones, and genotype interact to influence psychiatric disease, treatment, and behavioral research. <i>Journal of Neuroscience Research</i> , 2017, 95, 50-64.	1.3	67
42	Mice deficient for striatal Vesicular Acetylcholine Transporter (VACHT) display impaired short-term but normal long-term object recognition memory. <i>Behavioural Brain Research</i> , 2016, 311, 267-278.	1.2	11
43	Cage-induced stereotypic behaviour in laboratory mice covaries with nucleus accumbens FosB/Δ <sup>2</sup> FosB expression. <i>Behavioural Brain Research</i> , 2016, 301, 238-242.	1.2	10
44	Amygdala. , 2016, , 1-4.		0
45	Rapid effects of the G-protein coupled oestrogen receptor (GPER) on learning and dorsal hippocampus dendritic spines in female mice. <i>Physiology and Behavior</i> , 2015, 149, 53-60.	1.0	78
46	Rapid increases in immature synapses parallel estrogen-induced hippocampal learning enhancements. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015, 112, 16018-16023.	3.3	92
47	Activation of the G protein-coupled estrogen receptor, but not estrogen receptor $\hat{1}\pm$ or $\hat{1}^2$ , rapidly enhances social learning. <i>Psychoneuroendocrinology</i> , 2015, 58, 51-66.	1.3	47
48	Estrogen involvement in social behavior in rodents: Rapid and long-term actions. <i>Hormones and Behavior</i> , 2015, 74, 53-76.	1.0	114
49	Long-Term Provision of Environmental Resources Alters Behavior but not Physiology or Neuroanatomy of Male and Female BALB/c and C57BL/6 Mice. <i>Journal of the American Association for Laboratory Animal Science</i> , 2015, 54, 718-30.	0.6	10
50	Pathogen threat and unfamiliar males rapidly bias the social responses of female mice. <i>Animal Behaviour</i> , 2014, 97, 105-111.	0.8	15
51	Acute corticosterone sexually dimorphically facilitates social learning and inhibits feeding in mice. <i>Neuropharmacology</i> , 2013, 75, 191-200.	2.0	11
52	Neurobiological Aspects of the Effects of Anticipation of Interaction with a Female on Male Cognitive Performance. <i>Archives of Sexual Behavior</i> , 2013, 42, 331-333.	1.2	5
53	Neurobiological correlates of sociality, mate choice and learning. <i>Trends in Ecology and Evolution</i> , 2013, 28, 4-5.	4.2	9
54	Rapid Oestrogenic Regulation of Social and Nonsocial Learning. <i>Journal of Neuroendocrinology</i> , 2013, 25, 1116-1132.	1.2	44

#	ARTICLE	IF	CITATIONS
55	Oxytocin, vasopressin, sociality, and pathogen avoidance. , 2013, , 256-269.		1
56	Luman/CREB3 Recruitment Factor Regulates Glucocorticoid Receptor Activity and Is Essential for Prolactin-Mediated Maternal Instinct. <i>Molecular and Cellular Biology</i> , 2012, 32, 5140-5150.	1.1	32
57	Daniel S. Lehrman Lifetime Achievement Award. <i>Hormones and Behavior</i> , 2012, 61, 1-3.	1.0	2
58	Low Doses of 17 $\beta$ -Estradiol Rapidly Improve Learning and Increase Hippocampal Dendritic Spines. <i>Neuropsychopharmacology</i> , 2012, 37, 2299-2309.	2.8	128
59	Male risk taking, female odors, and the role of estrogen receptors. <i>Physiology and Behavior</i> , 2012, 107, 751-761.	1.0	14
60	Interplay of oxytocin, vasopressin, and sex hormones in the regulation of social recognition.. <i>Behavioral Neuroscience</i> , 2012, 126, 97-109.	0.6	175
61	Oxytocin, vasopressin and estrogen receptor gene expression in relation to social recognition in female mice. <i>Physiology and Behavior</i> , 2012, 105, 915-924.	1.0	48
62	Estrogenic involvement in social learning, social recognition and pathogen avoidance. <i>Frontiers in Neuroendocrinology</i> , 2012, 33, 140-159.	2.5	69
63	Differential Effects of Dopamine Receptor D1-Type and D2-Type Antagonists and Phase of the Estrous Cycle on Social Learning of Food Preferences, Feeding, and Social Interactions in Mice. <i>Neuropsychopharmacology</i> , 2011, 36, 1689-1702.	2.8	46
64	Effects of an estrogen receptor alpha agonist on agonistic behaviour in intact and gonadectomized male and female mice. <i>Psychoneuroendocrinology</i> , 2011, 36, 981-995.	1.3	49
65	Rapid Effects of Estrogen Receptor $\hat{1}\alpha$ and $\hat{1}\beta$ Selective Agonists on Learning and Dendritic Spines in Female Mice. <i>Endocrinology</i> , 2011, 152, 1492-1502.	1.4	141
66	Sociality, Pathogen Avoidance, and the Neuropeptides Oxytocin and Arginine Vasopressin. <i>Psychological Science</i> , 2011, 22, 1367-1374.	1.8	47
67	Agonistic behavior in males and females: Effects of an estrogen receptor beta agonist in gonadectomized and gonadally intact mice. <i>Psychoneuroendocrinology</i> , 2010, 35, 1008-1022.	1.3	73
68	Neuroendocrinology of social information processing in rats and mice. <i>Frontiers in Neuroendocrinology</i> , 2009, 30, 442-459.	2.5	167
69	Enhancing effect of heroin on social recognition learning in male Spragueâ€™Dawley rats: modulation by heroin pre-exposure. <i>Psychopharmacology</i> , 2009, 204, 413-421.	1.5	12
70	Estrogen receptors $\hat{1}\alpha$ and $\hat{1}\beta$ mediate different aspects of the facilitatory effects of female cues on male risk taking. <i>Psychoneuroendocrinology</i> , 2008, 33, 634-642.	1.3	21
71	Mechanisms Underlying an Ability to Behave Ethically. <i>American Journal of Bioethics</i> , 2008, 8, 10-19.	0.5	18
72	Steroidal/neuropeptide interactions in hypothalamus and amygdala related to social anxiety. <i>Progress in Brain Research</i> , 2008, 170, 291-303.	0.9	72

#	ARTICLE	IF	CITATIONS
73	Response to Peer Commentaries on Mechanisms Underlying an Ability to Behave Ethically—Neuroscience Addresses Ethical Behaviors: Transitioning From Philosophical Dialogues to Testable Scientific Theories of Brain and Behavior. <i>American Journal of Bioethics</i> , 2008, 8, W1-W3.	0.5	0
74	Differential Effects of Estrogen Receptor Alpha and Beta Specific Agonists on Social Learning of Food Preferences in Female Mice. <i>Neuropsychopharmacology</i> , 2008, 33, 2362-2375.	2.8	67
75	Brain Mechanisms Theoretically Underlying Extremes of Social Behaviors: The Best and the Worst. , 2008, , 13-25.		0
76	Estrogen receptor beta agonists in neurobehavioral investigations. <i>Current Opinion in Investigational Drugs</i> , 2008, 9, 760-73.	2.3	14
77	Microparticle-based delivery of oxytocin receptor antisense DNA in the medial amygdala blocks social recognition in female mice. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2007, 104, 4670-4675.	3.3	163
78	Pain perception and electromagnetic fields. <i>Neuroscience and Biobehavioral Reviews</i> , 2007, 31, 619-642.	2.9	71
79	Decreased cADPR and increased NAD <sup>+</sup> in the Cd38 <sup>−/−</sup> mouse. <i>Biochemical and Biophysical Research Communications</i> , 2006, 346, 188-192.	1.0	88
80	Use of salient and non-salient visuospatial cues by rats in the Morris Water Maze. <i>Physiology and Behavior</i> , 2006, 87, 794-799.	1.0	8
81	Involvement of estrogen receptor $\alpha$ , $\beta$ and oxytocin in social discrimination: a detailed behavioral analysis with knockout female mice. <i>Genes, Brain and Behavior</i> , 2006, 5, 528-539.	1.1	147
82	Genetic Influences on Aggressive Behaviors and Arousability in Animals. <i>Annals of the New York Academy of Sciences</i> , 2006, 1036, 257-266.	1.8	43
83	Mechanisms underlying sexual and affiliative behaviors of mice: relation to generalized CNS arousal. <i>Social Cognitive and Affective Neuroscience</i> , 2006, 1, 260-270.	1.5	13
84	Inadvertent social information and the avoidance of parasitized male mice: A role for oxytocin. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2006, 103, 4293-4298.	3.3	78
85	Recognition and avoidance of the odors of parasitized conspecifics and predators: Differential genomic correlates. <i>Neuroscience and Biobehavioral Reviews</i> , 2005, 29, 1347-1359.	2.9	97
86	Involvement of the oxytocin gene in the recognition and avoidance of parasitized males by female mice. <i>Animal Behaviour</i> , 2005, 70, 693-702.	0.8	28
87	Genes, odours and the recognition of parasitized individuals by rodents. <i>Trends in Parasitology</i> , 2005, 21, 423-429.	1.5	89
88	Kinship, familiarity and social status modulate social learning about $\beta$ micropredators? (biting flies) in deer mice. <i>Behavioral Ecology and Sociobiology</i> , 2005, 58, 60-71.	0.6	85
89	The Role of Estrogen Receptors in the Regulation of Aggressive Behaviors. , 2005, , 231-249.		17
90	Functional Genomics of Social Recognition. <i>Journal of Neuroendocrinology</i> , 2004, 16, 383-389.	1.2	69

#	ARTICLE	IF	CITATIONS
91	Olfactory-mediated parasite recognition and avoidance: linking genes to behavior. <i>Hormones and Behavior</i> , 2004, 46, 272-283.	1.0	136
92	Aversive and avoidance responses of female mice to the odors of males infected with an ectoparasite and the effects of prior familiarity. <i>Behavioral Ecology and Sociobiology</i> , 2003, 54, 423-430.	0.6	59
93	Effects of magnetic field exposure on open field behaviour and nociceptive responses in mice. <i>Behavioural Brain Research</i> , 2003, 144, 1-9.	1.2	43
94	An estrogen-dependent four-gene micronet regulating social recognition: A study with oxytocin and estrogen receptor- $\alpha$ and - $\beta$ knockout mice. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2003, 100, 6192-6197.	3.3	349
95	Estradiol differentially regulates lipocalin-type prostaglandin D synthase transcript levels in the rodent brain: Evidence from high-density oligonucleotide arrays and in situ hybridization. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2003, 100, 318-323.	3.3	106
96	Brief Exposure to Female Odors <b>Embodens</b> Male Mice by Reducing Predator-Induced Behavioral and Hormonal Responses. <i>Hormones and Behavior</i> , 2001, 40, 497-509.	1.0	82
97	Antipredator responses and defensive behavior: ecological and ethological approaches for the neurosciences. <i>Neuroscience and Biobehavioral Reviews</i> , 2001, 25, 577-586.	2.9	220
98	Sex differences in conditioned taste aversion and in the effects of exposure to a specific pulsed magnetic field in deer mice <i>Peromyscus maniculatus</i> . <i>Physiology and Behavior</i> , 2000, 71, 237-249.	1.0	24
99	Exposure to a hypogeomagnetic field or to oscillating magnetic fields similarly reduce stress-induced analgesia in C57 male mice. <i>Life Sciences</i> , 2000, 66, 1299-1306.	2.0	52
100	Familiarity and relatedness: Effects on social learning about foods by Norway rats and Mongolian gerbils. <i>Learning and Behavior</i> , 1998, 26, 448-454.	3.4	27
101	Sex differences in opioid and N-methyl-d-aspartate mediated non-opioid biting fly exposure induced analgesia in deer mice. <i>Pain</i> , 1998, 77, 163-171.	2.0	26
102	Parasitized female mice display reduced aversive responses to the odours of infected males. <i>Proceedings of the Royal Society B: Biological Sciences</i> , 1998, 265, 1111-1118.	1.2	34
103	The NMDA Receptor Antagonist, NPC 12626, Reduces the Pronociceptive Effects of Orphanin FQ and Kappa Opiate Antinociception in the Land Snail, <i>Cepaea nemoralis</i> . <i>Peptides</i> , 1997, 18, 943-947.	1.2	15
104	The effect of demonstrator age and number on duration of socially-induced food preferences in house mouse ( <i>Mus domesticus</i> ). <i>Behavioural Processes</i> , 1997, 41, 69-77.	0.5	44
105	Sex differences in N-methyl-d-aspartate involvement in $\mu$ opioid and non-opioid predator-induced analgesia in mice. <i>Brain Research</i> , 1997, 768, 30-36.	1.1	72
106	Kinship and familiarity as factors affecting social transfer of food preferences in adult Mongolian gerbils ( <i>Meriones unguiculatus</i> ). <i>Journal of Comparative Psychology (Washington, D C: 1983)</i> , 1996, 110, 243-251.	0.3	67
107	The involvement of oxytocin and vasopressin in social recognition and social learning. , 0, , 232-255.		3
