#	ARTICLE	IF	CITATIONS
1	Longitudinal experiences and impact of the COVID-19 pandemic among people with past or current eating disorders in Sweden. <i>Eating Disorders</i> , 2022, 30, 602-617.	3.0	7
2	Binge Eating and Addictive-Like Behaviours in Males and Females. <i>Psychological Reports</i> , 2022, 125, 148-166.	1.7	9
3	Emotion dysregulation and eating disorder outcome: Prediction, change and contribution of self-image. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2022, 95, 639-655.	2.5	5
4	Impulsivity and compulsivity as parallel mediators of emotion dysregulation in eating-related addictive-like behaviors, alcohol use, and compulsive exercise. <i>Brain and Behavior</i> , 2022, 12, e2458.	2.2	9
5	Initial self-blame predicts eating disorder remission after 9 years. <i>Journal of Eating Disorders</i> , 2021, 9, 81.	2.7	3
6	Personality as predictor of outcome in internet-based treatment of bulimic eating disorders. <i>Eating Behaviors</i> , 2020, 36, 101360.	2.0	5
7	Self-directed behaviors differentially explain associations between emotion dysregulation and eating disorder psychopathology in patients with or without objective binge-eating. <i>Journal of Eating Disorders</i> , 2020, 8, 17.	2.7	5
8	The unsafe haven: Eating disorders as attachment relationships. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2019, 92, 379-393.	2.5	14
9	Insidious: The relationship patients have with their eating disorders and its impact on symptoms, duration of illness, and self-image. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2018, 91, 302-316.	2.5	9
10	Symptom, alexithymia and self-image outcomes of Mentalisation-based treatment for borderline personality disorder: a naturalistic study. <i>BMC Psychiatry</i> , 2018, 18, 185.	2.6	16
11	Emotion dysregulation and eating disorders' Associations with diagnostic presentation and key symptoms. <i>International Journal of Eating Disorders</i> , 2018, 51, 921-930.	4.0	63
12	Perfectionism in eating disorders: Are long-term outcomes influenced by extent and changeability in initial perfectionism?. <i>Journal for Person-Oriented Research</i> , 2018, 4, 1-14.	0.4	1
13	Classifying empirically valid and clinically meaningful change in eating disorders using the Eating Disorders Inventory, version 2 (EDI-2). <i>Eating Behaviors</i> , 2017, 26, 99-103.	2.0	4
14	Factor analysis of the adolescent version of the Eating Disorders Examination Questionnaire (EDE-Q): results from Swedish general population and clinical samples. <i>Journal of Eating Disorders</i> , 2017, 5, 19.	2.7	27
15	Eating disorder symptoms pre- and postpartum. <i>Archives of Women's Mental Health</i> , 2016, 19, 675-680.	2.6	37
16	Take charge: Personality as predictor of recovery from eating disorder. <i>Psychiatry Research</i> , 2016, 246, 447-452.	3.3	11
17	Who do you think you are? - Personality in eating disordered patients. <i>Journal of Eating Disorders</i> , 2015, 3, 3.	2.7	25
18	Binge Eating in Interview Versus Self-Report: Different Diagnoses Show Different Divergences. <i>European Eating Disorders Review</i> , 2014, 22, 170-175.	4.1	18

#	ARTICLE	IF	CITATIONS
19	Drop-In Access to Specialist Services for Eating Disorders: A Qualitative Study of Patient Experiences. <i>Eating Disorders</i> , 2014, 22, 279-291.	3.0	9
20	Clinical characteristics and distinctiveness of DSM-5 eating disorder diagnoses: findings from a large naturalistic clinical database. <i>Journal of Eating Disorders</i> , 2013, 1, 31.	2.7	48
21	Diagnostic Issues of Binge Eating in Eating Disorders. <i>European Eating Disorders Review</i> , 2013, 21, 175-183.	4.1	13
22	Prediction of weight increase in anorexia nervosa. <i>Nordic Journal of Psychiatry</i> , 2013, 67, 424-432.	1.3	15
23	DSM-IV versus DSM-5: Implementation of proposed DSM-5 criteria in a large naturalistic database. <i>International Journal of Eating Disorders</i> , 2012, 45, 353-361.	4.0	57
24	How do eating disorder patients eat after treatment? Dietary habits and eating behaviour three years after entering treatment. <i>Eating and Weight Disorders</i> , 2011, 16, 1-8.	2.5	11
25	Credibility clusters, preferences, and helpfulness beliefs for specific forms of psychotherapy. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2011, 84, 425-441.	2.5	21
26	The impact of different outcome measures on estimates of remission in a 3-year follow-up of eating disorders. <i>European Eating Disorders Review</i> , 2011, 19, 2-11.	4.1	26
27	Quality assurance of specialised treatment of eating disorders using large-scale internet-based collection systems: Methods, results and lessons learned from designing the Stepwise database. <i>European Eating Disorders Review</i> , 2010, 18, 251-259.	4.1	75
28	Towards an ecology of eating disorders: Creating sustainability through the integration of scientific research and clinical practice. <i>European Eating Disorders Review</i> , 2010, 18, 1-9.	4.1	17
29	Anorexic self-control and bulimic self-hate: Differential outcome prediction from initial self-image. <i>International Journal of Eating Disorders</i> , 2009, 42, 522-530.	4.0	33
30	What happened to the ones who dropped out? Outcome in eating disorder patients who complete or prematurely terminate treatment. <i>European Eating Disorders Review</i> , 2009, 17, 109-119.	4.1	54
31	Self-image and treatment drop-out in eating disorders. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2008, 81, 95-104.	2.5	19
32	The relationship of treatment preferences and experiences to outcome in generalized anxiety disorder (GAD). <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2008, 81, 247-259.	2.5	27
33	Patients' experiences of change in cognitive-behavioral therapy and psychodynamic therapy: a qualitative comparative study. <i>Psychotherapy Research</i> , 2007, 17, 553-566.	1.8	128
34	Negative self-image and outcome in eating disorders: Results at 3-year follow-up. <i>Eating Behaviors</i> , 2007, 8, 398-406.	2.0	40
35	How do experiences of psychiatric care affect the perceived credibility of different forms of psychotherapy?. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2007, 80, 205-215.	2.5	8
36	Affect regulation, object relations and the central symptoms of eating disorders. <i>European Eating Disorders Review</i> , 2006, 14, 203-211.	4.1	24

#	ARTICLE	IF	CITATIONS
37	What do mothers attune to during interactions with their infants?. <i>Infant and Child Development</i> , 2006, 15, 387-402.	1.5	18
38	Validating the EDI-2 in three Swedish female samples: Eating disorders patients, psychiatric outpatients and normal controls. <i>Nordic Journal of Psychiatry</i> , 2006, 60, 44-50.	1.3	72
39	The comparative utility of statistically derived eating disorder clusters and DSM-IV diagnoses: Relationship to symptomatology and psychiatric comorbidity at intake and follow-up. <i>Eating Behaviors</i> , 2005, 6, 403-418.	2.0	14
40	The credibility of psychodynamic, cognitive and cognitive-behavioural psychotherapy in a randomly selected sample of the general public. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2004, 77, 297-307.	2.5	15
41	Patient satisfaction with treatment in eating disorders: cause for complacency or concern?. <i>European Eating Disorders Review</i> , 2004, 12, 240-246.	4.1	55
42	Cluster analysis of key diagnostic variables from two independent samples of eating-disorder patients: evidence for a consistent pattern. <i>Psychological Medicine</i> , 2004, 34, 1035-1045.	4.5	25
43	Interpersonal profiles in eating disorders: Ratings of SASB self-image. <i>Psychology and Psychotherapy: Theory, Research and Practice</i> , 2003, 76, 337-349.	2.5	45
44	A measure for the assessment of eating disorders: Reliability and validity studies of the Rating of Anorexia and Bulimia interview - revised version (RAB-R). <i>Scandinavian Journal of Psychology</i> , 2003, 44, 303-310.	1.5	32
45	Expectations and Experiences of Treatment in Eating Disorders. <i>Eating Disorders</i> , 2001, 9, 361-371.	3.0	23
46	How do mothers signal shared feeling states to their infants? An investigation of affect attunement and imitation during the first year of life. <i>Scandinavian Journal of Psychology</i> , 2001, 42, 377-381.	1.5	76
47	Stuffing the Christmas turkey. <i>European Eating Disorders Review</i> , 2000, 8, 76-79.	4.1	0
48	The rating of anorexia and bulimia (RAB) interview: development and preliminary validation. <i>European Eating Disorders Review</i> , 1999, 7, 362-371.	4.1	36
49	The rating of anorexia and bulimia (RAB) interview: development and preliminary validation. <i>European Eating Disorders Review</i> , 1999, 7, 362-371.	4.1	1
50	Why Do Eating Disorder Patients Drop Out?. <i>Psychotherapy and Psychosomatics</i> , 1996, 65, 29-35.	8.8	71
