#	ARTICLE	IF	CITATIONS
1	Intra-abdominal cancer risk with abdominal pain: a prospective cohort primary care study. <i>British Journal of General Practice</i> , 2022, 72, e361-e368.	0.7	3
2	Diagnoses after newly recorded abdominal pain in primary care: observational cohort study. <i>British Journal of General Practice</i> , 2022, 72, e564-e570.	0.7	5
3	Quantifying the impact of pre-existing conditions on the stage of oesophagogastric cancer at diagnosis: a primary care cohort study using electronic medical records. <i>Family Practice</i> , 2021, 38, 425-431.	0.8	0
4	Recognizing sinonasal cancer in primary care: a matched case-control study using electronic records. <i>Family Practice</i> , 2021, , .	0.8	0
5	Microcytosis as a risk marker of cancer in primary care: a cohort study using electronic patient records. <i>British Journal of General Practice</i> , 2020, 70, e457-e462.	0.7	11
6	Effect of pre-existing conditions on bladder cancer stage at diagnosis: a cohort study using electronic primary care records in the UK. <i>British Journal of General Practice</i> , 2020, 70, e629-e635.	0.7	7
7	Recognising laryngeal cancer in primary care: a large case-control study using electronic records. <i>British Journal of General Practice</i> , 2019, 69, e127-e133.	0.7	14
8	Selection of men for investigation of possible testicular cancer in primary care: a large case-control study using electronic patient records. <i>British Journal of General Practice</i> , 2018, 68, e559-e565.	0.7	6
9	Early detection of multiple myeloma in primary care using blood tests: a case-control study in primary care. <i>British Journal of General Practice</i> , 2018, 68, e586-e593.	0.7	42
10	Clinical relevance of thrombocytosis in primary care: a prospective cohort study of cancer incidence using English electronic medical records and cancer registry data. <i>British Journal of General Practice</i> , 2017, 67, e405-e413.	0.7	92
11	Clinical features of bowel disease in patients aged <50 years in primary care: a large case-control study. <i>British Journal of General Practice</i> , 2017, 67, e336-e344.	0.7	32
12	How useful is thrombocytosis in predicting an underlying cancer in primary care? a systematic review. <i>Family Practice</i> , 2017, 34, 4-10.	0.8	54
13	Is omission of free text records a possible source of data loss and bias in Clinical Practice Research Datalink studies? A case-control study. <i>BMJ Open</i> , 2016, 6, e011664.	0.8	70
14	Symptoms of adult chronic and acute leukaemia before diagnosis: large primary care case-control studies using electronic records. <i>British Journal of General Practice</i> , 2016, 66, e182-e188.	0.7	24
15	Quantifying the risk of Hodgkin lymphoma in symptomatic primary care patients aged <40 years: a case-control study using electronic records. <i>British Journal of General Practice</i> , 2015, 65, e289-e294.	0.7	23
16	Quantifying the risk of non-Hodgkin lymphoma in symptomatic primary care patients aged <40 years: a large case-control study using electronic records. <i>British Journal of General Practice</i> , 2015, 65, e281-e288.	0.7	25
17	Quantifying the risk of multiple myeloma from symptoms reported in primary care patients: a large case-control study using electronic records. <i>British Journal of General Practice</i> , 2015, 65, e106-e113.	0.7	48
18	Non-visible versus visible haematuria and bladder cancer risk: a study of electronic records in primary care. <i>British Journal of General Practice</i> , 2014, 64, e584-e589.	0.7	48

#	ARTICLE	IF	CITATIONS
19	Clinical features of kidney cancer in primary care: a case-control study using primary care records. British Journal of General Practice, 2013, 63, e250-e255.	0.7	46
20	Clinical features of bladder cancer in primary care. British Journal of General Practice, 2012, 62, e598-e604.	0.7	79
21	The use of electronic databases in primary care research. Family Practice, 2011, 28, 352-354.	0.8	43
