#	Paper	IF	Citations
30	A systematic review of the relationship between weight status perceptions and weight loss attempts, strategies, behaviours and outcomes. <i>Obesity Reviews</i> , 2018 , 19, 347-363	10.6	87
29	The bogus taste test: Validity as a measure of laboratory food intake. <i>Appetite</i> , 2017 , 116, 223-231	4.5	69
28	(Over)eating out at major UK restaurant chains: observational study of energy content of main meals. <i>BMJ, The</i> , 2018 , 363, k4982	5.9	32
27	Inhibitory self-control moderates the effect of changed implicit food evaluations on snack food consumption. <i>Appetite</i> , 2015 , 90, 114-22	4.5	26
26	Weight Perception, Weight Stigma Concerns, and Overeating. <i>Obesity</i> , 2018 , 26, 1365-1371	8	17
25	Self-perception of overweight and obesity: A review of mental and physical health outcomes. <i>Obesity Science and Practice</i> , 2020 , 6, 552-561	2.6	16
24	Visual perceptions of portion size normality and intended food consumption: A norm range model. <i>Food Quality and Preference</i> , 2019 , 72, 77-85	5.8	15
23	Does perceived overweight increase risk of depressive symptoms and suicidality beyond objective weight status? A systematic review and meta-analysis. <i>Clinical Psychology Review</i> , 2019 , 73, 101753	10.8	14
22	The moderating role of state inhibitory control in the effect of evaluative conditioning on temptation and unhealthy snacking. <i>Physiology and Behavior</i> , 2015 , 152, 135-42	3.5	13
21	Does trait self-control predict weaker desire for unhealthy stimuli? A lab-based study of unhealthy snack intake. <i>Personality and Individual Differences</i> , 2016 , 89, 69-74	3.3	12
20	Treatment beliefs and preferences for psychological therapies for weight management. <i>Journal of Clinical Psychology</i> , 2015 , 71, 584-96	2.8	11
19	Reduce temptation or resist it? Experienced temptation mediates the relationship between implicit evaluations of unhealthy snack foods and subsequent intake. <i>Psychology and Health</i> , 2015 , 30, 534-50	2.9	11
18	Resisting temptation of unhealthy food: interaction between temptation-elicited goal activation and self-control. <i>Motivation and Emotion</i> , 2014 , 38, 485-495	2.5	10
17	Is cake more appealing in the afternoon? Time of day is associated with control over automatic positive responses to unhealthy food. <i>Food Quality and Preference</i> , 2016 , 54, 67-74	5.8	10
16	Reductions to main meal portion sizes reduce daily energy intake regardless of perceived normality of portion size: a 5 day cross-over laboratory experiment. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2020 , 17, 21	8.4	9
15	Point of choice kilocalorie labelling in the UK eating out of home sector: a descriptive study of major chains. <i>BMC Public Health</i> , 2019 , 19, 649	4.1	8
14	Too Depleted to Try? Testing the Process Model of Ego Depletion in the Context of Unhealthy Snack Consumption. <i>Applied Psychology: Health and Well-Being</i> , 2016 , 8, 386-404	6.8	8

13	A bit or a lot on the side? Observational study of the energy content of starters, sides and desserts in major UK restaurant chains. <i>BMJ Open</i> , 2019 , 9, e029679	3	8
12	Served Portion Sizes Affect Later Food Intake Through Social Consumption Norms. <i>Nutrients</i> , 2019 , 11,	6.7	7
11	Out of the lab and into the wild: The influence of portion size on food intake in laboratory vs. real-world settings. <i>Appetite</i> , 2021 , 162, 105160	4.5	7
10	Who are we testing? Self-selection bias in laboratory-based eating behaviour studies. <i>Appetite</i> , 2019 , 141, 104330	4.5	5
9	Portion size normality and additional within-meal food intake: two crossover laboratory experiments. <i>British Journal of Nutrition</i> , 2020 , 123, 462-471	3.6	5
8	Hypothesis awareness as a demand characteristic in laboratory-based eating behaviour research: An experimental study. <i>Appetite</i> , 2019 , 141, 104318	4.5	4
7	Translation of findings from laboratory studies of food and alcohol intake into behavior change interventions: The experimental medicine approach. <i>Health Psychology</i> , 2020 ,	5	4
6	Translation of findings from laboratory studies of food and alcohol intake into behavior change interventions: The experimental medicine approach		3
5	Individual differences and moderating participant characteristics in the effect of reducing portion size on meal energy intake: Pooled analysis of three randomized controlled trials. <i>Appetite</i> , 2021 , 159, 105047	4.5	3
4	Sun-protective clothing and shade use in public outdoor leisure settings from 1992 to 2019: Results from cross-sectional observational surveys in Melbourne, Australia. <i>Preventive Medicine</i> , 2020 , 139, 106230	4.3	2
3	Sugary drink advertising expenditure across Australian media channels 2016-2018. <i>Australian and New Zealand Journal of Public Health</i> , 2021 , 45, 270-276	2.3	2
2	Secondary school canteens in Australia: analysis of canteen menus from a repeated cross-sectional national survey. <i>Public Health Nutrition</i> , 2020 , 1-10	3.3	2
1	Prevalence and Correlates of Observed Sun Protection Behaviors Across Different Public Outdoor Settings in Melbourne, Australia. <i>Health Education and Behavior</i> , 2021 , 10901981211026535	4.2	0
