1	Prevalence and Correlates of Observed Sun Protection Behaviors Across Different Public Outdoor Settings in Melbourne, Australia. Health Education and Behavior, 2022, 49, 405-414.	1.3	4
2	Secondary school canteens in Australia: analysis of canteen menus from a repeated cross-sectional national survey. Public Health Nutrition, 2021, 24, 696-705.	1.1	7
3	Individual differences and moderating participant characteristics in the effect of reducing portion size on meal energy intake: Pooled analysis of three randomized controlled trials. Appetite, 2021, 159, 105047.	1.8	10
4	Sugary drink advertising expenditure across Australian media channels 2016â€“2018. Australian and New Zealand Journal of Public Health, 2021, 45, 270-276.	0.8	5
5	Out of the lab and into the wild: The influence of portion size on food intake in laboratory vs. real-world settings. Appetite, 2021, 162, 105160.	1.8	18
6	Translation of findings from laboratory studies of food and alcohol intake into behavior change interventions: The experimental medicine approach.. Health Psychology, 2021, 40, 951-959.	1.3	6
7	Portion size normality and additional within-meal food intake: two crossover laboratory experiments. British Journal of Nutrition, 2020, 123, 462-471.	1.2	9
8	Sun-protective clothing and shade use in public outdoor leisure settings from 1992 to 2019: Results from cross-sectional observational surveys in Melbourne, Australia. Preventive Medicine, 2020, 139, 106230.	1.6	3
9	Selfâ€perception of overweight and obesity: A review of mental and physical health outcomes. Obesity Science and Practice, 2020, 6, 552-561.	1.0	43
10	Reductions to main meal portion sizes reduce daily energy intake regardless of perceived normality of portion size: a 5â€‰day cross-over laboratory experiment. International Journal of Behavioral Nutrition and Physical Activity, 2020, 17, 21.	2.0	19
11	Does perceived overweight increase risk of depressive symptoms and suicidality beyond objective weight status? A systematic review and meta-analysis. Clinical Psychology Review, 2019, 73, 101753.	6.0	32
12	Who are we testing? Self-selection bias in laboratory-based eating behaviour studies. Appetite, 2019, 141, 104330.	1.8	7
13	Point of choice kilocalorie labelling in the UK eating out of home sector: a descriptive study of major chains. BMC Public Health, 2019, 19, 649.	1.2	11
14	Hypothesis awareness as a demand characteristic in laboratory-based eating behaviour research: An experimental study. Appetite, 2019, 141, 104318.	1.8	7
15	A bit or a lot on the side? Observational study of the energy content of starters, sides and desserts in major UK restaurant chains. BMJ Open, 2019, 9, e029679.	0.8	19
16	Served Portion Sizes Affect Later Food Intake Through Social Consumption Norms. Nutrients, 2019, 11, 2845.	1.7	14
17	Visual perceptions of portion size normality and intended food consumption: A norm range model. Food Quality and Preference, 2019, 72, 77-85.	2.3	27
18	A systematic review of the relationship between weight status perceptions and weight loss attempts, strategies, behaviours and outcomes. Obesity Reviews, 2018, 19, 347-363.	3.1	138

#	Article	IF	Citations
19	(Over)eating out at major UK restaurant chains: observational study of energy content of main meals. BMJ: British Medical Journal, 2018, 363, k4982.	2.4	60
20	Weight Perception, Weight Stigma Concerns, and Overeating. Obesity, 2018, 26, 1365-1371.	1.5	25
21	The bogus taste test: Validity as a measure of laboratory food intake. Appetite, 2017, 116, 223-231.	1.8	105
22	Telling people they are overweight: helpful, harmful or beside the point?. International Journal of Obesity, 2017, 41, 1160-1161.	1.6	18
23	Is cake more appealing in the afternoon? Time of day is associated with control over automatic positive responses to unhealthy food. Food Quality and Preference, 2016, 54, 67-74.	2.3	11
24	Too Depleted to Try? Testing the Process Model of Ego Depletion in the Context of Unhealthy Snack Consumption. Applied Psychology: Health and Well-Being, 2016, 8, 386-404.	1.6	10
25	Does trait self-control predict weaker desire for unhealthy stimuli? A lab-based study of unhealthy snack intake. Personality and Individual Differences, 2016, 89, 69-74.	1.6	17
26	Treatment Beliefs and Preferences for Psychological Therapies for Weight Management. Journal of Clinical Psychology, 2015, 71, 584-596.	1.0	17
27	Reduce temptation or resist it? Experienced temptation mediates the relationship between implicit evaluations of unhealthy snack foods and subsequent intake. Psychology and Health, 2015, 30, 534-550.	1.2	12
28	Inhibitory self-control moderates the effect of changed implicit food evaluations on snack food consumption. Appetite, 2015, 90, 114-122.	1.8	29
29	The moderating role of state inhibitory control in the effect of evaluative conditioning on temptation and unhealthy snacking. Physiology and Behavior, 2015, 152, 135-142.	1.0	15
30	Resisting temptation of unhealthy food: interaction between temptation-elicited goal activation and self-control. Motivation and Emotion, 2014, 38, 485-495.	0.8	11
