

Jana Langrova

List of Publications by Citations

Source: <https://exaly.com/author-pdf/4138454/jana-langrova-publications-by-citations.pdf>

Version: 2024-04-26

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
23	Motion-onset VEPs: characteristics, methods, and diagnostic use. <i>Vision Research</i> , 2007 , 47, 189-202	2.1	113
22	Motion-onset VEPs reflect long maturation and early aging of visual motion-processing system. <i>Vision Research</i> , 2006 , 46, 536-44	2.1	51
21	Motion-onset VEPs to translating, radial, rotating and spiral stimuli. <i>Documenta Ophthalmologica</i> , 2004 , 109, 169-75	2.2	41
20	Visual mismatch negativity elicited by magnocellular system activation. <i>Vision Research</i> , 2006 , 46, 485-90	2.1	38
19	Effect of stimulus localisation on motion-onset VEP. <i>Vision Research</i> , 2004 , 44, 2989-3000	2.1	37
18	Aging effect in pattern, motion and cognitive visual evoked potentials. <i>Vision Research</i> , 2012 , 62, 9-16	2.1	36
17	Visual evoked potentials to pattern, motion and cognitive stimuli in Alzheimer's disease. <i>Documenta Ophthalmologica</i> , 2010 , 121, 37-49	2.2	17
16	Within-session reproducibility of motion-onset VEPs: effect of adaptation/habituation or fatigue on N2 peak amplitude and latency. <i>Documenta Ophthalmologica</i> , 2007 , 115, 95-103	2.2	15
15	Motion-onset and pattern-reversal visual evoked potentials in diagnostics of neuroborreliosis. <i>Journal of Clinical Neurophysiology</i> , 2006 , 23, 416-20	2.2	14
14	Visual mismatch negativity in the dorsal stream is independent of concurrent visual task difficulty. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 411	3.3	13
13	Ophthalmological examination and VEPs in preterm children with perinatal CNS involvement. <i>Documenta Ophthalmologica</i> , 2008 , 117, 137-45	2.2	13
12	Photopic and scotopic VEPs in patients with congenital stationary night-blindness. <i>Documenta Ophthalmologica</i> , 2004 , 109, 9-15	2.2	10
11	Comparison of visual information processing in school-age dyslexics and normal readers via motion-onset visual evoked potentials. <i>Vision Research</i> , 2015 , 111, 97-104	2.1	8
10	An electrophysiological study of visual processing in spinocerebellar ataxia type 2 (SCA2). <i>Cerebellum</i> , 2011 , 10, 32-42	4.3	8
9	Difficulties of motion-onset VEP interpretation in school-age children. <i>Documenta Ophthalmologica</i> , 2014 , 128, 121-9	2.2	7
8	Pattern and motion-related visual-evoked potentials in neuroborreliosis: follow-up study. <i>Journal of Clinical Neurophysiology</i> , 2012 , 29, 174-80	2.2	6
7	Effect of memantine in Alzheimer's disease evaluated by visual-evoked potentials to pattern-reversal, motion-onset, and cognitive stimuli. <i>Journal of Clinical Neurophysiology</i> , 2010 , 27, 334-40	2.2	6

6	Pattern- and motion-related visual evoked potentials in HIV-infected adults. <i>Documenta Ophthalmologica</i> , 2017 , 134, 45-55	2.2	2
5	Spared cognitive processing of visual oddballs despite delayed visual evoked potentials in patient with partial recovery of vision after 53 years of blindness. <i>Vision Research</i> , 2013 , 81, 1-5	2.1	2
4	Visual evoked and event-related brain potentials in HIV-infected adults: a longitudinal study over 2.5 years. <i>Documenta Ophthalmologica</i> , 2019 , 139, 83-97	2.2	0
3	Vision before and after schi Roth macular lens implantation in patients with AMD: an electrophysiological study. <i>Documenta Ophthalmologica</i> , 2021 , 143, 17-31	2.2	0
2	Neural Correlates of Liberalism and Conservatism in a Post-communist Country. <i>Frontiers in Human Neuroscience</i> , 2019 , 13, 119	3.3	
1	A pilot study to monitor Gravesophthalmopathy with a combination of pattern-reversal and motion-onset visual evoked potentials. <i>Journal of Clinical Apheresis</i> , 2012 , 27, 295-301	3.2
