

John P Capitanio

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4157895/john-p-capitanio-publications-by-year.pdf>

Version: 2024-04-23

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

128 papers	5,931 citations	41 h-index	74 g-index
136 ext. papers	6,858 ext. citations	5.3 avg, IF	6.08 L-index

#	Paper	IF	Citations
128	The relationship of maternal rank, 5-HTTLPR genotype, and MAOA-LPR genotype to temperament in infant rhesus monkeys (<i>Macaca mulatta</i>).. <i>American Journal of Primatology</i> , 2022 , e23374	2.5	
127	Adverse biobehavioral effects in infants resulting from pregnant rhesus macaques' exposure to wildfire smoke.. <i>Nature Communications</i> , 2022 , 13, 1774	17.4	0
126	Prenatal Relocation Stress Enhances Resilience Under Challenge in Infant Rhesus Macaques. <i>Frontiers in Behavioral Neuroscience</i> , 2021 , 15, 641795	3.5	1
125	Structural differences in the hippocampus and amygdala of behaviorally inhibited macaque monkeys. <i>Hippocampus</i> , 2021 , 31, 858-868	3.5	2
124	Assessment of medical morbidities in a rhesus monkey model of naturally occurring low sociality. <i>Autism Research</i> , 2021 , 14, 1332-1346	5.1	0
123	Infant inhibited temperament in primates predicts adult behavior, is heritable, and is associated with anxiety-relevant genetic variation. <i>Molecular Psychiatry</i> , 2021 ,	15.1	5
122	The factor structure of the macaque social responsiveness scale-revised predicts social behavior and personality dimensions. <i>American Journal of Primatology</i> , 2021 , 83, e23234	2.5	3
121	Stress-induced plasma cortisol concentrations in infancy are associated with later parenting behaviors in female rhesus macaques (<i>Macaca mulatta</i>). <i>Developmental Psychobiology</i> , 2021 , 63, 1098-1108	10.3	
120	The Type I interferon antiviral gene program is impaired by lockdown and preserved by caregiving. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2021 , 118,	11.5	3
119	Autism-associated biomarkers: test-retest reliability and relationship to quantitative social trait variation in rhesus monkeys. <i>Molecular Autism</i> , 2021 , 12, 50	6.5	1
118	Biobehavioral organization shapes the immune epigenome in infant rhesus Macaques (<i>Macaca mulatta</i>). <i>Brain, Behavior, and Immunity</i> , 2021 , 96, 256-270	16.6	1
117	Knowledge of Biobehavioral Organization Can Facilitate Better Science: A Review of the BioBehavioral Assessment Program at the California National Primate Research Center. <i>Animals</i> , 2021 , 11,	3.1	2
116	Paternal age in rhesus macaques is positively associated with germline mutation accumulation but not with measures of offspring sociability. <i>Genome Research</i> , 2020 , 30, 826-834	9.7	19
115	A new look at neurobehavioral development in rhesus monkey neonates (<i>Macaca mulatta</i>). <i>American Journal of Primatology</i> , 2020 , 82, e23122	2.5	4
114	Lipid metabolism is associated with temperament, corticosteroid, and hematological measures in infant rhesus monkeys (. <i>Zoological Research</i> , 2020 , 41, 709-714	3.4	1
113	Ozone-induced enhancement of airway hyperreactivity in rhesus macaques: Effects of antioxidant treatment. <i>Journal of Allergy and Clinical Immunology</i> , 2020 , 145, 312-323	11.5	10
112	Baboons, bonds, biology, and lessons about early life adversity. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2020 , 117, 22628-22630	11.5	1

111	Masculinized Second-to-Fourth Digit Ratio (2D:4D Ratio) Is Associated With Lower Cortisol Response in Infant Female Rhesus Monkeys (). <i>Frontiers in Behavioral Neuroscience</i> , 2020 , 14, 94	3.5	1
110	A Psychometrically Robust Screening Tool To Rapidly Identify Socially Impaired Monkeys In The General Population. <i>Autism Research</i> , 2020 , 13, 1465-1475	5.1	6
109	Sequence diversity analyses of an improved rhesus macaque genome enhance its biomedical utility. <i>Science</i> , 2020 , 370,	33.3	28
108	Early Social Stress Promotes Inflammation and Disease Risk in Rhesus Monkeys. <i>Scientific Reports</i> , 2019 , 9, 7609	4.9	7
107	Loneliness in monkeys: Neuroimmune mechanisms. <i>Current Opinion in Behavioral Sciences</i> , 2019 , 28, 51-57	4	4
106	Behavioral effects of postnatal ketamine exposure in rhesus macaque infants are dependent on MAOA-LPR genotype. <i>Developmental Psychobiology</i> , 2019 , 61, 605-614	3	1
105	Social stability influences the association between adrenal responsiveness and hair cortisol concentrations in rhesus macaques. <i>Psychoneuroendocrinology</i> , 2019 , 100, 164-171	5	9
104	Male-inflicted wounds have opposite effects on hair cortisol for captive male and female rhesus macaques (<i>Macaca mulatta</i>) following new group formation. <i>Primates</i> , 2019 , 60, 51-62	1.7	8
103	Rhesus macaque personality, dominance, behavior, and health. <i>American Journal of Primatology</i> , 2018 , 80, e22739	2.5	17
102	Arginine vasopressin in cerebrospinal fluid is a marker of sociality in nonhuman primates. <i>Science Translational Medicine</i> , 2018 , 10,	17.5	34
101	Personality, environmental stressors, and diarrhea in Rhesus macaques: An interactionist perspective. <i>American Journal of Primatology</i> , 2018 , 80, e22908	2.5	11
100	Paternal line effects of early experiences persist across three generations in rhesus macaques. <i>Developmental Psychobiology</i> , 2018 , 60, 879-888	3	8
99	Coping style and cortisol levels in infancy predict hair cortisol following new group formation in captive rhesus macaques (<i>Macaca mulatta</i>). <i>American Journal of Primatology</i> , 2018 , 80, e22938	2.5	4
98	Adiposity and weight gain during pregnancy associate independently with behavior of infant rhesus monkeys (<i>Macaca mulatta</i>). <i>Developmental Psychobiology</i> , 2018 , 60, 629-638	3	3
97	Behavioral Inhibition in Nonhuman Primates: The Elephant in the Room 2018 , 17-33		5
96	Sex Differences in Rhesus Monkeys' Digit Ratio (2D:4D Ratio) and Its Association With Maternal Social Dominance Rank. <i>Frontiers in Behavioral Neuroscience</i> , 2018 , 12, 213	3.5	14
95	Depressive-like behavior, its sensitization, social buffering, and altered cytokine responses in rhesus macaques moved from outdoor social groups to indoor housing. <i>Social Neuroscience</i> , 2017 , 12, 65-75	2	21
94	Laboratory rhesus macaque social housing and social changes: Implications for research. <i>American Journal of Primatology</i> , 2017 , 79, 1-14	2.5	45

93	Do "birds of a feather flock together" or do "opposites attract"? Behavioral responses and temperament predict success in pairings of rhesus monkeys in a laboratory setting. <i>American Journal of Primatology</i> , 2017 , 79, 1-11	2.5	26
92	Social regulation of the lymph node transcriptome in rhesus macaques (<i>Macaca mulatta</i>). <i>Psychoneuroendocrinology</i> , 2017 , 76, 107-113	5	8
91	Naturally Occurring Nonhuman Primate Models of Psychosocial Processes. <i>ILAR Journal</i> , 2017 , 58, 226-234	17	
90	Preference for novel faces in male infant monkeys predicts cerebrospinal fluid oxytocin concentrations later in life. <i>Scientific Reports</i> , 2017 , 7, 12935	4.9	12
89	Variation in Biobehavioral Organization 2017 , 55-73		12
88	Capitanio, John P. 2017 , 1-4		
87	Effect of Indoor Compared with Outdoor Location during Gestation on the Incidence of Diarrhea in Indoor-Reared Rhesus Macaques (<i>Macaca mulatta</i>). <i>Journal of the American Association for Laboratory Animal Science</i> , 2016 , 55, 277-90	1.3	3
86	Decoupling social status and status certainty effects on health in macaques: a network approach. <i>PeerJ</i> , 2016 , 4, e2394	3.1	30
85	Early Predictors of Impaired Social Functioning in Male Rhesus Macaques (<i>Macaca mulatta</i>). <i>PLoS ONE</i> , 2016 , 11, e0165401	3.7	32
84	Biobehavioral consequences of prenatal exposure to a matrilineal overthrow and relocation in captive infant rhesus (<i>Macaca mulatta</i>) monkeys. <i>American Journal of Primatology</i> , 2016 , 78, 895-903	2.5	9
83	Developmental consequences of behavioral inhibition: a model in rhesus monkeys (<i>Macaca mulatta</i>). <i>Developmental Science</i> , 2016 , 19, 1035-1048	4.5	12
82	Loneliness across phylogeny and a call for comparative studies and animal models. <i>Perspectives on Psychological Science</i> , 2015 , 10, 202-12	9.8	105
81	Social instability and immunity in rhesus monkeys: the role of the sympathetic nervous system. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2015 , 370,	5.8	40
80	Perceived social isolation, evolutionary fitness and health outcomes: a lifespan approach. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2015 , 370,	5.8	148
79	Myeloid differentiation architecture of leukocyte transcriptome dynamics in perceived social isolation. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015 , 112, 15142-7	11.5	178
78	The neuroendocrinology of social isolation. <i>Annual Review of Psychology</i> , 2015 , 66, 733-67	26.1	384
77	Paternal early experiences influence infant development through non-social mechanisms in Rhesus Macaques. <i>Frontiers in Zoology</i> , 2015 , 12 Suppl 1, S14	2.8	24
76	Cortisol in mother's milk across lactation reflects maternal life history and predicts infant temperament. <i>Behavioral Ecology</i> , 2015 , 26, 269-281	2.3	167

75	Why primate models matter. <i>American Journal of Primatology</i> , 2014 , 76, 801-27	2.5	334
74	A behavioral taxonomy of loneliness in humans and rhesus monkeys (<i>Macaca mulatta</i>). <i>PLoS ONE</i> , 2014 , 9, e110307	3.7	28
73	Early involvement in friendships predicts later plasma concentrations of oxytocin and vasopressin in juvenile rhesus macaques (<i>Macaca mulatta</i>). <i>Frontiers in Behavioral Neuroscience</i> , 2014 , 8, 295	3.5	18
72	Depressive-like behavioral response of adult male rhesus monkeys during routine animal husbandry procedure. <i>Frontiers in Behavioral Neuroscience</i> , 2014 , 8, 309	3.5	34
71	Toward a neurology of loneliness. <i>Psychological Bulletin</i> , 2014 , 140, 1464-504	19.1	229
70	The effects of birth timing and ambient temperature on the hypothalamic-pituitary-adrenal axis in 3-4 month old rhesus monkeys. <i>Psychoneuroendocrinology</i> , 2013 , 38, 2705-12	5	9
69	Degree of Chinese ancestry affects behavioral characteristics of infant rhesus macaques (<i>Macaca mulatta</i>). <i>Journal of Medical Primatology</i> , 2013 , 42, 20-7	0.7	10
68	Risk factors for stereotypic behavior and self-biting in rhesus macaques (<i>Macaca mulatta</i>): animal's history, current environment, and personality. <i>American Journal of Primatology</i> , 2013 , 75, 995-1008	2.5	104
67	Birth timing and the mother-infant relationship predict variation in infant behavior and physiology. <i>Developmental Psychobiology</i> , 2013 , 55, 829-37	3	4
66	Latent variables affecting behavioral response to the human intruder test in infant rhesus macaques (<i>Macaca mulatta</i>). <i>American Journal of Primatology</i> , 2013 , 75, 314-23	2.5	30
65	Serotonin transporter genotype modulates HPA axis output during stress: effect of stress, dexamethasone test and ACTH challenge. <i>Translational Developmental Psychiatry</i> , 2013 , 1, 21130		13
64	Behavioral inhibition in rhesus monkeys (<i>Macaca mulatta</i>) is related to the airways response, but not immune measures, commonly associated with asthma. <i>PLoS ONE</i> , 2013 , 8, e71575	3.7	15
63	Longitudinal stability of friendships in rhesus monkeys (<i>Macaca mulatta</i>): individual- and relationship-level effects. <i>Journal of Comparative Psychology (Washington, D C: 1983)</i> , 2012 , 126, 97-108	2.1	31
62	Behavioral effects of prenatal ketamine exposure in rhesus macaques are dependent on MAOA genotype. <i>Experimental and Clinical Psychopharmacology</i> , 2012 , 20, 173-80	3.2	18
61	Effects of social isolation on glucocorticoid regulation in social mammals. <i>Hormones and Behavior</i> , 2012 , 62, 314-23	3.7	122
60	Enhancing genotyping of MAOA-LPR and 5-HTT-LPR in rhesus macaques (<i>Macaca mulatta</i>). <i>Journal of Medical Primatology</i> , 2012 , 41, 407-11	0.7	8
59	Birth timing and behavioral responsiveness predict individual differences in the mother-infant relationship and infant behavior during weaning and maternal breeding. <i>American Journal of Primatology</i> , 2012 , 74, 734-46	2.5	9
58	Nervous temperament in infant monkeys is associated with reduced sensitivity of leukocytes to cortisol's influence on trafficking. <i>Brain, Behavior, and Immunity</i> , 2011 , 25, 151-9	16.6	37

57	Network stability is a balancing act of personality, power, and conflict dynamics in rhesus macaque societies. <i>PLoS ONE</i> , 2011 , 6, e22350	3.7	51
56	Behavioral inhibition is associated with airway hyperresponsiveness but not atopy in a monkey model of asthma. <i>Psychosomatic Medicine</i> , 2011 , 73, 288-94	3.7	20
55	Early rearing interacts with temperament and housing to influence the risk for motor stereotypy in rhesus monkeys (<i>Macaca mulatta</i>). <i>Applied Animal Behaviour Science</i> , 2011 , 132, 81-89	2.2	47
54	Individual differences in emotionality: social temperament and health. <i>American Journal of Primatology</i> , 2011 , 73, 507-15	2.5	32
53	Early social experience affects behavioral and physiological responsiveness to stressful conditions in infant rhesus macaques (<i>Macaca mulatta</i>). <i>American Journal of Primatology</i> , 2011 , 73, 692-701	2.5	32
52	Cortisol concentrations in the milk of rhesus monkey mothers are associated with confident temperament in sons, but not daughters. <i>Developmental Psychobiology</i> , 2011 , 53, 96-104	3	61
51	Similarity in temperament between mother and offspring rhesus monkeys: sex differences and the role of monoamine oxidase-a and serotonin transporter promoter polymorphism genotypes. <i>Developmental Psychobiology</i> , 2011 , 53, 549-63	3	9
50	Health and Social Relationships in Nonhuman Primates: Toward a Comparative Health Psychology 2011 ,		2
49	Nonhuman Primate Personality and Immunity: Mechanisms of Health and Disease 2011 , 233-255		13
48	Serotonin pathway gene-gene and gene-environment interactions influence behavioral stress response in infant rhesus macaques. <i>Development and Psychopathology</i> , 2010 , 22, 35-44	4.3	30
47	Acute and chronic stress increase DHEAS concentrations in rhesus monkeys. <i>Psychoneuroendocrinology</i> , 2010 , 35, 1055-62	5	47
46	Lactational programming? Mother's milk energy predicts infant behavior and temperament in rhesus macaques (<i>Macaca mulatta</i>). <i>American Journal of Primatology</i> , 2010 , 72, 522-9	2.5	61
45	Iron deficiency anemia and affective response in rhesus monkey infants. <i>Developmental Psychobiology</i> , 2009 , 51, 47-59	3	73
44	What is an "adverse" environment? Interactions of rearing experiences and MAOA genotype in rhesus monkeys. <i>Biological Psychiatry</i> , 2009 , 65, 770-7	7.9	54
43	Social stress desensitizes lymphocytes to regulation by endogenous glucocorticoids: insights from in vivo cell trafficking dynamics in rhesus macaques. <i>Psychosomatic Medicine</i> , 2009 , 71, 591-7	3.7	46
42	Individual Differences in Infant Temperament Predict Social Relationships of Yearling Rhesus Monkeys (). <i>Animal Behaviour</i> , 2008 , 76, 455-465	2.8	68
41	Personality and serotonin transporter genotype interact with social context to affect immunity and viral set-point in simian immunodeficiency virus disease. <i>Brain, Behavior, and Immunity</i> , 2008 , 22, 676-89	16.6	63
40	SIV infection decreases sympathetic innervation of primate lymph nodes: the role of neurotrophins. <i>Brain, Behavior, and Immunity</i> , 2008 , 22, 185-94	16.6	20

39	Social temperament and lymph node innervation. <i>Brain, Behavior, and Immunity</i> , 2008 , 22, 717-26	16.6	28
38	Personality and disease. <i>Brain, Behavior, and Immunity</i> , 2008 , 22, 647-50	16.6	23
37	Contributions of non-human primates to neuroscience research. <i>Lancet, The</i> , 2008 , 371, 1126-35	40	158
36	Bilateral neurotoxic amygdala lesions in rhesus monkeys (<i>Macaca mulatta</i>): consistent pattern of behavior across different social contexts. <i>Behavioral Neuroscience</i> , 2008 , 122, 251-66	2.1	37
35	Social stress enhances sympathetic innervation of primate lymph nodes: mechanisms and implications for viral pathogenesis. <i>Journal of Neuroscience</i> , 2007 , 27, 8857-65	6.6	120
34	Do neonatal bilateral ibotenic acid lesions of the hippocampal formation or of the amygdala impair HPA axis responsiveness and regulation in infant rhesus macaques (<i>Macaca mulatta</i>)?. <i>Brain Research</i> , 2006 , 1071, 97-104	3.7	18
33	Behavioral consequences of developmental iron deficiency in infant rhesus monkeys. <i>Neurotoxicology and Teratology</i> , 2006 , 28, 3-17	3.9	76
32	Considerations in the selection and conditioning of Old World monkeys for laboratory research: animals from domestic sources. <i>ILAR Journal</i> , 2006 , 47, 294-306	1.7	47
31	Enhanced replication of simian immunodeficiency virus adjacent to catecholaminergic varicosities in primate lymph nodes. <i>Journal of Virology</i> , 2006 , 80, 4326-35	6.6	41
30	Amygdalectomy and responsiveness to novelty in rhesus monkeys (<i>Macaca mulatta</i>): generality and individual consistency of effects. <i>Emotion</i> , 2006 , 6, 73-81	4.1	110
29	Nursery Rearing and Biobehavioral Organization 2006 , 191-214		34
28	Rearing environment and hypothalamic-pituitary-adrenal regulation in young rhesus monkeys (<i>Macaca mulatta</i>). <i>Developmental Psychobiology</i> , 2005 , 46, 318-30	3	127
27	Confirmatory factor analysis of personality structure in adult male rhesus monkeys (<i>Macaca mulatta</i>). <i>American Journal of Primatology</i> , 2005 , 65, 289-94	2.5	41
26	Personality characteristics and basal cortisol concentrations in adult male rhesus macaques (<i>Macaca mulatta</i>). <i>Psychoneuroendocrinology</i> , 2004 , 29, 1300-8	5	40
25	The amygdala: is it an essential component of the neural network for social cognition?. <i>Neuropsychologia</i> , 2003 , 41, 517-22	3.2	76
24	Personality influences tetanus-specific antibody response in adult male rhesus macaques after removal from natal group and housing relocation. <i>American Journal of Primatology</i> , 2003 , 61, 73-83	2.5	61
23	Cortisol responses to immobilization with Telazol or ketamine in baboons (<i>Papio cynocephalus/anubis</i>) and rhesus macaques (<i>Macaca mulatta</i>). <i>Journal of Medical Primatology</i> , 2003 , 32, 148-60	0.7	42
22	Sociability and responses to video playbacks in adult male rhesus monkeys (<i>Macaca mulatta</i>). <i>Primates</i> , 2002 , 43, 169-77	1.7	40

21	The effects of bilateral lesions of the amygdala on dyadic social interactions in rhesus monkeys (Macaca mulatta).. <i>Behavioral Neuroscience</i> , 2001 , 115, 515-544	2.1	203
20	Increased social fear and decreased fear of objects in monkeys with neonatal amygdala lesions. <i>Neuroscience</i> , 2001 , 106, 653-8	3.9	205
19	Cognitive style: problem solving by rhesus macaques (Macaca mulatta) reared with living or inanimate substitute mothers. <i>Journal of Comparative Psychology (Washington, D C: 1983)</i> , 2000 , 114, 115-25	2.1	23
18	Personality dimensions in adult male rhesus macaques: prediction of behaviors across time and situation. <i>American Journal of Primatology</i> , 1999 , 47, 299-320	2.5	197
17	The relationship of personality dimensions in adult male rhesus macaques to progression of simian immunodeficiency virus disease. <i>Brain, Behavior, and Immunity</i> , 1999 , 13, 138-54	16.6	86
16	Individual differences in peripheral blood immunological and hormonal measures in adult male rhesus macaques (Macaca mulatta): evidence for temporal and situational consistency. <i>American Journal of Primatology</i> , 1998 , 44, 29-41	2.5	49
15	Social Experience and Immune System Measures in Laboratory-housed Macaques: Implications for Management and Research. <i>ILAR Journal</i> , 1998 , 39, 12-20	1.7	10
14	Social stress results in altered glucocorticoid regulation and shorter survival in simian acquired immune deficiency syndrome. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 1998 , 95, 4714-9	11.5	140
13	Social separation, housing relocation, and survival in simian AIDS: a retrospective analysis. <i>Psychosomatic Medicine</i> , 1998 , 60, 235-44	3.7	52
12	Influences of blood sampling procedures on basal hypothalamic-pituitary-adrenal hormone levels and leukocyte values in rhesus macaques (Macaca mulatta). <i>Journal of Medical Primatology</i> , 1996 , 25, 26-33	0.7	34
11	Black heterosexuals' attitudes toward lesbians and gay men in the United States. <i>Journal of Sex Research</i> , 1995 , 32, 95-105	4	244
10	What do attachment objects afford?. <i>Behavioral and Brain Sciences</i> , 1992 , 15, 512-3	0.9	8
9	Psychosocial factors and disease progression in simian AIDS: a preliminary report. <i>Aids</i> , 1991 , 5, 1103-6	3.5	25
8	Levels of integration and the inheritance of dominance. <i>Animal Behaviour</i> , 1991 , 42, 495-496	2.8	15
7	Formation and expression of filial attachment in rhesus monkeys raised with living and inanimate mother substitutes. <i>Developmental Psychobiology</i> , 1988 , 21, 401-30	3	76
6	Long-term follow-up of previously separated pigtail macaques: group and individual differences in response to novel situations. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , 1986 , 27, 531-8	7.9	48
5	Early experience and social processes in rhesus macaques (Macaca mulatta): II. Complex social interaction.. <i>Journal of Comparative Psychology (Washington, D C: 1983)</i> , 1985 , 99, 133-144	2.1	54
4	The influence of rank on affect perception by pigtailed macaques (Macaca nemestrina). <i>American Journal of Primatology</i> , 1985 , 8, 53-59	2.5	23

3	The roles of early separation experience and prior familiarity in the social relations of pigtail macaques: A descriptive multivariate study. <i>Primates</i> , 1984 , 25, 475-484	1.7	40
2	Paternal age in rhesus macaques is positively associated with germline mutation accumulation but not with measures of offspring sociability		3
