

Robert J Hartsuiker

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4158162/robert-j-hartsuiker-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
160	EXPRESS: Don't blame yourself: Conscious source monitoring modulates feedback control during speech production.. <i>Quarterly Journal of Experimental Psychology</i> , 2022 , 17470218221075632	1.8	1
159	Drifting pitch awareness after exposure to altered auditory feedback.. <i>Attention, Perception, and Psychophysics</i> , 2022 , 1	2	
158	Delayed picture naming in the first and second language. <i>Bilingualism</i> , 2021 , 24, 389-400	3.2	0
157	Eye-movements can help disentangle mechanisms underlying disfluency. <i>Language, Cognition and Neuroscience</i> , 2021 , 36, 1038-1055	2.4	3
156	Rapid phonotactic constraint learning in ageing: evidence from speech errors. <i>Language, Cognition and Neuroscience</i> , 2021 , 36, 746-757	2.4	2
155	Language of instruction affects language interference in the third language. <i>Bilingualism</i> , 2021 , 24, 707-718	3.18	0
154	The role of L1 and L2 frequency in cross-linguistic structural priming: An artificial language learning study. <i>Bilingualism</i> , 2021 , 24, 767-778	3.2	0
153	On the limits of shared syntactic representations: When word order variation blocks priming between an artificial language and Dutch. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2021 , 47, 1471-1493	2.2	5
152	Using functional near-infrared spectroscopy to study word production in the brain: A picture-word interference study. <i>Journal of Neurolinguistics</i> , 2021 , 57, 100957	1.9	1
151	Monolingual and bilingual logical representations of quantificational scope: Evidence from priming in language comprehension. <i>Journal of Memory and Language</i> , 2021 , 116, 104184	3.8	0
150	Are foreign-accented speakers that 'incredible'? The impact of the speaker's indexical properties on sentence processing. <i>Neuropsychologia</i> , 2021 , 158, 107902	3.2	2
149	The development of shared syntactic representations in late L2-learners: Evidence from structural priming in an artificial language. <i>Journal of Memory and Language</i> , 2021 , 119, 104233	3.8	3
148	Are there segmental and tonal effects on syntactic encoding? Evidence from structural priming in Mandarin. <i>Journal of Memory and Language</i> , 2021 , 119, 104220	3.8	1
147	Speech fluency in bilinguals who stutter: Language proficiency and attentional demands as mediating factors. <i>Journal of Fluency Disorders</i> , 2021 , 69, 105850	2.3	
146	Do particle verbs share a representation with their root verbs? Evidence from structural priming. <i>Journal of Memory and Language</i> , 2021 , 120, 104255	3.8	0
145	Speaking with an alien voice: Flexible sense of agency during vocal production. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2021 , 47, 479-494	2.6	5
144	Articulation lost in space. The effects of local orobuccal anesthesia on articulation and intelligibility of phonemes. <i>Brain and Language</i> , 2020 , 207, 104813	2.9	1

143	The Role of Case Marking and Word Order in Cross-Linguistic Structural Priming in Late L2 Acquisition. <i>Language Learning</i> , 2020 , 70, 194-220	5.1	9
142	Foreignness or Processing Fluency? On Understanding the Negative Bias Toward Foreign-Accented Speakers. <i>Language Learning</i> , 2020 , 70, 974-1016	5.1	4
141	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production. <i>PLoS ONE</i> , 2020 , 15, e0240909	3.7	1
140	Towards a New Model of Verbal Monitoring. <i>Journal of Cognition</i> , 2020 , 3, 17	3.2	11
139	English norming data for 423 short animated action movie clips. <i>Acta Psychologica</i> , 2020 , 202, 102957	1.7	3
138	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
137	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
136	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
135	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
134	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
133	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
132	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
131	The role of explicit memory in syntactic persistence: Effects of lexical cueing and load on sentence memory and sentence production 2020 , 15, e0240909		
130	Structural alignment and its prosocial effects in first and second languages. <i>Acta Psychologica</i> , 2019 , 199, 102906	1.7	3
129	Prediction and integration of semantics during L2 and L1 listening. <i>Language, Cognition and Neuroscience</i> , 2019 , 34, 881-900	2.4	12
128	Short exposure to a foreign accent impacts subsequent cognitive processes. <i>Neuropsychologia</i> , 2019 , 129, 1-9	3.2	7
127	Mapping thematic roles onto grammatical functions in sentence production: evidence from structural priming in Italian. <i>Journal of Cultural Cognitive Science</i> , 2019 , 3, 39-64	1.4	1
126	Does passive sound attenuation affect responses to pitch-shifted auditory feedback?. <i>Journal of the Acoustical Society of America</i> , 2019 , 146, 4108	2.2	4

125	Monitoring speech production and comprehension: Where is the second-language delay?. <i>Quarterly Journal of Experimental Psychology</i> , 2019 , 72, 1601-1619	1.8	4
124	The role of executive control in resolving grammatical number conflict in sentence comprehension. <i>Quarterly Journal of Experimental Psychology</i> , 2018 , 71, 759-778	1.8	2
123	Are higher-level processes delayed in second language word production? Evidence from picture naming and phoneme monitoring. <i>Language, Cognition and Neuroscience</i> , 2018 , 33, 1219-1234	2.4	6
122	The Role of Audiovisual Speech in the Early Stages of Lexical Processing as Revealed by the ERP Word Repetition Effect. <i>Language Learning</i> , 2018 , 68, 80-101	5.1	4
121	Spoken Word Recognition 2018 , 65-85		
120	Processing at Higher Levels 2018 , 86-108		
119	Interference in Dutch-French Bilinguals. <i>Experimental Psychology</i> , 2018 , 65, 13-22	1.5	4
118	Late Bilinguals Share Syntax Unsparingly Between L1 and L2: Evidence From Crosslinguistically Similar and Different Constructions. <i>Language Learning</i> , 2018 , 68, 177-205	5.1	19
117	2018 ,		8
116	Syntactic chameleons: Are there individual differences in syntactic mimicry and its possible prosocial effects?. <i>Acta Psychologica</i> , 2018 , 191, 1-14	1.7	3
115	Shared structuring resources across domains: double task effects from linguistic processing on the structural integration of pitch sequences. <i>Quarterly Journal of Experimental Psychology</i> , 2017 , 70, 1633-1645	1.8	4
114	Does translation involve structural priming?. <i>Quarterly Journal of Experimental Psychology</i> , 2017 , 70, 1575-1589	3.1	8
113	Spatiotemporal differentiation in auditory and motor regions during auditory phoneme discrimination. <i>Acta Neurologica Belgica</i> , 2017 , 117, 477-491	1.5	
112	The development of shared syntax in second language learning*. <i>Bilingualism</i> , 2017 , 20, 219-234	3.2	63
111	Verbal monitoring in Parkinson's disease: A comparison between internal and external monitoring. <i>PLoS ONE</i> , 2017 , 12, e0182159	3.7	6
110	Syntactic levels, lexicalism, and ellipsis: The jury is still out. <i>Behavioral and Brain Sciences</i> , 2017 , 40, e2940	0.9	0
109	Predicting upcoming information in native-language and non-native-language auditory word recognition*. <i>Bilingualism</i> , 2017 , 20, 917-930	3.2	29
108	Identifying the Machine Translation Error Types with the Greatest Impact on Post-editing Effort. <i>Frontiers in Psychology</i> , 2017 , 8, 1282	3.4	23

107	Verbal Self-Monitoring in the Second Language. <i>Language Learning</i> , 2016 , 66, 132-154	5.1	3
106	The Effectiveness of Consulting External Resources During Translation and Post-editing of General Text Types. <i>New Frontiers in Translation Studies</i> , 2016 , 111-133	0.2	9
105	The mechanisms of determiner selection and its relation to lexical selection: An ERP study. <i>Journal of Memory and Language</i> , 2016 , 88, 28-38	3.8	3
104	The persistence of syntactic priming revisited. <i>Journal of Memory and Language</i> , 2016 , 91, 99-116	3.8	58
103	Conflict monitoring in speech processing: An fMRI study of error detection in speech production and perception. <i>NeuroImage</i> , 2016 , 126, 96-105	7.9	50
102	Is there a domain-general cognitive structuring system? Evidence from structural priming across music, math, action descriptions, and language. <i>Cognition</i> , 2016 , 146, 172-84	3.5	67
101	Context Effects in Bilingual Sentence Processing: Task Specificity 2016 , 11-31		6
100	If you stay, it might be easier: Switch costs from comprehension to production in a joint switching task. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2016 , 42, 608-26	2.2	31
99	Constraints on variation, reduplication of semantics, and degrees of freedom: some notes on the computational account of code mixing. <i>Bilingualism</i> , 2016 , 19, 887-888	3.2	1
98	Cross-linguistic structural priming in multilinguals: Further evidence for shared syntax. <i>Journal of Memory and Language</i> , 2016 , 90, 14-30	3.8	75
97	Internal modeling of upcoming speech: A causal role of the right posterior cerebellum in non-motor aspects of language production. <i>Cortex</i> , 2016 , 81, 203-14	3.8	26
96	Neurophysiological sensitivity for impaired phonological processing in the acute stage of aphasia. <i>Brain and Language</i> , 2015 , 149, 84-96	2.9	10
95	Effects of acute hypoglycemia on working memory and language processing in adults with and without type 1 diabetes. <i>Diabetes Care</i> , 2015 , 38, 1108-15	14.6	25
94	Sex Differences in Neurophysiological Activation Patterns During Phonological Input Processing: An Influencing Factor for Normative Data. <i>Archives of Sexual Behavior</i> , 2015 , 44, 2207-18	3.5	9
93	Aphasia therapy early after stroke: behavioural and neurophysiological changes in the acute and post-acute phases. <i>Aphasiology</i> , 2015 , 29, 845-871	1.6	11
92	Can Faces Prime a Language?. <i>Psychological Science</i> , 2015 , 26, 1343-52	7.9	30
91	Why it is pointless to ask under which specific circumstances the bilingual advantage occurs. <i>Cortex</i> , 2015 , 73, 336-7	3.8	46
90	Visual Cues for Language Selection in Bilinguals 2015 , 129-145		9

89	Do semantic sentence constraint and L2 proficiency influence language selectivity of lexical access in native language listening?. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2015 , 41, 1524-38	2.6	5
88	Process and text studies of a translation problem. <i>Benjamins Translation Library</i> , 2015 , 127-143	0.7	2
87	The sense boost to dative priming: Evidence for sense-specific verb-structure links. <i>Journal of Memory and Language</i> , 2014 , 76, 113-126	3.8	12
86	Mind what you say-general and specific mechanisms for monitoring in speech production. <i>Frontiers in Human Neuroscience</i> , 2014 , 8, 514	3.3	1
85	Inside the syntactic box: the neural correlates of the functional and positional level in covert sentence production. <i>PLoS ONE</i> , 2014 , 9, e106122	3.7	0
84	Interlingual lexical competition in a spoken sentence context: evidence from the visual world paradigm. <i>Psychonomic Bulletin and Review</i> , 2013 , 20, 963-72	4.1	16
83	A late locus of the distractor frequency effect in picture-word interference: evidence from event-related potentials. <i>Brain and Language</i> , 2013 , 124, 232-7	2.9	16
82	From language-specific to shared syntactic representations: the influence of second language proficiency on syntactic sharing in bilinguals. <i>Cognition</i> , 2013 , 127, 287-306	3.5	121
81	Neurophysiological investigation of phonological input: aging effects and development of normative data. <i>Brain and Language</i> , 2013 , 125, 253-63	2.9	19
80	The influence of sentence context and accented speech on lexical access in second-language auditory word recognition*. <i>Bilingualism</i> , 2013 , 16, 508-517	3.2	32
79	Distractor exclusion is not an early process: a reply to Roelofs, Piai, and Schriefers (2011). <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2013 , 39, 313-6	2.2	2
78	Bilingual strategies from the perspective of a processing model. <i>Bilingualism</i> , 2013 , 16, 737-739	3.2	1
77	Are forward models enough to explain self-monitoring? Insights from patients and eye movements. <i>Behavioral and Brain Sciences</i> , 2013 , 36, 357-8	0.9	3
76	Phonological recoding in error detection: a cross-sectional study in beginning readers of Dutch. <i>PLoS ONE</i> , 2013 , 8, e85111	3.7	
75	The impact of early bilingualism on controlling a language learned late: an ERP study. <i>Frontiers in Psychology</i> , 2013 , 4, 815	3.4	48
74	Speech monitoring and phonologically-mediated eye gaze in language perception and production: a comparison using printed word eye-tracking. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 818	3.3	4
73	Lexical selection and verbal self-monitoring: Effects of lexicality, context, and time pressure in picture-word interference. <i>Journal of Memory and Language</i> , 2012 , 66, 163-176	3.8	33
72	Bilingual word recognition in a sentence context. <i>Frontiers in Psychology</i> , 2012 , 3, 174	3.4	43

71	How lingering representations of abandoned context words affect speech production. <i>Acta Psychologica</i> , 2012 , 140, 218-29	1.7	11
70	Effects of phonological feedback on the selection of syntax: Evidence from between-language syntactic priming*. <i>Bilingualism</i> , 2012 , 15, 503-516	3.2	49
69	Thematic emphasis in language production. <i>Language and Cognitive Processes</i> , 2012 , 27, 631-664		60
68	Functional mechanisms involved in the internal inhibition of taboo words. <i>Social Cognitive and Affective Neuroscience</i> , 2012 , 7, 431-5	4	23
67	Knowledge of a second language influences auditory word recognition in the native language. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2011 , 37, 952-65	2.2	65
66	Why um helps auditory word recognition: the temporal delay hypothesis. <i>PLoS ONE</i> , 2011 , 6, e19792	3.7	24
65	Testing asymmetries in noncognate translation priming: evidence from RTs and ERPs. <i>Psychophysiology</i> , 2011 , 48, 74-81	4.1	27
64	The distractor frequency effect in a delayed picture-word interference task: further evidence for a late locus of distractor exclusion. <i>Psychonomic Bulletin and Review</i> , 2011 , 18, 116-22	4.1	36
63	When the brain tames the tongue: covert editing of inappropriate language. <i>Psychophysiology</i> , 2011 , 48, 1252-7	4.1	20
62	Looking, language, and memory: bridging research from the visual world and visual search paradigms. <i>Acta Psychologica</i> , 2011 , 137, 138-50	1.7	88
61	The influence of semantic constraints on bilingual word recognition during sentence reading. <i>Journal of Memory and Language</i> , 2011 , 64, 88-107	3.8	112
60	Deciding where to stop speaking. <i>Journal of Memory and Language</i> , 2011 , 64, 359-380	3.8	18
59	How do speakers resist distraction? Evidence from a taboo picture-word interference task. <i>Psychological Science</i> , 2011 , 22, 855-9	7.9	27
58	Executive control is shared between sentence processing and digit maintenance: Evidence from a strictly timed dual-task paradigm. <i>Journal of Cognitive Psychology</i> , 2011 , 23, 886-911	0.9	5
57	Cross-structural priming: prepositional phrase attachment primes relative clause attachment. <i>Experimental Psychology</i> , 2011 , 58, 227-34	1.5	6
56	Metonymic language use as a student translation problem. <i>Benjamins Translation Library</i> , 2011 , 67-92	0.7	8
55	Is a FAN always FUN? Phonological and orthographic effects in bilingual visual word recognition. <i>Language and Speech</i> , 2010 , 53, 383-403	1.5	14
54	Morphophonological and conceptual effects on Dutch subject-verb agreement. <i>Language and Cognitive Processes</i> , 2010 , 25, 728-748		13

53	Listening to yourself is like listening to others: External, but not internal, verbal self-monitoring is based on speech perception. <i>Language and Cognitive Processes</i> , 2010 , 25, 347-374		69
52	The distractor frequency effect in picture-word interference: Evidence for response exclusion. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2010 , 36, 878-91	2.2	72
51	Does verb bias modulate syntactic priming?. <i>Cognition</i> , 2010 , 114, 455-61	3.5	117
50	Lexical access problems lead to disfluencies in speech. <i>Experimental Psychology</i> , 2010 , 57, 169-77	1.5	45
49	Bidirectionality in synesthesia: evidence from a multiplication verification task. <i>Experimental Psychology</i> , 2010 , 57, 178-84	1.5	10
48	Who is dominating the Dutch neighbourhood? On the role of subsyllabic units in Dutch nonword reading. <i>Quarterly Journal of Experimental Psychology</i> , 2009 , 62, 140-54	1.8	3
47	Does bilingualism change native-language reading? Cognate effects in a sentence context. <i>Psychological Science</i> , 2009 , 20, 923-7	7.9	142
46	The KEY to the ROCK: near-homophony in nonnative visual word recognition. <i>Cognition</i> , 2009 , 111, 263-9	3.5	40
45	Persistence of emphasis in language production: a cross-linguistic approach. <i>Cognition</i> , 2009 , 112, 300-13	3.5	110
44	Semantic and translation priming from a first language to a second and back: Making sense of the findings. <i>Memory and Cognition</i> , 2009 , 37, 569-86	2.2	132
43	Is there a lexical bias effect in comprehension monitoring?. <i>Language and Cognitive Processes</i> , 2009 , 24, 910-927		2
42	Morphophonological influences on the comprehension of subject-verb agreement: an ERP study. <i>Brain Research</i> , 2008 , 1228, 135-44	3.7	23
41	Concurrent processing of words and their replacements during speech. <i>Cognition</i> , 2008 , 108, 601-7	3.5	15
40	Are phonological influences on lexical (mis)selection the result of a monitoring bias?. <i>Quarterly Journal of Experimental Psychology</i> , 2008 , 61, 1687-709	1.8	5
39	Improving accuracy in detecting acoustic onsets. <i>Journal of Experimental Psychology: Human Perception and Performance</i> , 2008 , 34, 1317-26	2.6	18
38	Syntactic priming persists while the lexical boost decays: Evidence from written and spoken dialogue. <i>Journal of Memory and Language</i> , 2008 , 58, 214-238	3.8	225
37	When you name the pizza you look at the coin and the bread: eye movements reveal semantic activation during word production. <i>Memory and Cognition</i> , 2008 , 36, 341-60	2.2	23
36	The frequency effect in second-language visual word recognition. <i>Psychonomic Bulletin and Review</i> , 2008 , 15, 850-5	4.1	74

35	Language integration in bilingual sentence production. <i>Acta Psychologica</i> , 2008 , 128, 479-89	1.7	141
34	The representation of lexical and syntactic information in bilinguals: Evidence from syntactic priming. <i>Journal of Memory and Language</i> , 2007 , 56, 153-171	3.8	222
33	New visuospatial associations by training verbospatial mappings in the first language. <i>Psychonomic Bulletin and Review</i> , 2007 , 14, 1183-8	4.1	13
32	Dutch collective nouns and conceptual profiling. <i>Linguistics</i> , 2007 , 45,	1	7
31	Shared syntactic representations in bilinguals: Evidence for the role of word-order repetition. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2007 , 33, 931-49	2.2	165
30	Visual word recognition by bilinguals in a sentence context: evidence for nonselective lexical access. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2007 , 33, 663-79	2.2	179
29	Spoonish spanerisms: A lexical bias effect in Spanish. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2006 , 32, 949-53	2.2	13
28	Language production and working memory: The case of subject-verb agreement. <i>Language and Cognitive Processes</i> , 2006 , 21, 181-204		73
27	Are speech error patterns affected by a monitoring bias?. <i>Language and Cognitive Processes</i> , 2006 , 21, 856-891		27
26	The lexical bias effect in bilingual speech production: evidence for feedback between lexical and sublexical levels across languages. <i>Psychonomic Bulletin and Review</i> , 2006 , 13, 972-7	4.1	36
25	Repairing inappropriately specified utterances: revision or restart?. <i>Psychonomic Bulletin and Review</i> , 2005 , 12, 472-7	4.1	5
24	Timed picture naming norms for 590 pictures in Dutch. <i>Acta Psychologica</i> , 2005 , 119, 159-87	1.7	122
23	The lexical bias effect is modulated by context, but the standard monitoring account doesn't fly: Related reply to Baars et al. (1975). <i>Journal of Memory and Language</i> , 2005 , 52, 58-70	3.8	48
22	Semantic and phonological context effects in speech error repair. <i>Journal of Experimental Psychology: Learning Memory and Cognition</i> , 2005 , 31, 921-32	2.2	30
21	Judgment of disfluency in people who stutter and people who do not stutter: results from magnitude estimation. <i>Language and Speech</i> , 2005 , 48, 299-312	1.5	19
20	Is syntax separate or shared between languages? Cross-linguistic syntactic priming in Spanish-English bilinguals. <i>Psychological Science</i> , 2004 , 15, 409-14	7.9	470
19	Morphophonological influences on the construction of subject-verb agreement. <i>Memory and Cognition</i> , 2003 , 31, 1316-26	2.2	81
18	The interplay of meaning, sound, and syntax in sentence production. <i>Psychological Bulletin</i> , 2002 , 128, 442-72	19.1	227

17	The addition bias in Dutch and Spanish phonological speech errors: The role of structural context. <i>Language and Cognitive Processes</i> , 2002 , 17, 61-96		15
16	Object Attraction in Subject-Verb Agreement Construction. <i>Journal of Memory and Language</i> , 2001 , 45, 546-572	3.8	67
15	Error monitoring in speech production: a computational test of the perceptual loop theory. <i>Cognitive Psychology</i> , 2001 , 42, 113-57	3.1	214
14	A common framework for language comprehension and language production?. <i>Behavioral and Brain Sciences</i> , 2001 , 24, 887-888	0.9	5
13	Word order priming in written and spoken sentence production. <i>Cognition</i> , 2000 , 75, B27-39	3.5	228
12	Agrammatic sentence processing: Severity, complexity, and priming. <i>Behavioral and Brain Sciences</i> , 2000 , 23, 39-40	0.9	2
11	Aphasia, prefrontal dysfunction, and the use of word-order strategies. <i>Behavioral and Brain Sciences</i> , 1999 , 22, 103-103	0.9	0
