#	Article	IF	CITATIONS
1	Prevalence of dysfunctional breathing in patients treated for asthma in primary care: cross sectional survey. BMJ: British Medical Journal, 2001, 322, 1098-1100.	2.4	198
2	Breathing retraining for dysfunctional breathing in asthma: a randomised controlled trial. Thorax, 2003, 58, 110-115.	2.7	178
3	The impact of chronic venous leg ulcers: a systematic review. Journal of Wound Care, 2014, 23, 601-612.	0.5	175
4	Reliability and validity of a new measure of patient satisfaction with out of hours primary medical care in the united kingdom: development of a patient questionnaire. BMJ: British Medical Journal, 1997, 314, 193-193.	2.4	171
5	Breathing exercises for asthma: a randomised controlled trial. Thorax, 2008, 64, 55-61.	2.7	119
6	The prevalence of dysfunctional breathing in adults in the community with and without asthma. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2005, 14, 78-82.	2.5	116
7	Meeting patient expectations of care: the major determinant of satisfaction with out-of-hours primary medical care?. Family Practice, 2002, 19, 333-338.	0.8	109
8	Exposure of undergraduates to authentic GP teaching and subsequent entry to GP training: a quantitative study of UK medical schools. British Journal of General Practice, 2017, 67, e248-e252.	0.7	78
9	Patient satisfaction with out of hours primary medical care. Quality in Health Care: QHC, 2001, 10, 23-28.	1.2	74
10	Checklists for assessment and certification of clinical procedural skills omit essential competencies: a systematic review. Medical Education, 2008, 42, 338-349.	1.1	62
11	Influences on students' career decisions concerning general practice: a focus group study. British Journal of General Practice, 2016, 66, e768-e775.	0.7	57
12	Model for directly assessing and improving clinical competence and performance in revalidation of clinicians. BMJ: British Medical Journal, 2001, 322, 712-715.	2.4	55
13	Formative assessment of the consultation performance of medical students in the setting of general practice using a modified version of the Leicester Assessment Package. Medical Education, 2000, 34, 573-579.	1.1	54
14	Effect of patient completed agenda forms and doctors' education about the agenda on the outcome of consultations: randomised controlled trial. BMJ: British Medical Journal, 2006, 332, 1238-1242.	2.4	53
15	Development of a behaviour change intervention: a case study on the practical application of theory. Implementation Science, 2014, 9, 42.	2.5	49
16	Care of people dying with malignant and cardiorespiratory disease in general practice. British Journal of General Practice, 2004, 54, 909-13.	0.7	47
17	Teaching clinical reasoning to medical students. Clinical Teacher, 2013, 10, 308-312.	0.4	45
18	Provision of medical student teaching in UK general practices: a cross-sectional questionnaire study. British Journal of General Practice, 2015, 65, e409-e417.	0.7	42

#	Article	IF	CITATIONS
19	Facilitators and barriers to teaching undergraduate medical students in general practice. Medical Education, 2019, 53, 778-787.	1.1	32
20	Qualitative research using realist evaluation to explain preparedness for doctors' memorable â€~firsts'. Medical Education, 2017, 51, 1037-1048.	1.1	29
21	Development of a tool to support holistic generic assessment of clinical procedure skills. Medical Education, 2008, 42, 619-627.	1.1	24
22	Why tomorrow's doctors need primary care today. Journal of the Royal Society of Medicine, 2010, 103, 9-13.	1.1	23
23	Grades in formative workplace-based assessment: a study of what works for whom and why. Medical Education, 2015, 49, 307-320.	1.1	23
24	GPs' experience of managing chronic pain in a South Asian communitya qualitative study of the consultation process. Family Practice, 2008, 25, 71-77.	0.8	22
25	â€~What do we do, doctor?' Transitions of identity and responsibility: a narrative analysis. Advances in Health Sciences Education, 2020, 25, 825-843.	1.7	21
26	Measuring the quality of referral letters about patients with upper gastrointestinal symptoms. Postgraduate Medical Journal, 2005, 81, 467-469.	0.9	20
27	Patients' accounts of being removed from their general practitioner's list: qualitative study. BMJ: British Medical Journal, 2003, 326, 1316-1316.	2.4	17
28	Ending the doctor-patient relationship in general practice: a proposed model. Family Practice, 2004, 21, 507-514.	0.8	17
29	Design of a Questionnaire to Measure Trust in an Emergency Department. Academic Emergency Medicine, 2005, 12, 147-151.	0.8	16
30	Strengths and weaknesses in the consultation skills of senior medical students: identification, enhancement and curricular change. Medical Education, 2006, 40, 437-443.	1.1	16
31	Health literacy: Why it matters to South Asian men with diabetes. Primary Health Care Research and Development, 2015, 16, 214-218.	0.5	15
32	The epidemiology of teaching and training General Practices in England. Education for Primary Care, 2016, 27, 462-470.	0.2	15
33	Measuring the Effect of Examiner Variability in a Multiple-Circuit Objective Structured Clinical Examination (OSCE). Academic Medicine, 2021, 96, 1189-1196.	0.8	15
34	â€~Knowledge leech' to â€~part of the team': students' learning in rural communities of practice. Edu for Primary Care, 2018, 29, 5-10.	ication 0.2	14
35	Utility of an app-based system to improve feedback following workplace-based assessment. International Journal of Medical Education, 2017, 8, 207-216.	0.6	14
36	Teaching and assessment in the consultation. A workshop for general practice clinical teachers. Medical Teacher, 1993, 15, 141-146.	1.0	13

#	Article	IF	CITATIONS
37	Breaking up is never easy: GPs' accounts of removing patients from their lists. Family Practice, 2003, 20, 628-634.	0.8	12
38	Patient feedback in revalidation: an exploratory study using the consultation satisfaction questionnaire. British Journal of General Practice, 2011, 61, e638-e644.	0.7	12
39	Development and face validation of strategies for improving consultation skills. Advances in Health Sciences Education, 2014, 19, 661-685.	1.7	12
40	Understanding and developing procedures for video-based assessment in medical education. Medical Teacher, 2020, 42, 1250-1260.	1.0	12
41	Funding the teaching of medical students in general practice: a formula for the future?. Education for Primary Care, 2015, 26, 215-219.	0.2	11
42	GPs' perceptions of the service needs of South Asian people with chronic pain. Journal of Health Psychology, 2009, 14, 909-918.	1.3	10
43	Investigating the impact of extraneous distractions on consultations in general practice: Lessons learned. BMC Medical Research Methodology, 2009, 9, 8.	1.4	10
44	The real costs of teaching medical students in general practice: a cost-collection survey of teaching practices across England. British Journal of General Practice, 2020, 70, e71-e77.	0.7	10
45	The relationship between measures of patient satisfaction and enablement and professional assessments of consultation competence. Medical Teacher, 2004, 26, 223-228.	1.0	9
46	A survey of general practitioners' opinions and perceived competencies in teaching undergraduate psychiatry. Education for Primary Care, 2010, 21, 20-24.	0.2	9
47	Undergraduate teaching in UK general practice: a geographical snapshot. British Journal of General Practice, 2014, 64, e336-e345.	0.7	9
48	Improving the content of feedback. Clinical Teacher, 2010, 7, 161-166.	0.4	8
49	Improving the quality of written feedback using written feedback. Education for Primary Care, 2017, 28, 16-22.	0.2	8
50	Taking on the doctor role in whole-task simulation. Clinical Teacher, 2018, 15, 236-239.	0.4	7
51	Teaching undergraduate students in rural general practice: an evaluation of a new rural campus in England. Rural and Remote Health, 2016, 16, 3694.	0.4	7
52	Regulatory end-point assessment of the consultation competence of family practice trainees in Kuwait. European Journal of General Practice, 2006, 12, 100-107.	0.9	6
53	Innovations and developments. Education for Primary Care, 2015, 26, 189-200.	0.2	6
54	Twelve tips for expanding undergraduate clinical teaching capacity. Medical Teacher, 2019, 41, 271-274.	1.0	6

4

#	Article	IF	CITATIONS
55	Determining influence, interaction and causality of contrast and sequence effects in objective structured clinical exams. Medical Education, 2022, 56, 292-302.	1.1	6
56	Medical student access to electronic medical records in UK primary care. Education for Primary Care, 2011, 22, 4-6.	0.2	5
57	Teaching and learning clinical reasoning: tutors' perceptions of change in their own clinical practice. Education for Primary Care, 2015, 26, 248-254.	0.2	5
58	Management of COPD in Primary Care in Leicestershire. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 2005, 14, 38-41.	2.5	4
59	Deploying a clinical innovation in the context of actor-patient consultations in general practice: A prelude to a formal clinical trial. BMC Medical Research Methodology, 2009, 9, 54.	1.4	4
60	The investment of a new medical school in its local primary care community. Education for Primary Care, 2015, 26, 89-94.	0.2	4
61	Green shoots of recovery: a realist evaluation of a team to support change in general practice. BMJ Open, 2017, 7, e014165.	0.8	4
62	Non-disclosure of symptoms in primary care: an observational study. Family Practice, 2018, 35, 706-711.	0.8	4
63	Understanding patient involvement in judging students' communication skills in OSCEs. Medical Teacher, 2021, 43, 1070-1078.	1.0	4
64	Removal from a GP's list: qualitative research is needed. BMJ: British Medical Journal, 2001, 323, 754-754.	2.4	4
65	Determining the influence of different linking patterns on the stability of students' score adjustments produced using Video-based Examiner Score Comparison and Adjustment (VESCA). BMC Medical Education, 2022, 22, 41.	1.0	4
66	Hospital clinicians' views on training as examiners for undergraduate regulatory clinical examinations. Medical Education, 2000, 34, 964-964.	1.1	3
67	The long case revisited. Medical Education, 2005, 39, 442-443.	1.1	3
68	Qualitative and quantitative: the yin and the yang or the light and the dark sides of medical education?. Perspectives on Medical Education, 2015, 4, 1-3.	1.8	3
69	Clinical assessors' working conceptualisations of undergraduate consultation skills: a framework analysis of how assessors make expert judgements in practice. Advances in Health Sciences Education, 2020, 25, 845-875.	1.7	3
70	Tools to Assess Clinical Skills of Medical Trainees. JAMA - Journal of the American Medical Association, 2010, 303, 331.	3.8	2
71	Skilled communication: comments further to †Creativity in clinical communication: from communication skills to skilled communication'. Medical Education, 2011, 45, 958-958.	1.1	2
72	Do, don't and don't know: guidelines for medical education with a difference. Perspectives on Medical Education, 2015, 4, 275-276.	1.8	2

#	Article	IF	CITATIONS
73	Conceptualising and Teaching Biomedical Uncertainty to Medical Students: an Exploratory Qualitative Study. Medical Science Educator, 2022, 32, 371-378.	0.7	2
74	CeMENT: a multidisciplinary teaching programme. Medical Education, 2001, 35, 806-806.	1.1	1
75	Education and training: the neglected healthcare technologies?. Primary Health Care Research and Development, 2009, 10, 1.	0.5	1
76	â€~When I say… dual-processing theory': evidence, not assertion. Medical Education, 2017, 51, 1086-1086.	1.1	1
77	Is integrated information management a core clinical skill required for the doctor–patient encounter?. Journal of the Royal Society of Medicine, 2017, 110, 269-275.	1.1	1
78	An innovative long final year assistantship in general practice: description and evaluation. Education for Primary Care, 2018, 29, 35-42.	0.2	1
79	Distracted by the past. Medical Education, 2019, 53, 417-417.	1.1	1
80	The struck-off mystery. Journal of the Royal Society of Medicine, 1999, 92, 608-608.	1.1	0
81	Statistical Notes: An introduction. Primary Care Respiratory Journal: Journal of the General Practice Airways Group, 1999, 7, 31-31.	2.5	0
82	It's a catalyst for improvement. BMJ: British Medical Journal, 2007, 334, 599.3-599.	2.4	0
83	Reflections on a research study about refugees and asylum seekers. British Journal of General Practice, 2013, 63, 538-539.	0.7	Ο
84	Response to medical education in (and for) areas of socio-economic deprivation in the UK. Education for Primary Care, 2019, 30, 56-56.	0.2	0
85	Pilot Evaluation of an Online Resource for Learning Paediatric Chest Radiograph Interpretation. Cureus, 2021, 13, e12762.	0.2	Ο
86	In Reply to Anto et al. Academic Medicine, 2022, 97, 475-476.	0.8	0
