#	ARTICLE	IF	CITATIONS
1	Treatment of atopic dermatitis with dupilumab: experience from a tertiary referral centre. Journal of the European Academy of Dermatology and Venereology, 2019, 33, 1562-1568.	1.3	69
2	The impact of atopic dermatitis on work life " a systematic review. Journal of the European Academy of Dermatology and Venereology, 2018, 32, 23-38.	1.3	41
3	Staphylococcal Communities on Skin Are Associated with Atopic Dermatitis and Disease Severity. Microorganisms, 2021, 9, 432.	1.6	25
4	The Skin Microbiome in Inflammatory Skin Diseases. Current Dermatology Reports, 2020, 9, 141-151.	1.1	23
5	Temporal variation of <i>Staphylococcus aureus</i> clonal complexes in atopic dermatitis: a follow-up study. British Journal of Dermatology, 2019, 180, 181-186.	1.4	17
6	Impact of hand eczema on quality of life: metropolitan versus non-metropolitan areas. Contact Dermatitis, 2018, 78, 348-354.	0.8	14
7	Colonization with <i>Staphylococcus aureus</i> in patients with hand eczema: Prevalence and association with severity, atopic dermatitis, subtype and nasal colonization. Contact Dermatitis, 2020, 83, 442-449.	0.8	13
8	Childhood atopic dermatitis is associated with a decreased chance of completing education later in life: a register-based cohort study. Journal of the European Academy of Dermatology and Venereology, 2021, 35, 1849-1858.	1.3	11
9	Hand eczema, wet work exposure, and quality of life in health care workers in Denmark during the COVID-19 pandemic. JAAD International, 2022, 7, 86-94.	1.1	11
10	Skin barrier function after repeated short-term application of alcohol-based hand rub following intervention with water immersion or occlusion. Contact Dermatitis, 2020, 83, 215-219.	0.8	10
11	Tattoos and skin barrier function: Measurements of TEWL , stratum corneum conductance and capacitance, pH , and filaggrin. Skin Research and Technology, 2019, 25, 382-388.	0.8	7
12	Atopic dermatitis is associated with increased use of social benefits: a register-based cohort study. Journal of the European Academy of Dermatology and Venereology, 2020, 34, 549-557.	1.3	7
13	A comparison between self-reported hand eczema and self-reported signs and symptoms of skin lesions indicating hand eczema. Contact Dermatitis, 2022, 87, 528-534.	0.8	5
14	Hand eczema and temporal variation of <i>Staphylococcus aureus</i> clonal complexes: A prospective observational study. Journal of the American Academy of Dermatology, 2022, 87, 1006-1013.	0.6	4
15	Skin barrier response to active chlorine hand disinfectant "An experimental study comparing skin barrier response to active chlorine hand disinfectant and alcohol-based hand rub on healthy skin and eczematous skin. Skin Research and Technology, 2021, , .	0.8	4
16	Wearing Occlusive Gloves Increases the Density of <i>Staphylococcus aureus</i> in Patients with Hand Eczema. Acta Dermato-Venereologica, 2021, 101, adv00515.	0.6	3
17	Allergic Contact Dermatitis in Patients with Atopic Dermatitis. Current Dermatology Reports, 2021, 10, 67-76.	1.1	3
18	Skin Microbiome in Patients with Hand Eczema and Healthy Controls: A Three-week Prospective Study. Acta Dermato-Venereologica, 2021, 102, adv00633.	0.6	3

#	ARTICLE	IF	CITATIONS
19	The Efficacy to Prevent Irritant Hand Eczema: an Overview of the Interventional Procedures. Current Treatment Options in Allergy, 2020, 7, 274-290.	0.9	1
20	Colonization with <i>Staphylococcus aureus</i> in healthcare workers: consequences of hand eczema. British Journal of Dermatology, 2022, 187, 609-611.	1.4	1
21	Topical corticosteroids reduce the density of <i>Staphylococcus aureus</i> in hand eczema. Journal of the European Academy of Dermatology and Venereology, 2022, 36, .	1.3	0
