Version: 2024-02-01

#	Article	IF	CITATIONS
1	Profiles of sleep changes during the COVIDâ€19 pandemic: Demographic, behavioural and psychological factors. Journal of Sleep Research, 2021, 30, e13231.	1.7	114
2	Examining the role of mother-child interactions and DNA methylation of the oxytocin receptor gene in understanding child controlling attachment behaviors. Attachment and Human Development, 2021, 23, 37-55.	1.2	14
3	Can Being Aware of the Illusion of Self Augment an Agent's Affordances: Integrating Buddhist Philosophy, Cognitive Science, and Artificial Life. , 2021, , .		1
4	Emerging New Psychiatric Symptoms and the Worsening of Pre-existing Mental Disorders during the COVID-19 Pandemic: A Canadian Multisite Study: Nouveaux sympt̒mes psychiatriques ̩mergents et d̩t̩rioration des troubles mentaux pr̩existants durant la pand̩mie de la COVID-19: une ̩tude canadienne multisite. Canadian Journal of Psychiatry, 2021, 66, 815-826.	0.9	72
5	Do Brief Mindfulness Interventions (BMI) and Health Enhancement Programs (HEP) Improve Sleep in Patients in Hemodialysis with Depression and Anxiety?. Healthcare (Switzerland), 2021, 9, 1410.	1.0	2
6	Stuck in a lockdown: Dreams, bad dreams, nightmares, and their relationship to stress, depression and anxiety during the COVID-19 pandemic. PLoS ONE, 2021, 16, e0259040.	1.1	25
7	Flying dreams stimulated by an immersive virtual reality task. Consciousness and Cognition, 2020, 83, 102958.	0.8	7
8	0088 Gravity Dreams Following a Virtual Reality Flight Simulation. Sleep, 2020, 43, A35-A36.	0.6	0
9	Social, financial and psychological stress during an emerging pandemic: observations from a population survey in the acute phase of COVID-19. BMJ Open, 2020, 10, e043805.	0.8	101
10	Disordered sleep is related to delusional ideation and depression during the perinatal period. Sleep Health, 2020, 6, 179-184.	1.3	7
11	Sleep quality is associated with vasopressin methylation in pregnant and postpartum women with a history of psychosocial stress. Psychoneuroendocrinology, 2019, 107, 160-168.	1.3	11
12	Different Patterns of Sleep-Dependent Procedural Memory Consolidation in Vipassana Meditation Practitioners and Non-meditating Controls. Frontiers in Psychology, 2019, 10, 3014.	1.1	2
13	Sleep Paralysis. , 2018, , .		1
14	Dream content and procedural learning in Vipassana meditators and controls Dreaming, 2018, 28, 99-121.	0.3	4
15	NREM sleep spindles are associated with dream recall. Sleep Spindles & Cortical Up States, 2017, 1, 27-41.	1.5	16
16	Sleepâ€dependent consolidation of face recognition and its relationship to <scp>REM</scp> sleep duration, <scp>REM</scp> density and Stage 2 sleep spindles. Journal of Sleep Research, 2017, 26, 318-321.	1.7	8
17	Intensified daydreams and nap dreams in frequent nightmare sufferers Dreaming, 2016, 26, 119-131.	0.3	11
18	First-person experience and yoga research: studying neural correlates of an intentional practice. Frontiers in Human Neuroscience, 2015, 9, 85.	1.0	2

#	Article	IF	CITATIONS
19	Overnight improvements in two REM sleep-sensitive tasks are associated with both REM and NREM sleep shindle features, and awakenings for dream recall. Neurobiology of Learning and Memory, 2015, 122, 88-97.	1.0	25
20	Methodological considerations for the neurophenomenology of dreaming: commentary on Windt's ââ,¬Å"Reporting dream experienceââ,¬Â• Frontiers in Human Neuroscience, 2014, 8, 317.	1.0	10
21	Dreaming as mind wandering: evidence from functional neuroimaging and first-person content reports. Frontiers in Human Neuroscience, 2013, 7, 412.	1.0	192
22	Felt presence: the uncanny encounters with the numinous Other. Al and Society, 2011, 26, 171-178.	3.1	7
23	Extra-personal awareness through the media-rich environment. Al and Society, 2011, 26, 179-186.	3.1	3
24	Changes in Cardiac Variability after REM Sleep Deprivation in Recurrent Nightmares. Sleep, 2010, 33, 113-122.	0.6	58
25	REM sleep characteristics of nightmare sufferers before and after REM sleep deprivation. Sleep Medicine, 2010, 11, 172-179.	0.8	39
26	Overnight emotional adaptation to negative stimuli is altered by REM sleep deprivation and is correlated with intervening dream emotions. Journal of Sleep Research, 2009, 18, 178-187.	1.7	90
27	Sensed presence as a correlate of sleep paralysis distress, social anxiety and waking state social imagery. Consciousness and Cognition, 2008, 17, 49-63.	0.8	35
28	Partial REM-Sleep Deprivation Increases the Dream-Like Quality of Mentation From REM Sleep and Sleep Onset. Sleep, 2005, 28, 1083-1089.	0.6	38
29	Social, Financial and Psychological Stress During an Emerging Pandemic: Preliminary Observations from a Population Web-Based Longitudinal Survey on COVID-19. SSRN Electronic Journal, 0, , .	0.4	Ο
