#	Paper	IF	Citations
83	Physical activity and active transportation behaviour among rural, peri-urban and urban children in Kenya, Mozambique and Nigeria: The PAAT Study.. <i>PLoS ONE</i> , 2022 , 17, e0262768	3.7	0
82	Association of public physical activity facilities and participation in community programs with leisure-time physical activity: does the association differ according to educational level and income?. <i>BMC Public Health</i> , 2022 , 22, 279	4.1	1
81	Association between patterns of sedentary time and academic performance in adolescents: the mediating role of self-concept.. <i>Revista Paulista De Pediatria</i> , 2022 , 40, e2021106	1.2	
80	Why are COVID-19 effects less severe in Sub-Saharan Africa? Moving more and sitting less may be a primary reason.. <i>Progress in Cardiovascular Diseases</i> , 2022 , 71, 103-103	8.5	0
79	Global prevalence of physical activity for children and adolescents; inconsistencies, research gaps, and recommendations: a narrative review. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2021 , 18, 81	8.4	16
78	Physical activity behaviours in adolescence: current evidence and opportunities for intervention. <i>Lancet, The</i> , 2021 , 398, 429-442	40	34
77	Body mass index trajectories and noncommunicable diseases in women: The role of leisure time physical activity. <i>American Journal of Human Biology</i> , 2021 , 33, e23492	2.7	3
76	Physical activity can attenuate, but not eliminate, the negative relationships of high TV viewing with some chronic diseases: findings from a cohort of 60,202 Brazilian adults. <i>Journal of Public Health</i> , 2021 , 43, e7-e15	3.5	3
75	Association of mentally-passive and mentally-active sedentary behaviors with device-measured bouts and breaks of sedentary time in adolescents. <i>Health Promotion Perspectives</i> , 2021 , 11, 109-114	3.1	1
74	International Physical Activity and Built Environment Study of adolescents: IPEN Adolescent design, protocol and measures. <i>BMJ Open</i> , 2021 , 11, e046636	3	9
73	Parental-perceived home and neighborhood environmental correlates of accelerometer-measured physical activity among school-going children in Uganda. <i>PLOS Global Public Health</i> , 2021 , 1, e0000089		
72	Does physical activity influence the association between depressive symptoms and low-grade inflammation in adults? A study of 8,048 adults. <i>Physiology and Behavior</i> , 2020 , 223, 112967	3.5	5
71	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda. <i>PLoS ONE</i> , 2020 , 15, e0235211	3.7	0
70	Physical activity attenuates metabolic risk of adolescents with overweight or obesity: the ICAD multi-country study. <i>International Journal of Obesity</i> , 2020 , 44, 823-829	5.5	6
69	Joint association of ultra-processed food and sedentary behavior with anxiety-induced sleep disturbance among Brazilian adolescents. <i>Journal of Affective Disorders</i> , 2020 , 266, 135-142	6.6	11
68	Lifestyle behaviors among 4,343 Brazilian adults with severe mental illness and 55,859 general population controls: data from the Brazilian National Health Survey. <i>Revista Brasileira De Psiquiatria</i> , 2020 , 42, 245-249	2.6	3
67	Independent and combined associations of sugar-sweetened beverage consumption, TV viewing, and physical activity with severe depressive symptoms among 59,402 adults. <i>Revista Brasileira De Psiquiatria</i> , 2020 ,	2.6	3

66	Occupational Physical Activity and Health-Related Quality of Life among Nigerian Vocational-Skilled Workers. <i>Journal of Occupational Health and Epidemiology</i> , 2020 , 9, 239-247	0.2	
65	An international physical activity and public health research agenda to inform coronavirus disease-2019 policies and practices. <i>Journal of Sport and Health Science</i> , 2020 , 9, 328-334	8.2	106
64	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda 2020 , 15, e0235211		
63	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda 2020 , 15, e0235211		
62	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda 2020 , 15, e0235211		
61	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda 2020 , 15, e0235211		
60	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda 2020 , 15, e0235211		
59	Prevalence and socio-demographic correlates of accelerometer measured physical activity levels of school-going children in Kampala city, Uganda 2020 , 15, e0235211		
58	Associations of Neighborhood Walkability with Sedentary Time in Nigerian Older Adults. <i>International Journal of Environmental Research and Public Health</i> , 2019 , 16,	4.6	15
57	Associations of the Built Environment With Physical Activity and Sedentary Time in Ugandan Outpatients With Mental Health Problems. <i>Journal of Physical Activity and Health</i> , 2019 , 16, 243-250	2.5	7
56	Association between adolescent motherhood and maternal and child health indices in Maiduguri, Nigeria: a community-based cross-sectional study. <i>BMJ Open</i> , 2019 , 9, e024017	3	3
55	Neighborhood environmental factors are related to health-enhancing physical activity and walking among community dwelling older adults in Nigeria. <i>Physiotherapy Theory and Practice</i> , 2019 , 35, 288-297	1.5	22
54	Potential influence of physical, psychological and lifestyle factors on the association between television viewing and depressive symptoms: A cross-sectional study. <i>General Hospital Psychiatry</i> , 2019 , 60, 37-43	5.6	6
53	Tracking of physical fitness in elementary school children: The role of changes in body fat. <i>American Journal of Human Biology</i> , 2019 , 31, e23221	2.7	4
52	Development and validation of the neighborhood environment walkability scale for youth across six continents. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2019 , 16, 122	8.4	12
51	Association between physical activity and alcohol consumption: sociodemographic and behavioral patterns in Brazilian adults. <i>Journal of Public Health</i> , 2019 , 41, 781-787	3.5	11
50	Association(s) Between Objectively Measured Sedentary Behavior Patterns and Obesity Among Brazilian Adolescents. <i>Pediatric Exercise Science</i> , 2019 , 31, 37-41	2	5
49	Relationship of Parental and Adolescents' Screen Time to Self-Rated Health: A Structural Equation Modeling. <i>Health Education and Behavior</i> , 2018 , 45, 764-771	4.2	4

48	Does leisure-time physical activity attenuate or eliminate the positive association between obesity and high blood pressure?. <i>Journal of Clinical Hypertension</i> , 2018 , 20, 959-966	2.3	7
47	Associations between TV viewing and depressive symptoms among 60,202 Brazilian adults: The Brazilian national health survey. <i>Journal of Affective Disorders</i> , 2018 , 236, 23-30	6.6	20
46	Physical activity and depression: is 150min/week of moderate to vigorous physical activity a necessary threshold for decreasing risk of depression in adults? Different views from the same data. <i>Social Psychiatry and Psychiatric Epidemiology</i> , 2018 , 53, 323-324	4.5	14
45	Regional Socioeconomic Inequalities in Physical Activity and Sedentary Behavior Among Brazilian Adolescents. <i>Journal of Physical Activity and Health</i> , 2018 , 15, 338-344	2.5	7
44	Association between age at menarche and blood pressure in adulthood: is obesity an important mediator?. <i>Hypertension Research</i> , 2018 , 41, 856-864	4.7	13
43	Associations between TV viewing, sitting time, physical activity and insomnia among 100,839 Brazilian adolescents. <i>Psychiatry Research</i> , 2018 , 269, 700-706	9.9	14
42	Relationship between Physical Activity and Health Related Quality of Life among Pregnant Women. <i>African Journal of Reproductive Health</i> , 2018 , 22, 80-89	0.8	9
41	Development and convergent validity of new self-administered questionnaires of active transportation in three African countries: Kenya, Mozambique and Nigeria. <i>BMC Public Health</i> , 2018 , 18, 1018	4.1	2
40	Associations of neighborhood environmental attributes with adults' objectively-assessed sedentary time: IPEN adult multi-country study. <i>Preventive Medicine</i> , 2018 , 115, 126-133	4.3	15
39	Prevalence and Correlates of Active Transportation in Developing Countries 2018 , 173-191		4
38	A survey of physicians and physiotherapists on physical activity promotion in Nigeria. <i>Archives of Physiotherapy</i> , 2017 , 7, 5	2.5	6
37	Construct Validity of the Neighborhood Environment Walkability Scale for Africa. <i>Medicine and Science in Sports and Exercise</i> , 2017 , 49, 482-491	1.2	23
36	Physical Fitness, Physical Activity, Sedentary Behavior, or Diet-What Are the Correlates of Obesity in Polish School Children?. <i>International Journal of Environmental Research and Public Health</i> , 2017 , 14,	4.6	7
35	Patterns of objectively assessed physical activity and sedentary time: Are Nigerian health professional students complying with public health guidelines?. <i>PLoS ONE</i> , 2017 , 12, e0190124	3.7	8
34	Cardiovascular responses to millet pounding activity among women in a rural community in Northeastern Nigeria. <i>Annals of African Medicine</i> , 2017 , 16, 24-29		
33	Correlates of Agreement between Accelerometry and Self-reported Physical Activity. <i>Medicine and Science in Sports and Exercise</i> , 2016 , 48, 1075-84	1.2	82
32	NEWS for Africa: adaptation and reliability of a built environment questionnaire for physical activity in seven African countries. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2016 , 13, 33	8.4	35
31	Patterns and Associated Factors of Physical Activity among Adolescents in Nigeria. <i>PLoS ONE</i> , 2016 , 11, e0150142	3.7	37

30	Results From Nigeria's 2016 Report Card on Physical Activity for Children and Youth. <i>Journal of Physical Activity and Health</i> , 2016 , 13, S231-S236	2.5	9
29	Measurement of physical activity in urban and rural South African adults: a comparison of two self-report methods. <i>BMC Public Health</i> , 2016 , 16, 1004	4.1	13
28	Progress in physical activity over the Olympic quadrennium. <i>Lancet, The</i> , 2016 , 388, 1325-36	4.0	488
27	Health-related physical activity is associated with perception of environmental hygiene and safety among adults in low-income neighbourhoods in Nigeria. <i>European Journal of Physiotherapy</i> , 2015 , 17, 45-53	0.5	1
26	Casual blood pressure of adolescents attending public secondary schools in Maiduguri, Nigeria. <i>Clinical Hypertension</i> , 2015 , 21, 16	4.8	4
25	Perception of built environmental factors and physical activity among adolescents in Nigeria. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014 , 11, 56	8.4	30
24	Perceived neighbourhood environmental attributes associated with adults? recreational walking: IPEN Adult study in 12 countries. <i>Health and Place</i> , 2014 , 28, 22-30	4.6	103
23	Results from Nigeria's 2013 Report Card on Physical Activity for Children and Youth. <i>Journal of Physical Activity and Health</i> , 2014 , 11 Suppl 1, S88-92	2.5	6
22	Examining the reliability and validity of a modified version of the International Physical Activity Questionnaire, long form (IPAQ-LF) in Nigeria: a cross-sectional study. <i>BMJ Open</i> , 2014 , 4, e005820	3	24
21	A systematic review of active transportation research in Africa and the psychometric properties of measurement tools for children and youth. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014 , 11, 129	8.4	23
20	Accelerometer-determined physical activity and its comparison with the International Physical Activity Questionnaire in a sample of Nigerian adults. <i>PLoS ONE</i> , 2014 , 9, e87233	3.7	34
19	Relationship of physical activity to cardiovascular risk factors in an urban population of Nigerian adults. <i>Archives of Public Health</i> , 2013 , 71, 6	2.6	17
18	Evaluation of the neighborhood environment walkability scale in Nigeria. <i>International Journal of Health Geographics</i> , 2013 , 12, 16	3.5	31
17	Physiotherapy clinical teachers' perceptions on important attributes in teaching [A Nigerian perspective. <i>European Journal of Physiotherapy</i> , 2013 , 15, 26-33	0.5	1
16	Behavioral mediators of the association between neighborhood environment and weight status in Nigerian adults. <i>American Journal of Health Promotion</i> , 2013 , 28, 23-31	2.5	11
15	Body mass index, pain and function in individuals with knee osteoarthritis. <i>Nigerian Medical Journal</i> , 2013 , 54, 230-5	0.6	14
14	Adaptation, test-retest reliability, and construct validity of the Physical Activity Neighborhood Environment Scale in Nigeria (PANES-N). <i>Journal of Physical Activity and Health</i> , 2013 , 10, 1079-90	2.5	14
13	Prevalence of physical activity among adults in a metropolitan Nigerian city: a cross-sectional study. <i>Journal of Epidemiology</i> , 2013 , 23, 169-77	3.4	29

12	Perceived crime and traffic safety is related to physical activity among adults in Nigeria. <i>BMC Public Health</i> , 2012 , 12, 294	4.1	43
11	Environmental factors associated with overweight among adults in Nigeria. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2012 , 9, 32	8.4	35
10	Pain, balance, self-reported function and physical function in individuals with knee osteoarthritis. <i>Physiotherapy Theory and Practice</i> , 2012 , 28, 32-40	1.5	25
9	Professional Satisfaction and Desire to Emigrate among Nigerian Physiotherapists. <i>Physiotherapy Canada Physiotherapie Canada</i> , 2012 , 64, 225-32	0.8	7
8	Physical Inactivity in Nigerian Young Adults: Prevalence and Socio-Demographic Correlates. <i>Journal of Physical Activity and Health</i> , 2011 , 8, 1135-1142	2.5	23
7	The Short International Physical Activity Questionnaire: cross-cultural adaptation, validation and reliability of the Hausa language version in Nigeria. <i>BMC Medical Research Methodology</i> , 2011 , 11, 156	4.7	44
6	Professional practice pattern and outlook of physiotherapists in Nigeria. <i>Advances in Physiotherapy</i> , 2011 , 13, 162-169		3
5	Perceived environmental correlates of physical activity and walking in African young adults. <i>American Journal of Health Promotion</i> , 2011 , 25, e10-9	2.5	26
4	Work-related musculoskeletal disorders among nurses in Ibadan, South-west Nigeria: a cross-sectional survey. <i>BMC Musculoskeletal Disorders</i> , 2010 , 11, 12	2.8	142
3	Work-related musculoskeletal disorders among Nigerian physiotherapists. <i>BMC Musculoskeletal Disorders</i> , 2008 , 9, 112	2.8	92
2	Test-retest reliability of IPAQ environmental- module in an African population. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2008 , 5, 38	8.4	27
1	Knowledge, attitude and willingness of Nigerian physiotherapists to provide care for patients living with Acquired Immunodeficiency Syndrome. <i>Physiotherapy Research International</i> , 2008 , 13, 176-88	1.8	5
