#	ARTICLE	IF	CITATIONS
1	Positive effects on activities of daily living one year after receiving comprehensive geriatric assessment – results from the randomised controlled study CGA-Swed. BMC Geriatrics, 2022, 22, 180.	2.7	7
2	Barriers for Inter-Organisational Collaboration: What Matters for an Integrated Care Programme?. International Journal of Integrated Care, 2022, 22, .	0.2	4
3	Everyday life in a Swedish nursing home during the COVID-19 pandemic: a qualitative interview study with persons 85 to 100 years. BMJ Open, 2021, 11, e048503.	1.9	18
4	Impact of a person-centred group intervention on life satisfaction and engagement in activities among persons aging in the context of migration. Scandinavian Journal of Occupational Therapy, 2020, 27, 269-279.	1.7	3
5	Development of an instrument to assess oral hygiene ability in older adults: The oral hygiene ability instrument. Gerodontology, 2020, 37, 19-27.	2.0	1
6	Positioning work related stress – GPs’ reasoning about using the WSQ combined with feedback at consultation. BMC Family Practice, 2020, 21, 187.	2.9	5
7	“I wanted to talk about it, but I couldn’t”, an H70 focus group study about experiencing depression in early late life. BMC Geriatrics, 2020, 20, 528.	2.7	4
8	Can Comprehensive Geriatric Assessment Meet Frail Older People’s Needs? Results from the Randomized Controlled Study CGA-Swed. Geriatrics (Switzerland), 2020, 5, 101.	1.7	6
9	Challenging oneself on the threshold to the world of research – frail older people’s experiences of involvement in research. BMC Geriatrics, 2020, 20, 410.	2.7	12
10	Comprehensive Geriatric Assessment for Frail Older People in Swedish Acute Care Settings (CGA-Swed): A Randomised Controlled Study. Geriatrics (Switzerland), 2020, 5, 5.	1.7	9
11	Modelling long-term cost-effectiveness of health promotion for community-dwelling older people. European Journal of Ageing, 2019, 16, 395-404.	2.8	16
12	Was it worth it? Older adults’ experiences of participating in a population-based cohort study – a focus group study. BMC Geriatrics, 2019, 19, 224.	2.7	13
13	Feeling Respected as a Person: a Qualitative Analysis of Frail Older People’s Experiences on an Acute Geriatric Ward Practicing a Comprehensive Geriatric Assessment. Geriatrics (Switzerland), 2019, 4, 16.	1.7	10
14	The Gothenburg H70 Birth cohort study 2014–16: design, methods and study population. European Journal of Epidemiology, 2019, 34, 191-209.	5.7	89
15	Perspectives of Older Adults on Aging Well: A Focus Group Study. Journal of Aging Research, 2018, 2018, 1-9.	0.9	48
16	Risk for depression affects older people’s possibilities to exercise self-determination in using time, social relationships and living life as one wants: A cross-sectional study with frail older people. Anesthesia, Intensive Care and Pain in Neonates and Children, 2018, 6, 7577.	2.4	0
17	Comprehensive geriatric assessment of frail older people: ideals and reality. Journal of Interprofessional Care, 2018, 32, 728-734.	1.7	8
18	Comprehensive geriatric assessment pilot of a randomized control study in a Swedish acute hospital: a feasibility study. Pilot and Feasibility Studies, 2018, 4, 41.	1.2	14

#	ARTICLE	IF	CITATIONS
19	Promoting aging migrants' capabilities: A randomized controlled trial concerning activities of daily living and self-rated health. <i>AIMS Public Health</i> , 2018, 5, 173-188.	2.6	5
20	Is the acute care of frail elderly patients in a comprehensive geriatric assessment unit superior to conventional acute medical care?. <i>Clinical Interventions in Aging</i> , 2017, Volume 12, 1-9.	2.9	45
21	Collaboration in discharge planning in relation to an implicit framework. <i>Applied Nursing Research</i> , 2017, 36, 57-62.	2.2	3
22	Supporting decision-making by a health promotion programme: experiences of persons ageing in the context of migration. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2017, 12, 1337459.	1.6	6
23	Processes influencing participation in the daily lives of immigrants living with polio in Sweden: A secondary analysis. <i>Journal of Occupational Science</i> , 2017, 24, 203-215.	1.3	9
24	Acute care of severely frail elderly patients in a CGA-unit is associated with less functional decline than conventional acute care. <i>Clinical Interventions in Aging</i> , 2017, Volume 12, 1239-1249.	2.9	21
25	The impact of socioeconomic conditions, social networks, and health on frail older people's life satisfaction: a cross-sectional study. <i>Health Psychology Research</i> , 2016, 4, 5578.	1.4	24
26	For whom is a health-promoting intervention effective? Predictive factors for performing activities of daily living independently. <i>BMC Geriatrics</i> , 2016, 16, 171.	2.7	7
27	Development of a Cultural Awareness Scale for Occupational Therapy Students in Latin America: A Qualitative Delphi Study. <i>Occupational Therapy International</i> , 2016, 23, 196-205.	0.7	7
28	Health Promotion Can Postpone Frailty: Results from the Elderly Persons in the Risk Zone RCT. <i>Public Health Nursing</i> , 2016, 33, 303-315.	1.5	27
29	Self-determination among community-dwelling older persons: explanatory factors. <i>Scandinavian Journal of Occupational Therapy</i> , 2016, 23, 198-206.	1.7	15
30	Feeling like a stranger: negotiations with culture as experienced by Chilean occupational therapists. <i>Scandinavian Journal of Occupational Therapy</i> , 2016, 23, 425-436.	1.7	4
31	Health promotion programme design and efficacy in relation to ageing persons with culturally and linguistically diverse backgrounds: a systematic literature review and meta-analysis. <i>BMC Health Services Research</i> , 2015, 15, 560.	2.2	22
32	Bridging barriers to health promotion: a feasibility pilot study of the 'Promoting Aging Migrants' Capabilities Study'. <i>Journal of Evaluation in Clinical Practice</i> , 2015, 21, 604-613.	1.8	12
33	Understanding the 'black box' of a health-promotion program: Keys to enable health among older persons aging in the context of migration. <i>International Journal of Qualitative Studies on Health and Well-being</i> , 2015, 10, 29013.	1.6	11
34	A person-centred approach to health promotion for persons 70+ who have migrated to Sweden: promoting aging migrants' capabilities implementation and RCT study protocol. <i>BMC Geriatrics</i> , 2015, 15, 10.	2.7	18
35	Positive health outcomes following health-promoting and disease-preventive interventions for independent very old persons: Long-term results of the three-armed RCT Elderly Persons in the Risk Zone. <i>Archives of Gerontology and Geriatrics</i> , 2014, 58, 376-383.	3.0	39
36	Physical Function and Fear of Falling 2 Years After the Health-Promoting Randomized Controlled Trial: Elderly Persons in the Risk Zone. <i>Gerontologist</i> , The, 2014, 54, 387-397.	3.9	14

#	ARTICLE	IF	CITATIONS
37	Preventive home visits and health " experiences among very old people. BMC Public Health, 2013, 13, 378.	2.9	39
38	Long-Term Outcome for ADL Following the Health-Promoting RCT-Elderly Persons in the Risk Zone. Gerontologist, The, 2013, 53, 654-663.	3.9	37
39	One-year outcome of frailty indicators and activities of daily living following the randomised controlled trial; "Continuum of care for frail older people". BMC Geriatrics, 2013, 13, 76.	2.7	52
40	Multi-professional and multi-dimensional group education " a key to action in elderly persons. Disability and Rehabilitation, 2013, 35, 427-435.	1.8	23
41	Life satisfaction and frailty among older adults. Health Psychology Research, 2013, 1, 32.	1.4	14
42	Health-Promoting Interventions for Persons Aged 80 and Older Are Successful in the Short Term-Results from the Randomized and Three-Armed Elderly Persons in the Risk Zone Study. Journal of the American Geriatrics Society, 2012, 60, 447-454.	2.6	64
43	Design of a randomized controlled study of a multi-professional and multidimensional intervention targeting frail elderly people. BMC Geriatrics, 2011, 11, 24.	2.7	54
44	Concurrent Validity of the Executive Function Performance Test in People with Mild Stroke. British Journal of Occupational Therapy, 2011, 74, 443-449.	0.9	13
45	Person-Centered Care " Ready for Prime Time. European Journal of Cardiovascular Nursing, 2011, 10, 248-251.	0.9	1,151
46	Elderly persons in the risk zone. Design of a multidimensional, health-promoting, randomised three-armed controlled trial for "prefrail" people of 80+ years living at home. BMC Geriatrics, 2010, 10, 27.	2.7	60
47	Multi-component health promotion and disease prevention for community-dwelling frail elderly persons: a systematic review. European Journal of Ageing, 2009, 6, 315-329.	2.8	49
48	Home as a signification of independence and autonomy: Experiences among very old Swedish people. Scandinavian Journal of Occupational Therapy, 2007, 14, 16-24.	1.7	147
49	Understanding the multiple realities of everyday life: Basic assumptions in focus-group methodology. Scandinavian Journal of Occupational Therapy, 2006, 13, 125-132.	1.7	199
50	Occupational Therapy Research on Assistive Technology and Physical Environmental Issues: A Literature Review. Canadian Journal of Occupational Therapy, 2006, 73, 109-119.	1.3	38
