#	ARTICLE	IF	CITATIONS
1	Productive, physiological and nutritional responses of laying hens fed different dietary levels of turmeric powder. <i>Journal of Animal Physiology and Animal Nutrition</i> , 2023, 107, 214-221.	1.0	4
2	Evaluation of oregano leaves and plant bioactive lipid compounds as feed additives for growing rabbits: Effects on performance, nutrient digestibility, serum metabolic profile and carcass traits. <i>Animal Feed Science and Technology</i> , 2022, 284, 115208.	1.1	0
3	Jojoba Seed Oil as Feed Additive for Sustainable Broiler Meat Production under Hot Climatic Conditions. <i>Animals</i> , 2022, 12, 273.	1.0	3
4	Effects of Zinc Oxide Nanoparticles on the Performance of Broiler Chickens Under Hot Climatic Conditions. <i>Biological Trace Element Research</i> , 2022, 200, 5218-5225.	1.9	7
5	Moringa oleifera Leaves as Eco-Friendly Feed Additive in Diets of Hy-Line Brown Hens during the Late Laying Period. <i>Animals</i> , 2021, 11, 1116.	1.0	14
6	Combined effects of fenugreek seeds and probiotics on growth performance, nutrient digestibility, carcass criteria, and serum hormones in growing rabbits. <i>Livestock Science</i> , 2021, 251, 104616.	0.6	14
7	Effect of Dietary Medium-Chain $\hat{\pm}$ -Monoglycerides on the Growth Performance, Intestinal Histomorphology, Amino Acid Digestibility, and Broiler Chickensâ€™ Blood Biochemical Parameters. <i>Animals</i> , 2021, 11, 57.	1.0	27
8	Combined Supplementation of Nano-Zinc Oxide and Thyme Oil Improves the Nutrient Digestibility and Reproductive Fertility in the Male Californian Rabbits. <i>Animals</i> , 2020, 10, 2234.	1.0	15
9	Alternative feed ingredients in the finisher diets for sustainable broiler production. <i>Scientific Reports</i> , 2020, 10, 17743.	1.6	20
10	Productive and Physiological Response of Male Rabbits to Dietary Supplementation with Thyme Essential Oil. <i>Animals</i> , 2020, 10, 1844.	1.0	12
11	Are the energy matrix values of the different feed additives in broiler chicken diets could be summed?. <i>BMC Veterinary Research</i> , 2020, 16, 391.	0.7	10
12	Productive performance, egg quality, nutrients digestibility, and physiological response of bovans brown hens fed various dietary inclusion levels of peppermint oil. <i>Animal Feed Science and Technology</i> , 2020, 267, 114554.	1.1	22
13	Effect of dietary supplementation of alpha-galactosidase on the growth performance, ileal digestibility, intestinal morphology, and biochemical parameters in broiler chickens. <i>BMC Veterinary Research</i> , 2020, 16, 144.	0.7	25
14	Nutritional impact of nano-selenium, garlic oil, and their combination on growth and reproductive performance of male Californian rabbits. <i>Animal Feed Science and Technology</i> , 2019, 249, 37-45.	1.1	18
15	Peppermint and its respective active component in diets of broiler chickens: growth performance, viability, economics, meat physicochemical properties, and carcass characteristics. <i>Poultry Science</i> , 2019, 98, 3850-3859.	1.5	31
16	Synbiotic as eco-friendly feed additive in diets of chickens under hot climatic conditions. <i>Poultry Science</i> , 2019, 98, 4575-4583.	1.5	21
17	From basic research to applied veterinary sciences: current status, challenges and perspectives. <i>Archives of Toxicology</i> , 2018, 92, 2141-2143.	1.9	0
18	Thyme oil inclusion levels in a rabbit ration: Evaluation of productive performance, carcass criteria and meat quality under hot environmental conditions. <i>Animal Nutrition</i> , 2018, 4, 410-416.	2.1	27

#	ARTICLE	IF	CITATIONS
19	Growth performance, carcass criteria, and serum biochemical parameters of broiler chickens supplemented with either synbiotic or prebiotic under hot climatic conditions. <i>British Poultry Science</i> , 2018, 59, 663-668.	0.8	4
20	Effect of dietary supplementation of thymol, synbiotic and their combination on performance, egg quality and serum metabolic profile of Hy-Line Brown hens. <i>British Poultry Science</i> , 2016, 57, 114-122.	0.8	33
21	Current research on experimental and applied animal sciences. <i>Archives of Toxicology</i> , 2015, 89, 1149-1150.	1.9	0
22	Effects of temporary intensive feed restriction on performance, nutrient digestibility and carcass criteria of growing male Californian rabbits. <i>Archives of Animal Nutrition</i> , 2015, 69, 69-78.	0.9	13
23	Recent developments in animal sciences. <i>EXCLI Journal</i> , 2015, 14, 611-2.	0.5	0
24	Effect of dietary supplementation of peppermint on performance, egg quality, and serum metabolic profile of Hy-Line Brown hens during the late laying period. <i>Animal Feed Science and Technology</i> , 2014, 197, 114-120.	1.1	52
25	Some Productive, Egg Quality and Serum Metabolic Profile Responses Due to L-threonine Supplementation to Laying Hen Diets. <i>Asian Journal of Poultry Science</i> , 2014, 8, 75-81.	0.1	10
26	Performance, Carcass Criteria and Profitability of Broiler Chicks as Affected by Yellow Corn Replacement with Sorghum Grains and Enzymes Supplementation. <i>Asian Journal of Poultry Science</i> , 2014, 8, 123-130.	0.1	3
27	Effects of <i>Khaya senegalensis</i> leaves on performance, carcass traits, hemtological and biochemical parameters in rabbits. <i>EXCLI Journal</i> , 2014, 13, 502-12.	0.5	10
28	Effects of thyme and oregano on growth performance of broilers from 4 to 42 days of age and on microbial counts in crop, small intestine and caecum of 42-day-old broilers. <i>Animal Feed Science and Technology</i> , 2012, 178, 198-202.	1.1	53
29	Effects of selected herbs and essential oils on performance, egg quality and some metabolic activities in laying hens "a review". , 0, 78, .		7
