#	ARTICLE	IF	CITATIONS
1	Public concerns and burdens associated with face mask-wearing: Lessons learned from the COVID-19 pandemic. <i>Progress in Disaster Science</i> , 2022, 13, 100215.	2.7	25
2	Benefits and concerns associated with blockchain-based health information exchange (HIE): a qualitative study from physicians' perspectives. <i>BMC Medical Informatics and Decision Making</i> , 2022, 22, 80.	3.0	14
3	Identification of barriers affecting the use of health information exchange (HIE) in clinicians' practices: An empirical study in the United States. <i>Technology in Society</i> , 2022, 70, 102007.	9.4	2
4	How does IT identity affect individuals' use behaviors associated with personal health devices (PHDs)? An empirical study. <i>Information and Management</i> , 2021, 58, 103313.	6.5	25
5	The role of patient engagement in patient-centric health information exchange (HIE) initiatives: an empirical study in the United States. <i>Information Technology and People</i> , 2021, , .	3.2	12
6	Engagement in online health communities: Channel expansion and social exchanges. <i>Information and Management</i> , 2021, 58, 103404.	6.5	59
7	Using Electronic Health Records to Mitigate Workplace Burnout Among Clinicians During the COVID-19 Pandemic: Field Study in Iran. <i>JMIR Medical Informatics</i> , 2021, 9, e28497.	2.6	11
8	The Influence of Gamification and Information Technology Identity on Postadoption Behaviors of Health and Fitness App Users: Empirical Study in the United States. <i>JMIR Serious Games</i> , 2021, 9, e28282.	3.1	14
9	Do Hospitals Need to Extend Telehealth Services? An Experimental Study of Different Telehealth Modalities during the COVID-19 Pandemic. <i>Methods of Information in Medicine</i> , 2021, 60, 071-083.	1.2	0
10	Patients' Perceptions Toward Human-Artificial Intelligence Interaction in Health Care: Experimental Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e25856.	4.3	39
11	The effects of data entry structure on patients' perceptions of information quality in Health Information Exchange (HIE). <i>International Journal of Medical Informatics</i> , 2020, 135, 104058.	3.3	13
12	Use of AI-based tools for healthcare purposes: a survey study from consumers' perspectives. <i>BMC Medical Informatics and Decision Making</i> , 2020, 20, 170.	3.0	159
13	The impacts of the privacy policy on individual trust in health information exchanges (HIEs). <i>Internet Research</i> , 2020, 30, 811-843.	4.9	22
14	The effect of the privacy policy of Health Information Exchange (HIE) on patients' information disclosure intention. <i>Computers and Security</i> , 2020, 95, 101819.	6.0	16
15	The impact of data entry structures on perceptions of individuals with chronic mental disorders and physical diseases towards health information sharing. <i>International Journal of Medical Informatics</i> , 2020, 141, 104157.	3.3	12
16	The Role of Information Technology Mindfulness in the Postadoption Stage of Using Personal Health Devices: Cross-Sectional Questionnaire Study in Mobile Health. <i>JMIR MHealth and UHealth</i> , 2020, 8, e18122.	3.7	8
17	Patients' Perceptions of Different Information Exchange Mechanisms: An Exploratory Study in the United States. <i>Methods of Information in Medicine</i> , 2020, 59, 162-178.	1.2	9
18	The Effects of Public Concern for Information Privacy on the Adoption of Health Information Exchanges (HIEs) by Healthcare Entities. <i>Health Communication</i> , 2019, 34, 1202-1211.	3.1	32

#	ARTICLE	IF	CITATIONS
19	Consumers'™ Perceptions of Using Health Information Exchanges (HIEs) for Research Purposes. Information Systems Management, 2019, 36, 57-77.	5.7	11
20	An Empirical Evaluation of Factors Influencing Patients'™ Reactions to the Implementation of Health Information Exchanges (HIEs). International Journal of Human-Computer Interaction, 2019, 35, 1135-1146.	4.8	3
21	The effects of national cultural values on individuals' intention to participate in peer-to-peer sharing economy. Journal of Business Research, 2019, 97, 20-29.	10.2	103
22	The Impacts of the Perceived Transparency of Privacy Policies and Trust in Providers for Building Trust in Health Information Exchange: Empirical Study. JMIR Medical Informatics, 2019, 7, e14050.	2.6	33
23	The Potential of Blockchain Technology for Health Information Exchange: Experimental Study From Patients'™ Perspectives. Journal of Medical Internet Research, 2019, 21, e14184.	4.3	93
24	Healthcare consumers' opt-in intentions to Health Information Exchanges (HIEs): An empirical study. Computers in Human Behavior, 2018, 84, 114-129.	8.5	17
25	Do cultural norms affect social network behavior inappropriateness? A global study. Journal of Business Research, 2018, 85, 10-22.	10.2	22
26	Challenges and Opportunities of Health Information Exchange (HIE) From Health Consumers' Perspective. International Journal of E-Health and Medical Communications, 2018, 9, 20-42.	1.6	1
27	Comparison of consumers'™ perspectives on different health information exchange (HIE) mechanisms: an experimental study. International Journal of Medical Informatics, 2018, 119, 1-7.	3.3	22
28	Patients'™ support for health information exchange: a literature review and classification of key factors. BMC Medical Informatics and Decision Making, 2017, 17, 33.	3.0	40
29	Health Information Exchange (HIE): A literature review, assimilation pattern and a proposed classification for a new policy approach. Journal of Biomedical Informatics, 2016, 64, 74-86.	4.3	32
30	A review of the literature and proposed classification on e-prescribing: Functions, assimilation stages, benefits, concerns, and risks. Research in Social and Administrative Pharmacy, 2016, 12, 1-19.	3.0	47
31	Adoption of clinical decision support systems in a developing country: Antecedents and outcomes of physician's threat to perceived professional autonomy. International Journal of Medical Informatics, 2015, 84, 548-560.	3.3	76
