#	ARTICLE	IF	CITATIONS
1	Public concerns and burdens associated with face mask-wearing: Lessons learned from the COVID-19 pandemic. <i>Progress in Disaster Science</i> , 2022, 13, 100215.	1.4	25
2	Benefits and concerns associated with blockchain-based health information exchange (HIE): a qualitative study from physicians' perspectives. <i>BMC Medical Informatics and Decision Making</i> , 2022, 22, 80.	1.5	14
3	Identification of barriers affecting the use of health information exchange (HIE) in clinicians' practices: An empirical study in the United States. <i>Technology in Society</i> , 2022, 70, 102007.	4.8	2
4	How does IT identity affect individuals'™ use behaviors associated with personal health devices (PHDs)? An empirical study. <i>Information and Management</i> , 2021, 58, 103313.	3.6	25
5	The role of patient engagement in patient-centric health information exchange (HIE) initiatives: an empirical study in the United States. <i>Information Technology and People</i> , 2021, , .	1.9	12
6	Engagement in online health communities: Channel expansion and social exchanges. <i>Information and Management</i> , 2021, 58, 103404.	3.6	59
7	Using Electronic Health Records to Mitigate Workplace Burnout Among Clinicians During the COVID-19 Pandemic: Field Study in Iran. <i>JMIR Medical Informatics</i> , 2021, 9, e28497.	1.3	11
8	The Influence of Gamification and Information Technology Identity on Postadoption Behaviors of Health and Fitness App Users: Empirical Study in the United States. <i>JMIR Serious Games</i> , 2021, 9, e28282.	1.7	14
9	Do Hospitals Need to Extend Telehealth Services? An Experimental Study of Different Telehealth Modalities during the COVID-19 Pandemic. <i>Methods of Information in Medicine</i> , 2021, 60, 071-083.	0.7	0
10	Patients'™ Perceptions Toward Human' Artificial Intelligence Interaction in Health Care: Experimental Study. <i>Journal of Medical Internet Research</i> , 2021, 23, e25856.	2.1	39
11	The effects of data entry structure on patients'™ perceptions of information quality in Health Information Exchange (HIE). <i>International Journal of Medical Informatics</i> , 2020, 135, 104058.	1.6	13
12	Use of AI-based tools for healthcare purposes: a survey study from consumers'™ perspectives. <i>BMC Medical Informatics and Decision Making</i> , 2020, 20, 170.	1.5	159
13	The impacts of the privacy policy on individual trust in health information exchanges (HIEs). <i>Internet Research</i> , 2020, 30, 811-843.	2.7	22
14	The effect of the privacy policy of Health Information Exchange (HIE) on patients'™ information disclosure intention. <i>Computers and Security</i> , 2020, 95, 101819.	4.0	16
15	The impact of data entry structures on perceptions of individuals with chronic mental disorders and physical diseases towards health information sharing. <i>International Journal of Medical Informatics</i> , 2020, 141, 104157.	1.6	12
16	The Role of Information Technology Mindfulness in the Postadoption Stage of Using Personal Health Devices: Cross-Sectional Questionnaire Study in Mobile Health. <i>JMIR MHealth and UHealth</i> , 2020, 8, e18122.	1.8	8
17	Patients' Perceptions of Different Information Exchange Mechanisms: An Exploratory Study in the United States. <i>Methods of Information in Medicine</i> , 2020, 59, 162-178.	0.7	9
18	The Effects of Public Concern for Information Privacy on the Adoption of Health Information Exchanges (HIEs) by Healthcare Entities. <i>Health Communication</i> , 2019, 34, 1202-1211.	1.8	32

#	ARTICLE	IF	CITATIONS
19	Consumers' Perceptions of Using Health Information Exchanges (HIEs) for Research Purposes. <i>Information Systems Management</i> , 2019, 36, 57-77.	3.2	11
20	An Empirical Evaluation of Factors Influencing Patients' Reactions to the Implementation of Health Information Exchanges (HIEs). <i>International Journal of Human-Computer Interaction</i> , 2019, 35, 1135-1146.	3.3	3
21	The effects of national cultural values on individuals' intention to participate in peer-to-peer sharing economy. <i>Journal of Business Research</i> , 2019, 97, 20-29.	5.8	103
22	The Impacts of the Perceived Transparency of Privacy Policies and Trust in Providers for Building Trust in Health Information Exchange: Empirical Study. <i>JMIR Medical Informatics</i> , 2019, 7, e14050.	1.3	33
23	The Potential of Blockchain Technology for Health Information Exchange: Experimental Study From Patients' Perspectives. <i>Journal of Medical Internet Research</i> , 2019, 21, e14184.	2.1	93
24	Healthcare consumers' opt-in intentions to Health Information Exchanges (HIEs): An empirical study. <i>Computers in Human Behavior</i> , 2018, 84, 114-129.	5.1	17
25	Do cultural norms affect social network behavior inappropriateness? A global study. <i>Journal of Business Research</i> , 2018, 85, 10-22.	5.8	22
26	Challenges and Opportunities of Health Information Exchange (HIE) From Health Consumers' Perspective. <i>International Journal of E-Health and Medical Communications</i> , 2018, 9, 20-42.	1.4	1
27	Comparison of consumers' perspectives on different health information exchange (HIE) mechanisms: an experimental study. <i>International Journal of Medical Informatics</i> , 2018, 119, 1-7.	1.6	22
28	Patients' support for health information exchange: a literature review and classification of key factors. <i>BMC Medical Informatics and Decision Making</i> , 2017, 17, 33.	1.5	40
29	Health Information Exchange (HIE): A literature review, assimilation pattern and a proposed classification for a new policy approach. <i>Journal of Biomedical Informatics</i> , 2016, 64, 74-86.	2.5	32
30	A review of the literature and proposed classification on e-prescribing: Functions, assimilation stages, benefits, concerns, and risks. <i>Research in Social and Administrative Pharmacy</i> , 2016, 12, 1-19.	1.5	47
31	Adoption of clinical decision support systems in a developing country: Antecedents and outcomes of physician's threat to perceived professional autonomy. <i>International Journal of Medical Informatics</i> , 2015, 84, 548-560.	1.6	76
