#	ARTICLE	IF	CITATIONS
1	Preferences for cancer investigation: a vignette-based study of primary-care attendees. <i>Lancet Oncology</i> , 2014, 15, 232-240.	10.7	101
2	Use of an electronic consultation system in primary care: a qualitative interview study. <i>British Journal of General Practice</i> , 2018, 68, e1-e8.	1.4	76
3	Responding to symptoms suggestive of lung cancer: a qualitative interview study. <i>BMJ Open Respiratory Research</i> , 2014, 1, e000067.	3.0	74
4	Implementing online consultations in primary care: a mixed-method evaluation extending normalisation process theory through service co-production. <i>BMJ Open</i> , 2018, 8, e019966.	1.9	67
5	Predictive value of inflammatory markers for cancer diagnosis in primary care: a prospective cohort study using electronic health records. <i>British Journal of Cancer</i> , 2019, 120, 1045-1051.	6.4	55
6	Unintended consequences of online consultations: a qualitative study in UK primary care. <i>British Journal of General Practice</i> , 2022, 72, e128-e137.	1.4	38
7	Changing eating behaviours to treat childhood obesity in the community using Mandolean: the Community Mandolean randomised controlled trial (ComMando) – a pilot study. <i>Health Technology Assessment</i> , 2014, 18, 1-75.	2.8	37
8	Evaluating the transferability of a hospital-based childhood obesity clinic to primary care: a randomised controlled trial. <i>British Journal of General Practice</i> , 2012, 62, e6-e12.	1.4	33
9	Identifying families' reasons for engaging or not engaging with childhood obesity services. <i>Journal of Child Health Care</i> , 2014, 18, 101-110.	1.4	33
10	Using the National Early Warning Score (NEWS) outside acute hospital settings: a qualitative study of staff experiences in the West of England. <i>BMJ Open</i> , 2018, 8, e022528.	1.9	28
11	The community pharmacy and discursive complexity: a qualitative study of interaction between counter assistants and customers. <i>Health and Social Care in the Community</i> , 2007, 15, 313-321.	1.6	25
12	Understanding symptom appraisal and help-seeking in people with symptoms suggestive of pancreatic cancer: a qualitative study. <i>BMJ Open</i> , 2017, 7, e015682.	1.9	25
13	Improving access to primary care: Eight case studies of introducing Advanced Access in England. <i>Journal of Health Services Research and Policy</i> , 2008, 13, 33-39.	1.7	24
14	Added value and cascade effects of inflammatory marker tests in UK primary care: a cohort study from the Clinical Practice Research Datalink. <i>British Journal of General Practice</i> , 2019, 69, e470-e478.	1.4	23
15	Is healthy eating for obese children necessarily more costly for families?. <i>British Journal of General Practice</i> , 2012, 62, e1-e5.	1.4	22
16	GP and parent dissonance about the assessment and treatment of childhood eczema in primary care: a qualitative study. <i>BMJ Open</i> , 2018, 8, e019633.	1.9	22
17	Decision making and referral from primary care for possible lung and colorectal cancer: a qualitative study of patients' experiences. <i>British Journal of General Practice</i> , 2014, 64, e775-e782.	1.4	20
18	Implementation of Advanced Access in general practice: postal survey of practices. <i>British Journal of General Practice</i> , 2006, 56, 918-23.	1.4	20

#	ARTICLE	IF	CITATIONS
19	Barriers engaging families and GPs in childhood weight management strategies. British Journal of General Practice, 2011, 61, e492-e497.	1.4	19
20	Use of multiple inflammatory marker tests in primary care: using Clinical Practice Research Datalink to evaluate accuracy. British Journal of General Practice, 2019, 69, e462-e469.	1.4	19
21	Ethnic differences in patients' preferences for prostate cancer investigation: a vignette-based survey in primary care. British Journal of General Practice, 2015, 65, e161-e170.	1.4	17
22	What do tests do for doctors? A qualitative study of blood testing in UK primary care. Family Practice, 2017, 34, 735-739.	1.9	17
23	Using willingness-to-pay to establish patient preferences for cancer testing in primary care. BMC Medical Informatics and Decision Making, 2016, 16, 105.	3.0	14
24	Raised inflammatory markers as a predictor of one-year mortality: a cohort study in primary care in the UK using electronic health record data. BMJ Open, 2020, 10, e036027.	1.9	5
25	The researchers' role in knowledge translation: a realist evaluation of the development and implementation of diagnostic pathways for cancer in two United Kingdom localities. Health Research Policy and Systems, 2017, 15, 103.	2.8	3
26	The introduction of a safety checklist in two UK hospital emergency departments: A qualitative study of implementation and staff use. Journal of Clinical Nursing, 2020, 29, 1267-1275.	3.0	3
27	Continuous, risk-based, consultation peer review in out-of-hours general practice: a qualitative interview study of the benefits and limitations. British Journal of General Practice, 2021, 71, e797-e805.	1.4	3
28	Integrating care between an NHS hospital, a community provider and the role of commissioning: the experience of developing an integrated respiratory service. BMJ Open, 2020, 10, e040267.	1.9	2
29	Preventing male suicide through a psychosocial intervention that provides psychological support and tackles financial difficulties: a mixed method evaluation. BMC Psychiatry, 2022, 22, 333.	2.6	2
30	The Discovery Programme and its impact on cancer diagnostics. British Journal of Hospital Medicine (London, England: 2005), 2015, 76, 558-559.	0.5	0
31	Raised inflammatory markers as a predictor of one-year mortality: a cohort study in primary care in the UK using electronic health record data. BMJ Open, 2020, 10, e036027.	1.9	0
32	Providing men at risk of suicide with emotional support and advice with employment, housing and financial difficulties: a qualitative evaluation of the Hope service. Journal of Mental Health, 2024, 33, 3-13.	1.9	0
