#	ARTICLE	IF	CITATIONS
1	Cross-cultural adaptation and validation of the Iowa Satisfaction with Anesthesia Scale for use in Brazil: a cross-sectional study. <i>Brazilian Journal of Anesthesiology</i> (Elsevier), 2024, 74, 744471.	0.5	0
2	A threshold of 100 or more colony-forming units on the anesthesia machine predicts bacterial pathogen detection: a retrospective laboratory-based analysis. <i>Canadian Journal of Anaesthesia</i> , 2024, 71, 600-610.	1.4	1
3	Fundamentals of operating room allocation and case scheduling to minimize the inefficiency of use of the time. <i>Perioperative Care and Operating Room Management</i> , 2024, 35, 100379.	0.4	0
4	Reducing airborne transmissible diseases in perioperative environments. Comment on <i>Br J Anaesth</i> 2024; 133:19-23. <i>British Journal of Anaesthesia</i> , 2024, , .	3.3	0
5	Twenty-five years of previous research establish that operating room utilization is an invalid metric of theatre productivity. <i>JVS-Vascular Insights: An Open Access Publication from the Society for Vascular Surgery</i> , 2024, , 100118.	0.0	0
6	Comparison between cold and sharp modalities for testing sensory block in neuraxial labour analgesia: a prospective observational trial. <i>British Journal of Anaesthesia</i> , 2024, , .	3.3	0
7	International Comparisons of Hospitals' Phase I Postanesthesia Care Unit Lengths of Stay Show Most Patients Need 30 Minutes or Less Recovery Time to Advance From a 1 Nurse: 2 Patient Staffing Ratio. <i>Journal of Perianesthesia Nursing</i> , 2024, 39, 734-735.	0.7	0
8	The effect of few historical data on the performance of sample average approximation method for operating room scheduling. <i>International Transactions in Operational Research</i> , 2023, 30, 126-150.	2.9	1
9	The importance of targeting intraoperative transmission of bacteria with antibiotic resistance and strain characteristics. <i>American Journal of Infection Control</i> , 2023, 51, 612-618.	2.4	3
10	Estimating costs of anesthesia supplies for intraoperative infection control. <i>American Journal of Infection Control</i> , 2023, 51, 619-623.	2.4	4
11	Earlier studies of prolonged times to tracheal extubation after end of surgery. <i>Journal of Cardiothoracic and Vascular Anesthesia</i> , 2023, 37, 192-193.	1.3	0
12	Variability of the times remaining in surgical cases and the importance of knowing when closure has started. <i>Perioperative Care and Operating Room Management</i> , 2023, 30, 100299.	0.4	3
13	Association of surgeons' gender with elective surgical lists in the State of Florida is explained by differences in mean operative caseloads. <i>PLoS ONE</i> , 2023, 18, e0283033.	2.5	1
14	La plupart des patientes hospitalisées Ã risquent d'infection bactérienne Ã l'issue d'une anesthésie : implications pour les pratiques de contrôle des infections liées Ã l'espace de travail d'anesthésie. <i>Canadian Journal of Anaesthesia</i> , 2023, 70, 1330-1339.	1.4	6
15	Influence on the incidence of prolonged times to tracheal extubation from the anesthesia practitioner having completed few prior cases with the surgeon. <i>Perioperative Care and Operating Room Management</i> , 2023, 31, 100318.	0.4	3
16	Bacterial contamination of syringe tips after anaesthesia care with use of disinfectable needleless closed connector devices. <i>British Journal of Anaesthesia</i> , 2023, 131, e112-e114.	3.3	4
17	Retrospective cohort study of anaesthesia machines shows low bacterial contamination can be achieved with surface disinfection. <i>British Journal of Anaesthesia</i> , 2023, 131, e109-e111.	3.3	4
18	General anesthesia techniques reducing the time to satisfy phase I post-anesthesia care unit discharge criteria: Narrative review of randomized clinical trials and cohort studies studying unit bypass, supplemented with computer simulation. <i>Perioperative Care and Operating Room Management</i> , 2023, 33, 100358.	0.4	2

#	ARTICLE	IF	CITATIONS
19	Minimising the number of cancellations at the time of a severe lack of postanesthesia care unit beds or nurses. <i>International Journal of Production Research</i> , 2022, 60, 3383-3396.	6.9	4
20	Average and longest expected treatment times for ultraviolet light disinfection of rooms. <i>American Journal of Infection Control</i> , 2022, 50, 61-66.	2.4	4
21	Outcomes After Surgical Resection of Early-stage Lung Adenocarcinomas With Epidermal Growth Factor Receptor Mutations. <i>Annals of Thoracic Surgery</i> , 2022, 114, 905-910.	1.4	4
22	Cancellation rates after virtual, telephone-based preoperative anesthesia evaluations. <i>Journal of Clinical Anesthesia</i> , 2022, 76, 110563.	1.7	0
23	Effectiveness and feasibility of an evidence-based intraoperative infection control program targeting improved basic measures: a post-implementation prospective case-cohort study. <i>Journal of Clinical Anesthesia</i> , 2022, 77, 110632.	1.7	23
24	Similarities Between Pediatric and General Hospitals Based on Fundamental Attributes of Surgery Including Cases Per Surgeon Per Workday. <i>Cureus</i> , 2022, 14, e21736.	0.5	2
25	Decision-making for end-of-day relief of anesthesiologists based on equity can decrease group productivity: Historical cohort study from a hospital with both anesthesia residents and nurse anesthetists. <i>Perioperative Care and Operating Room Management</i> , 2022, 26, 100244.	0.4	3
26	Elective surgery growth at Florida hospitals accrues mostly from surgeons averaging 2 or fewer cases per week: A retrospective cohort study. <i>Journal of Clinical Anesthesia</i> , 2022, 78, 110649.	1.7	6
27	Managing capacity for urgent surgery: staffing, staff scheduling in-house or on-call from home, and work assignments. <i>British Journal of Anaesthesia</i> , 2022, 128, 399-402.	3.3	0
28	Effect of Insufficient Interaction on the Evaluation of Anesthesiologists' Quality of Clinical Supervision by Anesthesiology Residents and Fellows. <i>Cureus</i> , 2022, 14, e23500.	0.5	0
29	Case duration prediction and estimating time remaining in ongoing cases. <i>British Journal of Anaesthesia</i> , 2022, 128, 751-755.	3.3	5
30	Binomial entropy of anesthesiologists' ratings of nurse anesthetists' clinical performance explains information loss when adjusting evaluations for rater leniency. <i>Perioperative Care and Operating Room Management</i> , 2022, 27, 100247.	0.4	3
31	Use of Time Stamp Data to Determine Direct Associations Between Predictive Error in Case Durations and Operating Room Utilization. <i>Anesthesia and Analgesia</i> , 2022, 134, e1-e1.	2.4	1
32	More surgery in December among US patients with commercial insurance is offset by unrelated but lesser surgery among patients with Medicare insurance. <i>International Journal of Health Planning and Management</i> , 2022, 37, 2445-2460.	1.7	5
33	Evidence-based intraoperative infection control measures plus feedback are associated with attenuation of severe acute respiratory syndrome coronavirus-2 detection in operating rooms. <i>British Journal of Anaesthesia</i> , 2022, 129, e29-e32.	3.3	7
34	Benchmarking Surgeons' Gender and Year of Medical School Graduation Associated With Monthly Operative Workdays for Multispecialty Groups. <i>Cureus</i> , 2022, , .	0.5	3
35	Feasibility of Anesthesiologists Giving Nurse Anesthetists 30-Minute Lunch Breaks and 15-Minute Morning Breaks at a University's Facilities. <i>Cureus</i> , 2022, , .	0.5	1
36	Assigning Cases to Operating Rooms With Objectives That Include Leveling Workflow in the Post-anesthesia Care Unit. <i>Journal of Perianesthesia Nursing</i> , 2022, 37, 296.	0.7	0

#	ARTICLE	IF	CITATIONS
37	Earlier Studies in Anesthesia & Analgesia of Case Scheduling and Cancellation Within the Week of Surgery. <i>Anesthesia and Analgesia</i> , 2022, 135, e8-e8.	2.4	1
38	Intubation biomechanics: Computational modeling to identify methods to minimize cervical spine motion and spinal cord strain during laryngoscopy and tracheal intubation in an intact cervical spine. <i>Journal of Clinical Anesthesia</i> , 2022, 81, 110909.	1.7	2
39	Cesarean delivery availability in Iowa was not constrained by anesthesia workforce limitations: Retrospective cohort study of inpatient surgery case counts. <i>Perioperative Care and Operating Room Management</i> , 2022, 28, 100277.	0.4	3
40	Evaluation of the start of surgical closure as a milestone for forecasting the time remaining to exit the operating room: A retrospective, observational cohort study. <i>Perioperative Care and Operating Room Management</i> , 2022, 29, 100280.	0.4	3
41	More accurate, unbiased predictions of operating room times increase labor productivity with the same staff scheduling provided allocated hours are increased. <i>Perioperative Care and Operating Room Management</i> , 2022, 29, 100286.	0.4	4
42	American Society of Anesthesiologists' Relative Value Guide. <i>Anaesthesia</i> , 2022, 77, 1453-1453.	3.9	1
43	Sustained management of the variability in work hours among anesthesiologists providing patient care in operating rooms and not on call to work late if necessary. <i>Journal of Clinical Anesthesia</i> , 2021, 69, 110151.	1.7	9
44	Operating room air delivery design to protect patient and surgical site results in particles released at surgical table having greater concentration along walls of the room than at the instrument tray. <i>American Journal of Infection Control</i> , 2021, 49, 593-596.	2.4	13
45	Percentages of Cases in Operating Rooms of Sufficient Duration to Accommodate a 30-Minute Breast Milk Pumping Session by Anesthesia Residents or Nurse Anesthetists. <i>Cureus</i> , 2021, 13, e12519.	0.5	5
46	Answering a factual question today increases one's confidence in the same answer tomorrow "independent of fluency. <i>Psychonomic Bulletin and Review</i> , 2021, 28, 962-968.	6.7	1
47	Proportions of Surgical Patients Discharged Home the Same or the Next Day Are Sufficient Data to Assess Cases' Contributions to Hospital Occupancy. <i>Cureus</i> , 2021, 13, e13826.	0.5	2
48	Suggested Work Guidelines, Based on Operating Room Data, for Departments with a Breast Milk Pumping Supervising Anesthesiologist. <i>Breastfeeding Medicine</i> , 2021, 16, 573-578.	1.8	9
49	Design of Clinical Trials Evaluating Sedation in Critically Ill Adults Undergoing Mechanical Ventilation: Recommendations From Sedation Consortium on Endpoints and Procedures for Treatment, Education, and Research (SCEPTER) Recommendation III. <i>Critical Care Medicine</i> , 2021, 49, 1684-1693.	0.9	11
50	Quantification et interprétation de l'incidence des infections opératoires entre les salles opératoires. <i>Canadian Journal of Anaesthesia</i> , 2021, 68, 812-824.	1.4	10
51	Why feeling competent matters. <i>German Journal of Exercise and Sport Research</i> , 2021, 51, 371-377.	1.3	4
52	Implications of the log-normal distribution for updating estimates of the time remaining until ready for phase I post-anesthesia care unit discharge. <i>Perioperative Care and Operating Room Management</i> , 2021, 23, 100165.	0.4	1
53	Briefest Time to Perform a Series of Preoperative Nerve Blocks in Multiple Patients: A Simulation Study. <i>Cureus</i> , 2021, 13, e16251.	0.5	1
54	Multicollinearity in Logistic Regression Models. <i>Anesthesia and Analgesia</i> , 2021, 133, 362-365.	2.4	54

#	ARTICLE	IF	CITATIONS
55	A Modification to a Murine Model for Intracranial Aneurysm Formation and Rupture. <i>Cureus</i> , 2021, 13, e16250.	0.5	4
56	Simply Adjusting for Schedulersâ€™ Bias in Estimated Case Durations Can Accomplish the Same Objectives of Improving Predictions as Use of Machine Learning. <i>JAMA Surgery</i> , 2021, 156, 1074-1075.	4.5	0
57	Narrative review of neuraxial potassium chloride administration errors: clinical features, human factors, and prevention measures. <i>Regional Anesthesia and Pain Medicine</i> , 2021, 46, 904-908.	2.6	7
58	The anesthetizing sites supervised to anesthesiologist ratio is an invalid surrogate for group productivity in academic anesthesia departments when used without consideration of the corresponding managerial decisions. <i>Journal of Clinical Anesthesia</i> , 2021, 71, 110194.	1.7	8
59	Impact of anesthesia resident staff assignment decisions on nurse anesthetist and anesthesia resident staff scheduling and productivity: Tutorial using data from a pediatric hospital. <i>Perioperative Care and Operating Room Management</i> , 2021, 24, 100182.	0.4	1
60	An assessment of the impact of recommended anesthesia work area cleaning procedures on intraoperative SARS-CoV-2 contamination, a case-series analysis. <i>Journal of Clinical Anesthesia</i> , 2021, 73, 110350.	1.7	7
61	Most surgeons' daily elective lists in Florida comprise only 1 or 2 elective cases, making percent utilization unreliable for planning individual surgeons' block time. <i>Journal of Clinical Anesthesia</i> , 2021, 75, 110432.	1.7	11
62	Average number of anesthetics still in progress in the early evening increased at least proportionally to the numbers of anesthetizing locations in the morning: A retrospective, long-term longitudinal study at two large hospitals. <i>Perioperative Care and Operating Room Management</i> , 2021, 25, 100213.	0.4	2
63	Interview Data Highlight Importance of "Same-State" on Anesthesiology Residency Match. <i>Anesthesia and Analgesia</i> , 2021, 132, 223-230.	2.4	7
64	Statistical Design of Overnight Trials for the Evaluation of the Number of Operating Rooms That Can Be Disinfected by an Ultraviolet Light Disinfection Robotic System. <i>Cureus</i> , 2021, 13, e18861.	0.5	1
65	Intubation Biomechanics: Clinical Implications of Computational Modeling of Intervertebral Motion and Spinal Cord Strain during Tracheal Intubation in an Intact Cervical Spine. <i>Anesthesiology</i> , 2021, 135, 1055-1065.	2.7	7
66	Representation of women as editors in major pain journals. <i>Regional Anesthesia and Pain Medicine</i> , 2021, 46, 356-357.	2.6	0
67	Elements of Pregnancy and Parenthood Policies of Importance to Medical Students and Included in a Sample of Medical Schools' Websites and Student Handbooks. <i>Women S Health Reports</i> , 2021, 2, 533-541.	0.8	3
68	Low Prevalence of Designated Lactation Spaces at Hospitals and Ambulatory Surgery Centers in Iowa: An Educational Tool for Graduatesâ€™ Job Selection. <i>A&amp;A Practice</i> , 2021, 15, e01544.	0.4	4
69	Comparison of Percentage Prolonged Times to Tracheal Extubation Between a Japanese Teaching Hospital and One in the United States, Without and With a Phase I Postanesthesia Care Unit. <i>Anesthesia and Analgesia</i> , 2021, 133, 1206-1214.	2.4	13
70	Late first-case of the day starts do not cause greater minutes of over-utilized time at an endoscopy suite with 8-hour workdays and late running rooms. A historical cohort study. <i>Journal of Clinical Anesthesia</i> , 2020, 59, 18-25.	1.7	15
71	Surgical instrument standardization "A pilot cost consciousness curriculum for surgery residents. <i>American Journal of Surgery</i> , 2020, 219, 295-298.	1.7	4
72	Prolonged tracheal extubation time after glioma surgery was associated with lack of familiarity between the anesthesia provider and the operating neurosurgeon. A retrospective, observational study. <i>Journal of Clinical Anesthesia</i> , 2020, 60, 118-124.	1.7	15

#	ARTICLE	IF	CITATIONS
73	Importance of operating room case scheduling on analyses of observed reductions in surgical site infections from the purchase and installation of capital equipment in operating rooms. <i>American Journal of Infection Control</i> , 2020, 48, 566-572.	2.4	14
74	The Distributions of Weekday Discharge Times at Acute Care Hospitals in the State of Florida were Static from 2010 to 2018. <i>Journal of Medical Systems</i> , 2020, 44, 47.	3.9	6
75	An Evaluation of the Hybrid Model for Predicting Surgery Duration. <i>Journal of Medical Systems</i> , 2020, 44, 42.	3.9	6
76	Transcultural validation of a French version of the Iowa Satisfaction with Anesthesia Scale (ISAS-F). <i>Canadian Journal of Anaesthesia</i> , 2020, 67, 541-549.	1.4	3
77	Reliability of ranking anesthesiologists and nurse anesthetists using leniency-adjusted clinical supervision and work habits scores. <i>Journal of Clinical Anesthesia</i> , 2020, 61, 109639.	1.7	13
78	Benefit of systematic selection of pairs of cases matched by surgical specialty for surveillance of bacterial transmission in operating rooms. <i>American Journal of Infection Control</i> , 2020, 48, 682-687.	2.4	10
79	Assessment of anesthesia machine redesign on cleaning of the anesthesia machine using surface disinfection wipes. <i>American Journal of Infection Control</i> , 2020, 48, 675-681.	2.4	11
80	Opportunity cost of mean 1.7 minutes of tardiness of late first case of the day starts. <i>American Journal of Surgery</i> , 2020, 220, 249.	1.7	0
81	A simulation-based selection process for trying to identify medical students who will become outstanding general surgery residents. <i>American Journal of Surgery</i> , 2020, 220, 76-82.	1.7	14
82	Sample times for surveillance of <i>S. aureus</i> transmission to monitor effectiveness and provide feedback on intraoperative infection control. <i>Perioperative Care and Operating Room Management</i> , 2020, 21, 100137.	0.4	4
83	Re: The Role of Patient and Procedure Specific Factors in Urology Operating Room Perioperative Times: D. J. Kozminski, M. J. Cerf, D. Loman, P. J. Feustel and B. A. Kogan <i>Urol Pract</i> 2019; 6: 6-12.. <i>Urology Practice</i> , 2020, 7, 82-82.	0.5	0
84	Endpoints and methods for valid and reliable ranking of anesthesiologists' clinical performance. <i>Journal of Clinical Anesthesia</i> , 2020, 66, 109959.	1.7	0
85	Caseload is increased by resequencing cases before and on the day of surgery at ambulatory surgery centers where initial patient recovery is in operating rooms and cleanup times are longer than typical. <i>Journal of Clinical Anesthesia</i> , 2020, 67, 110024.	1.7	12
86	Obtaining and Modeling Variability in Travel Times From Off-Site Satellite Clinics to Hospitals and Surgery Centers for Surgeons and Proceduralists Seeing Office Patients in the Morning and Performing a To-Follow List of Cases in the Afternoon. <i>Anesthesia and Analgesia</i> , 2020, 131, 228-238.	2.4	6
87	Comparisons of unscheduled absences among categories of anesthesia practitioners, including anesthesiologists, nurse anesthetists, and anesthesia residents. <i>Perioperative Care and Operating Room Management</i> , 2020, 21, 100139.	0.4	4
88	Reliability and Validity of Performance Evaluations of Pain Medicine Clinical Faculty by Residents and Fellows Using a Supervision Scale. <i>Anesthesia and Analgesia</i> , 2020, 131, 909-916.	2.4	6
89	Association between leniency of anesthesiologists when evaluating certified registered nurse anesthetists and when evaluating didactic lectures. <i>Health Care Management Science</i> , 2020, 23, 640-648.	2.6	4
90	Sample sizes for surveillance of <i>S. aureus</i> transmission to monitor effectiveness and provide feedback on intraoperative infection control including for COVID-19. <i>Perioperative Care and Operating Room Management</i> , 2020, 20, 100115.	0.4	9

#	ARTICLE	IF	CITATIONS
91	Surgical volume estimates using national or state databases can reasonably disregard missing cases from patients undergoing multiple surgeries on the same day other than for cardiac, vascular, and trauma cases. <i>Perioperative Care and Operating Room Management</i> , 2020, 18, 100084.	0.4	2
92	Changes in current employment positions after taking an operating room management course content by physicians and non-physicians and potential use of the content. <i>Perioperative Care and Operating Room Management</i> , 2020, 20, 100097.	0.4	2
93	Perioperative COVID-19 Defense: An Evidence-Based Approach for Optimization of Infection Control and Operating Room Management. <i>Anesthesia and Analgesia</i> , 2020, 131, 37-42.	2.4	226
94	In Response: "Perioperative COVID-19 Defense: An Evidence-Based Approach for Optimization of Infection Control and Operating Room Management". <i>Anesthesia and Analgesia</i> , 2020, 131, e27-e28.	2.4	19
95	Futility of Cluster Designs at Individual Hospitals to Study Surgical Site Infections and Interventions Involving the Installation of Capital Equipment in Operating Rooms. <i>Journal of Medical Systems</i> , 2020, 44, 82.	3.9	3
96	Disability Severity, Leaderâ€™Member Exchange, and Attitudinal Outcomes: Considering the Employee and Supervisor Perspectives. <i>Journal of Occupational Rehabilitation</i> , 2020, 30, 613-623.	2.3	6
97	Time is Money: Punctuality is Priceless. <i>Journal of the American College of Surgeons</i> , 2020, 230, 838-839.	0.5	2
98	The science of BAV aortopathy. <i>Progress in Cardiovascular Diseases</i> , 2020, 63, 465-474.	3.7	25
99	Implications of anesthesiology resident availability on first-case staffing. <i>Perioperative Care and Operating Room Management</i> , 2020, 21, 100098.	0.4	3
100	Appropriate operating room time allocations and half-day block time for low caseload proceduralists, including anesthesiologist pain medicine physicians in the State of Florida. <i>Journal of Clinical Anesthesia</i> , 2020, 64, 109817.	1.7	7
101	Case Series of Adaptive Changes in Clinical Practice and Trainee Education for Cesarean Delivery due to Drug Shortages of 0.75% Hyperbaric Bupivacaine in 2018. <i>A&amp;A Practice</i> , 2020, 14, e01214.	0.4	1
102	Demonstrability of analytics solutions and shared knowledge of statistics and operating room management improves expected performance of small teams in correctly solving problems and making good decisions. <i>Perioperative Care and Operating Room Management</i> , 2020, 19, 100090.	0.4	6
103	Strategies for daily operating room management of ambulatory surgery centers following resolution of the acute phase of the COVID-19 pandemic. <i>Journal of Clinical Anesthesia</i> , 2020, 64, 109854.	1.7	46
104	Factors influencing membership of dairy cooperatives: Evidence from dairy farmers in Thailand. <i>Journal of Co-operative Organization and Management</i> , 2020, 8, 100109.	1.7	22
105	COVID-19 and its implications in the management of resource infrastructure. <i>Journal of Dental Sciences</i> , 2020, 15, 225-226.	2.6	8
106	The Effect of Improving Basic Preventive Measures in the Perioperative Arena on <i>Staphylococcus aureus</i> Transmission and Surgical Site Infections. <i>JAMA Network Open</i> , 2020, 3, e201934.	6.0	43
107	Motherhood and Anesthesiology: A Survey of the American Society of Anesthesiologists. <i>Anesthesia and Analgesia</i> , 2020, 130, 1296-1302.	2.4	23
108	Blandâ€™Altman analysis for bias in estimates of scheduled versus actual times of operating room entry. <i>Canadian Journal of Anaesthesia</i> , 2020, 67, 1104-1105.	1.4	2

#	ARTICLE	IF	CITATIONS
109	Decline of Pediatric Ambulatory Surgery Cases Performed at Florida General Hospitals Between 2010 and 2018: An Historical Cohort Study. <i>Anesthesia and Analgesia</i> , 2020, 131, 1557-1565.	2.4	4
110	Lack of recall after sedation for cataract surgery and its effect on the validity of measuring patient satisfaction. <i>Korean Journal of Anesthesiology</i> , 2020, 73, 319-325.	2.3	8
111	Building a Brain Tumor Practice: Objective Analysis of Referral Patterns and Implications for the Growth of a Subspecialty Surgical Program. <i>Cureus</i> , 2020, 12, e10416.	0.5	1
112	Forecasting the Probability That Each Surgical Case Will Either Be Ambulatory or the Patient Will Remain in the Hospital Overnight Versus Having a Length of Stay of Two or More Days. <i>Cureus</i> , 2020, 12, e10847.	0.5	1
113	A Predictive Model for Patient Census and Ventilator Requirements at Individual Hospitals During the Coronavirus Disease 2019 (COVID-19) Pandemic: A Preliminary Technical Report. <i>Cureus</i> , 2020, 12, e8501.	0.5	6
114	Policy Implications for the COVID-19 Pandemic in Light of Most Patients (≈72%) Spending Only One Night at the Hospital After Elective, Major Therapeutic Procedures. <i>Cureus</i> , 2020, 12, e9746.	0.5	5
115	Sex-Specific Intubation Biomechanics: Intubation Forces Are Greater in Male Than in Female Patients, Independent of Body Weight. <i>Cureus</i> , 2020, 12, e8749.	0.5	3
116	Unscheduled absences in a cohort of nurse anesthetists during a 3-year period: Statistical implications for the identification of outlier personnel. <i>Journal of Clinical Anesthesia</i> , 2019, 52, 1-5.	1.7	6
117	&lt;p&gt;Improving intraoperative handoffs for ambulatory anesthesia: challenges and solutions for the anesthesiologist [Corrigendum]&lt;/p&gt;. <i>Local and Regional Anesthesia</i> , 2019, Volume 12, 57-58.	1.4	0
118	<p>LncRNA PVT1 promotes proliferation, invasion and epithelialâ€mesenchymal transition of renal cell carcinoma cells through downregulation of miR-16-5p [Corrigendum]</p>. <i>OncoTargets and Therapy</i> , 2019, Volume 12, 5649-5650.	2.1	3
119	Throughout the United States, pediatric patients undergoing ambulatory surgery enter the operating room and are discharged earlier in the day than are adults. <i>Perioperative Care and Operating Room Management</i> , 2019, 16, 100076.	0.4	7
120	&lt;p&gt;Improving intraoperative handoffs for ambulatory anesthesia: challenges and solutions for the anesthesiologist&lt;/p&gt;. <i>Local and Regional Anesthesia</i> , 2019, Volume 12, 37-46.	1.4	5
