

Peng Cui

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4298286/peng-cui-publications-by-year.pdf>

Version: 2024-04-27

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

36
papers

958
citations

#	Paper	IF	Citations
36	Depth-resolved numerical model of dam break mud flows with Herschel-Bulkley rheology. <i>Journal of Mountain Science</i> , 2022 , 19, 1001-1017	2.1	1
35	Stormflow generation in a humid forest watershed controlled by antecedent wetness and rainfall amounts. <i>Journal of Hydrology</i> , 2021 , 603, 127107	6	2
34	Disaster Risk Assessment of the Silk Road. <i>ICL Contribution To Landslide Disaster Risk Reduction</i> , 2021 , 331-338		
33	Changes in hydrological behaviours triggered by earthquake disturbance in a mountainous watershed. <i>Science of the Total Environment</i> , 2021 , 760, 143349	10.2	10
32	Landslide susceptibility in the Belt and Road Countries: continental step of a multi-scale approach. <i>Environmental Earth Sciences</i> , 2021 , 80, 1	2.9	1
31	A new approach to assess landslide susceptibility based on slope failure mechanisms. <i>Catena</i> , 2021 , 204, 105388	5.8	13
30	The spatial distribution characteristics of coseismic landslides triggered by the Ms7.0 Lushan earthquake and Ms7.0 Jiuzhaigou earthquake in southwest China. <i>Environmental Science and Pollution Research</i> , 2021 , 28, 20549-20569	5.1	6
29	Chinese public participation monitoring and warning system for geological hazards. <i>Journal of Mountain Science</i> , 2020 , 17, 1553-1564	2.1	4
28	Landslide susceptibility assessment at Kathmandu Kyirong Highway Corridor in pre-quake, co-seismic and post-quake situations. <i>Journal of Mountain Science</i> , 2020 , 17, 2652-2673	2.1	0
27	Landslide characteristics and its impact on tourism for two roadside towns along the Kathmandu Kyirong Highway. <i>Journal of Mountain Science</i> , 2020 , 17, 1840-1859	2.1	2
26	Regional risk assessment of debris flows in China: An HRU-based approach. <i>Geomorphology</i> , 2019 , 340, 84-102	4.3	20
25	Evaluation of a traditional method for peak flow discharge estimation for floods in the Wenchuan Earthquake area, Sichuan Province, China. <i>Journal of Mountain Science</i> , 2019 , 16, 641-656	2.1	2
24	Real-time monitoring and estimation of the discharge of flash floods in a steep mountain catchment. <i>Hydrological Processes</i> , 2019 , 33, 3195-3212	3.3	15
23	Evolution of a landslide-dammed lake on the southeastern Tibetan Plateau and its influence on river longitudinal profiles. <i>Geomorphology</i> , 2019 , 343, 15-32	4.3	21
22	Seismogenic fault and topography control on the spatial patterns of landslides triggered by the 2017 Jiuzhaigou earthquake. <i>Journal of Mountain Science</i> , 2018 , 15, 793-807	2.1	25
21	A new approach to assessing vulnerability of mountain highways subject to debris flows in China. <i>Progress in Physical Geography</i> , 2018 , 42, 305-329	3.5	10
20	The effects of slope length and slope gradient on the size distributions of loess slides: Field observations and simulations. <i>Geomorphology</i> , 2018 , 300, 69-76	4.3	39

19	An international program on Silk Road Disaster Risk Reduction— Belt and Road initiative (2016-2020). <i>Journal of Mountain Science</i> , 2018 , 15, 1383-1396	2.1	18
18	Real-time observation of an active debris flow watershed in the Wenchuan Earthquake area. <i>Geomorphology</i> , 2018 , 321, 153-166	4.3	22
17	An empirical mode decomposition-based signal process method for two-phase debris flow impact. <i>Landslides</i> , 2018 , 15, 297-307	6.6	10
16	Assessment of prospective hazards resulting from the 2017 earthquake at the world heritage site Jiuzhaigou Valley, Sichuan, China. <i>Journal of Mountain Science</i> , 2018 , 15, 779-792	2.1	34
15	Natural Hazards and Disaster Risk in One Belt One Road Corridors 2017 , 1155-1164		5
14	Characteristics and triggering mechanism of Xinmo landslide on 24 June 2017 in Sichuan, China. <i>Journal of Mountain Science</i> , 2017 , 14, 1689-1700	2.1	59
13	Development of Taprang landslide, West Nepal. <i>Landslides</i> , 2017 , 14, 929-946	6.6	7
12	Rock fall hazard and risk assessment along Araniko Highway, Central Nepal Himalaya. <i>Environmental Earth Sciences</i> , 2016 , 75, 1	2.9	19
11	Trace projection transformation: a new method for measurement of debris flow surface velocity fields. <i>Frontiers of Earth Science</i> , 2016 , 10, 761-771	1.7	7
10	Catastrophic debris flows on July 10th 2013 along the Min River in areas seriously-hit by the Wenchuan earthquake. <i>Journal of Mountain Science</i> , 2015 , 12, 186-206	2.1	23
9	Engineering measures for debris flow hazard mitigation in the Wenchuan earthquake area. <i>Engineering Geology</i> , 2015 , 194, 73-85	6	76
8	Experimental analysis on the impact force of viscous debris flow. <i>Earth Surface Processes and Landforms</i> , 2015 , 40, 1644-1655	3.7	103
7	Activity and distribution of geohazards induced by the Lushan earthquake, April 20, 2013. <i>Natural Hazards</i> , 2014 , 73, 711-726	3	12
6	Risk assessment of highways affected by debris flows in Wenchuan earthquake area. <i>Journal of Mountain Science</i> , 2013 , 10, 173-189	2.1	35
5	The Wenchuan Earthquake (May 12, 2008), Sichuan Province, China, and resulting geohazards. <i>Natural Hazards</i> , 2011 , 56, 19-36	3	233
4	Susceptibility assessment of landslides caused by the wenchuan earthquake using a logistic regression model. <i>Journal of Mountain Science</i> , 2010 , 7, 234-245	2.1	25
3	Characteristic rainfall for warning of debris flows. <i>Journal of Mountain Science</i> , 2010 , 7, 207-214	2.1	20
2	Techniques of Debris Flow Prevention in National Parks. <i>Earth Science Frontiers</i> , 2007 , 14, 172-177		19

1 Jiangjia Ravine debris flows in south-western China **2005**, 565-594
