#	ARTICLE	IF	CITATIONS
1	Adjusting to epidemic-induced telework: empirical insights from teleworkers in France. <i>European Journal of Information Systems</i> , 2021, 30, 69-88.	5.5	183
2	Gig-workersâ€™ motivation: thinking beyond carrots and sticks. <i>Journal of Managerial Psychology</i> , 2019, 34, 192-213.	1.3	136
3	Barriers to organizational adoption of EMR systems in family physician practices: A mixed-methods study in Canada. <i>International Journal of Medical Informatics</i> , 2014, 83, 548-558.	1.6	59
4	Improving performance in medical practices through the extended use of electronic medical record systems: a survey of Canadian family physicians. <i>BMC Medical Informatics and Decision Making</i> , 2015, 15, 27.	1.5	39
5	Adoption of open source software in organizations: A socio-cognitive perspective. <i>Journal of Strategic Information Systems</i> , 2012, 21, 257-273.	3.3	37
6	Re-examining the causal structure of information technology impact research. <i>European Journal of Information Systems</i> , 2008, 17, 403-416.	5.5	33
7	Electronic health record usage behaviors in primary care medical practices: A survey of family physicians in Canada. <i>International Journal of Medical Informatics</i> , 2015, 84, 857-867.	1.6	33
8	Ceiling effect in EMR system assimilation: a multiple case study in primary care family practices. <i>BMC Medical Informatics and Decision Making</i> , 2017, 17, 46.	1.5	26
9	Antecedents of open source software adoption in health care organizations: A qualitative survey of experts in Canada. <i>International Journal of Medical Informatics</i> , 2013, 82, 731-741.	1.6	20
10	Laboratory testing in primary care: A systematic review of health IT impacts. <i>International Journal of Medical Informatics</i> , 2018, 116, 52-69.	1.6	18
11	Has open source software been institutionalized in organizations or not?. <i>Information and Software Technology</i> , 2012, 54, 1308-1316.	3.0	9
12	Governance of Open Source Electronic Health Record Projects: A Successful Case of a Hybrid Model. , 2014, , .		7
13	Improving performance in the ED through laboratory information exchange systems. <i>International Journal of Emergency Medicine</i> , 2018, 11, 15.	0.6	6
14	IT vendorsâ€™ legitimization strategies and market share: The case of EMR systems. <i>Information and Management</i> , 2020, 57, 103291.	3.6	6
15	Toward Solving Social and Technical Problems in Open Source Software Ecosystems: Using Cause-and-Effect Analysis to Disentangle the Causes of Complex Problems. <i>IEEE Software</i> , 2019, 36, 34-41.	2.1	4
16	Entrepreneurial actions and the legitimation of free/open source software services. <i>Journal of Information Technology</i> , 2020, 35, 143-160.	2.5	3
17	Migrating a Software Factory to Design Thinking: Paying Attention to People and Mind-Sets. <i>IEEE Software</i> , 2020, 37, 32-40.	2.1	3
18	Advancing laboratory medicine in hospitals through health information exchange: a survey of specialist physicians in Canada. <i>BMC Medical Informatics and Decision Making</i> , 2020, 20, 44.	1.5	3
