#	ARTICLE	IF	CITATIONS
1	A multilayered post-GWAS assessment on genetic susceptibility to pancreatic cancer. <i>Genome Medicine</i> , 2021, 13, 15.	3.6	15
2	DNA Methylation of Tumor Suppressor Genes in Pituitary Neuroendocrine Tumors. <i>Journal of Clinical Endocrinology and Metabolism</i> , 2019, 104, 1272-1282.	1.8	21
3	Radiotherapy resistance acquisition in Glioblastoma. Role of SOCS1 and SOCS3. <i>PLoS ONE</i> , 2019, 14, e0212581.	1.1	33
4	Characterization of a novel <i>POLD1</i> missense founder mutation in a Spanish population. <i>Journal of Gene Medicine</i> , 2017, 19, e2951.	1.4	4
5	<i>Streptococcus gallolyticus</i> infection in colorectal cancer and association with biological and clinical factors. <i>PLoS ONE</i> , 2017, 12, e0174305.	1.1	30
6	HGUE-C-1 is an atypical and novel colon carcinoma cell line. <i>BMC Cancer</i> , 2015, 15, 240.	1.1	6
7	Prevalence of germline <i>MUTYH</i> mutations among Lynch-like syndrome patients. <i>European Journal of Cancer</i> , 2014, 50, 2241-2250.	1.3	66
8	Prevalence of Lynch Syndrome among Patients with Newly Diagnosed Endometrial Cancers. <i>PLoS ONE</i> , 2013, 8, e79737.	1.1	98
9	Recurrent Testicular Germ Cell Tumors in a Family With MYH-Associated Polyposis. <i>Journal of Clinical Oncology</i> , 2012, 30, e216-e217.	0.8	4
10	<i>TGFBR1</i> Intralocus Epistatic Interaction as a Risk Factor for Colorectal Cancer. <i>PLoS ONE</i> , 2012, 7, e30812.	1.1	4
11	Evidence for classification of c.1852_1853AA>GC in <i>MLH1</i> as a neutral variant for Lynch syndrome. <i>BMC Medical Genetics</i> , 2011, 12, 12.	2.1	7
12	<i>EPCAM</i> Germ Line Deletions as Causes of Lynch Syndrome in Spanish Patients. <i>Journal of Molecular Diagnostics</i> , 2010, 12, 765-770.	1.2	26
13	The <i>TGFBR1</i> *6A allele is not associated with susceptibility to colorectal cancer in a Spanish population: a case-control study. <i>BMC Cancer</i> , 2009, 9, 193.	1.1	14
14	The Int7G24A variant of transforming growth factor-beta receptor type I is a risk factor for colorectal cancer in the male Spanish population: a case-control study. <i>BMC Cancer</i> , 2009, 9, 406.	1.1	12
15	Molecular biology of exocrine pancreatic cancer. <i>Clinical and Translational Oncology</i> , 2006, 8, 306-312.	1.2	6
