#	Article	IF	CITATIONS
1	Patient safety, quality of care and missed nursing care at a cardiology department during the COVIDâ€19 outbreak. Nursing Open, 2022, 9, 385-393.	2.4	26
2	A first remotely-delivered guided brief intervention to reduce intrusive memories of psychological trauma for healthcare staff working during the ongoing COVID-19 pandemic: Study protocol for a randomised controlled trial. Contemporary Clinical Trials Communications, 2022, 26, 100884.	1.1	5
3	Do-Not-Attempt-Cardiopulmonary-Resuscitation (DNACPR) decisions in patients admitted through the emergency department in a Swedish University Hospital – An observational study of outcome, patient characteristics and changes in DNACPR decisions. Resuscitation Plus, 2022, 9, 100209.	1.7	6
4	Missed nursing care in the critical care unit, before and during the COVID-19 pandemic: A comparative cross-sectional study. Intensive and Critical Care Nursing, 2022, 72, 103276.	2.9	16
5	Reducing intrusive memories after trauma via a brief cognitive task intervention in the hospital emergency department: an exploratory pilot randomised controlled trial. Translational Psychiatry, 2021, 11, 30.	4.8	46
6	A simple cognitive task intervention to prevent intrusive memories after trauma in patients in the Emergency Department: A randomized controlled trial terminated due to COVID-19. BMC Research Notes, 2021, 14, 176.	1.4	3
7	Digitalizing a Brief Intervention to Reduce Intrusive Memories of Psychological Trauma for Health Care Staff Working During COVID-19: Exploratory Pilot Study With Nurses. JMIR Formative Research, 2021, 5, e27473.	1.4	14
8	Low adherence to legislation regarding Do-Not-Attempt-Cardiopulmonary-Resuscitation orders in a Swedish University Hospital. Resuscitation Plus, 2021, 6, 100128.	1.7	4
9	Missed nursing care during the COVIDâ€19 pandemic: A comparative observational study. Journal of Nursing Management, 2021, 29, 2343-2352.	3.4	30
10	An updated national survey of triage and triage related work in Sweden: a cross-sectional descriptive and comparative study. Scandinavian Journal of Trauma, Resuscitation and Emergency Medicine, 2021, 29, 89.	2.6	8
11	Nursing staff ratio and skill mix in Swedish emergency departments: A national crossâ€sectional benchmark study. Journal of Nursing Management, 2021, 29, 2594-2602.	3.4	7
12	Reaching people soon after a traumatic event: an exploratory observational feasibility study of recruitment in the emergency department to deliver a brief behavioral intervention via smartphone to prevent intrusive memories of trauma. Pilot and Feasibility Studies, 2021, 7, 184.	1.2	3
13	Exploring the incidence and nature of nursing-sensitive orthopaedic adverse events: A multicenter cohort study using Global Trigger Tool. International Journal of Nursing Studies, 2020, 102, 103473.	5.6	13
14	Translation, culture adaption and psychometric testing of the MISSCARE Survey—Swedish version. Journal of Clinical Nursing, 2020, 29, 4645-4652.	3.0	12
15	Prearrest prediction of favourable neurological survival following in-hospital cardiac arrest: The Prediction of outcome for In-Hospital Cardiac Arrest (PIHCA) score. Resuscitation, 2019, 143, 92-99.	3.0	22
16	Associations Between Crowding and Ten-Day Mortality Among Patients Allocated Lower Triage Acuity Levels Without Need of Acute Hospital Care on Departure From the Emergency Department. Annals of Emergency Medicine, 2019, 74, 345-356.	0.6	51
17	Significant changes in emergency department length of stay and case mix over eight years at a large Swedish University Hospital. International Emergency Nursing, 2019, 43, 50-55.	1.5	11
18	Nonspecific abdominal pain in the Emergency Department: malignancy incidence in a nationwide Swedish cohort study. European Journal of Emergency Medicine, 2018, 25, 105-109.	1.1	14

#	Article	IF	CITATIONS
19	A descriptive study of registered nurses' application of the triage scale RETTS©; a Swedish reliability study. International Emergency Nursing, 2018, 38, 21-28.	1.5	33
20	Physicians' and nurses' perceptions of patient safety risks in the emergency department. International Emergency Nursing, 2017, 33, 14-19.	1.5	42
21	Measurement of peripheral venous catheter-related phlebitis: a cross-sectional study. Lancet Haematology,the, 2017, 4, e424-e430.	4.6	17
22	Factors influencing clinicians' perceptions of interruptions as disturbing or non-disturbing: A qualitative study. International Emergency Nursing, 2016, 27, 11-16.	1.5	17
23	Patients' perspectives on the insufficiency of scales to rate their pain in the ED. American Journal of Emergency Medicine, 2016, 34, 2246-2247.	1.6	2
24	Reasons for interrupting colleagues during emergency department work – A qualitative study. International Emergency Nursing, 2016, 29, 21-26.	1.5	9
25	Survival after in-hospital cardiac arrest is highly associated with the Age-combined Charlson Co-morbidity Index in a cohort study from a two-site Swedish University hospital. Resuscitation, 2016, 99, 79-83.	3.0	39
26	Pain rating in the ED—a comparison between 2 scales in a Swedish hospital. American Journal of Emergency Medicine, 2015, 33, 419-422.	1.6	23
27	Contributing factors to errors in Swedish emergency departments. International Emergency Nursing, 2015, 23, 156-161.	1.5	36
28	Improved outcome in Sweden after out-of-hospital cardiac arrest and possible association with improvements in every link in the chain of survival. European Heart Journal, 2015, 36, 863-871.	2.2	126
29	Patients' pathway to emergency care. European Journal of Emergency Medicine, 2013, 20, 45-50.	1.1	15
30	Prehospital Peripheral Venous Catheters: A Prospective Study of Patient Complications. Journal of Vascular Access, 2012, 13, 16-21.	0.9	15
31	Indication and Usage of Peripheral Venous Catheters Inserted in Adult Patients during Emergency Care. Journal of Vascular Access, 2011, 12, 193-199.	0.9	18
32	Interrater agreement. European Journal of Emergency Medicine, 2011, 18, 68-72.	1.1	23
33	Patient experience of the triage encounter in a Swedish emergency department. International Emergency Nursing, 2010, 18, 36-40.	1.5	22
