#	ARTICLE	IF	CITATIONS
1	Inducing physiological stress recovery with sounds of nature in a virtual reality forest – Results from a pilot study. <i>Physiology and Behavior</i> , 2013, 118, 240-250.	2.1	407
2	Bullying at work, health outcomes, and physiological stress response. <i>Journal of Psychosomatic Research</i> , 2006, 60, 63-72.	2.6	372
3	Long-term stability of salivary cortisol. <i>Scandinavian Journal of Clinical and Laboratory Investigation</i> , 2005, 65, 433-436.	1.2	202
4	Urinary 1-hydroxypyrene (1-HP) in environmental and occupational studies – A review. <i>International Journal of Hygiene and Environmental Health</i> , 2008, 211, 471-503.	4.3	195
5	Collection of domestic waste. Review of occupational health problems and their possible causes. <i>Science of the Total Environment</i> , 1995, 170, 1-19.	8.0	175
6	Sources of biological and methodological variation in salivary cortisol and their impact on measurement among healthy adults: A review. <i>Scandinavian Journal of Clinical and Laboratory Investigation</i> , 2008, 68, 448-458.	1.2	160
7	Sorting and recycling of domestic waste. Review of occupational health problems and their possible causes. <i>Science of the Total Environment</i> , 1995, 168, 33-56.	8.0	152
8	Cardiovascular and cortisol reactivity and habituation to a virtual reality version of the Trier Social Stress Test: A pilot study. <i>Psychoneuroendocrinology</i> , 2010, 35, 1397-1403.	2.7	123
9	Analytical methods for determining urinary catecholamines in healthy subjects. <i>Analytica Chimica Acta</i> , 2001, 449, 1-15.	5.4	114
10	Knowledge hoarding: antecedent or consequent of negative acts? The mediating role of trust and justice. <i>Journal of Knowledge Management</i> , 2016, 20, 215-229.	5.1	110
11	Job Strain and the Risk of Depression: Is Reporting Biased?. <i>American Journal of Epidemiology</i> , 2011, 173, 94-102.	3.4	105
12	Psychological stress and testicular function: a cross-sectional study of 1,215 Danish men. <i>Fertility and Sterility</i> , 2016, 105, 174-187.e2.	1.0	104
13	Seasonal Variation in Human Salivary Cortisol Concentration. <i>Chronobiology International</i> , 2008, 25, 923-937.	2.0	101
14	Evaluation of a radioimmunoassay and establishment of a reference interval for salivary cortisol in healthy subjects in Denmark. <i>Scandinavian Journal of Clinical and Laboratory Investigation</i> , 2003, 63, 303-310.	1.2	99
15	Psychosocial factors at home and at work and levels of salivary cortisol. <i>Biological Psychology</i> , 2006, 73, 280-287.	2.2	98
16	Evaluation of salivary cortisol as a biomarker of self-reported mental stress in field studies. <i>Stress and Health</i> , 2004, 20, 91-98.	2.6	96
17	Seasonal and biological variation of urinary epinephrine, norepinephrine, and cortisol in healthy women. <i>Clinica Chimica Acta</i> , 2001, 309, 25-35.	1.1	94
18	Biomarkers for Exposure to Ambient Air Pollution. Comparison of Carcinogen-DNA Adduct Levels with Other Exposure Markers and Markers for Oxidative Stress. <i>Environmental Health Perspectives</i> , 1999, 107, 233.	6.0	88

#	ARTICLE	IF	CITATIONS
19	Frequency of bullying at work, physiological response, and mental health. <i>Journal of Psychosomatic Research</i> , 2011, 70, 19-27.	2.6	86
20	Copenhagen Aging and Midlife Biobank (CAMB). <i>Journal of Aging and Health</i> , 2014, 26, 5-20.	1.7	84
21	Workplace bullying and workplace violence as risk factors for cardiovascular disease: a multi-cohort study. <i>European Heart Journal</i> , 2019, 40, 1124-1134.	2.2	82
22	A Review of the Effect of the Psychosocial Working Environment on Physiological Changes in Blood and Urine. <i>Basic and Clinical Pharmacology and Toxicology</i> , 2009, 105, 73-83.	2.5	80
23	Association of Sleep Disturbances With Reduced Semen Quality: A Cross-sectional Study Among 953 Healthy Young Danish Men. <i>American Journal of Epidemiology</i> , 2013, 177, 1027-1037.	3.4	80
24	Development and evaluation of a liquid chromatography tandem mass spectrometry method for simultaneous determination of salivary melatonin, cortisol and testosterone. <i>Journal of Chromatography B: Analytical Technologies in the Biomedical and Life Sciences</i> , 2011, 879, 2527-2532.	2.3	79
25	Cortisol, reaction time test and health among offshore shift workers. <i>Psychoneuroendocrinology</i> , 2010, 35, 1339-1347.	2.7	78
26	Depression, the Val66Met polymorphism, age, and gender influence the serum BDNF level. <i>Journal of Psychiatric Research</i> , 2012, 46, 1118-1125.	3.1	77
27	Cardiorespiratory fitness and the metabolic syndrome: Roles of inflammation and abdominal obesity. <i>PLoS ONE</i> , 2018, 13, e0194991.	2.5	77
28	Can architectural design alter the physiological reaction to psychosocial stress? A virtual TSST experiment. <i>Physiology and Behavior</i> , 2014, 135, 91-97.	2.1	76
29	Workplace bullying and violence as risk factors for type 2 diabetes: a multicohort study and meta-analysis. <i>Diabetologia</i> , 2018, 61, 75-83.	6.3	74
30	Correlation between work process-related exposure to polycyclic aromatic hydrocarbons and urinary levels of ?-naphthol, ?-naphthylamine and 1-hydroxypyrene in iron foundry workers. <i>International Archives of Occupational and Environmental Health</i> , 1994, 65, 385-394.	2.3	69
31	Workplace bullying and sleep difficulties: a 2-year follow-up study. <i>International Archives of Occupational and Environmental Health</i> , 2014, 87, 285-294.	2.3	69
32	Diurnal Urinary 6â€Sulfatoxymelatonin Levels among Healthy Danish Nurses during Work and Leisure Time. <i>Chronobiology International</i> , 2006, 23, 1203-1215.	2.0	66
33	Occupational Noise Exposure and the Risk of Hypertension. <i>Epidemiology</i> , 2013, 24, 135-142.	2.7	66
34	Exposure to negative acts at work, psychological stress reactions and physiological stress response. <i>Journal of Psychosomatic Research</i> , 2012, 73, 47-52.	2.6	65
35	Health correlates of workplace bullying: a 3-wave prospective follow-up study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2016, 42, 17-25.	3.4	62
36	How to schedule night shift work in order to reduce health and safety risks. <i>Scandinavian Journal of Work, Environment and Health</i> , 2020, 46, 557-569.	3.4	62

#	ARTICLE	IF	CITATIONS
37	Quantifying catecholamines using multi-way kinetic modelling. <i>Analytica Chimica Acta</i> , 2003, 475, 137-150.	5.4	61
38	Urinary 1-hydroxypyrene and mutagenicity in bus drivers and mail carriers exposed to urban air pollution in Denmark. <i>Mutation Research - Genetic Toxicology and Environmental Mutagenesis</i> , 2004, 557, 7-17.	1.7	59
39	Retrospectively assessed physical work environment during working life and risk of sickness absence and labour market exit among older workers. <i>Occupational and Environmental Medicine</i> , 2018, 75, 114-123.	2.8	59
40	Comparison of Uncertainties Related to Standardization of Urine Samples with Volume and Creatinine Concentration. <i>Annals of Occupational Hygiene</i> , 2004, 48, 171-9.	1.9	58
41	Physical activity, job demand–control, perceived stress–energy, and salivary cortisol in white-collar workers. <i>International Archives of Occupational and Environmental Health</i> , 2010, 83, 143-153.	2.3	58
42	Exposure to Workplace Bullying and Risk of Depression. <i>Journal of Occupational and Environmental Medicine</i> , 2014, 56, 1258-1265.	1.7	57
43	Is Sickness Presenteeism a Risk Factor for Depression? A Danish 2-Year Follow-Up Study. <i>Journal of Occupational and Environmental Medicine</i> , 2014, 56, 595-603.	1.7	56
44	Night work and miscarriage: a Danish nationwide register-based cohort study. <i>Occupational and Environmental Medicine</i> , 2019, 76, 302-308.	2.8	55
45	Implementation of self-rostering (the PRIO-project): effects on working hours, recovery, and health. <i>Scandinavian Journal of Work, Environment and Health</i> , 2012, 38, 314-326.	3.4	54
46	Validation of a high performance liquid chromatography analysis for the determination of noradrenaline and adrenaline in human urine with an on-line sample purification. <i>Talanta</i> , 1999, 50, 367-379.	5.5	53
47	Prenatal stress may increase vulnerability to life events: Comparison with the effects of prenatal dexamethasone. <i>Developmental Brain Research</i> , 2005, 159, 55-63.	1.7	52
48	Effects of prenatal exposure to chronic mild stress and toluene in rats. <i>Neurotoxicology and Teratology</i> , 2005, 27, 153-167.	2.4	50
49	Sleep length and quality, sleepiness and urinary melatonin among healthy Danish nurses with shift work during work and leisure time. <i>International Archives of Occupational and Environmental Health</i> , 2009, 82, 1219-1228.	2.3	50
50	Work-unit measures of organisational justice and risk of depression—a 2-year cohort study. <i>Occupational and Environmental Medicine</i> , 2013, 70, 380-385.	2.8	50
51	Long-term consequences of workplace bullying on sickness absence. <i>Labour Economics</i> , 2016, 43, 129-150.	1.7	50
52	Determination of 1-Hydroxypyrene in Human Urine by High-Performance Liquid Chromatography. <i>Journal of Analytical Toxicology</i> , 1993, 17, 38-41.	2.8	49
53	Exposure of iron foundry workers to polycyclic aromatic hydrocarbons: benzo(a)pyrene-albumin adducts and 1-hydroxypyrene as biomarkers for exposure.. <i>Occupational and Environmental Medicine</i> , 1994, 51, 513-518.	2.8	48
54	Work-life balance among shift workers: results from an intervention study about self-rostering. <i>International Archives of Occupational and Environmental Health</i> , 2014, 87, 265-274.	2.3	48

#	ARTICLE	IF	CITATIONS
55	Early life adversity potentiates the effects of later life stress on cumulative physiological dysregulation. <i>Anxiety, Stress and Coping</i> , 2015, 28, 372-390.	2.9	48
56	Biomarkers of intermediate endpoints in environmental and occupational health. <i>International Journal of Hygiene and Environmental Health</i> , 2007, 210, 461-470.	4.3	47
57	COVID-19 risk management at the workplace, fear of infection and fear of transmission of infection among frontline employees. <i>Occupational and Environmental Medicine</i> , 2021, 78, 248-254.	2.8	47
58	Cortisol in urine and saliva: relations to the intima media thickness, IMT. <i>Atherosclerosis</i> , 2001, 159, 175-185.	0.8	45
59	Workplace bullying and sickness presenteeism: cross-sectional and prospective associations in a 2-year follow-up study. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 103-114.	2.3	45
60	An inter-laboratory comparison for determination of cortisol in saliva. <i>Accreditation and Quality Assurance</i> , 2003, 8, 16-20.	0.8	44
61	Individual Consequences of Workplace Bullying/Mobbing. , 2010, , 107-128.		44
62	Cohort Profile: The Copenhagen Aging and Midlife Biobank (CAMB). <i>International Journal of Epidemiology</i> , 2016, 45, dyv149.	1.9	44
63	Salivary cortisol and sleep problems among civil servants. <i>Psychoneuroendocrinology</i> , 2012, 37, 1086-1095.	2.7	43
64	Changes in the diurnal rhythms of cortisol, melatonin, and testosterone after 2, 4, and 7 consecutive night shifts in male police officers. <i>Chronobiology International</i> , 2016, 33, 1280-1292.	2.0	43
65	Bi-Directional Associations Between Psychological Arousal, Cortisol, and Sleep. <i>Behavioral Sleep Medicine</i> , 2012, 10, 28-40.	2.1	42
66	Exhaustion-related changes in cardiovascular and cortisol reactivity to acute psychosocial stress. <i>Physiology and Behavior</i> , 2015, 151, 327-337.	2.1	42
67	Stress reactions to cognitively demanding tasks and open-plan office noise. <i>International Archives of Occupational and Environmental Health</i> , 2009, 82, 631-641.	2.3	41
68	Effects of lifestyle factors on concentrations of salivary cortisol in healthy individuals. <i>Scandinavian Journal of Clinical and Laboratory Investigation</i> , 2009, 69, 242-250.	1.2	40
69	Personality trait scores among occupationally active bullied persons and witnesses to bullying. <i>Motivation and Emotion</i> , 2009, 33, 387-399.	1.3	39
70	The role of poor sleep in the relation between workplace bullying/unwanted sexual attention and long-term sickness absence. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 967-979.	2.3	39
71	Association between polycyclic aromatic hydrocarbon exposure and peripheral blood mononuclear cell DNA damage in human volunteers during fire extinction exercises. <i>Mutagenesis</i> , 2018, 33, 105-115.	2.6	39
72	A two-year follow-up study of salivary cortisol concentration and the risk of depression. <i>Psychoneuroendocrinology</i> , 2013, 38, 2042-2050.	2.7	38

#	ARTICLE	IF	CITATIONS
73	Defective mitochondrial respiration, altered dNTP pools and reduced AP endonuclease 1 activity in peripheral blood mononuclear cells of Alzheimer's disease patients. <i>Aging</i> , 2015, 7, 793-810.	3.1	38
74	Cumulative occupational mechanical exposures during working life and risk of sickness absence and disability pension: prospective cohort study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2017, 43, 415-425.	3.4	38
75	Estimation of reference values for urinary 1-hydroxypyrene and 1-naphthol in Danish workers. <i>Science of the Total Environment</i> , 1995, 163, 211-219.	8.0	37
76	Urinary 1-hydroxypyrene in children living in city and rural residences in Denmark. <i>Science of the Total Environment</i> , 2005, 347, 98-105.	8.0	37
77	Coping with Work-Related Stress through Guided Imagery and Music (GIM): Randomized Controlled Trial. <i>Journal of Music Therapy</i> , 2015, 52, 323-352.	0.9	36
78	Assessment of polycyclic aromatic hydrocarbon exposure, lung function, systemic inflammation, and genotoxicity in peripheral blood mononuclear cells from firefighters before and after a work shift. <i>Environmental and Molecular Mutagenesis</i> , 2018, 59, 539-548.	2.2	36
79	Long-term effects of psychosocial factors of home and work on biomarkers of stress. <i>International Journal of Psychophysiology</i> , 2011, 79, 195-202.	1.0	35
80	Are risk estimates biased in follow-up studies of psychosocial factors with low base-line participation?. <i>BMC Public Health</i> , 2011, 11, 539.	2.9	35
81	Recent and long-term occupational noise exposure and salivary cortisol level. <i>Psychoneuroendocrinology</i> , 2014, 39, 21-32.	2.7	35
82	Quality of Leadership and Workplace Bullying: The Mediating Role of Social Community at Work in a Two-Year Follow-Up Study. <i>Journal of Business Ethics</i> , 2018, 147, 889-899.	6.0	35
83	The effects of the number of consecutive night shifts on sleep duration and quality. <i>Scandinavian Journal of Work, Environment and Health</i> , 2020, 46, 446-453.	3.4	35
84	Short-term effects of night shift work on breast cancer risk: a cohort study of payroll data. <i>Scandinavian Journal of Work, Environment and Health</i> , 2017, 43, 59-67.	3.4	34
85	The effect of the number of consecutive night shifts on diurnal rhythms in cortisol, melatonin and heart rate variability (HRV): a systematic review of field studies. <i>International Archives of Occupational and Environmental Health</i> , 2016, 89, 531-545.	2.3	33
86	Sleep duration and ischemic heart disease and all-cause mortality: Prospective cohort study on effects of tranquilizers/hypnotics and perceived stress. <i>Scandinavian Journal of Work, Environment and Health</i> , 2013, 39, 550-558.	3.4	33
87	Workplace bullying, sleep problems and leisure-time physical activity: a prospective cohort study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2016, 42, 26-33.	3.4	32
88	Psychological stress, stressful life events, male factor infertility, and testicular function: a cross-sectional study. <i>Fertility and Sterility</i> , 2020, 113, 865-875.	1.0	31
89	Association between plasma testosterone and work-related neck and shoulder disorders among female workers. <i>Scandinavian Journal of Work, Environment and Health</i> , 2000, 26, 292-298.	3.4	31
90	Social Class Differences in Physical Functions in Middle-Aged Men and Women. <i>Journal of Aging and Health</i> , 2014, 26, 88-105.	1.7	30

#	ARTICLE	IF	CITATIONS
91	Comparison and Correction of the Light Sensor Output from 48 Wearable Light Exposure Devices by Using a Side-by-Side Field Calibration Method. LEUKOS - Journal of Illuminating Engineering Society of North America, 2015, 11, 155-171.	2.9	30
92	Night work, light exposure and melatonin on work days and days off. Chronobiology International, 2017, 34, 942-955.	2.0	30
93	Cortisol, sleep, and recovery " Some gender differences but no straight associations. Psychoneuroendocrinology, 2012, 37, 56-64.	2.7	29
94	Working time characteristics and long-term sickness absence among Danish and Finnish nurses: A register-based study. International Journal of Nursing Studies, 2020, 112, 103639.	5.6	29
95	Exhaustion measured by the SF-36 vitality scale is associated with a flattened diurnal cortisol profile. Psychoneuroendocrinology, 2008, 33, 471-477.	2.7	28
96	Measurement of salivary cortisol " effects of replacing polyester with cotton and switching antibody. Scandinavian Journal of Clinical and Laboratory Investigation, 2008, 68, 826-829.	1.2	28
97	Self-reported fatigue and physical function in late mid-life. Journal of Rehabilitation Medicine, 2014, 46, 684-690.	1.1	28
98	Impaired sleep and allostatic load: cross-sectional results from the Danish Copenhagen Aging and Midlife Biobank. Sleep Medicine, 2014, 15, 1571-1578.	1.6	28
99	Short time between shifts and risk of injury among Danish hospital workers: a register-based cohort study. Scandinavian Journal of Work, Environment and Health, 2019, 45, 166-173.	3.4	28
100	Reference Intervals and Variation for Urinary Epinephrine, Norepinephrine and Cortisol in Healthy Men and Women in Denmark. Clinical Chemistry and Laboratory Medicine, 2001, 39, 842-9.	2.3	27
101	The norepinephrine transporter gene is a candidate gene for panic disorder. Journal of Neural Transmission, 2011, 118, 969-976.	2.8	27
102	Depression and BMI influences the serum vascular endothelial growth factor level. International Journal of Neuropsychopharmacology, 2014, 17, 1409-1417.	2.1	27
103	Neighborhood perceptions and allostatic load: Evidence from Denmark. Health and Place, 2016, 40, 1-8.	3.3	27
104	VALIDATION OF A HIGH-PERFORMANCE LIQUID CHROMATOGRAPHY/FLUORESCENCE DETECTION METHOD FOR THE SIMULTANEOUS QUANTIFICATION OF FIFTEEN POLYCYCLIC AROMATIC HYDROCARBONS. Annals of Occupational Hygiene, 1991, 35, 603-11.	1.9	26
105	Objective and subjective stress, personality, and allostatic load. Brain and Behavior, 2019, 9, e01386.	2.2	26
106	Mid- to late-life migraine diagnoses and risk of dementia: a national register-based follow-up study. Journal of Headache and Pain, 2020, 21, 98.	6.0	26
107	Building-related symptoms and stress indicators. Indoor Air, 2008, 18, 440-446.	4.3	25
108	Negative Acts at Work as Potential Bullying Behavior and Depression. Journal of Occupational and Environmental Medicine, 2016, 58, e72-e79.	1.7	25

#	ARTICLE	IF	CITATIONS
109	The Role of Psychological Stress Reactions in the Longitudinal Relation Between Workplace Bullying and Turnover. <i>Journal of Occupational and Environmental Medicine</i> , 2017, 59, 665-672.	1.7	25
110	Optimal Cut-Off Points for the Short-Negative Act Questionnaire and Their Association with Depressive Symptoms and Diagnosis of Depression. <i>Annals of Work Exposures and Health</i> , 2018, 62, 281-294.	1.4	25
111	Light Exposure during Days with Night, Outdoor, and Indoor Work. <i>Annals of Work Exposures and Health</i> , 2019, 63, 651-665.	1.4	25
112	Working hour characteristics and schedules among nurses in three Nordic countries – a comparative study using payroll data. <i>BMC Nursing</i> , 2019, 18, 12.	2.5	25
113	Night work and hypertensive disorders of pregnancy: a national register-based cohort study. <i>Scandinavian Journal of Work, Environment and Health</i> , 2018, 44, 403-413.	3.4	25
114	Cortisol variability and self-reports in the measurement of work-related stress. <i>Stress and Health</i> , 2011, 27, e11-24.	2.6	24
115	Do Personal Dispositions Affect the Relationship Between Psychosocial Working Conditions and Workplace Bullying?. <i>Ethics and Behavior</i> , 2016, 26, 451-469.	1.8	24
116	Retrospectively assessed psychosocial working conditions as predictors of prospectively assessed sickness absence and disability pension among older workers. <i>BMC Public Health</i> , 2018, 18, 149.	2.9	24
117	Work-unit social capital and long-term sickness absence: a prospective cohort study of 32 053 hospital employees. <i>Occupational and Environmental Medicine</i> , 2018, 75, 623-629.	2.8	24
118	The influence of production systems on self-reported arousal, sleepiness, physical exertion and fatigue-consequences of increasing mechanization. <i>Stress and Health</i> , 2003, 19, 163-171.	2.6	23
119	Urinary 1-hydroxypyrene in children living in city and rural residences in Denmark. <i>Science of the Total Environment</i> , 2006, 363, 70-77.	8.0	23
120	Does Perceived Stress Mediate the Association Between Workplace Bullying and Long-Term Sickness Absence?. <i>Journal of Occupational and Environmental Medicine</i> , 2016, 58, e226-e230.	1.7	23
121	Cortisol, Health, and Coping in Patients with Nonspecific Low Back Pain. <i>Applied Psychophysiology Biofeedback</i> , 2016, 41, 9-16.	1.7	23
122	Does Workplace Bullying Affect Long-Term Sickness Absence Among Coworkers?. <i>Journal of Occupational and Environmental Medicine</i> , 2018, 60, 132-137.	1.7	23
123	Night work during pregnancy and preterm birth – A large register-based cohort study. <i>PLoS ONE</i> , 2019, 14, e0215748.	2.5	23
124	Reference interval and subject variation in excretion of urinary metabolites of nicotine from non-smoking healthy subjects in Denmark. <i>Clinica Chimica Acta</i> , 2001, 304, 125-132.	1.1	22
125	Risk of Breast Cancer in Relation to Combined Effects of Hormone Therapy, Body Mass Index, and Alcohol Use, by Hormone-receptor Status. <i>Epidemiology</i> , 2015, 26, 353-361.	2.7	22
126	Associations of subjective vitality with <scp>DNA</scp> damage, cardiovascular risk factors and physical performance. <i>Acta Physiologica</i> , 2015, 213, 156-170.	3.8	22

#	ARTICLE	IF	CITATIONS
127	Enhancement of developmental toxicity effects of chemicals by gestational stress. A review. <i>Neurotoxicology and Teratology</i> , 2007, 29, 425-445.	2.4	21
128	Does outdoor work during the winter season protect against depression and mood difficulties?. <i>Scandinavian Journal of Work, Environment and Health</i> , 2011, 37, 446-449.	3.4	21
129	A two-year follow-up study of risk of depression according to work-unit measures of psychological demands and decision latitude. <i>Scandinavian Journal of Work, Environment and Health</i> , 2012, 38, 527-536.	3.4	21
130	Risk of injury after evening and night work – findings from the Danish Working Hour Database. <i>Scandinavian Journal of Work, Environment and Health</i> , 2018, 44, 385-393.	3.4	21
131	Cardiorespiratory fitness, cardiovascular workload and risk factors among cleaners; a cluster randomized worksite intervention. <i>BMC Public Health</i> , 2012, 12, 645.	2.9	20
132	Prolonged perceived stress and saliva cortisol in a large cohort of Danish public service employees: cross-sectional and longitudinal associations. <i>International Archives of Occupational and Environmental Health</i> , 2017, 90, 835-848.	2.3	20
