| #  | ARTICLE                                                                                                                                                                                                  | IF  | CITATIONS |
|----|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 1  | Comparison of Computed Tomography Perfusion and Multiphase Computed Tomography Angiogram in Predicting Clinical Outcomes in Endovascular Thrombectomy. <i>Stroke</i> , 2022, 53, 2926-2934.              | 1.0 | 7         |
| 2  | Correlation between CT angiography and digital subtraction angiography in acute ischemic strokes. <i>Clinical Neurology and Neurosurgery</i> , 2021, 200, 106399.                                        | 0.6 | 9         |
| 3  | Tenecteplase vs Alteplase Before Endovascular Therapy in Basilar Artery Occlusion. <i>Neurology</i> , 2021, 96, e1272-e1277.                                                                             | 1.5 | 30        |
| 4  | Intrinsic hospital factors: overlooked cause for variations in delay to transfer for endovascular thrombectomy. <i>Journal of NeuroInterventional Surgery</i> , 2021, 13, 968-973.                       | 2.0 | 1         |
| 5  | Optimal Tissue Reperfusion Estimation by Computed Tomography Perfusion Post-Thrombectomy in Acute Ischemic Stroke. <i>Stroke</i> , 2021, 52, e760-e763.                                                  | 1.0 | 10        |
| 6  | Association between CYP2C9 polymorphisms and ischemic stroke following endovascular neurointervention. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2020, 29, 104901.                         | 0.7 | 3         |
| 7  | Transbrachial Caval Filter Removal: A Simple Alternative. <i>CardioVascular and Interventional Radiology</i> , 2020, 43, 1722-1724.                                                                      | 0.9 | 0         |
| 8  | Cerebrospinal fluid cannot be used to distinguish inflammatory myelitis from congestive myelopathy due to spinal dural arteriovenous fistula: case series. <i>BMJ Neurology Open</i> , 2019, 1, e000019. | 0.7 | 3         |
| 9  | Endovascular clot retrieval in acute stroke with large ischaemic core is not always associated with poor outcomes. <i>Internal Medicine Journal</i> , 2019, 49, 490-494.                                 | 0.5 | 4         |
| 10 | Selection criteria for endovascular therapy for acute ischaemic stroke: Are patients missing out?. <i>Journal of Medical Imaging and Radiation Oncology</i> , 2018, 62, 345-354.                         | 0.9 | 0         |
| 11 | Insights into variations in preferred selection criteria for acute stroke endovascular therapy. <i>Journal of NeuroInterventional Surgery</i> , 2018, 10, 542-549.                                       | 2.0 | 4         |
| 12 | The CT Swirl Sign Is Associated with Hematoma Expansion in Intracerebral Hemorrhage. <i>American Journal of Neuroradiology</i> , 2018, 39, 232-237.                                                      | 1.2 | 45        |
| 13 | Clot Migration Is Associated With Intravenous Thrombolysis in the Setting of Acute Ischemic Stroke. <i>Stroke</i> , 2018, 49, 3060-3062.                                                                 | 1.0 | 33        |
| 14 | Endovascular Clot Retrieval by Hub-and-Spoke Service Delivery is Feasible Compared with Direct-to-Mothership. <i>Cerebrovascular Diseases</i> , 2018, 46, 170-175.                                       | 0.8 | 10        |
| 15 | Safety of Endovascular Thrombectomy for Acute Ischaemic Stroke in Anticoagulated Patients Ineligible for Intravenous Thrombolysis. <i>Cerebrovascular Diseases</i> , 2018, 46, 193-199.                  | 0.8 | 24        |
| 16 | Streamlining Workflow for Endovascular Mechanical Thrombectomy: Lessons Learned from a Comprehensive Stroke Center. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2017, 26, 1655-1662.         | 0.7 | 34        |
| 17 | Blood Pressure May Be Associated with Arterial Collateralization in Anterior Circulation Ischemic Stroke before Acute Reperfusion Therapy. <i>Journal of Stroke</i> , 2017, 19, 222-228.                 | 1.4 | 26        |
| 18 | Early Recanalization Postintravenous Thrombolysis in Ischemic Stroke with Large Vessel Occlusion: A Digital Subtraction Angiography Study. <i>CNS Neuroscience and Therapeutics</i> , 2016, 22, 643-647. | 1.9 | 11        |

| #  | ARTICLE                                                                                                                                                                                                                                                                | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 19 | Successful recanalization post endovascular therapy is associated with a decreased risk of intracranial haemorrhage: a retrospective study. <i>BMC Neurology</i> , 2015, 15, 185.                                                                                      | 0.8 | 31        |
| 20 | Phase II trial of selective internal radiation therapy and systemic chemotherapy for liver-predominant metastases from pancreatic adenocarcinoma. <i>BMC Cancer</i> , 2015, 15, 802.                                                                                   | 1.1 | 17        |
| 21 | Differential kinetics of response and toxicity using stereotactic radiation and interventional radiological coiling for pulmonary arteriovenous shunting from metastatic leiomyosarcoma. <i>Journal of Medical Imaging and Radiation Oncology</i> , 2015, 59, 486-488. | 0.9 | 0         |
| 22 | Is there association between hyperdense middle cerebral artery sign on CT scan and time from stroke onset within the first 24-hours?. <i>BMC Neurology</i> , 2015, 15, 101.                                                                                            | 0.8 | 11        |
| 23 | Thrombus composition in acute ischemic stroke: A histopathological study of thrombus extracted by endovascular retrieval. <i>Journal of Neuroradiology</i> , 2015, 42, 86-92.                                                                                          | 0.6 | 101       |
| 24 | Evolution of Endovascular Therapy in Acute Stroke: Implications of Device Development. <i>Journal of Stroke</i> , 2015, 17, 127.                                                                                                                                       | 1.4 | 26        |
| 25 | Machine Learning for Outcome Prediction of Acute Ischemic Stroke Post Intra-Arterial Therapy. <i>PLoS ONE</i> , 2014, 9, e88225.                                                                                                                                       | 1.1 | 159       |
| 26 | Proximal Hyperdense Middle Cerebral Artery Sign Predicts Poor Response to Thrombolysis. <i>PLoS ONE</i> , 2014, 9, e96123.                                                                                                                                             | 1.1 | 20        |
| 27 | Facial Nerve Injury as a Complication of Endovascular Treatment for Cavernous Dural Arteriovenous Fistula. <i>Orbit</i> , 2014, 33, 462-464.                                                                                                                           | 0.5 | 5         |
| 28 | Low Alberta Stroke Program Early CT Score (ASPECTS) Associated with Malignant Middle Cerebral Artery Infarction. <i>Cerebrovascular Diseases</i> , 2014, 38, 39-45.                                                                                                    | 0.8 | 44        |
| 29 | Reply to the Letter from Dale Ding, MD. <i>Cerebrovascular Diseases</i> , 2014, 38, 393-394.                                                                                                                                                                           | 0.8 | 0         |
| 30 | Recanalisation success is associated with good clinical outcome despite advanced age and stroke severity in patients treated with the Solitaire stentriever. <i>Journal of Clinical Neuroscience</i> , 2014, 21, 401-405.                                              | 0.8 | 9         |
| 31 | Leukoaraiosis and Early Neurological Recovery after Intravenous Thrombolysis. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2014, 23, 2431-2436.                                                                                                             | 0.7 | 14        |
| 32 | Recanalisation success is independent of ASPECTS in predicting outcomes after intra-arterial therapy for acute ischaemic stroke. <i>Journal of Clinical Neuroscience</i> , 2014, 21, 1344-1348.                                                                        | 0.8 | 1         |
| 33 | Successful Treatment of Growing Basilar Artery Dissecting Aneurysm by Pipeline Flow Diversion Embolization Device. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2014, 23, 1713-1716.                                                                        | 0.7 | 12        |
| 34 | A Rare Cause of Embolic Stroke in Hereditary Hemorrhagic Telangiectasia. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2014, 23, 1245-1246.                                                                                                                  | 0.7 | 10        |
| 35 | Assessment of Arterial Collateralization and Its Relevance to Intra-arterial Therapy for Acute Ischemic Stroke. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2014, 23, 399-407.                                                                             | 0.7 | 11        |
| 36 | Clinical factors are significant predictors of outcome post intra-arterial therapy for acute ischaemic stroke: A review. <i>Journal of Neuroradiology</i> , 2013, 40, 315-325.                                                                                         | 0.6 | 8         |

| #  | ARTICLE                                                                                                                                                                                                          | IF  | CITATIONS |
|----|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-----------|
| 37 | Comparison of microsurgery and endovascular treatment on clinical outcome following poor-grade subarachnoid hemorrhage. <i>Journal of Clinical Neuroscience</i> , 2013, 20, 1213-1218.                           | 0.8 | 35        |
| 38 | Is hypertension predictive of clinical recurrence in posterior reversible encephalopathy syndrome?. <i>Journal of Clinical Neuroscience</i> , 2013, 20, 248-252.                                                 | 0.8 | 39        |
| 39 | Does Small Aneurysm Size Predict Intraoperative Rupture during Coiling in Ruptured and Unruptured Aneurysms?. <i>Journal of Stroke and Cerebrovascular Diseases</i> , 2013, 22, 1298-1303.                       | 0.7 | 32        |
| 40 | Use of the AngioJet percutaneous thrombectomy system for the treatment of acute Budd-Chiari syndrome. <i>BMJ Case Reports</i> , 2013, 2013, bcr2013008632-bcr2013008632.                                         | 0.2 | 1         |
| 41 | Shorter time to intervention improves recanalization success and clinical outcome post intra-arterial intervention for basilar artery thrombosis. <i>Journal of Clinical Neuroscience</i> , 2012, 19, 1397-1400. | 0.8 | 5         |
| 42 | Penetrating liver injury managed with a combination of balloon tamponade and venous stenting. A case report and literature review. <i>Injury</i> , 2012, 43, 119-122.                                            | 0.7 | 8         |
| 43 | Radioembolization in Combination with Systemic Chemotherapy as First-line Therapy for Liver Metastases from Colorectal Cancer. <i>Journal of Vascular and Interventional Radiology</i> , 2011, 22, 780-786.      | 0.2 | 64        |
| 44 | Prognosis of intracranial dissection relates to site and presenting features. <i>Journal of Clinical Neuroscience</i> , 2011, 18, 789-793.                                                                       | 0.8 | 28        |
| 45 | A case of cerebral and retinal vascular anomaly in a patient with Klippel-Trenaunay-Weber syndrome. <i>Journal of Neurology, Neurosurgery and Psychiatry</i> , 2011, 82, 1049-1050.                              | 0.9 | 2         |
| 46 | Risk of growth in unruptured intracranial aneurysms: A retrospective analysis. <i>Journal of Clinical Neuroscience</i> , 2010, 17, 29-33.                                                                        | 0.8 | 30        |
| 47 | Possible association of autoimmune hepatitis and splenic artery aneurysms. <i>Liver International</i> , 2008, 28, 1467-1468.                                                                                     | 1.9 | 1         |
| 48 | ENDORECTAL MAGNETIC RESONANCE IMAGING STAGING OF PROSTATE CANCER. <i>ANZ Journal of Surgery</i> , 2007, 77, 860-865.                                                                                             | 0.3 | 26        |
| 49 | Renal Tract Calculi: Comparison of Stone Size on Plain Radiography and Noncontrast Spiral CT Scan. <i>Journal of Endourology</i> , 2006, 20, 1005-1009.                                                          | 1.1 | 38        |
| 50 | Complication of a venous wallstent. <i>Journal of Medical Imaging and Radiation Oncology</i> , 1999, 43, 246-248.                                                                                                | 0.6 | 3         |
