#	ARTICLE	IF	CITATIONS
1	Assessment of the function and morphology of the thyroid gland in paediatric patients treated with enzyme replacement therapy due to selected storage diseases – preliminary results of our own research and a review of the literature. <i>Pediatric Endocrinology, Diabetes and Metabolism</i> , 2022, , .	0.7	0
2	An Attempt to Assess the Impact of Pandemic Restrictions on the Lifestyle, Diet, and Body Mass Index of Children with Endocrine Diseases – Preliminary Results. <i>Nutrients</i> , 2022, 14, 156.	4.1	7
3	Response to Treatment with Recombinant Human Growth Hormone (rhGH) of Short Stature Children Born Too Small for Gestational Age (SGA) in Selected Centres in Poland. <i>Journal of Clinical Medicine</i> , 2022, 11, 3096.	2.4	2
4	Arterial hypertension is associated with an increased risk of metabolic complications in pediatric patient with obesity. <i>Journal of Pediatric Endocrinology and Metabolism</i> , 2022, 35, 1028-1032.	0.9	1
5	Amino acids profile in girls with Turner syndrome during growth hormone therapy. <i>Endokrynologia Polska</i> , 2021, 72, 51-52.	1.0	1
6	Increased prevalence of celiac disease and its clinical picture among patients with diabetes mellitus type 1 – observations from a single pediatric center in Central Europe. <i>Pediatric Endocrinology, Diabetes and Metabolism</i> , 2021, 27, 1-6.	0.7	3
7	Diversity of Pathological Conditions Affecting Pituitary Stalk. <i>Journal of Clinical Medicine</i> , 2021, 10, 1692.	2.4	6
8	Testing of Adrenal Axis Function in Patients With Combined Pituitary Hormone Deficiency Caused by PROP1 Mutation. <i>Journal of the Endocrine Society</i> , 2021, 5, A635-A635.	0.2	0
9	Pituitary Stalk Lesions - Single Center Long Term Observation. <i>Journal of the Endocrine Society</i> , 2021, 5, A631-A632.	0.2	0
10	Nocturnal non-dipping on 24-h Ambulatory Blood Pressure Monitoring in children and adolescents with obesity is associated with higher total cholesterol levels. <i>Clinical and Experimental Hypertension</i> , 2021, , 1-6.	1.3	0
11	Can primary care physicians recognize type 1 diabetes in children on time?. <i>Pediatric Endocrinology, Diabetes and Metabolism</i> , 2021, , .	0.7	0
12	Anti-tumour necrosis factor $\hat{\pm}$ therapy – Does it increase the risk of thyroid disease or protect against its development?. <i>Pediatric Endocrinology, Diabetes and Metabolism</i> , 2020, 26, 144-149.	0.7	1
13	Infliximab Therapy Could Decrease the Risk of the Development of Thyroid Disorders in Pediatric Patients With Crohn's Disease. <i>Frontiers in Endocrinology</i> , 2020, 11, 558897.	3.5	1
14	Prevalence of glucose metabolism disorders in a cohort of children and adolescents with obesity. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2020, 109, 2364-2365.	1.5	1
15	Metabolic Fingerprint of Turner Syndrome. <i>Journal of Clinical Medicine</i> , 2020, 9, 664.	2.4	7
16	Evaluation of the usefulness of antimüllerian hormone and inhibin B as markers of ovarian activity in patients with Turner syndrome – preliminary results. <i>Pediatric Endocrinology, Diabetes and Metabolism</i> , 2020, 26, 84-88.	0.7	5
17	Circulating chemerin level may be associated with early vascular pathology in obese children without overt arterial hypertension – preliminary results. <i>Journal of Pediatric Endocrinology and Metabolism</i> , 2020, 33, 729-734.	0.9	9
18	Increased Incidence of Type 1 Diabetes in Children and No Change in the Age of Diagnosis and BMI-SDS at the Onset - is the Accelerator Hypothesis not Working?. <i>JCRPE Journal of Clinical Research in Pediatric Endocrinology</i> , 2020, 12, 281-286.	0.9	2

#	ARTICLE	IF	CITATIONS
19	Increased Incidence of Type 1 Diabetes in Children and No Change in the Age of Diagnosis and BMI-SDS at the Onset - is the Accelerator Hypothesis not Working?. JCRPE Journal of Clinical Research in Pediatric Endocrinology, 2020, 12, 281-286.	0.9	8
20	Sclerostin and its association with insulin resistance in children and adolescents. Bone, 2019, 120, 232-238.	2.9	21
21	Sclerostin and its significance for children and adolescents with type 1 diabetes mellitus (T1D). Bone, 2019, 120, 387-392.	2.9	26
22	Cushing disease in children and adolescents – assessment of the clinical course, diagnostic process, and effects of the treatment – experience from a single paediatric centre. Pediatric Endocrinology, Diabetes and Metabolism, 2019, 25, 127-143.	0.7	12
23	Cyclic Cushing's Disease in the Prepubertal Period – A Case Report and Review of Literature. Frontiers in Endocrinology, 2019, 10, 701.	3.5	4
24	The impact of thyroid function on the occurrence of metabolic syndrome in obese children and adolescents. Pediatric Endocrinology, Diabetes and Metabolism, 2019, 25, 1-5.	0.7	10
25	Secondary Adrenal Insufficiency due to Intra-articular Glucocorticoid Injections. Indian Pediatrics, 2019, 56, 242-243.	0.4	4
26	Extrathyroidal congenital defects in children with congenital hypothyroidism – observations from a single paediatric centre in Central Europe with a review of literature. Pediatric Endocrinology, Diabetes and Metabolism, 2019, 25, 114-121.	0.7	9
27	Amiodarone-induced thyroid dysfunction in the developmental period: prenatally, in childhood, and adolescence – case reports and a review of the literature. Endokrynologia Polska, 2019, 70, 392-400.	1.0	4
28	Liver Biochemical Abnormalities in Adolescent Patients with Turner Syndrome. JCRPE Journal of Clinical Research in Pediatric Endocrinology, 2019, 11, 395-399.	0.9	4
29	Secondary Adrenal Insufficiency due to Intra-articular Glucocorticoid Injections. Indian Pediatrics, 2019, 56, 242-243.	0.4	2
30	Vitamin D supplementation in theory and daily practice – implementation of new updated Polish recommendations on the example of one pediatric centre. Pediatric Endocrinology, Diabetes and Metabolism, 2018, 24, 174-178.	0.7	0
31	Shall we diagnose metabolic syndrome in adolescents?. Neuroendocrinology Letters, 2018, 39, 130-134.	0.2	0
32	Prepubertal ultra-low-dose estrogen therapy is associated with healthier lipid profile than conventional estrogen replacement for pubertal induction in adolescent girls with Turner syndrome: preliminary results. Journal of Endocrinological Investigation, 2017, 40, 875-879.	3.3	7
33	The potential impact of the hypovitaminosis D on metabolic complications in obese adolescents – Preliminary results. Annals of Agricultural and Environmental Medicine, 2017, 24, 636-639.	1.0	15
34	Intima media thickness of common carotids and abdominal aorta in children and adolescents with congenital adrenal hyperplasia due to 21-hydroxylase deficiency in relation to their genotypes. Neuroendocrinology Letters, 2017, 38, 154-162.	0.2	1
35	Novel insights in ultrasound evaluation of thyroid gland in children with papillary thyroid carcinoma. Neuroendocrinology Letters, 2017, 38, 367-374.	0.2	2
36	The effects of growth hormone therapy on the somatic development of a group of Polish children with Silver-Russell syndrome. Neuroendocrinology Letters, 2017, 38, 415-421.	0.2	0

#	ARTICLE	IF	CITATIONS
37	Circadian blood pressure profiles and ambulatory arterial stiffness index in children and adolescents with congenital adrenal hyperplasia due to 21-hydroxylase deficiency in relation to their genotypes. <i>Neuroendocrinology Letters</i> , 2017, 38, 509-518.	0.2	3
38	Incidence of type 1 diabetes mellitus during 26 years of observation and prevalence of diabetic ketoacidosis in the later years. <i>European Journal of Pediatrics</i> , 2015, 174, 1319-1324.	2.7	25
39	Atypical cardiac myxoma in the course of Carney complex in the child. Case Report. <i>Neuroendocrinology Letters</i> , 2015, 36, 236-40.	0.2	3
40	The first description of metyrapone use in severe Cushing Syndrome due to ectopic ACTH secretion in an infant with immature sacrococcygeal teratoma. Case Report. <i>Neuroendocrinology Letters</i> , 2015, 36, 653-5.	0.2	3
41	Enhanced liver fibrosis (ELF) test in obese children with ultrasound-proven liver steatosis. <i>Neuroendocrinology Letters</i> , 2015, 36, 700-5.	0.2	3
42	Testicular Adrenal Rest Tumors in Congenital Adrenal Hyperlasia: A Case Report and Literature Overview. <i>Endocrine Practice</i> , 2014, 20, 219-224.	2.1	1
43	Atypical Clinical Presentation of Acth-Dependent Cushing's Syndrome in a Patient Treated with Retinoic Acid. <i>Endocrine Practice</i> , 2014, 20, e119-e122.	2.1	1
44	Visfatin concentrations in children with leukemia before and after stem cell transplantation. <i>Experimental Hematology</i> , 2014, 42, 252-260.	0.4	12
45	A ten-year observation of somatic development of a first group of Polish children with Silver-Russell syndrome. <i>Neuroendocrinology Letters</i> , 2014, 35, 306-13.	0.2	3
46	Cerebral salt wasting in a postoperative period. <i>Neuroendocrinology Letters</i> , 2014, 35, 252-6.	0.2	1
47	Ovarian Hyperstimulation Syndrome in Newborns – A Case Presentation and Literature Review. <i>Hormone Research in Paediatrics</i> , 2009, 71, 60-64.	1.8	7
48	Suprasellar Arachnoidal Cyst as a Cause of Precocious Puberty - Report of Three Patients and Literature Overview. <i>Journal of Pediatric Endocrinology and Metabolism</i> , 2003, 16, 447-55.	0.9	28
