#	Article	IF	CITATIONS
1	Infertility in Mice Induced by a Recombinant Ectromelia Virus Expressing Mouse Zona Pellucida Glycoprotein 31. Biology of Reproduction, 1998, 58, 152-159.	2.7	120
2	Plasma progesterone levels in the pregnant and non-pregnant tammar, Macropus eugenii. Journal of Endocrinology, 1982, 93, 99-107.	2.6	78
3	Differential temporal expression of milk miRNA during the lactation cycle of the marsupial tammar wallaby (Macropus eugenii). BMC Genomics, 2014, 15, 1012.	2.8	76
4	Fertility control of wild mouse populations: the effects of hormonal competence and an imposed level of sterility. Wildlife Research, 1999, 26, 579.	1.4	69
5	Postnatal development of the telencephalon of the tammar wallaby (Macropus eugenii). Anatomy and Embryology, 1985, 173, 81-94.	1.5	62
6	Community Composition and Density of Methanogens in the Foregut of the Tammar Wallaby () Tj ETQq0 0 0 rgB	[Overlock	10 Tf 50 54
7	Biological control of vertebrate pests using virally vectored immunocontraception. Journal of Reproductive Immunology, 2006, 71, 102-111.	1.9	56
8	Biological control of the cane toad in Australia: a review. Animal Conservation, 2010, 13, 16-23.	2.9	52
9	Hormonal changes at oestrus, parturition and post-partum oestrus in the tammar wallaby (Macropus) Tj ETQq1 1	0,784314 2.6	rgBT /Overlo
10	Prolactin in the Marsupial Macropus Eugenii, During the Estrous Cycle, Pregnancy and Lactation. Biology of Reproduction, 1982, 26, 391-398.	2.7	48
11	Seasonal patterns of circulating progesterone and prolactin and response to bromocriptine in the female tammar Macropus eugenii. General and Comparative Endocrinology, 1984, 53, 58-68.	1.8	48
12	Examination of the Immunocontraceptive Potential of Recombinant Rabbit Fertilin Subunits in Rabbit. Biology of Reproduction, 1997, 57, 879-886.	2.7	48
13	Antiâ€fertility effect of levonorgestrel and quinestrol in Brandt's voles (<i>Lasiopodomys brandtii</i>). Integrative Zoology, 2007, 2, 260-268.	2.6	48
14	A bait-delivered immunocontraceptive vaccine for the European red fox (Vulpes vulpes) by the year 2002?. Reproduction, Fertility and Development, 1997, 9, 111.	0.4	46
15	Hormones of oestrus and ovulation and their manipulation in marsupials. Reproduction, Fertility and Development, 1996, 8, 661.	0.4	44
16	Fertility control of rodent pests. Wildlife Research, 2008, 35, 487.	1.4	42
17	Chicken GnRH II occurs together with mammalian GnRH in a South American species of marsupial (Monodelphis domestica). Peptides, 1990, 11, 521-525.	2.4	39
		0.0.0	

Bloodâ \in brain, bloodâ \in cerebrospinal fluid and cerebrospinal fluidâ \in brain barriers in a marsupial (Macropus) Tj ETQq0.0 0 rgBT $_{3}/_{2}$ Overlock

#	Article	IF	CITATIONS
19	A longitudinal study of the protein components of marsupial milk from birth to weaning in the tammar wallaby (Macropus eugenii). Developmental and Comparative Immunology, 2009, 33, 152-161.	2.3	37

An observational study of the microbiome of the maternal pouch and saliva of the tammar wallaby, Macropus eugenii, and of the gastrointestinal tract of the pouch young. Microbiology (United) Tj ETQq0 0 0 rgBT /0 & rg

		0	
21	Population responses to sterility imposed on female European rabbits. Journal of Applied Ecology, 2007, 44, 291-301.	4.0	32
22	Comparative Pathology of Pulmonary Hydatid Cysts in Macropods and Sheep. Journal of Comparative Pathology, 2011, 144, 113-122.	0.4	32

23	Reproductive-Biology and the Potential for Genetic-Studies in the Tammar Wallaby, Macropus-Eugenii. Australian Journal of Zoology, 1989, 37, 223.	1.0	31
24	Influence of the immature testis on sexual differentiation in the tammar wallaby, Macropus eugenii (Macropodidae: Marsupialia). Reproduction, Fertility and Development, 1989, 1, 243.	0.4	31
25	Prospects for the future: is there a role for virally vectored immunocontraception in vertebrate pest management?. Wildlife Research, 2007, 34, 555.	1.4	31

26	A review of complementary mechanisms which protect the developing marsupial pouch young. Developmental and Comparative Immunology, 2012, 37, 213-220.	2.3	31

Prospects for virally vectored immunocontraception in the control of wild house mice (Mus) Tj ETQq1 1 0.784314 rgBT /Overlock 10

28	Development of repressible sterility to prevent the establishment of feral populations of exotic and genetically modified animals. Aquaculture, 2009, 290, 104-109.	3.5	27
29	Plasma progesterone through pregnancy and the estrous cycle in the eastern quoll, Dasyurus viverrinus. General and Comparative Endocrinology, 1989, 75, 110-117.	1.8	26
30	The status of fertility control for rodents—recent achievements and future directions. Integrative Zoology, 2022, 17, 964-980.	2.6	26
31	Control of pregnancy, parturition and luteolysis in marsupials. Reproduction, Fertility and Development, 1990, 2, 535.	0.4	25
32	Precocious development of hydatid cysts in a macropodid host. International Journal for Parasitology, 2007, 37, 1379-1389.	3.1	25
33	Immunocontraception in mice using repeated, multi-antigen peptides: immunization with purified recombinant antigens. Molecular Reproduction and Development, 2008, 75, 126-135.	2.0	25
34	Mammalian development does not recapitulate suspected key transformations in the evolutionary detachment of the mammalian middle ear. Proceedings of the Royal Society B: Biological Sciences, 2016, 283, 20152606.	2.6	24
35	Testing hypotheses of developmental constraints on mammalian brain partition evolution, using marsupials. Scientific Reports, 2017, 7, 4241.	3.3	24

³⁶ Plasma progesterone concentrations during pregnancy in the dasyurid marsupial, Antechinus stuartii: 0.4

#	Article	IF	CITATIONS
37	Could current fertility control methods be effective for landscape-scale management of populations of wild horses (Equus caballus) in Australia?. Wildlife Research, 2018, 45, 195.	1.4	23
38	The reproductive performance of female red foxes, <i>Vulpes vulpes</i> , in central-western New South Wales during and after a drought. Canadian Journal of Zoology, 2001, 79, 545-553.	1.0	22
39	Breeding ecology of rice field rats, Rattus argentiventer and R. tanezumi in lowland irrigated rice systems in the Philippines. Agriculture, Ecosystems and Environment, 2012, 161, 39-45.	5.3	22
40	Assessment of the immunocontraceptive effect of a zona pellucida 3 peptide antigen in wild mice. Reproduction, Fertility and Development, 2002, 14, 151.	0.4	22
41	Formulation and delivery of vaccines: Ongoing challenges for animal management. Journal of Pharmacy and Bioallied Sciences, 2012, 4, 258.	0.6	21
42	Conservation agriculture practices have changed habitat use by rodent pests: implications for management of feral house mice. Journal of Pest Science, 2022, 95, 493-503.	3.7	21
43	Selection of antigens for use in a virus-vectored immunocontraceptive vaccine: PH-20 as a case study. Reproduction, Fertility and Development, 1997, 9, 117.	0.4	21
44	Fertility control of rodent pests: a review of the inhibitory effects of plant extracts on ovarian function. Pest Management Science, 2013, 69, 342-354.	3.4	20
45	Production and secretion of progesterone in vitro and presence of platelet activating factor (PAF) in early pregnancy of the marsupial, Macropus eugenii. Reproduction, Fertility and Development, 1993, 5, 15.	0.4	19
46	Comparative NMR studies of diffusional water permeability of erythrocytes from some animals introduced to Australia: Rat rabbit and sheep. Comparative Haematology International, 1994, 4, 232-235.	0.5	19
47	The tammar wallaby: A marsupial model to examine the timed delivery and role of bioactives in milk. General and Comparative Endocrinology, 2017, 244, 164-177.	1.8	19
48	Ovarian function and its manipulation in the tammar wallaby, Macropus eugenii. Reproduction, Fertility and Development, 1993, 5, 27.	0.4	17
49	Experimental infection of European red foxes (Vulpes vulpes) with canine herpesvirus. Veterinary Microbiology, 2001, 83, 217-233.	1.9	16
50	Efficacy of the EG95 hydatid vaccine in a macropodid host, the tammar wallaby. Parasitology, 2009, 136, 461-468.	1.5	16
51	Changes in Prolactin in Peripheral Plasma during Lactation in the Brushtail Possum Trichosurus vulpecula. Australian Journal of Biological Sciences, 1986, 39, 171.	0.5	14
52	Blood O2 transport and Hb types in the embryonic Tammar Wallaby (marsupialia, Macropus eugenii). Respiration Physiology, 1993, 91, 99-109.	2.7	14
53	Introduction - virally vectored immunocontraception in Australia. Wildlife Research, 2007, 34, 507.	1.4	13
54	The microbiome of the cloacal openings of the urogenital and anal tracts of the tammar wallaby, Macropus eugenii. Microbiology (United Kingdom), 2008, 154, 1535-1543.	1.8	13
