#	ARTICLE	IF	CITATIONS
1	Biocompatibility and immunohistochemical evaluation of a new calcium silicate-based cement, Bio-C Pulpo. International Endodontic Journal, 2019, 52, 689-700.	2.3	35
2	Systemic administration of probiotics reduces the severity of apical periodontitis. International Endodontic Journal, 2019, 52, 1738-1749.	2.3	31
3	Chronic alcohol consumption increases inflammation and osteoclastogenesis in apical periodontitis. International Endodontic Journal, 2019, 52, 329-336.	2.3	29
4	Reduced bone resorption and inflammation in apical periodontitis evoked by dietary supplementation with probiotics in rats. International Endodontic Journal, 2020, 53, 1084-1092.	2.3	24
5	Rat tissue reaction and cytokine production induced by antimicrobial photodynamic therapy. Photodiagnosis and Photodynamic Therapy, 2017, 18, 315-318.	1.3	14
6	Hypertension affects the biocompatibility and biomineralization of MTA, High-plasticity MTA, and Biodentine®. Brazilian Oral Research, 2019, 33, e060.	0.6	13
7	Excessive caffeine intake increases bone resorption associated with periapical periodontitis in rats. International Endodontic Journal, 2021, 54, 1861-1870.	2.3	12
8	Biocompatibility and biomineralization ability of Bio-C Pulpecto. A histological and immunohistochemical study. International Journal of Paediatric Dentistry, 2019, 29, 352-360.	1.0	11
9	Effects of different alcohol concentrations on the development of apical periodontitis in rats. Archives of Oral Biology, 2019, 108, 104538.	0.8	9
10	Systemic bone marker expression induced by grey and white mineral trioxide aggregate in normal and diabetic conditions. International Endodontic Journal, 2018, 51, 889-900.	2.3	8
11	Effect of red wine or its polyphenols on induced apical periodontitis in rats. International Endodontic Journal, 2021, 54, 2276-2289.	2.3	8
12	Cytotoxicity, inflammation, biomineralization, and immunoexpression of IL-1 β and TNF- α promoted by a new bioceramic cement. Journal of Applied Oral Science, 2020, 28, e20200033.	0.7	8
13	Chronic alcohol consumption changes blood marker profile and bone density in rats with apical periodontitis. Journal of Investigative and Clinical Dentistry, 2019, 10, e12418.	1.8	7
14	Dietary supplementation with multi-strain formula of probiotics modulates inflammatory and immunological markers in apical periodontitis. Journal of Applied Oral Science, 2021, 29, e20210483.	0.7	7
15	Rapid maxillary expansion as a treatment for obstructive sleep apnea syndrome in children and adolescents: an evaluation by polysomnography and quality of life. Research, Society and Development, 2021, 10, e52710212825.	0.0	2
16	Influence of the Vehicle on the Tissue Reaction and Biomineralization of Fast Endodontic Cement. Pesquisa Brasileira Em Odontopediatria E Clinica Integrada, 0, 21, .	0.7	1
17	Biocompatibility and biomineralization of the experimental nanoparticulate mineral trioxide aggregate (MTA). Research, Society and Development, 2021, 10, e27710514866.	0.0	0
