#	ARTICLE	IF	CITATIONS
1	Silicone gel sheeting for preventing and treating hypertrophic and keloid scars. The Cochrane Library, 2013, , CD003826.	2.8	127
2	Single Blind, Prospective, Randomized Controlled Trial Comparing Dorsal Aluminum and Custom Thermoplastic Splints to Stack Splint for Acute Mallet Finger. Archives of Physical Medicine and Rehabilitation, 2011, 92, 191-198.	0.9	67
3	Direct, indirect and intangible costs of acute hand and wrist injuries: A systematic review. Injury, 2016, 47, 2614-2626.	1.7	67
4	Impact of disinvestment from weekend allied health services across acute medical and surgical wards: 2 stepped-wedge cluster randomised controlled trials. PLoS Medicine, 2017, 14, e1002412.	8.4	43
5	Relative motion orthoses in the management of various hand conditions: A scoping review. Journal of Hand Therapy, 2016, 29, 405-432.	1.5	42
6	Interventions to achieve ongoing exercise adherence for adults with chronic health conditions who have completed a supervised exercise program: systematic review and meta-analysis. Clinical Rehabilitation, 2017, 31, 465-477.	2.2	38
7	A novel research design can aid disinvestment from existing health technologies with uncertain effectiveness, cost-effectiveness, and/or safety. Journal of Clinical Epidemiology, 2014, 67, 144-151.	5.0	32
8	Embracing an occupational perspective: Occupational-based interventions in hand therapy practice. Australian Occupational Therapy Journal, 2016, 63, 293-296.	1.1	30
9	Adherence to therapeutic splint wear in adults with acute upper limb injuries: a systematic review. Hand Therapy, 2010, 15, 3-12.	1.4	29
10	A scoping review of the use of elastic therapeutic tape for neck or upper extremity conditions. Journal of Hand Therapy, 2014, 27, 235-246.	1.5	28
11	Study protocol for two randomized controlled trials examining the effectiveness and safety of current weekend allied health services and a new stakeholder-driven model for acute medical/surgical patients versus no weekend allied health services. Trials, 2015, 16, 133.	1.6	28
12	Achieving a successful and sustainable return to the workforce after ABI: A client-centred approach. Brain Injury, 2007, 21, 465-478.	1.2	26
13	The Evidence on Ways to Improve Patient's Adherence in Hand Therapy. Journal of Hand Therapy, 2012, 25, 247-250.	1.5	24
14	Gym-based exercise and home-based exercise with telephone support have similar outcomes when used as maintenance programs in adults with chronic health conditions: a randomised trial. Journal of Physiotherapy, 2017, 63, 154-160.	1.7	23
15	The impact of a hand therapy screening and management clinic for patients referred for surgical opinion in an Australian public hospital. Journal of Hand Therapy, 2013, 26, 318-322.	1.5	20
16	Pre-surgery education for elective cardiac surgery patients: A survey from the patient's perspective. Australian Occupational Therapy Journal, 2013, 60, 404-409.	1.1	20
17	Patient Experience of Distraction Splinting for Complex Finger Fracture Dislocations. Journal of Hand Therapy, 2010, 23, 249-260.	1.5	18
18	Barriers and enablers to ongoing exercise for people with chronic health conditions: Participants' perspectives following a randomized controlled trial of two interventions. Archives of Gerontology and Geriatrics, 2018, 76, 92-99.	3.0	18

#	ARTICLE	IF	CITATIONS
19	Education for cancer-related fatigue: could talking about it make people more likely to report it?. Supportive Care in Cancer, 2014, 22, 209-215.	2.2	17
20	Effectiveness of interventions to improve therapy adherence in people with upper limb conditions: A systematic review. Journal of Hand Therapy, 2019, 32, 175-183.e2.	1.5	17
21	Factors predicting health status and recovery of hand function after hand burns in the second year after hospital discharge. Burns, 2017, 43, 100-106.	1.9	16
22	A novel counterbalanced implementation study design: methodological description and application to implementation research. Implementation Science, 2019, 14, 45.	6.9	16
23	Postoperative hand therapy management of zones V and VI extensor tendon repairs of the fingers: An international inquiry of current practice. Journal of Hand Therapy, 2021, 34, 58-75.	1.5	16
24	Outcomes and Participant Experience of an Online Train-the-Trainer Program for Bangladeshi Health Professionals: A Case Study Evaluation. Journal of Continuing Education in the Health Professions, 2015, 35, 46-56.	1.3	15
25	What makes weekend allied health services effective and cost-effective (or not) in acute medical and surgical wards? Perceptions of medical, nursing, and allied health workers. BMC Health Services Research, 2017, 17, 345.	2.2	15
26	Challenges, uncertainties and perceived benefits of providing weekend allied health servicesâ€™a managersâ€™ perspective. BMC Health Services Research, 2017, 17, 118.	2.2	15
27	Implementation of evidence-based weekend service recommendations for allied health managers: a cluster randomised controlled trial protocol. Implementation Science, 2018, 13, 60.	6.9	13
28	Translating evidence into practice: a longitudinal qualitative exploration of allied health decision-making. Health Research Policy and Systems, 2021, 19, 38.	2.8	13
29	Do daily ward interviews improve measurement of hospital quality and safety indicators? A prospective observational study. Journal of Evaluation in Clinical Practice, 2016, 22, 792-798.	1.8	12
30	Comparison of two relative motion extension approaches (RME with versus without an additional) Tj ETQq0 0 0 rgBT /Overlock 10 Tf 50 Journal of Hand Therapy, 2021, , .	1.5	11
31	Reliability and Validation Properties of the Malaysian Language Version of the Occupational Self Assessment Version 2.2 for Injured Workers with Musculoskeletal Disorders. British Journal of Occupational Therapy, 2011, 74, 226-232.	0.9	10
32	Two case reportsâ€™Use of relative motion orthoses to manage extensor tendon zones III and IV and sagittal band injuries in adjacent fingers. Journal of Hand Therapy, 2017, 30, 546-557.	1.5	10
33	Cumulative incidence of carpal instability 12-24 months after fall onto outstretched hand. Journal of Hand Therapy, 2018, 31, 282-286.	1.5	10
34	Relative motion extension management of zones V and VI extensor tendon repairs: Does international practice align with the current evidence?. Journal of Hand Therapy, 2021, 34, 76-89.	1.5	10
35	Developing hand therapy skills in Bangladesh: Experiences of Australian volunteers. Journal of Hand Therapy, 2014, 27, 30-37.	1.5	9
36	Effectiveness of a weekend physiotherapy service on short-term outcomes following hip and knee joint replacement surgery: a quasi-experimental study. Clinical Rehabilitation, 2018, 32, 026921551877964.	2.2	9

#	ARTICLE	IF	CITATIONS
37	Improving Older Trauma Patientsâ€™ Outcomes Through Targeted Occupational Therapy and Functional Conditioning. American Journal of Occupational Therapy, 2012, 66, 431-437.	0.3	9
38	Health status of people with work-related musculoskeletal disorders in return to work programs: a Malaysian study. Occupational Therapy in Health Care, 2013, 27, 238-55.	0.3	9
39	Occupational competence and its relationship to emotional health in injured workers in return to work programs: A Malaysian study. Scandinavian Journal of Occupational Therapy, 2013, 20, 101-110.	1.7	8
40	Gym-based exercise was more costly compared with home-based exercise with telephone support when used as maintenance programs for adults with chronic health conditions: cost-effectiveness analysis of a randomised trial. Journal of Physiotherapy, 2018, 64, 48-54.	1.7	8
41	Description and costâ€analysis of emergency department attendances for hand and wrist injuries. EMA - Emergency Medicine Australasia, 2019, 31, 772-779.	1.1	8
42	Profile and cost of sport and exercise-related hand and wrist injuries with Emergency Department presentation. Journal of Science and Medicine in Sport, 2020, 23, 683-689.	1.3	8
43	Health care staff responses to disinvestmentâ€A systematic search and qualitative thematic synthesis. Health Care Management Review, 2021, 46, 44-54.	1.4	8
44	Effectiveness of knowledge brokering and recommendation dissemination for influencing healthcare resource allocation decisions: A cluster randomised controlled implementation trial. PLoS Medicine, 2021, 18, e1003833.	8.4	8
45	Determinants of compliance with hand splinting in an acute brain injured population. Brain Injury, 2008, 22, 411-418.	1.2	7
46	Swing traction versus no-traction for complex intra-articular proximal inter-phalangeal fractures. Journal of Hand Therapy, 2014, 27, 309-316.	1.5	7
47	Understanding Health Professional Responses to Service Disinvestment: A Qualitative Study. International Journal of Health Policy and Management, 2019, 8, 403-411.	0.9	7
48	Recovery in the first six months after hand and upper limb burns: A prospective cohort study. Australian Occupational Therapy Journal, 2019, 66, 201-209.	1.1	6
49	Barriers and facilitators to adopting functional maintenance initiatives for acutely hospitalised older adults. Disability and Rehabilitation, 2020, 42, 3808-3815.	1.8	6
50	Cost, profile, and postoperative resource use for surgically managed acute hand and wrist injuries with emergency department presentation. Journal of Hand Therapy, 2021, 34, 29-36.	1.5	6
51	Health professionalsâ€™ perceptions of the allied health role in the acute setting following hip and knee joint replacement surgery: a qualitative study. Disability and Rehabilitation, 2020, 42, 93-101.	1.8	5
52	Application of a novel disinvestment research design to the use of weekend allied health services on acute medical and surgical wards - randomised trial and economic evaluation protocol. BMC Health Services Research, 2014, 14, .	2.2	4
53	Patient and Therapist Agreement on Performance-Rated Ability Using the de Morton Mobility Index. Archives of Physical Medicine and Rehabilitation, 2016, 97, 2157-2165.	0.9	4
54	Trans-disciplinary advanced allied health practitioners for acute hospital inpatients: a feasibility study. International Journal for Quality in Health Care, 2019, 31, 103-109.	1.8	4

#	ARTICLE	IF	CITATIONS
55	Real-World Testing of the Self Grasping Hand, a Novel Adjustable Passive Prosthesis: A Single Group Pilot Study. <i>Prosthesis</i> , 2022, 4, 48-59.	2.9	4
56	3D-printed custom-designed prostheses for partial hand amputation: Mechanical challenges still exist. <i>Journal of Hand Therapy</i> , 2021, 34, 539-542.	1.5	3
57	Disinvestment in the presence of uncertainty: Description of a novel, multi-group, disinvestment trial design and protocol for an application to reduce or cease use of mobilisation alarms for preventing falls in hospitals. <i>PLoS ONE</i> , 2021, 16, e0261793.	2.5	3
58	Hand therapy role in return to work for patients with hand and upper limb conditions. <i>Journal of Hand Therapy</i> , 2022, 35, 226-232.	1.5	3
59	Capturing the costs of acute hand and wrist injuries: Lessons learnt from a prospective longitudinal burden of injury study. <i>Hand Therapy</i> , 2020, 25, 119-129.	1.4	2
60	Postoperative management of zones V-VI extensor tendon repairs: A survey of practice in Malaysia and comparison to IFSHT member countries. <i>Hand Therapy</i> , 2021, 26, 134-145.	1.4	2
61	Using and prescribing kinesiotape as a treatment modality for musculoskeletal disorders. <i>International Journal of Therapy and Rehabilitation</i> , 2015, 22, 408-409.	0.3	1
62	Clinical Commentary in response to: Relationships between pain misconceptions, disability, patients' goals and interpretations of information from hand therapists. <i>Journal of Hand Therapy</i> , 2014, 27, 296-297.	1.5	0
63	The impact of a hand therapy screening on patients referred for surgical opinion - reply. <i>Journal of Hand Therapy</i> , 2014, 27, 71.	1.5	0
64	Knowledge of and willingness to recommend kinesiotape for upper limb overuse injuries: A comparison of therapists', GPs' and surgeons' perspectives. <i>International Journal of Therapy and Rehabilitation</i> , 2015, 22, 238-245.	0.3	0
65	Moving Past the Loss: A Longitudinal Qualitative Study of Health Care Staff Experiences of Disinvestment. <i>Medical Care Research and Review</i> , 2020, , 107755872097258.	2.1	0
66	The effect of transferring weekend physical therapy services from the acute to sub-acute setting in patients following hip and knee arthroplasty: a quasi-experimental study. <i>Physiotherapy Theory and Practice</i> , 2020, , 1-13.	1.3	0
67	Variation in inpatient allied health service provision in Australian and New Zealand hospitals. <i>Australasian Journal on Ageing</i> , 2022, 41, 70-80.	0.9	0
68	Facilitating Adherence to the Plan of Care. , 2020, , 138-142.		0
