

Shamai A Grossman

List of Publications by Citations

Source: <https://exaly.com/author-pdf/4384756/shamai-a-grossman-publications-by-citations.pdf>
Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

90 papers	526 citations	12 h-index	21 g-index
102 ext. papers	627 ext. citations	2.7 avg, IF	3.16 L-index

#	Paper	IF	Citations
90	Predicting adverse outcomes in syncope. <i>Journal of Emergency Medicine</i> , 2007 , 33, 233-9	1.5	104
89	Syncope clinical management in the emergency department: a consensus from the first international workshop on syncope risk stratification in the emergency department. <i>European Heart Journal</i> , 2016 , 37, 1493-8	9.5	67
88	Are echocardiography, telemetry, ambulatory electrocardiography monitoring, and cardiac enzymes in emergency department patients presenting with syncope useful tests? A preliminary investigation. <i>Journal of Emergency Medicine</i> , 2014 , 47, 113-8	1.5	43
87	Predictors of delay in presentation to the ED in patients with suspected acute coronary syndromes. <i>American Journal of Emergency Medicine</i> , 2003 , 21, 425-8	2.9	34
86	Do outcomes of near syncope parallel syncope?. <i>American Journal of Emergency Medicine</i> , 2012 , 30, 203-6.	6.9	24
85	Reducing admissions utilizing the Boston Syncope Criteria. <i>Journal of Emergency Medicine</i> , 2012 , 42, 345-52	5.2	23
84	The value of cardiac enzymes in elderly patients presenting to the emergency department with syncope. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2003 , 58, 1055-8	6.4	19
83	Can elderly patients without risk factors be discharged home when presenting to the emergency department with syncope?. <i>Archives of Gerontology and Geriatrics</i> , 2014 , 58, 110-4	4	18
82	Association between boarding in the emergency department and in-hospital mortality: A systematic review. <i>PLoS ONE</i> , 2020 , 15, e0231253	3.7	18
81	Physician Variability in Management of Emergency Department Patients with Chest Pain. <i>Western Journal of Emergency Medicine</i> , 2017 , 18, 592-600	3.3	16
80	Comparison of Emergency Medicine Malpractice Cases Involving Residents to Nonresident Cases. <i>Academic Emergency Medicine</i> , 2018 , 25, 980-986	3.4	15
79	Applying the Boston syncope criteria to near syncope. <i>Journal of Emergency Medicine</i> , 2012 , 43, 958-63	1.5	15
78	Can benign etiologies predict benign outcomes in high-risk syncope patients?. <i>Journal of Emergency Medicine</i> , 2011 , 40, 592-7	1.5	12
77	Sex differences in the emergency department evaluation of elderly patients with syncope. <i>Journals of Gerontology - Series A Biological Sciences and Medical Sciences</i> , 2005 , 60, 1202-5	6.4	11
76	Neural networks as a tool to predict syncope risk in the Emergency Department. <i>Europace</i> , 2017 , 19, 1891-1895	3.9	9
75	Diagnosis and management of valvular heart disease in emergency medicine. <i>Emergency Medicine Clinics of North America</i> , 2011 , 29, 801-10, vii	1.9	9
74	Emergency department point-of-care ultrasonography improves time to pericardiocentesis for clinically significant effusions. <i>Clinical and Experimental Emergency Medicine</i> , 2017 , 4, 128-132	1.7	9

73	Comparison of 1-Day Emergency Department Observation and Inpatient Ward for 1-Day Admissions in Syncope Patients. <i>Journal of Emergency Medicine</i> , 2016 , 50, 217-22	1.5	8
72	Practicing emergency physicians report performing well on most emergency medicine milestones. <i>Journal of Emergency Medicine</i> , 2014 , 47, 432-40	1.5	8
71	Is telemetry useful in evaluating chest pain patients in an observation unit?. <i>Internal and Emergency Medicine</i> , 2011 , 6, 543-6	3.7	6
70	Use of Physician Concerns and Patient Complaints as Quality Assurance Markers in Emergency Medicine. <i>Western Journal of Emergency Medicine</i> , 2016 , 17, 749-755	3.3	6
69	Can medical record reviewers reliably identify errors and adverse events in the ED?. <i>American Journal of Emergency Medicine</i> , 2016 , 34, 1043-8	2.9	6
68	Hospital ward transfer to intensive care unit as a quality marker in emergency medicine. <i>American Journal of Emergency Medicine</i> , 2017 , 35, 753-756	2.9	5
67	Observation vs admission in syncope: can we predict short length of stays?. <i>American Journal of Emergency Medicine</i> , 2015 , 33, 1684-6	2.9	5
66	Using the Boston Syncope Observation Management Pathway to Reduce Hospital Admission and Adverse Outcomes. <i>Western Journal of Emergency Medicine</i> , 2019 , 20, 250-255	3.3	4
65	Testing in syncope. <i>Internal and Emergency Medicine</i> , 2006 , 1, 135-6	3.7	4
64	Chemical Restraints, Physical Restraints, and Other Demonstrations of Force139-148		4
63	Geriatric Syncope and Cardiovascular Risk in the Emergency Department. <i>Journal of Emergency Medicine</i> , 2017 , 52, 438-448.e3	1.5	3
62	Interview Day Environment May Influence Applicant Selection of Emergency Medicine Residency Programs. <i>Western Journal of Emergency Medicine</i> , 2017 , 18, 142-145	3.3	3
61	Mapping Quality Improvement and Safety Education to Drive Change Across Training Programs. <i>Journal of Graduate Medical Education</i> , 2015 , 7, 275-6	1.6	3
60	Standardized Video Interview Scores Correlate Poorly with Faculty and Patient Ratings. <i>Western Journal of Emergency Medicine</i> , 2019 , 21, 145-148	3.3	2
59	Utility of Procedural Sedation as a Marker for Quality Assurance in Emergency Medicine. <i>Journal of Emergency Medicine</i> , 2016 , 50, 711-4	1.5	1
58	Cardiac Direct Access Unit: A novel effort to leverage access to cardiologists to reduce hospitalization admissions. <i>American Journal of Emergency Medicine</i> , 2017 , 35, 910-911	2.9	1
57	Bradyarrhythmias 2011 , 69-85		1
56	Utility of Chest Radiography in Emergency Department Patients Presenting with Syncope. <i>Western Journal of Emergency Medicine</i> , 2016 , 17, 698-701	3.3	1

55	Electrocardiogram interpretation: Emergency medicine residents on the front lines. <i>American Journal of Emergency Medicine</i> , 2019 , 37, 1000-1001	2.9	1
54	Errors in Decisionmaking in Emergency Medicine: The Case of the Landscaper's Back and Root Cause Analysis. <i>Annals of Emergency Medicine</i> , 2021 , 77, 203-209	2.1	1
53	Obstetric Emergency: Perimortem Cesarean Section		1
52	Military Objectives Versus Patient Interests		1
51	Mandatory and Permissive Reporting Laws: Conflicts in Patient Confidentiality, Autonomy, and the Duty to Report		1
50	Conflicts Between Patient Requests and Physician Obligations		1
49	The Differential Diagnosis of Wide Complex Tachycardia: Diagnostic and Management Considerations		
48	Futility in Emergency Medicine		0
47	Physician Care of Family, Friends, or Colleagues		0
46	The day after COVID-19. <i>American Journal of Emergency Medicine</i> , 2021 , 44, 328-329	2.9	0
45	Left-sided opacification in a trauma patient's chest radiograph. <i>Journal of Emergency Medicine</i> , 2014 , 47, 198-201	1.5	
44	Non-ST-Segment Elevations Myocardial Infarction		
43	Acute Heart Failure		
42	The Electrocardiogram in Acute Coronary Syndromes		
41	Assessing resident and attending error and adverse events in the emergency department.. <i>American Journal of Emergency Medicine</i> , 2022 , 54, 228-231	2.9	
40	Getting to the heart of the issue: senior emergency resident electrocardiogram interpretation and its impact on quality assurance events. <i>Clinical and Experimental Emergency Medicine</i> , 2020 , 7, 220-224	1.7	
39	The Intellectually Disabled Patient		
38	Cardiomyopathy		

- 37 Strategies in out-of-Hospital Cardiac Arrest: Automatic External Defibrillator and Cardiopulmonary Resuscitation 138-146
- 36 Coronary Computed Tomography 349-360
- 35 Pediatric Cardiac Emergencies 372-381
- 34 Pericarditis 226-236
- 33 Cardiac Markers 326-336
- 32 Abdominal Aortic Aneurysms 283-296
- 31 Pacemakers and AICDS in Emergency Medicine 147-159
- 30 Postcardiac Surgery Emergencies 361-371
- 29 ST-Segment Elevation Myocardial Infarction 38-53
- 28 Supraventricular Tachycardia 97-107
- 27 Unusual Causes of Myocardial Ischemia 54-67
- 26 Refusal of Life-Saving Therapy 89-97
- 25 Disclosure of Medical Error and Truth Telling 27-35
- 24 Ethics of Care during a Pandemic 287-298
- 23 Family-Witnessed Resuscitation in the Emergency Department: Making Sense of Ethical and Practical Considerations in an Emotional Debate 67-77
- 22 Using Physicians as Agents of the State 57-66
- 21 The Care of Minors in the Emergency Department 127-138
- 20 Treatment of Potential Organ Donors 259-269

19 Judgmental Attitudes and Opinions in the Emergency Department 47-55

18 Privacy and Confidentiality: Particular Challenges in the Emergency Department 197-205

17 Disaster Triage 221-236

16 The Impaired Physician 15-26

15 The Emergency Physician as a Bystander outside the Hospital 237-245

14 Non-Medical Observers in the Emergency Department 167-178

13 Revisiting Comfort-Directed Therapies: Death and Dying in the Emergency Department, Including Withholding and Withdrawal of Life-Sustaining Treatment 99-115

12 Ethics of Research without Informed Consent 311-320

11 Non-Physician Influence on the Scope and Responsibilities of Emergency Physicians 187-195

10 Practicing Medical Procedures on the Newly or Nearly Dead 299-310

9 Religious Perspectives on Do-Not-Resuscitate (DNR) Documents and the Dying Patient 179-185

8 Appendix: Useful Resources 321-324

7 Palliative Care in the Emergency Department 79-87

6 Capacity Determination in the Patient with Altered Mental Status 149-156

5 Short-Term International Medical Initiatives 207-220

4 Year-to-year trends in emergency medicine morbidity and mortality cases. *American Journal of Emergency Medicine*, **2020**, 38, 1658-1661 2.9

3 Procedural training models among emergency medicine residency programs. *Clinical and Experimental Emergency Medicine*, **2021**, 8, 37-42 1.7

2 A Tale of Two Cities: Applying the Boston Syncope Criteria to Jerusalem. *Israel Medical Association Journal*, **2021**, 23, 420-425 0.9

- 1 Electronic health record-based patient tracking by emergency medicine physicians.. *AEM Education and Training*, **2022**, 6, e10732 2.2
