

# Kathryn G Dewey

## List of Publications by Year in Descending Order

**Source:** <https://exaly.com/author-pdf/4399603/kathryn-g-dewey-publications-by-year.pdf>  
**Version:** 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.  
The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

330 papers	18,528 citations	78 h-index	129 g-index
368 ext. papers	21,368 ext. citations	5.1 avg, IF	7.01 L-index

#	Paper	IF	Citations
330	Provision of small-quantity lipid-based nutrient supplements does not improve intestinal health among rural Malawian children.. <i>Maternal and Child Nutrition</i> , <b>2022</b> , e13331	3.4	
329	Longitudinal Assessment of Prenatal, Perinatal, and Early-Life Aflatoxin B Exposure in 828 Mother-Child Dyads from Bangladesh and Malawi.. <i>Current Developments in Nutrition</i> , <b>2022</b> , 6, nzab153	0.4	1
328	Multiple micronutrient supplements versus iron-folic acid supplements and maternal anemia outcomes: an iron dose analysis.. <i>Annals of the New York Academy of Sciences</i> , <b>2022</b> ,	6.5	1
327	Characteristics and birth outcomes of pregnant adolescents compared to older women: An analysis of individual level data from 140,000 mothers from 20 RCTs.. <i>EClinicalMedicine</i> , <b>2022</b> , 45, 101309	11.3	0
326	Provision of Small-Quantity Lipid-Based Nutrient Supplements Increases Plasma Selenium Concentration in Pregnant Women in Malawi: A Secondary Outcome of a Randomized Controlled Trial.. <i>Current Developments in Nutrition</i> , <b>2022</b> , 6, nzac013	0.4	
325	Effect of multiple micronutrient supplements vs iron and folic acid supplements on neonatal mortality: a reanalysis by iron dose.. <i>Public Health Nutrition</i> , <b>2022</b> , 1-13	3.3	
324	Lipid-Based Nutrient Supplementation Increases High-Density Lipoprotein (HDL) Cholesterol Efflux Capacity and Is Associated with Changes in the HDL Glycoproteome in Children. <i>ACS Omega</i> , <b>2021</b> , 6, 32022-32031	3.9	0
323	Infections and systemic inflammation are associated with lower plasma concentration of insulin-like growth factor I among Malawian children. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 113, 380-390	7	0
322	Consumption of multiple micronutrients or small-quantity lipid-based nutrient supplements containing iodine at the recommended dose during pregnancy, compared with iron and folic acid, does not affect women's urinary iodine concentration in rural Malawi: a secondary outcome analysis of the IINIS-DYAD trial. <i>Public Health Nutrition</i> , <b>2021</b> , 24, 2019-2027	3.3	0
321	First-Day Use of the Newborn Weight Loss Tool to Predict Excess Weight Loss in Breastfeeding Newborns. <i>Breastfeeding Medicine</i> , <b>2021</b> , 16, 230-237	2.1	1
320	A Proposed Framework for Identifying Nutrients and Food Components of Public Health Relevance in the Dietary Guidelines for Americans. <i>Journal of Nutrition</i> , <b>2021</b> , 151, 1197-1204	4.1	6
319	Maternal Blood Pressure in Relation to Prenatal Lipid-Based Nutrient Supplementation and Adverse Birth Outcomes in a Ghanaian Cohort: A Randomized Controlled Trial and Cohort Analysis. <i>Journal of Nutrition</i> , <b>2021</b> , 151, 1637-1645	4.1	0
318	Responsive Feeding Recommendations: Harmonizing Integration into Dietary Guidelines for Infants and Young Children. <i>Current Developments in Nutrition</i> , <b>2021</b> , 5, nzab076	0.4	4
317	Associations of Human Milk Oligosaccharides and Bioactive Proteins with Infant Morbidity and Inflammation in Malawian Mother-Infant Dyads. <i>Current Developments in Nutrition</i> , <b>2021</b> , 5, nzab072	0.4	3
316	Multiple-micronutrient supplementation in pregnant adolescents in low- and middle-income countries: a systematic review and a meta-analysis of individual participant data. <i>Nutrition Reviews</i> , <b>2021</b> ,	6.4	3
315	Perspective: Putting the youngest among us into the nutrition "call for action" for food fortification strategies. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 1257-1260	7	0
314	Development of Food Pattern Recommendations for Infants and Toddlers 6-24 Months of Age to Support the Dietary Guidelines for Americans, 2020-2025. <i>Journal of Nutrition</i> , <b>2021</b> , 151, 3113-3124	4.1	2

313	Breastfeeding and risk of overweight in childhood and beyond: a systematic review with emphasis on sibling-pair and intervention studies. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 1774-1790	7	3
312	Small-Quantity Lipid-Based Nutrient Supplements Do Not Affect Plasma or Milk Retinol Concentrations Among Malawian Mothers, or Plasma Retinol Concentrations among Young Malawian or Ghanaian Children in Two Randomized Trials. <i>Journal of Nutrition</i> , <b>2021</b> , 151, 1029-1037	4.1	0
311	Omega-3 Fatty Acid Dietary Supplements Consumed During Pregnancy and Lactation and Child Neurodevelopment: A Systematic Review. <i>Journal of Nutrition</i> , <b>2021</b> , 151, 3483-3494	4.1	2
310	Micronutrient powders and diarrhoea risk in infants and young children. <i>The Lancet Child and Adolescent Health</i> , <b>2021</b> , 5, e28-e29	14.5	2
309	Characteristics that modify the effect of small-quantity lipid-based nutrient supplementation on child anemia and micronutrient status: an individual participant data meta-analysis of randomized controlled trials. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 68S-94S	7	7
308	Small-quantity lipid-based nutrient supplements for the prevention of child malnutrition and promotion of healthy development: overview of individual participant data meta-analysis and programmatic implications. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 3S-14S	7	7
307	Characteristics that modify the effect of small-quantity lipid-based nutrient supplementation on child growth: an individual participant data meta-analysis of randomized controlled trials. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 15S-42S	7	15
306	Small-quantity lipid-based nutrient supplements for children age 6-24 months: a systematic review and individual participant data meta-analysis of effects on developmental outcomes and effect modifiers. <i>American Journal of Clinical Nutrition</i> , <b>2021</b> , 114, 43S-67S	7	7
305	Effects of Water, Sanitation, Handwashing, and Nutritional Interventions on Environmental Enteric Dysfunction in Young Children: A Cluster-randomized, Controlled Trial in Rural Bangladesh. <i>Clinical Infectious Diseases</i> , <b>2020</b> , 70, 738-747	11.6	14
304	Infant and Child Diets of Hunter-Fisher-Gatherer Societies: A Systematic Review. <i>Current Developments in Nutrition</i> , <b>2020</b> , 4, 896-896	0.4	78
303	The impact of maternal supplementation during pregnancy and the first 6 months postpartum on the growth status of the next child born after the intervention period: Follow-up results from Bangladesh and Ghana. <i>Maternal and Child Nutrition</i> , <b>2020</b> , 16, e12927	3.4	1
302	Environmental exposures and child and maternal gut microbiota in rural Malawi. <i>Paediatric and Perinatal Epidemiology</i> , <b>2020</b> , 34, 161-170	2.7	6
301	Impact of a nutritional supplement during gestation and early childhood on child salivary cortisol, hair cortisol, and telomere length at 4-6 years of age: a follow-up of a randomized controlled trial. <i>Stress</i> , <b>2020</b> , 23, 597-606	3	0
300	Supplementation with Small-Quantity Lipid-Based Nutrient Supplements Does Not Increase Child Morbidity in a Semiurban Setting in Ghana: A Secondary Outcome Noninferiority Analysis of the International Lipid-Based Nutrient Supplements (iLiNS)-DYAD Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2020</b> , 150, 362-369	4.1	2
299	Lipid-based nutrient supplements and all-cause mortality in children 6-24 months of age: a meta-analysis of randomized controlled trials. <i>American Journal of Clinical Nutrition</i> , <b>2020</b> , 111, 207-218	7	20
298	Provision of Lipid-Based Nutrient Supplements to Mothers During Pregnancy and 6 Months Postpartum and to Their Infants from 6 to 18 Months Promotes Infant Gut Microbiota Diversity at 18 Months of Age but Not Microbiota Maturation in a Rural Malawian Setting: Secondary Outcomes of a Randomized Trial. <i>Journal of Nutrition</i> , <b>2020</b> , 150, 918-928	4.1	11
297	Antenatal multiple micronutrient supplementation: call to action for change in recommendation. <i>Annals of the New York Academy of Sciences</i> , <b>2020</b> , 1465, 5-7	6.5	2
296	Reducing Child Stunting: Moving Forward on Evaluating Effectiveness of Programs. <i>Journal of Nutrition</i> , <b>2020</b> , 150, 2843-2845	4.1	1

295	The double burden of malnutrition-further perspective. <i>Lancet, The</i> , <b>2020</b> , 396, 814-815	4.0	
294	Infant gut microbiota characteristics generally do not modify effects of lipid-based nutrient supplementation on growth or inflammation: secondary analysis of a randomized controlled trial in Malawi. <i>Scientific Reports</i> , <b>2020</b> , 10, 14861	4.9	1
293	Nutrient supplementation during the first 1000 days and growth of infants born to pregnant adolescents. <i>Annals of the New York Academy of Sciences</i> , <b>2020</b> , 1468, 25-34	6.5	5
292	Maternal and child factors associated with child body fatness in a Ghanaian cohort. <i>Public Health Nutrition</i> , <b>2020</b> , 23, 309-318	3.3	1
291	Associations of human milk oligosaccharides and bioactive proteins with infant growth and development among Malawian mother-infant dyads. <i>American Journal of Clinical Nutrition</i> , <b>2020</b> ,	7	15
290	The association of gut microbiota characteristics in Malawian infants with growth and inflammation. <i>Scientific Reports</i> , <b>2019</b> , 9, 12893	4.9	10
289	Maternal Lipid-based Nutrient and Multiple Micronutrient Supplementation Affect B-vitamins in Milk Differently in Malawian Compared to Ghanaian Mothers (P24-045-19). <i>Current Developments in Nutrition</i> , <b>2019</b> , 3,	0.4	78
288	Maternal and Infant Supplementation with Small-Quantity Lipid-Based Nutrient Supplements Increases Infants Iron Status at 18 Months of Age in a Semiurban Setting in Ghana: A Secondary Outcome Analysis of the iLiNS-DYAD Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 149-158	4.1	8
287	Food Aid for Nutrition: Narrative Review of Major Research Topics Presented at a Scientific Symposium Held October 21, 2017, at the 21st International Congress of Nutrition in Buenos Aires, Argentina. <i>Food and Nutrition Bulletin</i> , <b>2019</b> , 40, 111-123	1.8	2
286	Reply to S Rahman and S Ireen. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 110, 520	7	
285	Does anthropometric status at 6 months predict the over-dispersion of malaria infections in children aged 6-18 months? A prospective cohort study. <i>Malaria Journal</i> , <b>2019</b> , 18, 143	3.6	
284	Maternal Blood Pressure in Relation to Birth Outcomes and Consumption of a Lipid-Based Nutrient Supplement (P11-001-19). <i>Current Developments in Nutrition</i> , <b>2019</b> , 3,	0.4	78
283	Processed Food Consumption Among 36 Mo-old Children in Rural Bangladesh (P11-088-19). <i>Current Developments in Nutrition</i> , <b>2019</b> , 3,	0.4	78
282	Review of the evidence regarding the use of antenatal multiple micronutrient supplementation in low- and middle-income countries. <i>Annals of the New York Academy of Sciences</i> , <b>2019</b> , 1444, 6-21	6.5	36
281	Provision of Pre- and Postnatal Nutritional Supplements Generally Did Not Increase or Decrease Common Childhood Illnesses in Bangladesh: A Cluster-Randomized Effectiveness Trial. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 1271-1281	4.1	6
280	Newborn physical condition and breastfeeding behaviours: Secondary outcomes of a cluster-randomized trial of prenatal lipid-based nutrient supplements in Bangladesh. <i>Maternal and Child Nutrition</i> , <b>2019</b> , 15, e12844	3.4	2
279	The association of early linear growth and haemoglobin concentration with later cognitive, motor, and social-emotional development at preschool age in Ghana. <i>Maternal and Child Nutrition</i> , <b>2019</b> , 15, e12834	3.4	5
278	Variation in hemoglobin across the life cycle and between males and females. <i>Annals of the New York Academy of Sciences</i> , <b>2019</b> , 1450, 105-125	6.5	7

277	Maternal hemoglobin concentrations across pregnancy and maternal and child health: a systematic review and meta-analysis. <i>Annals of the New York Academy of Sciences</i> , <b>2019</b> , 1450, 47-68	6.5	50
276	Maternal and Infant Lipid-Based Nutritional Supplementation Increases Height of Ghanaian Children at 4-6 Years Only if the Mother Was Not Overweight Before Conception. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 847-855	4.1	10
275	Lipid based nutrient supplements during pregnancy may improve foetal growth in HIV infected women - A cohort study. <i>PLoS ONE</i> , <b>2019</b> , 14, e0215760	3.7	1
274	Benefits of supplementation with multiple micronutrients in pregnancy. <i>Annals of the New York Academy of Sciences</i> , <b>2019</b> , 1444, 3-5	6.5	10
273	Timing of introduction of complementary foods and beverages and growth, size, and body composition: a systematic review. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 935S-955S	7	23
272	Types and amounts of complementary foods and beverages consumed and growth, size, and body composition: a systematic review. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 956S-977S	7	19
271	Gestational weight gain and newborn anthropometric outcomes in rural Bangladesh. <i>Maternal and Child Nutrition</i> , <b>2019</b> , 15, e12816	3.4	3
270	Exposure to a slightly sweet lipid-based nutrient supplement during early life does not increase the level of sweet taste most preferred among 4- to 6-year-old Ghanaian children: follow-up of a randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 1224-1232	7	2
269	Maternal-Infant Supplementation with Small-Quantity Lipid-Based Nutrient Supplements Does Not Affect Child Blood Pressure at 4-6 Y in Ghana: Follow-up of a Randomized Trial. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 522-531	4.1	5
268	The effects of a nutrient supplementation intervention in Ghana on parents' investments in their children. <i>PLoS ONE</i> , <b>2019</b> , 14, e0212178	3.7	1
267	Exposure to a Slightly Sweet Lipid-Based Nutrient Supplement During Early Life Does Not Increase the Preference for or Consumption of Sweet Foods and Beverages by 4-6-y-Old Ghanaian Preschool Children: Follow-up of a Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 532-541	4.1	4
266	Complementary feeding and food allergy, atopic dermatitis/eczema, asthma, and allergic rhinitis: a systematic review. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 890S-934S	7	26
265	Complementary feeding and micronutrient status: a systematic review. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 852S-871S	7	30
264	Complementary feeding and developmental milestones: a systematic review. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 879S-889S	7	12
263	Path analyses of risk factors for linear growth faltering in four prospective cohorts of young children in Ghana, Malawi and Burkina Faso. <i>BMJ Global Health</i> , <b>2019</b> , 4, e001155	6.6	15
262	Prenatal and postnatal lipid-based nutrient supplementation and cognitive, social-emotional, and motor function in preschool-aged children in Ghana: a follow-up of a randomized controlled trial. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 322-334	7	8
261	Maternal Hemoglobin Concentrations Across Pregnancy and Maternal and Child Health: A Systematic Review and Meta-analysis (P11-033-19). <i>Current Developments in Nutrition</i> , <b>2019</b> , 3,	0.4	1
260	Are Dietary Amino Acids or Protein Quality Associated with Infant Length Gain from 6 to 12 Months in Rural Malawi? (P10-010-19). <i>Current Developments in Nutrition</i> , <b>2019</b> , 3,	0.4	78

259	Maternal Functional Health Literacy Does Not Predict Child Growth, Development, or Illness from 6 to 18 Mo of Age in Malawi (P11-004-19). <i>Current Developments in Nutrition</i> , <b>2019</b> , 3,	0.4	78
258	The effects of supplementing maternal and infant diets with lipid-based nutrient supplements on physical activity and sedentary behaviour at preschool age in Ghana. <i>British Journal of Nutrition</i> , <b>2019</b> , 122, 884-894	3.6	2
257	Factors associated with diarrhea and acute respiratory infection in children under two years of age in rural Bangladesh. <i>BMC Pediatrics</i> , <b>2019</b> , 19, 386	2.6	14
256	A Prospective Study on Child Morbidity and Gut Microbiota in Rural Malawi. <i>Journal of Pediatric Gastroenterology and Nutrition</i> , <b>2019</b> , 69, 431-437	2.8	5
255	A behaviour change intervention with lipid-based nutrient supplements had little impact on young child feeding indicators in rural Kenya. <i>Maternal and Child Nutrition</i> , <b>2019</b> , 15, e12660	3.4	7
254	Associations between antenatal depression and neonatal outcomes in Malawi. <i>Maternal and Child Nutrition</i> , <b>2019</b> , 15, e12709	3.4	4
253	Prenatal Iron Deficiency and Replete Iron Status Are Associated with Adverse Birth Outcomes, but Associations Differ in Ghana and Malawi. <i>Journal of Nutrition</i> , <b>2019</b> , 149, 513-521	4.1	10
252	Complementary feeding and bone health: a systematic review. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 872S-878S	7	7
251	Effects of lipid-based nutrient supplements and infant and young child feeding counseling with or without improved water, sanitation, and hygiene (WASH) on anemia and micronutrient status: results from 2 cluster-randomized trials in Kenya and Bangladesh. <i>American Journal of Clinical Nutrition</i> , <b>2019</b> , 109, 148-164	7	20
250	Ghanaian parents' perceptions of pre and postnatal nutrient supplements and their effects. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12608	3.4	6
249	Willingness to pay for small-quantity lipid-based nutrient supplements for women and children: Evidence from Ghana and Malawi. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12518	3.4	10
248	Factors associated with nutritional status and dietary practices of Bangladeshi adolescents in early pregnancy. <i>Annals of the New York Academy of Sciences</i> , <b>2018</b> , 1416, 66	6.5	6
247	Effects of water quality, sanitation, handwashing, and nutritional interventions on diarrhoea and child growth in rural Kenya: a cluster-randomised controlled trial. <i>The Lancet Global Health</i> , <b>2018</b> , 6, e316-e329	13.6	307
246	Effects of water quality, sanitation, handwashing, and nutritional interventions on diarrhoea and child growth in rural Bangladesh: a cluster randomised controlled trial. <i>The Lancet Global Health</i> , <b>2018</b> , 6, e302-e315	13.6	329
245	Association between breast milk intake at 9-10 months of age and growth and development among Malawian young children. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12582	3.4	2
244	Supplementation during pregnancy with small-quantity lipid-based nutrient supplements or multiple micronutrients, compared with iron and folic acid, increases women's urinary iodine concentration in semiurban Ghana: A randomized controlled trial. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12570	3.4	9
243	Co-causation of reduced newborn size by maternal undernutrition, infections, and inflammation. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12585	3.4	12
242	Unintended effects of a targeted maternal and child nutrition intervention on household expenditures, labor income, and the nutritional status of non-targeted siblings in Ghana. <i>World Development</i> , <b>2018</b> , 107, 138-150	5.5	8

241	Local foods can meet micronutrient needs for women in urban Burkina Faso, but only if rarely consumed micronutrient-dense foods are included in daily diets: A linear programming exercise. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14,	3.4	13
240	Maternal supplementation with small-quantity lipid-based nutrient supplements during pregnancy and lactation does not reduce depressive symptoms at 6 months postpartum in Ghanaian women: a randomized controlled trial. <i>Archives of Women's Mental Health</i> , <b>2018</b> , 21, 55-63	5	8
239	Effects of lipid-based nutrient supplements or multiple micronutrient supplements compared with iron and folic acid supplements during pregnancy on maternal haemoglobin and iron status. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12640	3.4	5
238	A method to develop vocabulary checklists in new languages and their validity to assess early language development. <i>Journal of Health, Population and Nutrition</i> , <b>2018</b> , 37, 13	2.5	7
237	Prenatal and Postnatal Supplementation with Lipid-Based Nutrient Supplements Reduces Anemia and Iron Deficiency in 18-Month-Old Bangladeshi Children: A Cluster-Randomized Effectiveness Trial. <i>Journal of Nutrition</i> , <b>2018</b> , 148, 1167-1176	4.1	10
236	Associations of maternal nutrition during pregnancy and post-partum with maternal cognition and caregiving. <i>Maternal and Child Nutrition</i> , <b>2018</b> , 14, e12546	3.4	11
235	The association of malaria morbidity with linear growth, hemoglobin, iron status, and development in young Malawian children: a prospective cohort study. <i>BMC Pediatrics</i> , <b>2018</b> , 18, 396	2.6	6
234	Pre-pregnancy body mass index (BMI) and maternal gestational weight gain are positively associated with birth outcomes in rural Malawi. <i>PLoS ONE</i> , <b>2018</b> , 13, e0206035	3.7	19
233	Daily Maternal Lipid-Based Nutrient Supplementation with 20 mg Iron, Compared with Iron and Folic Acid with 60 mg Iron, Resulted in Lower Iron Status in Late Pregnancy but Not at 6 Months Postpartum in Either the Mothers or Their Infants in Bangladesh. <i>Journal of Nutrition</i> , <b>2018</b> , 148, 1615-1624	4.1	4
232	Adherence to recommendations on lipid-based nutrient supplement and iron and folic acid tablet consumption among pregnant and lactating women participating in a community health programme in northwest Bangladesh. <i>Maternal and Child Nutrition</i> , <b>2017</b> , 13,	3.4	12
231	Effects of an intervention on infant growth and development: evidence for different mechanisms at work. <i>Maternal and Child Nutrition</i> , <b>2017</b> , 13,	3.4	10
230	The impact of maternal diet fortification with lipid-based nutrient supplements on postpartum depression in rural Malawi: a randomised-controlled trial. <i>Maternal and Child Nutrition</i> , <b>2017</b> , 13,	3.4	9
229	Impact of small-quantity lipid-based nutrient supplement on hemoglobin, iron status and biomarkers of inflammation in pregnant Ghanaian women. <i>Maternal and Child Nutrition</i> , <b>2017</b> , 13,	3.4	26
228	Lipid-based nutrient supplementation in the first 1000 d improves child growth in Bangladesh: a cluster-randomized effectiveness trial. <i>American Journal of Clinical Nutrition</i> , <b>2017</b> , 105, 944-957	7	60
227	Maternal Supplementation with Small-Quantity Lipid-Based Nutrient Supplements Compared with Multiple Micronutrients, but Not with Iron and Folic Acid, Reduces the Prevalence of Low Gestational Weight Gain in Semi-Urban Ghana: A Randomized Controlled Trial. <i>Journal of Nutrition</i> , <b>2017</b> , 147, 687-705	4.1	21
226	Effects of a lipid-based nutrient supplement during pregnancy and lactation on maternal plasma fatty acid status and lipid profile: Results of two randomized controlled trials. <i>Prostaglandins Leukotrienes and Essential Fatty Acids</i> , <b>2017</b> , 117, 28-35	2.8	15
225	Plasma Ferritin and Hepcidin Are Lower at 4 Months Postpartum among Women with Elevated C-Reactive Protein or $\alpha$ -Acid Glycoprotein. <i>Journal of Nutrition</i> , <b>2017</b> , 147, 1194-1199	4.1	2
224	Effect of iron supplementation during lactation on maternal iron status and oxidative stress: A randomized controlled trial. <i>Maternal and Child Nutrition</i> , <b>2017</b> , 13,	3.4	6

223	Impact of small quantity lipid-based nutrient supplements on infant and young child feeding practices at 18 months of age: results from four randomized controlled trials in Africa. <i>Maternal and Child Nutrition</i> , <b>2017</b> , 13, e12377	3.4	26
222	Daily Consumption of Lipid-Based Nutrient Supplements Containing 250 µg Iodine Does Not Increase Urinary Iodine Concentrations in Pregnant and Postpartum Women in Bangladesh. <i>Journal of Nutrition</i> , <b>2017</b> , 147, 1586-1592	4.1	13
221	Predictors and pathways of language and motor development in four prospective cohorts of young children in Ghana, Malawi, and Burkina Faso. <i>Journal of Child Psychology and Psychiatry and Allied Disciplines</i> , <b>2017</b> , 58, 1264-1275	7.9	34
220	Home fortification during the first 1000 d improves child development in Bangladesh: a cluster-randomized effectiveness trial. <i>American Journal of Clinical Nutrition</i> , <b>2017</b> , 105, 958-969	7	26
219	Meeting nutritional needs in the first 1000 days: a place for small-quantity lipid-based nutrient supplements. <i>Annals of the New York Academy of Sciences</i> , <b>2017</b> , 1392, 18-29	6.5	22
218	U-shaped curve for risk associated with maternal hemoglobin, iron status, or iron supplementation. <i>American Journal of Clinical Nutrition</i> , <b>2017</b> , 106, 1694S-1702S	7	78
217	Modifiers of the effect of maternal multiple micronutrient supplementation on stillbirth, birth outcomes, and infant mortality: a meta-analysis of individual patient data from 17 randomised trials in low-income and middle-income countries. <i>The Lancet Global Health</i> , <b>2017</b> , 5, e1090-e1100	13.6	119
216	Bacterial communities found in placental tissues are associated with severe chorioamnionitis and adverse birth outcomes. <i>PLoS ONE</i> , <b>2017</b> , 12, e0180167	3.7	68
215	Malaria, malnutrition, and birthweight: A meta-analysis using individual participant data. <i>PLoS Medicine</i> , <b>2017</b> , 14, e1002373	11.6	25
