#	Paper	IF	Citations
108	The Pain Catastrophizing Scale: Development and validation.. <i>Psychological Assessment</i> , <b>1995</b> , 7, 524-532	5.3	4327
107	Theoretical perspectives on the relation between catastrophizing and pain. <i>Clinical Journal of Pain</i> , <b>2001</b> , 17, 52-64	3.5	1635
106	Catastrophizing, pain, and disability in patients with soft-tissue injuries. <i>Pain</i> , <b>1998</b> , 77, 253-260	8	407
105	A biopsychosocial formulation of pain communication. <i>Psychological Bulletin</i> , <b>2011</b> , 137, 910-939	19.1	304
104	The role of perceived injustice in the experience of chronic pain and disability: scale development and validation. <i>Journal of Occupational Rehabilitation</i> , <b>2008</b> , 18, 249-61	3.6	229
103	Psychological determinants of problematic outcomes following Total Knee Arthroplasty. <i>Pain</i> , <b>2009</b> , 143, 123-9	8	224
102	Catastrophizing: a risk factor for postsurgical pain. <i>Clinical Journal of Pain</i> , <b>2005</b> , 21, 83-90	3.5	223
101	A psychosocial risk factor--targeted intervention for the prevention of chronic pain and disability following whiplash injury. <i>Physical Therapy</i> , <b>2006</b> , 86, 8-18	3.3	206
100	Dimensions of catastrophic thinking associated with pain experience and disability in patients with neuropathic pain conditions. <i>Pain</i> , <b>2005</b> , 113, 310-315	8	199
99	Prospective relation between catastrophizing and residual pain following knee arthroplasty: two-year follow-up. <i>Pain Research and Management</i> , <b>2008</b> , 13, 335-41	2.6	196
98	Gender Differences in Pain and Pain Behavior: The Role of Catastrophizing. <i>Cognitive Therapy and Research</i> , <b>2000</b> , 24, 121-134	2.7	188
97	The treatment of depression in chronic low back pain: review and recommendations. <i>Pain</i> , <b>1992</b> , 50, 5-138		158
96	Psychologically based occupational rehabilitation: the Pain-Disability Prevention Program. <i>Clinical Journal of Pain</i> , <b>2003</b> , 19, 97-104	3.5	145
95	Communicative dimensions of pain catastrophizing: social cueing effects on pain behaviour and coping. <i>Pain</i> , <b>2004</b> , 107, 220-226	8	143
94	Pain, perceived injustice and the persistence of post-traumatic stress symptoms during the course of rehabilitation for whiplash injuries. <i>Pain</i> , <b>2009</b> , 145, 325-331	8	134
93	Secondary prevention of work disability: community-based psychosocial intervention for musculoskeletal disorders. <i>Journal of Occupational Rehabilitation</i> , <b>2005</b> , 15, 377-92	3.6	134
92	The fear avoidance model disentangled: improving the clinical utility of the fear avoidance model. <i>Clinical Journal of Pain</i> , <b>2010</b> , 26, 739-46	3.5	133

91	The role of presurgical expectancies in predicting pain and function one year following total knee arthroplasty. <i>Pain</i> , <b>2011</b> , 152, 2287-2293	8	123
90	Rethinking the fear avoidance model: toward a multidimensional framework of pain-related disability. <i>Pain</i> , <b>2013</b> , 154, 2262-2265	8	122
89	A prospective sequential analysis of the fear-avoidance model of pain. <i>Pain</i> , <b>2009</b> , 145, 45-51	8	115
88	Demographic and psychosocial predictors of acute perioperative pain for total knee arthroplasty. <i>Pain Research and Management</i> , <b>2007</b> , 12, 185-94	2.6	113
87	Perceived injustice: a risk factor for problematic pain outcomes. <i>Clinical Journal of Pain</i> , <b>2012</b> , 28, 484-8	3.5	111
86	Differential predictors of pain and disability in patients with whiplash injuries. <i>Pain Research and Management</i> , <b>2002</b> , 7, 68-74	2.6	97
85	Path model of psychological antecedents to pain experience: experimental and clinical findings. <i>Clinical Journal of Pain</i> , <b>2004</b> , 20, 164-73	3.5	90
84	Clinically meaningful scores on pain catastrophizing before and after multidisciplinary rehabilitation: a prospective study of individuals with subacute pain after whiplash injury. <i>Clinical Journal of Pain</i> , <b>2014</b> , 30, 183-90	3.5	89
83	Thought Suppression, Catastrophizing, and Pain. <i>Cognitive Therapy and Research</i> , <b>1997</b> , 21, 555-568	2.7	89
82	Toward a biopsychomotor conceptualization of pain: implications for research and intervention. <i>Clinical Journal of Pain</i> , <b>2008</b> , 24, 281-90	3.5	88
81	Catastrophizing and perceived injustice: risk factors for the transition to chronicity after whiplash injury. <i>Spine</i> , <b>2011</b> , 36, S244-9	3.3	83
80	The influence of communication goals and physical demands on different dimensions of pain behavior. <i>Pain</i> , <b>2006</b> , 125, 270-277	8	82
79	An experimental investigation of the relation between catastrophizing and activity intolerance. <i>Pain</i> , <b>2002</b> , 100, 47-53	8	82
78	Catastrophizing, anxiety and pain during dental hygiene treatment. <i>Community Dentistry and Oral Epidemiology</i> , <b>1998</b> , 26, 344-9	2.8	81
77	Perceived Injustice is Associated with Heightened Pain Behavior and Disability in Individuals with Whiplash Injuries. <i>Psychological Injury and Law</i> , <b>2009</b> , 2, 238-247	2.8	80
76	Anger differentially mediates the relationship between perceived injustice and chronic pain outcomes. <i>Pain</i> , <b>2013</b> , 154, 1691-1698	8	77
75	Comparisons of catastrophizing, pain attitudes, and cold-pressor pain experience between Chinese and European Canadian young adults. <i>Journal of Pain</i> , <b>2010</b> , 11, 1187-94	5.2	76
74	Differential predictors of the long-term levels of pain intensity, work disability, healthcare use, and medication use in a sample of workers' compensation claimants. <i>Pain</i> , <b>2011</b> , 152, 376-383	8	75

73	Psychological influences on repetition-induced summation of activity-related pain in patients with chronic low back pain. <i>Pain</i> , <b>2009</b> , 141, 70-8	8	72
72	The communal coping model of pain catastrophizing: Clinical and research implications.. <i>Canadian Psychology</i> , <b>2012</b> , 53, 32-41	3.2	70
71	Psychological predictors of pain expression and activity intolerance in chronic pain patients. <i>Pain</i> , <b>2008</b> , 139, 47-54	8	66
70	Psychosocial factors related to return to work following rehabilitation of whiplash injuries. <i>Journal of Occupational Rehabilitation</i> , <b>2007</b> , 17, 305-15	3.6	66
69	Cognitive dimensions of anger in chronic pain. <i>Pain</i> , <b>2012</b> , 153, 515-517	8	64
68	Further validation of a measure of injury-related injustice perceptions to identify risk for occupational disability: a prospective study of individuals with whiplash injury. <i>Journal of Occupational Rehabilitation</i> , <b>2013</b> , 23, 557-65	3.6	62
67	Initial depression severity and the trajectory of recovery following cognitive-behavioral intervention for work disability. <i>Journal of Occupational Rehabilitation</i> , <b>2006</b> , 16, 63-74	3.6	61
66	Perceived injustice moderates the relationship between pain and depressive symptoms among individuals with persistent musculoskeletal pain. <i>Pain Research and Management</i> , <b>2012</b> , 17, 335-40	2.6	57
65	The role of perceived injustice in the prediction of pain and function after total knee arthroplasty. <i>Pain</i> , <b>2014</b> , 155, 2040-6	8	54
64	Stage of chronicity and treatment response in patients with musculoskeletal injuries and concurrent symptoms of depression. <i>Pain</i> , <b>2008</b> , 135, 151-9	8	49
63	Perceived Injustice and Adverse Recovery Outcomes. <i>Psychological Injury and Law</i> , <b>2014</b> , 7, 325-334	2.8	48
62	Psychosocial treatment techniques to augment the impact of physiotherapy interventions for low back pain. <i>Physiotherapy Canada Physiotherapie Canada</i> , <b>2010</b> , 62, 180-9	0.8	48
61	Investigating risk factors for chronicity: the importance of distinguishing between return-to-work status and self-report measures of disability. <i>Journal of Occupational and Environmental Medicine</i> , <b>2006</b> , 48, 312-8	2	43
60	Activity-related summation of pain and functional disability in patients with whiplash injuries. <i>Pain</i> , <b>2010</b> , 151, 440-446	8	40
59	Barriers to change in depressive symptoms after multidisciplinary rehabilitation for whiplash: the role of perceived injustice. <i>Clinical Journal of Pain</i> , <b>2015</b> , 31, 145-51	3.5	39
58	Potential processes involved in the initiation and maintenance of whiplash-associated disorders: discussion paper 3. <i>Spine</i> , <b>2011</b> , 36, S322-9	3.3	36
57	Stage of Chronicity and Cognitive Correlates of Pain-Related Disability. <i>Cognitive Behaviour Therapy</i> , <b>2002</b> , 31, 111-118	4.4	32
56	Expectancies Mediate the Relations Among Pain Catastrophizing, Fear of Movement, and Return to Work Outcomes After Whiplash Injury. <i>Journal of Pain</i> , <b>2015</b> , 16, 1280-1287	5.2	30

55	Development of a cumulative psychosocial factor index for problematic recovery following work-related musculoskeletal injuries. <i>Physical Therapy</i> , <b>2012</b> , 92, 58-68	3.3	30
54	Patients who display protective pain behaviors are viewed as less likable, less dependable, and less likely to return to work. <i>Pain</i> , <b>2012</b> , 153, 843-849	8	27
53	Repetition-induced activity-related summation of pain in patients with fibromyalgia. <i>Pain</i> , <b>2011</b> , 152, 1424-1430	8	27
52	The relationship between perceived injustice and the working alliance: a cross-sectional study of patients with persistent pain attending multidisciplinary rehabilitation. <i>Disability and Rehabilitation</i> , <b>2016</b> , 38, 2365-73	2.4	25
51	The Mediating Role of Recovery Expectancies on the Relation Between Depression and Return-to-Work. <i>Journal of Occupational Rehabilitation</i> , <b>2015</b> , 25, 348-56	3.6	23
50	Measures of spontaneous and movement-evoked pain are associated with disability in patients with whiplash injuries. <i>Journal of Pain</i> , <b>2014</b> , 15, 967-75	5.2	23
49	Judgments about pain intensity and pain genuineness: the role of pain behavior and judgmental heuristics. <i>Journal of Pain</i> , <b>2011</b> , 12, 468-75	5.2	23
48	Validation of a French-Canadian version of the Pain Disability Index. <i>Pain Research and Management</i> , <b>2008</b> , 13, 327-33	2.6	23
47	Pain catastrophizing and symptom severity during upper respiratory tract illness. <i>Clinical Journal of Pain</i> , <b>2003</b> , 19, 125-33	3.5	23
46	A Psychosocial Risk-Targeted Intervention to Reduce Work Disability: Development, Evolution, and Implementation Challenges. <i>Psychological Injury and Law</i> , <b>2013</b> , 6, 250-257	2.8	22
45	Sources of injustice among individuals with persistent pain following musculoskeletal injury. <i>Psychological Injury and Law</i> , <b>2016</b> , 9, 6-15	2.8	21
44	Targeting Catastrophic Thinking to Promote Return to Work in Individuals With Fibromyalgia. <i>Journal of Cognitive Psychotherapy</i> , <b>2012</b> , 26, 130-142	0.9	18
43	Pain behavior mediates the relationship between perceived injustice and opioid prescription for chronic pain: a Collaborative Health Outcomes Information Registry study. <i>Journal of Pain Research</i> , <b>2017</b> , 10, 557-566	2.9	17
42	Recovery from depressive symptoms over the course of physical therapy: a prospective cohort study of individuals with work-related orthopaedic injuries and symptoms of depression. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , <b>2012</b> , 42, 957-67	4.2	17
41	Changes in pain catastrophizing following physical therapy for musculoskeletal injury: the influence of depressive and post-traumatic stress symptoms. <i>Journal of Occupational Rehabilitation</i> , <b>2014</b> , 24, 22-31	3.6	16
40	The prognostic value of pain catastrophizing in health-related quality of life judgments after Total knee arthroplasty. <i>Health and Quality of Life Outcomes</i> , <b>2018</b> , 16, 126	3	15
39	A telephonic intervention for promoting occupational re-integration in work-disabled individuals with musculoskeletal pain. <i>Translational Behavioral Medicine</i> , <b>2012</b> , 2, 149-58	3.2	15
38	Introduction: Emerging Trends in Secondary Prevention of Back Pain Disability. <i>Clinical Journal of Pain</i> , <b>2003</b> , 19, 77-79	3.5	15

37	Development and validation of Arabic version of the pain catastrophizing scale. <i>Saudi Journal of Anaesthesia</i> , <b>2017</b> , 11, S63-S70	1.2	15
36	An experimental approach to examining psychological contributions to multisite musculoskeletal pain. <i>Journal of Pain</i> , <b>2014</b> , 15, 1156-1165	5.2	13
35	Catastrophizing and pain-related fear predict failure to maintain treatment gains following participation in a pain rehabilitation program. <i>Pain Reports</i> , <b>2016</b> , 1, e567	3.5	13
34	Assessing catastrophic thinking associated with debilitating mental health conditions. <i>Disability and Rehabilitation</i> , <b>2018</b> , 40, 317-322	2.4	12
33	Factor structure and internal consistency of a Swedish version of the Pain Catastrophizing Scale. <i>Acta Anaesthesiologica Scandinavica</i> , <b>2019</b> , 63, 259-266	1.9	12
32	TENS attenuates repetition-induced summation of activity-related pain following experimentally induced muscle soreness. <i>Journal of Pain</i> , <b>2013</b> , 14, 1416-24	5.2	11
31	Sensitivity to Movement-Evoked Pain and Multi-Site Pain are Associated with Work-Disability Following Whiplash Injury: A Cross-Sectional Study. <i>Journal of Occupational Rehabilitation</i> , <b>2017</b> , 27, 413-421	3.6	11
30	Service, advocacy and adjudication: balancing the ethical challenges of multiple stakeholder agendas in the rehabilitation of chronic pain. <i>Disability and Rehabilitation</i> , <b>2007</b> , 29, 1596-603	2.4	9
29	Comparing Novel and Existing Measures of Sensitivity to Physical Activity Among People With Chronic Musculoskeletal Pain: The Importance of Tailoring Activity to Pain. <i>Clinical Journal of Pain</i> , <b>2019</b> , 35, 656-667	3.5	9
28	The Relationship Between Level of Catastrophizing and Mental Health Comorbidity in Individuals With Whiplash Injuries. <i>Clinical Journal of Pain</i> , <b>2019</b> , 35, 880-886	3.5	9
27	Pain Catastrophizing and Fear of Pain Predict the Experience of Pain in Body Parts Not Targeted by a Delayed-Onset Muscle Soreness Procedure. <i>Journal of Pain</i> , <b>2015</b> , 16, 1065-76	5.2	8
26	The Relation Between Catastrophizing and Occupational Disability in Individuals with Major Depression: Concurrent and Prospective Associations. <i>Journal of Occupational Rehabilitation</i> , <b>2017</b> , 27, 405-412	3.6	8
25	The relation between perceived injustice and symptom severity in individuals with major depression: A cross-lagged panel study. <i>Journal of Affective Disorders</i> , <b>2020</b> , 274, 289-297	6.6	8
24	Treatment-related reductions in catastrophizing predict return to work in individuals with post-traumatic stress disorder. <i>Journal of Applied Biobehavioral Research</i> , <b>2017</b> , 22, e12087	1.7	7
23	Reductions in Perceived Injustice are Associated With Reductions in Disability and Depressive Symptoms After Total Knee Arthroplasty. <i>Clinical Journal of Pain</i> , <b>2018</b> , 34, 415-420	3.5	7
22	Psychometric Properties of a Brief Instrument to Assess Perceptions of Injustice Associated with Debilitating Health and Mental Health Conditions. <i>Psychological Injury and Law</i> , <b>2016</b> , 9, 48-54	2.8	7
21	Validity and Determinants of Clinicians' Return to Work Judgments for Individuals Following Whiplash Injury. <i>Psychological Injury and Law</i> , <b>2010</b> , 3, 220-229	2.8	7
20	Validation of an index of Sensitivity to Movement-Evoked Pain in patients with whiplash injuries. <i>Pain Reports</i> , <b>2018</b> , 3, e661	3.5	7

19	Pain Intensity Is Not Always Associated with Poorer Health Status: Exploring the Moderating Role of Spouse Personality. <i>Pain Research and Management</i> , <b>2018</b> , 2018, 7927656	2.6	7
18	Return to work helps maintain treatment gains in the rehabilitation of whiplash injury. <i>Pain</i> , <b>2017</b> , 158, 980-987	8	6
17	The effect of wearing a lumbar belt on biomechanical and psychological outcomes related to maximal flexion-extension motion and manual material handling. <i>Applied Ergonomics</i> , <b>2018</b> , 69, 17-24	4.2	5
16	Introduction to the Special Issue on Justice-Related Appraisals and Recovery Outcomes. <i>Psychological Injury and Law</i> , <b>2016</b> , 9, 1-5	2.8	5
15	Reductions in Fatigue Predict Occupational Re-engagement in Individuals with Work-Related Musculoskeletal Disorders. <i>Journal of Occupational Rehabilitation</i> , <b>2020</b> , 30, 135-145	3.6	5
14	Reductions in Perceived Injustice Are Associated with Reductions in Posttraumatic Stress Symptoms Among Individuals Receiving Treatment for Whiplash Injury. <i>Psychological Injury and Law</i> , <b>2018</b> , 11, 256-264	2.8	4
13	Employment Concerns and Associated Impairments of Women Living With Advanced Breast Cancer. <i>Archives of Rehabilitation Research and Clinical Translation</i> , <b>2019</b> , 1, 100004	1.3	3
12	ISSLS PRIZE IN CLINICAL SCIENCE 2021: What are the risk factors for low back pain flares and does this depend on how flare is defined?. <i>European Spine Journal</i> , <b>2021</b> , 30, 1089-1097	2.7	3
11	Cross-sectional and Prospective Correlates of Recovery Expectancies in the Rehabilitation of Whiplash Injury. <i>Clinical Journal of Pain</i> , <b>2018</b> , 34, 306-312	3.5	3
10	Pain, Chronicity, and Disability <b>2013</b> , 107-124		3
9	Pain Behavior: Unitary or Multidimensional Phenomenon? <b>2018</b> , 79-99		2
8	Marital Relationship and Quality of Life in Couples Following Hip Replacement Surgery. <i>Life</i> , <b>2021</b> , 11,	3	1
7	The Prospective Prognostic Value of Biopsychosocial Indices of Sensitivity to Physical Activity Among People With Back Pain. <i>Clinical Journal of Pain</i> , <b>2021</b> , 37, 719-729	3.5	1
6	Cognitive-Behavioral Approach to Return to Work. <i>Handbooks in Health, Work, and Disability</i> , <b>2016</b> , 353-363		
5	Pain Catastrophizing and Fear of Movement: Detection and Intervention <b>2010</b> , 207-214		
4	Self-report of pain threshold is an act of communication: comment on Kunz et al. "The relation between catastrophizing and facial responsiveness to pain". <i>Pain</i> 2008;140:127-34. <i>Pain</i> , <b>2008</b> , 140, 521	8	
3	Cross-cultural adaptation and validation of the Hebrew version of the Injustice Experience Questionnaire - long and short versions.. <i>Disability and Rehabilitation</i> , <b>2022</b> , 1-7	2.4	
2	Further Verification Using Causal Mediation Analysis that Expectancies Mediate the Relationships Between Pain Catastrophizing, Fear of Movement, and Return to Work: A Reply to Lee, HBScher, and McAuley. <i>Journal of Pain</i> , <b>2016</b> , 17, 1047-8	5.2	

- 1 Risk-targeted behavioral activation for the management of work disability associated with comorbid pain and depression: a feasibility study.. *Pilot and Feasibility Studies*, **2022**, 8, 90
