#	Paper	IF	Citations
108	Cross-cultural adaptation and validation of the Hebrew version of the Injustice Experience Questionnaire - long and short versions.. <i>Disability and Rehabilitation</i> , 2022 , 1-7	2.4	
107	Risk-targeted behavioral activation for the management of work disability associated with comorbid pain and depression: a feasibility study.. <i>Pilot and Feasibility Studies</i> , 2022 , 8, 90	1.9	
106	Marital Relationship and Quality of Life in Couples Following Hip Replacement Surgery. <i>Life</i> , 2021 , 11,	3	1
105	ISSLS PRIZE IN CLINICAL SCIENCE 2021: What are the risk factors for low back pain flares and does this depend on how flare is defined?. <i>European Spine Journal</i> , 2021 , 30, 1089-1097	2.7	3
104	The Prospective Prognostic Value of Biopsychosocial Indices of Sensitivity to Physical Activity Among People With Back Pain. <i>Clinical Journal of Pain</i> , 2021 , 37, 719-729	3.5	1
103	The relation between perceived injustice and symptom severity in individuals with major depression: A cross-lagged panel study. <i>Journal of Affective Disorders</i> , 2020 , 274, 289-297	6.6	8
102	Reductions in Fatigue Predict Occupational Re-engagement in Individuals with Work-Related Musculoskeletal Disorders. <i>Journal of Occupational Rehabilitation</i> , 2020 , 30, 135-145	3.6	5
101	Employment Concerns and Associated Impairments of Women Living With Advanced Breast Cancer. <i>Archives of Rehabilitation Research and Clinical Translation</i> , 2019 , 1, 100004	1.3	3
100	Comparing Novel and Existing Measures of Sensitivity to Physical Activity Among People With Chronic Musculoskeletal Pain: The Importance of Tailoring Activity to Pain. <i>Clinical Journal of Pain</i> , 2019 , 35, 656-667	3.5	9
99	The Relationship Between Level of Catastrophizing and Mental Health Comorbidity in Individuals With Whiplash Injuries. <i>Clinical Journal of Pain</i> , 2019 , 35, 880-886	3.5	9
98	Factor structure and internal consistency of a Swedish version of the Pain Catastrophizing Scale. <i>Acta Anaesthesiologica Scandinavica</i> , 2019 , 63, 259-266	1.9	12
97	The effect of wearing a lumbar belt on biomechanical and psychological outcomes related to maximal flexion-extension motion and manual material handling. <i>Applied Ergonomics</i> , 2018 , 69, 17-24	4.2	5
96	Assessing catastrophic thinking associated with debilitating mental health conditions. <i>Disability and Rehabilitation</i> , 2018 , 40, 317-322	2.4	12
95	Reductions in Perceived Injustice are Associated With Reductions in Disability and Depressive Symptoms After Total Knee Arthroplasty. <i>Clinical Journal of Pain</i> , 2018 , 34, 415-420	3.5	7
94	The prognostic value of pain catastrophizing in health-related quality of life judgments after Total knee arthroplasty. <i>Health and Quality of Life Outcomes</i> , 2018 , 16, 126	3	15
93	Pain Behavior: Unitary or Multidimensional Phenomenon? 2018 , 79-99		2
92	Cross-sectional and Prospective Correlates of Recovery Expectancies in the Rehabilitation of Whiplash Injury. <i>Clinical Journal of Pain</i> , 2018 , 34, 306-312	3.5	3

91	Validation of an index of Sensitivity to Movement-Evoked Pain in patients with whiplash injuries. <i>Pain Reports</i> , 2018 , 3, e661	3.5	7
90	Pain Intensity Is Not Always Associated with Poorer Health Status: Exploring the Moderating Role of Spouse Personality. <i>Pain Research and Management</i> , 2018 , 2018, 7927656	2.6	7
89	Reductions in Perceived Injustice Are Associated with Reductions in Posttraumatic Stress Symptoms Among Individuals Receiving Treatment for Whiplash Injury. <i>Psychological Injury and Law</i> , 2018 , 11, 256-264	2.8	4
88	Treatment-related reductions in catastrophizing predict return to work in individuals with post-traumatic stress disorder. <i>Journal of Applied Biobehavioral Research</i> , 2017 , 22, e12087	1.7	7
87	Return to work helps maintain treatment gains in the rehabilitation of whiplash injury. <i>Pain</i> , 2017 , 158, 980-987	8	6
86	Pain behavior mediates the relationship between perceived injustice and opioid prescription for chronic pain: a Collaborative Health Outcomes Information Registry study. <i>Journal of Pain Research</i> , 2017 , 10, 557-566	2.9	17
85	Sensitivity to Movement-Evoked Pain and Multi-Site Pain are Associated with Work-Disability Following Whiplash Injury: A Cross-Sectional Study. <i>Journal of Occupational Rehabilitation</i> , 2017 , 27, 413-421	3.6	11
84	The Relation Between Catastrophizing and Occupational Disability in Individuals with Major Depression: Concurrent and Prospective Associations. <i>Journal of Occupational Rehabilitation</i> , 2017 , 27, 405-412	3.6	8
83	Development and validation of Arabic version of the pain catastrophizing scale. <i>Saudi Journal of Anaesthesia</i> , 2017 , 11, S63-S70	1.2	15
82	The relationship between perceived injustice and the working alliance: a cross-sectional study of patients with persistent pain attending multidisciplinary rehabilitation. <i>Disability and Rehabilitation</i> , 2016 , 38, 2365-73	2.4	25
81	Psychometric Properties of a Brief Instrument to Assess Perceptions of Injustice Associated with Debilitating Health and Mental Health Conditions. <i>Psychological Injury and Law</i> , 2016 , 9, 48-54	2.8	7
80	Sources of injustice among individuals with persistent pain following musculoskeletal injury. <i>Psychological Injury and Law</i> , 2016 , 9, 6-15	2.8	21
79	Introduction to the Special Issue on Justice-Related Appraisals and Recovery Outcomes. <i>Psychological Injury and Law</i> , 2016 , 9, 1-5	2.8	5
78	Cognitive-Behavioral Approach to Return to Work. <i>Handbooks in Health, Work, and Disability</i> , 2016 , 353-363		
77	Catastrophizing and pain-related fear predict failure to maintain treatment gains following participation in a pain rehabilitation program. <i>Pain Reports</i> , 2016 , 1, e567	3.5	13
76	Further Verification Using Causal Mediation Analysis that Expectancies Mediate the Relationships Between Pain Catastrophizing, Fear of Movement, and Return to Work: A Reply to Lee, HBScher, and McAuley. <i>Journal of Pain</i> , 2016 , 17, 1047-8	5.2	
75	The Mediating Role of Recovery Expectancies on the Relation Between Depression and Return-to-Work. <i>Journal of Occupational Rehabilitation</i> , 2015 , 25, 348-56	3.6	23
74	Barriers to change in depressive symptoms after multidisciplinary rehabilitation for whiplash: the role of perceived injustice. <i>Clinical Journal of Pain</i> , 2015 , 31, 145-51	3.5	39

73	Expectancies Mediate the Relations Among Pain Catastrophizing, Fear of Movement, and Return to Work Outcomes After Whiplash Injury. <i>Journal of Pain</i> , 2015 , 16, 1280-1287	5.2	30
72	Pain Catastrophizing and Fear of Pain Predict the Experience of Pain in Body Parts Not Targeted by a Delayed-Onset Muscle Soreness Procedure. <i>Journal of Pain</i> , 2015 , 16, 1065-76	5.2	8
71	An experimental approach to examining psychological contributions to multisite musculoskeletal pain. <i>Journal of Pain</i> , 2014 , 15, 1156-1165	5.2	13
70	The role of perceived injustice in the prediction of pain and function after total knee arthroplasty. <i>Pain</i> , 2014 , 155, 2040-6	8	54
69	Measures of spontaneous and movement-evoked pain are associated with disability in patients with whiplash injuries. <i>Journal of Pain</i> , 2014 , 15, 967-75	5.2	23
68	Perceived Injustice and Adverse Recovery Outcomes. <i>Psychological Injury and Law</i> , 2014 , 7, 325-334	2.8	48
67	Clinically meaningful scores on pain catastrophizing before and after multidisciplinary rehabilitation: a prospective study of individuals with subacute pain after whiplash injury. <i>Clinical Journal of Pain</i> , 2014 , 30, 183-90	3.5	89
66	Changes in pain catastrophizing following physical therapy for musculoskeletal injury: the influence of depressive and post-traumatic stress symptoms. <i>Journal of Occupational Rehabilitation</i> , 2014 , 24, 22-31 ⁶	3.6	16
65	Further validation of a measure of injury-related injustice perceptions to identify risk for occupational disability: a prospective study of individuals with whiplash injury. <i>Journal of Occupational Rehabilitation</i> , 2013 , 23, 557-65	3.6	62
64	TENS attenuates repetition-induced summation of activity-related pain following experimentally induced muscle soreness. <i>Journal of Pain</i> , 2013 , 14, 1416-24	5.2	11
63	Anger differentially mediates the relationship between perceived injustice and chronic pain outcomes. <i>Pain</i> , 2013 , 154, 1691-1698	8	77
62	Rethinking the fear avoidance model: toward a multidimensional framework of pain-related disability. <i>Pain</i> , 2013 , 154, 2262-2265	8	122
61	A Psychosocial Risk-Targeted Intervention to Reduce Work Disability: Development, Evolution, and Implementation Challenges. <i>Psychological Injury and Law</i> , 2013 , 6, 250-257	2.8	22
60	Pain, Chronicity, and Disability 2013 , 107-124		3
59	Cognitive dimensions of anger in chronic pain. <i>Pain</i> , 2012 , 153, 515-517	8	64
58	Patients who display protective pain behaviors are viewed as less likable, less dependable, and less likely to return to work. <i>Pain</i> , 2012 , 153, 843-849	8	27
57	Recovery from depressive symptoms over the course of physical therapy: a prospective cohort study of individuals with work-related orthopaedic injuries and symptoms of depression. <i>Journal of Orthopaedic and Sports Physical Therapy</i> , 2012 , 42, 957-67	4.2	17
56	Perceived injustice moderates the relationship between pain and depressive symptoms among individuals with persistent musculoskeletal pain. <i>Pain Research and Management</i> , 2012 , 17, 335-40	2.6	57

55	A telephonic intervention for promoting occupational re-integration in work-disabled individuals with musculoskeletal pain. <i>Translational Behavioral Medicine</i> , 2012 , 2, 149-58	3.2	15
54	The communal coping model of pain catastrophizing: Clinical and research implications.. <i>Canadian Psychology</i> , 2012 , 53, 32-41	3.2	70
53	Development of a cumulative psychosocial factor index for problematic recovery following work-related musculoskeletal injuries. <i>Physical Therapy</i> , 2012 , 92, 58-68	3.3	30
52	Targeting Catastrophic Thinking to Promote Return to Work in Individuals With Fibromyalgia. <i>Journal of Cognitive Psychotherapy</i> , 2012 , 26, 130-142	0.9	18
51	Perceived injustice: a risk factor for problematic pain outcomes. <i>Clinical Journal of Pain</i> , 2012 , 28, 484-8	3.5	111
50	Judgments about pain intensity and pain genuineness: the role of pain behavior and judgmental heuristics. <i>Journal of Pain</i> , 2011 , 12, 468-75	5.2	23
49	Potential processes involved in the initiation and maintenance of whiplash-associated disorders: discussion paper 3. <i>Spine</i> , 2011 , 36, S322-9	3.3	36
48	Catastrophizing and perceived injustice: risk factors for the transition to chronicity after whiplash injury. <i>Spine</i> , 2011 , 36, S244-9	3.3	83
47	Differential predictors of the long-term levels of pain intensity, work disability, healthcare use, and medication use in a sample of workers' compensation claimants. <i>Pain</i> , 2011 , 152, 376-383	8	75
46	Repetition-induced activity-related summation of pain in patients with fibromyalgia. <i>Pain</i> , 2011 , 152, 1424-1430	8	27
45	The role of presurgical expectancies in predicting pain and function one year following total knee arthroplasty. <i>Pain</i> , 2011 , 152, 2287-2293	8	123
44	A biopsychosocial formulation of pain communication. <i>Psychological Bulletin</i> , 2011 , 137, 910-939	19.1	304
43	Comparisons of catastrophizing, pain attitudes, and cold-pressor pain experience between Chinese and European Canadian young adults. <i>Journal of Pain</i> , 2010 , 11, 1187-94	5.2	76
42	The fear avoidance model disentangled: improving the clinical utility of the fear avoidance model. <i>Clinical Journal of Pain</i> , 2010 , 26, 739-46	3.5	133
41	Psychosocial treatment techniques to augment the impact of physiotherapy interventions for low back pain. <i>Physiotherapy Canada Physiotherapie Canada</i> , 2010 , 62, 180-9	0.8	48
40	Pain Catastrophizing and Fear of Movement: Detection and Intervention 2010 , 207-214		
39	Validity and Determinants of Clinicians' Return to Work Judgments for Individuals Following Whiplash Injury. <i>Psychological Injury and Law</i> , 2010 , 3, 220-229	2.8	7
38	Activity-related summation of pain and functional disability in patients with whiplash injuries. <i>Pain</i> , 2010 , 151, 440-446	8	40

37	A prospective sequential analysis of the fear-avoidance model of pain. <i>Pain</i> , 2009 , 145, 45-51	8	115
36	Perceived Injustice is Associated with Heightened Pain Behavior and Disability in Individuals with Whiplash Injuries. <i>Psychological Injury and Law</i> , 2009 , 2, 238-247	2.8	80
35	Psychological influences on repetition-induced summation of activity-related pain in patients with chronic low back pain. <i>Pain</i> , 2009 , 141, 70-8	8	72
34	Psychological determinants of problematic outcomes following Total Knee Arthroplasty. <i>Pain</i> , 2009 , 143, 123-9	8	224
33	Pain, perceived injustice and the persistence of post-traumatic stress symptoms during the course of rehabilitation for whiplash injuries. <i>Pain</i> , 2009 , 145, 325-331	8	134
32	Stage of chronicity and treatment response in patients with musculoskeletal injuries and concurrent symptoms of depression. <i>Pain</i> , 2008 , 135, 151-9	8	49
31	Psychological predictors of pain expression and activity intolerance in chronic pain patients. <i>Pain</i> , 2008 , 139, 47-54	8	66
30	Self-report of pain threshold is an act of communication: comment on Kunz et al. "The relation between catastrophizing and facial responsiveness to pain". <i>Pain</i> 2008;140:127-34. <i>Pain</i> , 2008 , 140, 521	8	
29	Toward a biopsychomotor conceptualization of pain: implications for research and intervention. <i>Clinical Journal of Pain</i> , 2008 , 24, 281-90	3.5	88
28	Prospective relation between catastrophizing and residual pain following knee arthroplasty: two-year follow-up. <i>Pain Research and Management</i> , 2008 , 13, 335-41	2.6	196
27	Validation of a French-Canadian version of the Pain Disability Index. <i>Pain Research and Management</i> , 2008 , 13, 327-33	2.6	23
26	The role of perceived injustice in the experience of chronic pain and disability: scale development and validation. <i>Journal of Occupational Rehabilitation</i> , 2008 , 18, 249-61	3.6	229
25	Service, advocacy and adjudication: balancing the ethical challenges of multiple stakeholder agendas in the rehabilitation of chronic pain. <i>Disability and Rehabilitation</i> , 2007 , 29, 1596-603	2.4	9
24	Demographic and psychosocial predictors of acute perioperative pain for total knee arthroplasty. <i>Pain Research and Management</i> , 2007 , 12, 185-94	2.6	113
23	Psychosocial factors related to return to work following rehabilitation of whiplash injuries. <i>Journal of Occupational Rehabilitation</i> , 2007 , 17, 305-15	3.6	66
22	The influence of communication goals and physical demands on different dimensions of pain behavior. <i>Pain</i> , 2006 , 125, 270-277	8	82
21	Investigating risk factors for chronicity: the importance of distinguishing between return-to-work status and self-report measures of disability. <i>Journal of Occupational and Environmental Medicine</i> , 2006 , 48, 312-8	2	43
20	A psychosocial risk factor--targeted intervention for the prevention of chronic pain and disability following whiplash injury. <i>Physical Therapy</i> , 2006 , 86, 8-18	3.3	206

19	Initial depression severity and the trajectory of recovery following cognitive-behavioral intervention for work disability. <i>Journal of Occupational Rehabilitation</i> , 2006 , 16, 63-74	3.6	61
18	Dimensions of catastrophic thinking associated with pain experience and disability in patients with neuropathic pain conditions. <i>Pain</i> , 2005 , 113, 310-315	8	199
17	Catastrophizing: a risk factor for postsurgical pain. <i>Clinical Journal of Pain</i> , 2005 , 21, 83-90	3.5	223
16	Secondary prevention of work disability: community-based psychosocial intervention for musculoskeletal disorders. <i>Journal of Occupational Rehabilitation</i> , 2005 , 15, 377-92	3.6	134
15	Communicative dimensions of pain catastrophizing: social cueing effects on pain behaviour and coping. <i>Pain</i> , 2004 , 107, 220-226	8	143
14	Path model of psychological antecedents to pain experience: experimental and clinical findings. <i>Clinical Journal of Pain</i> , 2004 , 20, 164-73	3.5	90
13	Psychologically based occupational rehabilitation: the Pain-Disability Prevention Program. <i>Clinical Journal of Pain</i> , 2003 , 19, 97-104	3.5	145
12	Pain catastrophizing and symptom severity during upper respiratory tract illness. <i>Clinical Journal of Pain</i> , 2003 , 19, 125-33	3.5	23
11	Introduction: Emerging Trends in Secondary Prevention of Back Pain Disability. <i>Clinical Journal of Pain</i> , 2003 , 19, 77-79	3.5	15
10	Differential predictors of pain and disability in patients with whiplash injuries. <i>Pain Research and Management</i> , 2002 , 7, 68-74	2.6	97
9	Stage of Chronicity and Cognitive Correlates of Pain-Related Disability. <i>Cognitive Behaviour Therapy</i> , 2002 , 31, 111-118	4.4	32
8	An experimental investigation of the relation between catastrophizing and activity intolerance. <i>Pain</i> , 2002 , 100, 47-53	8	82
7	Theoretical perspectives on the relation between catastrophizing and pain. <i>Clinical Journal of Pain</i> , 2001 , 17, 52-64	3.5	1635
6	Gender Differences in Pain and Pain Behavior: The Role of Catastrophizing. <i>Cognitive Therapy and Research</i> , 2000 , 24, 121-134	2.7	188
5	Catastrophizing, anxiety and pain during dental hygiene treatment. <i>Community Dentistry and Oral Epidemiology</i> , 1998 , 26, 344-9	2.8	81
4	Catastrophizing, pain, and disability in patients with soft-tissue injuries. <i>Pain</i> , 1998 , 77, 253-260	8	407
3	Thought Suppression, Catastrophizing, and Pain. <i>Cognitive Therapy and Research</i> , 1997 , 21, 555-568	2.7	89
2	The Pain Catastrophizing Scale: Development and validation.. <i>Psychological Assessment</i> , 1995 , 7, 524-532	3.3	4327

- 1 The treatment of depression in chronic low back pain: review and recommendations. *Pain*, **1992**, 50, 5-138 158
