

Junsheng Li

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4513118/junsheng-li-publications-by-year.pdf>

Version: 2024-04-28

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
70	Comment to: Implementing a protocol to prevent incisional hernia in high-risk patients-a mesh is a powerful tool.. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2022 , 1	3.2	0
69	Comment on: A randomized clinical trial comparing early patient-reported pain after open anterior mesh repair versus totally extraperitoneal repair of inguinal hernia.. <i>British Journal of Surgery</i> , 2022 ,	5.3	
68	A commentary on "Risk-benefit assessment of onlay and retrorectus mesh augmentation for incisional hernia prophylaxis: A secondary analysis from network meta-analysis" [Int. J. Surg. 2021 92 106053].. <i>International Journal of Surgery</i> , 2022 , 98, 106247	7.5	
67	Prophylactic negative pressure wound therapy for closed laparotomy incisions after ventral hernia repair: A systematic review and meta-analysis.. <i>International Journal of Surgery</i> , 2022 , 97, 106216	7.5	4
66	Comment on: "Prophylactic negative pressure wound therapy after open ventral hernia repair: a systematic review and meta-analysis".. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2022 , 1	3.2	3
65	A Commentary on "Postoperative hiatal herniation after open vs. minimally invasive esophagectomy; a systematic review and meta-analysis" (Int J Surg. 2021;93:106046).. <i>International Journal of Surgery</i> , 2022 , 99, 106586	7.5	
64	Comment on: Are polypropylene mesh implants associated with systemic autoimmune inflammatory syndromes?. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2022 , 1	3.2	1
63	Comment on: association between surgical hernia repair techniques and the incidence of seroma.. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2022 , 1	3.2	1
62	A Commentary on "A regenerative 3D scaffold for inguinal hernia repair. MR imaging and histological cross evidence. Qualitative study" (Int J Surg 2021;96:106170).. <i>International Journal of Surgery</i> , 2022 , 101, 106626	7.5	
61	Comment to: Meta-analysis of the outcomes of trans rectus sheath extra-peritoneal procedure (TREPP) for inguinal hernia.. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2022 , 1	3.2	1
60	Comment on "Heavyweight Mesh Is Superior to Lightweight Mesh in Laparo-endoscopic Inguinal Hernia Repair". <i>Annals of Surgery</i> , 2021 , 274, e783-e784	7.8	1
59	Prophylactic negative pressure wound therapy on surgical site infection in obese women after cesarean section: a systematic review and meta-analysis. <i>International Journal of Gynecology and Obstetrics</i> , 2021 ,	4	1
58	Long-Term Follow-Up of Lichtenstein Repair of Inguinal Hernia in the Morbid Patients With Self-Gripping Mesh (Progrid). <i>Frontiers in Surgery</i> , 2021 , 8, 748880	2.3	1
57	Feasibility of modified-TEP technique for large inguinoscrotal and large femoral hernia and its advantages. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 26, 667	3.2	2
56	Comment on: European Hernia Society guidelines on management of rectus diastasis. <i>British Journal of Surgery</i> , 2021 ,	5.3	0
55	Mesh fixation in IPOM with glue, a matter of solution?. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 25, 229-230	3.2	1
54	More work should be done in laparo-endoscopic direct hernia repair. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 25, 1365-1366	3.2	

53	Comment to: transrectus sheath pre-peritoneal (TREPP) procedure versus totally extraperitoneal (TEP) procedure and Lichtenstein technique-a propensity-score-matched analysis in Dutch high-volume regional hospitals. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 25, 1397-1398	3.2	
52	Comment on: Tension-free mesh versus suture-alone cruroplasty in antireflux surgery: a randomized, double-blind clinical trial. <i>British Journal of Surgery</i> , 2021 , 108, e252	5.3	
51	The Management of Indirect Inguinal Hernia Sac in Laparoscopic Inguinal Hernia Repair: A Systemic Review of Literature. <i>Surgical Laparoscopy, Endoscopy and Percutaneous Techniques</i> , 2021 , 31, 645-653	1.3	4
50	Comment to: "Endoscopic retromuscular technique (eTEP) vs conventional laparoscopic ventral or incisional hernia repair with defect closure (IPOM +) for midline hernias: a case-control study"-a longer follow-up would have been useful. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 25, 1107-1108	3.2	0
49	Comments on "Laparoscopic Paraesophageal Hernia Repair: To Mesh or Not to Mesh". <i>Annals of Surgery</i> , 2021 , 274, e942-e943	7.8	
48	Comment to: "Use of a bioabsorbable mesh in midline laparotomy closure to prevent incisional hernia: randomized controlled trial." <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 1	3.2	
47	Comment to: Should seroma be considered a complication?. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 1	3.2	
46	Seroma after TEP, preventable or not?. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 25, 239-241	3.2	2
45	Comment to: "Open retromuscular versus laparoscopic ventral hernia repair for medium-sized defects: where is the value?". <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 25, 553-554	3.2	
44	Abdominal intercostal hernia repair. <i>International Journal of Abdominal Wall and Hernia Surgery</i> , 2021 , 4, 35	0.5	
43	Comment on: Prophylactic sublay non-absorbable mesh positioning following midline laparotomy in a clean-contaminated field: randomized clinical trial (PROMETHEUS). <i>British Journal of Surgery</i> , 2021 , 108, e351	5.3	0
42	Comment to: Prophylactic retromuscular mesh placement for parastomal hernia prevention: a retrospective cohort study of permanent colostomies and ileostomies. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 1	3.2	1
41	Comment to: "Outcomes of concomitant mesh placement and intestinal procedures during open ventral hernia repair". <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2021 , 1	3.2	1
40	Another type of diaphragmatic hernia to remember: paraHiatal hernia. <i>ANZ Journal of Surgery</i> , 2020 , 90, 2180-2186	1	2
39	Permanent or temporary? The pragmatic category!. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2020 , 1	3.2	
38	Comment to: Results at 3-year follow-up of totally extraperitoneal (TEP) hernia surgery with long-term resorbable mesh. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2020 , 24, 1417-1418	3.2	
37	Closure of the fascial defect during laparoscopic umbilical hernia repair: a randomized clinical trial. <i>British Journal of Surgery</i> , 2020 , 107, 774	5.3	
36	Comment on "Effect of direct defect closure during laparoscopic inguinal hernia repair ("TEP/TAPP plus" technique) on post-operative outcomes". <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2020 , 24, 1147-1149	3.2	1

35	Current prevalence of perioperative early venous thromboembolism and risk factors in Chinese adult patients with inguinal hernia (CHAT-1). <i>Scientific Reports</i> , 2020 , 10, 12667	4.9	2
34	Total extraperitoneal (TEP) management of mesh erosion into bladder following transabdominal preperitoneal inguinal hernia repair (TAPP). <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2020 , 24, 205-208	3.2	3
33	Patient-reported chronic pain after open inguinal hernia repair with lightweight or heavyweight mesh: a prospective, patient-reported outcomes study. <i>British Journal of Surgery</i> , 2020 , 107, e657	5.3	
32	How I do it: the horizontal-bilateral unfolding method for self-gripping (Progrid) mesh placement in laparoscopic inguinal hernia repair. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2019 , 23, 809-815	3.2	3
31	Mesh erosion into urinary bladder, rare condition but important to know. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2019 , 23, 709-716	3.2	13
30	Intraoperative adjunctive techniques to reduce seroma formation in laparoscopic inguinal hernioplasty: a systematic review. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2019 , 23, 723-731	3.2	21
29	The safe and risk assessment of perioperative antiplatelet and anticoagulation therapy in inguinal hernia repair, a systematic review. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2019 , 33, 3165-3176	5.3	7
28	Mesh erosion after hiatal hernia repair: the tip of the iceberg?. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2019 , 23, 1243-1252	3.2	21
27	Comments on "Higher Recurrence Rate After Endoscopic Totally Extraperitoneal (TEP) Inguinal Hernia Repair With Ultrapro Lightweight Mesh: 5-Year Results of a Randomized Controlled Trial (TULP-trial)". <i>Annals of Surgery</i> , 2019 , 269, e38-e39	7.8	6
26	Closure of Direct Inguinal Hernia Defect in Laparoscopic Hernioplasty to Prevent Seroma Formation: A Prospective Double-blind Randomized Controlled Trial. <i>Surgical Laparoscopy, Endoscopy and Percutaneous Techniques</i> , 2019 , 29, 18-21	1.3	11
25	Comment to: Laparoscopic versus hybrid approach for treatment of incisional ventral hernia: a prospective randomized multicenter study of 1-month follow-up results. Ahonen-Siirtola, M., Nevala, T., Vironen, J. et al. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2019 , 23, 181	3.2	
24	Operation versus watchful waiting in asymptomatic or minimally symptomatic inguinal hernias: The meta-analysis results of randomized controlled trials. <i>International Journal of Surgery</i> , 2018 , 52, 120-125	7.5	16
23	Comment to: Preperitoneal closed-system suction drainage after totally extraperitoneal hernioplasty in the prevention of early seroma formation: a prospective double-blind randomised controlled trial. Fan JKM, Liu J, Chen K, Yang X, Xu X, Choi HK, Chan FSY, Chiu KWH, Lo CM. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2018 , 22, 457-468	3.2	2
22	Comment to: "Preventing parastomal hernia with modified stapled mesh stoma reinforcement technique (SMART) in patients who underwent surgery for rectal cancer: a case-control study." By Canda AE. (<i>Hernia</i> . 2018 Jan 5. doi: 10.1007/s10029-017-1723-7. [Epub ahead of print]). <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2018 , 22, 1041-1042	3.2	
21	Parastomal Hernia Repair with a 3D Funnel Intraperitoneal Mesh Device and Same-Sided Stoma Relocation: Results of 56 Cases. <i>World Journal of Surgery</i> , 2018 , 42, 3050-3051	3.3	1
20	Comment to: Technical description of laparoscopic Morgagni hernia repair with primary closure and onlay composite mesh placement. Ryan JM, et al. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2018 , 22, 707-708	3.2	1
19	Reduction of Abdominal Adhesions with Electrospun Fiber Membranes in Rat Models. <i>Journal of Investigative Surgery</i> , 2018 , 31, 210-217	1.2	3
18	Surgical repair of abdominal wall defect with biomimetic nano/microfibrous hybrid scaffold. <i>Materials Science and Engineering C</i> , 2018 , 93, 828-837	8.3	7

17	Prevention of seroma formation after laparoscopic inguinoscrotal indirect hernia repair by a new surgical technique: A preliminary report. <i>International Journal of Abdominal Wall and Hernia Surgery</i> , 2018 , 1, 55	0.5	15
16	Long-Term Follow-Up of Retromuscular Incisional Hernia Repairs: Recurrence and Quality of Life. <i>World Journal of Surgery</i> , 2018 , 42, 2682-2683	3.3	
15	Comment to: Desarda@ technique versus Lichtenstein technique for the treatment of primary inguinal hernia: a systematic review and meta-analysis of randomized controlled trials. Emile SH, Elfeki H. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2018 , 22, 399-400	3.2	
14	Closure of a direct inguinal hernia defect in laparoscopic repair with barbed suture: a simple method to prevent seroma formation?. <i>Surgical Endoscopy and Other Interventional Techniques</i> , 2018 , 32, 1082-1086	5.2	34
13	Comment to: "Factors associated with hernia recurrence after laparoscopic total extraperitoneal repair for inguinal hernia: a 2-year prospective cohort study." By Schj�th-Iversen L. (Hernia. 2017 Jul 27. doi:10.1007/s10029-017-1634-7. [Epub ahead of print]). <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2017 , 21, 985-986	3.2	4
12	How we do it: repair of large perineal hernia after abdominoperineal resection. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2017 , 21, 957-961	3.2	5
11	Comment to: Laparoscopic extraperitoneal repair versus open inguinal hernia repair: 20-year follow-up of a randomized controlled trial. Barbaro, A., Kanhere, H., Bessell, J. et al. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2017 , 21, 989	3.2	
10	Comment to: "Long-term retromuscular and intraperitoneal mesh size changes within a randomized controlled trial on incisional hernia repair, including a review of the literature." Rogmark P., Ekberg O, Montgomery A. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2017 , 21, 881-888	3.2	0
9	Letter to the editor: "Should we perform elective inguinal hernia repair in the elderly?" by Wu J. J. et al. (Hernia. 2016 Jul 20. [Epub ahead of print]). <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2017 , 21, 821-822	3.2	2
8	Comment to: A modified Chevrel technique for ventral hernia repair: long-term results of a single centre cohort. Mommers EHH, Leenders, B.J.M., Leclercq, W.K.G. et al. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2017 , 21, 995	3.2	1
7	Comparison of laparoscopic versus open procedure in the treatment of recurrent inguinal hernia: a meta-analysis of the results. <i>American Journal of Surgery</i> , 2014 , 207, 602-12	2.7	47
6	The comparison of self-gripping mesh and sutured mesh in open inguinal hernia repair: the results of meta-analysis. <i>Annals of Surgery</i> , 2014 , 259, 1080-5	7.8	32
5	Lightweight versus heavyweight in inguinal hernia repair: a meta-analysis. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2012 , 16, 529-39	3.2	41
4	Comparison of mesh-plug and Lichtenstein for inguinal hernia repair: a meta-analysis of randomized controlled trials. <i>Hernia: the Journal of Hernias and Abdominal Wall Surgery</i> , 2012 , 16, 541-8	3.2	24
3	Comparison of open preperitoneal and Lichtenstein repair for inguinal hernia repair: a meta-analysis of randomized controlled trials. <i>American Journal of Surgery</i> , 2012 , 204, 769-78	2.7	16
2	Limited efficacy of early enteral nutrition in patients after total gastrectomy. <i>Journal of Investigative Surgery</i> , 2011 , 24, 103-8	1.2	2
1	Preperitoneal groin hernia repair with Kugel patch through an anterior approach. <i>ANZ Journal of Surgery</i> , 2008 , 78, 899-902	1	6
