#	ARTICLE	IF	CITATIONS
1	Non-use of information and communication technology as a predictor of frailty in postmenopausal midlife and older women. <i>Maturitas</i> , 2022, 156, 60-64.	1.0	2
2	It Is Premature to Use Postmortem Sperm for Reproductive Purposes: a Data-Driven Opinion. <i>Reproductive Sciences</i> , 2022, 29, 3387-3393.	1.1	1
3	Bazedoxifene increases the proliferation of human arterial endothelial cells but does not affect the expression of cyclins A, B, and D1 and of p27Kip1. <i>Gynecological Endocrinology</i> , 2021, 37, 269-272.	0.7	1
4	Ovarian steroids and cancer: news on the breast, questions on the reproductive tract. <i>Gynecological Endocrinology</i> , 2021, 37, 383-384.	0.7	0
5	Positive association of high-density lipoprotein cholesterol with lumbar and femoral neck bone mineral density in postmenopausal women. <i>Maturitas</i> , 2021, 147, 41-46.	1.0	23
6	Variants translating reduced expression of the beta estrogen receptor gene were associated with increased carotid intima media thickness. <i>Medicine (United States)</i> , 2021, 100, e26216.	0.4	0
7	Serum microRNAs in osteoporotic fracture and osteoarthritis: a genetic and functional study. <i>Scientific Reports</i> , 2021, 11, 19372.	1.6	13
8	Polymorphisms in Genes Involved in Osteoblast Differentiation and Function Are Associated with Anthropometric Phenotypes in Spanish Women. <i>Genes</i> , 2021, 12, 2012.	1.0	0
9	The Mediterranean diet: A historical perspective on food for health. <i>Maturitas</i> , 2020, 132, 65-69.	1.0	68
10	A predictive model for women's assisted fecundity before starting the first IVF/ICSI treatment cycle. <i>Journal of Assisted Reproduction and Genetics</i> , 2020, 37, 171-180.	1.2	8
11	Differential expression of receptor activator of nuclear factor kappa B in healthy endometrium, ovarian endometrioma, and endometrioid ovarian cancer. <i>American Journal of Obstetrics and Gynecology</i> , 2020, 222, 279-281.	0.7	4
12	Cumulative probabilities of live birth across multiple complete IVF/ICSI cycles: a call for attention. <i>Journal of Assisted Reproduction and Genetics</i> , 2020, 37, 141-148.	1.2	4
13	Diet to Reduce the Metabolic Syndrome Associated with Menopause. The Logic for Olive Oil. <i>Nutrients</i> , 2020, 12, 3184.	1.7	9
14	Comparative transcriptome analysis identifies CARM1 and DNMT3A as genes associated with osteoporosis. <i>Scientific Reports</i> , 2020, 10, 16298.	1.6	11
15	Polymorphisms in genes involved in T-cell co-stimulation are associated with blood pressure in women. <i>Gene</i> , 2020, 754, 144838.	1.0	3
16	Predictors of live birth in women with a history of biochemical pregnancies after assisted reproduction treatment. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2020, 248, 198-203.	0.5	2
17	Mediterranean diet and health: A systematic review of epidemiological studies and intervention trials. <i>Maturitas</i> , 2020, 136, 25-37.	1.0	81
18	Association of a single nucleotide polymorphism of RANK gene with blood pressure in Spanish women. <i>Medicine (United States)</i> , 2020, 99, e22436.	0.4	1

#	ARTICLE	IF	CITATIONS
19	Women's morbid conditions are associated with decreased odds of live birth in the first IVF/ICSI treatment: a retrospective single-center study. <i>Journal of Assisted Reproduction and Genetics</i> , 2019, 36, 697-708.	1.2	8
20	Hormonal contraceptives and breast cancer: Clinical data. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2018, 230, 212-216.	0.5	11
21	The action of estrogens and progestogens in the young female breast. <i>European Journal of Obstetrics, Gynecology and Reproductive Biology</i> , 2018, 230, 204-207.	0.5	12
22	Effectiveness and quality of life 10 years after transobturator suburethral tape surgery for stress urinary incontinence. <i>Journal of Obstetrics and Gynaecology Research</i> , 2018, 44, 518-523.	0.6	5
23	Frailty and multimorbidity: Two related yet different concepts. <i>Maturitas</i> , 2017, 95, 31-35.	1.0	107
24	Potential risks to offspring of intrauterine exposure to maternal age-related obstetric complications. <i>Reproduction, Fertility and Development</i> , 2017, 29, 1468.	0.1	5
25	Note of clarification: Potential risks to offspring of intrauterine exposure to maternal age-related obstetric complications. <i>Reproduction, Fertility and Development</i> , 2017, 29, 1653.	0.1	2
26	Obstetric and offspring risks of women's morbid conditions linked to prior anticancer treatments. <i>Reproductive Biology and Endocrinology</i> , 2016, 14, 37.	1.4	5
27	The role of CD40 and CD40L in bone mineral density and in osteoporosis risk: A genetic and functional study. <i>Bone</i> , 2016, 83, 94-103.	1.4	19
28	Progestogens and risk of breast cancer: a link between bone and breast?. <i>Gynecological Endocrinology</i> , 2016, 32, 6-8.	0.7	8
29	Deficiencies in reporting results of lesbians and gays after donor intrauterine insemination and assisted reproductive technology treatments: a review of the first emerging studies. <i>Reproductive Biology and Endocrinology</i> , 2015, 13, 52.	1.4	16
30	Infertility etiologies are genetically and clinically linked with other diseases in single meta-diseases. <i>Reproductive Biology and Endocrinology</i> , 2015, 13, 31.	1.4	73
31	Serum Circulating MicroRNAs as Biomarkers of Osteoporotic Fracture. <i>Calcified Tissue International</i> , 2015, 97, 495-505.	1.5	133
32	ENDOCRINOLOGY IN PREGNANCY: Bone metabolic changes during pregnancy: a period of vulnerability to osteoporosis and fracture. <i>European Journal of Endocrinology</i> , 2015, 172, R53-R65.	1.9	82
33	The impact of moderate wine consumption on health. <i>Maturitas</i> , 2015, 80, 3-13.	1.0	147
34	Gene expression profile induced by ovariectomy in bone marrow of mice: A functional approach to identify new candidate genes associated to osteoporosis risk in women. <i>Bone</i> , 2014, 65, 33-41.	1.4	22
35	Assisted reproductive technology results: Why are live birth percentages so low?. <i>Molecular Reproduction and Development</i> , 2014, 81, 568-583.	1.0	27
36	Replication study of three functional polymorphisms associated with bone mineral density in a cohort of Spanish women. <i>Journal of Bone and Mineral Metabolism</i> , 2014, 32, 691-698.	1.3	6

#	ARTICLE	IF	CITATIONS
37	Changes in sex ratio from fertilization to birth in assisted-reproductive-treatment cycles. <i>Reproductive Biology and Endocrinology</i> , 2014, 12, 56.	1.4	46
38	Absence of long-term effects of reproduction on longevity in the mouse model. <i>Reproductive Biology and Endocrinology</i> , 2014, 12, 84.	1.4	13
39	Transient regional osteoporosis. <i>Maturitas</i> , 2014, 77, 324-329.	1.0	24
40	Endocrinology and physiology of pseudocyesis. <i>Reproductive Biology and Endocrinology</i> , 2013, 11, 39.	1.4	29
41	Unpredicted ovulations and conceptions during early pregnancy: an explanatory mechanism of human superfetation. <i>Reproduction, Fertility and Development</i> , 2013, 25, 1012.	0.1	6
42	The Adverse Effects of Estrogen and Selective Estrogen Receptor Modulators on Hemostasis and Thrombosis. <i>Seminars in Thrombosis and Hemostasis</i> , 2012, 38, 797-807.	1.5	26
43	Acute stress may induce ovulation in women. <i>Reproductive Biology and Endocrinology</i> , 2010, 8, 53.	1.4	14
44	Long-Term Effects of Delayed Fatherhood in Mice on Postnatal Development and Behavioral Traits of Offspring1. <i>Biology of Reproduction</i> , 2009, 80, 337-342.	1.2	47
45	Delayed Fatherhood in Mice Decreases Reproductive Fitness and Longevity of Offspring1. <i>Biology of Reproduction</i> , 2009, 80, 343-349.	1.2	48
46	Beneficial effects of dithiothreitol on relative levels of glutathione S-transferase activity and thiols in oocytes, and cell number, DNA fragmentation and allocation at the blastocyst stage in the mouse. <i>Molecular Reproduction and Development</i> , 2007, 74, 860-869.	1.0	28
47	Delayed Motherhood Decreases Life Expectancy of Mouse Offspring1. <i>Biology of Reproduction</i> , 2005, 72, 1336-1343.	1.2	44
48	Association of female aging with decreased parthenogenetic activation, raised MPF, and MAPKs activities and reduced levels of glutathione S-transferases activity and thiols in mouse oocytes. <i>Molecular Reproduction and Development</i> , 2004, 69, 402-410.	1.0	43
49	Phytoestrogens increase the capacity of serum to stimulate prostacyclin release in human endothelial cells. <i>Acta Obstetrica Et Gynecologica Scandinavica</i> , 2003, 82, 705-710.	1.3	8
50	Long-term effects of delayed motherhood in mice on postnatal development and behavioural traits of offspring. <i>Human Reproduction</i> , 2003, 18, 1580-1587.	0.4	27
51	Do women have a hidden heat period?. <i>Human Reproduction</i> , 2002, 17, 2243-2248.	0.4	35
52	Postovulatory Aging of Oocytes Decreases Reproductive Fitness and Longevity of Offspring1. <i>Biology of Reproduction</i> , 2002, 66, 495-499.	1.2	72
53	Oral antioxidants counteract the negative effects of female aging on oocyte quantity and quality in the mouse. <i>Molecular Reproduction and Development</i> , 2002, 61, 385-397.	1.0	97
54	Stage of the estrous cycle at the time of pregnant mare's serum gonadotropin injection affects the quality of ovulated oocytes in the mouse. <i>Molecular Reproduction and Development</i> , 2002, 61, 398-405.	1.0	25

#	ARTICLE	IF	CITATIONS
55	Stage of the estrous cycle at the time of pregnant mare's serum gonadotropin injection affects pre-implantation embryo development in vitro in the mouse. <i>Molecular Reproduction and Development</i> , 2002, 62, 312-319.	1.0	14
56	Predictive variables of in vitro fertilization and pre-implantation embryo development in the mouse. <i>Molecular Reproduction and Development</i> , 2002, 63, 38-46.	1.0	3
57	Delayed motherhood increases the probability of sons to be infertile. <i>Journal of Assisted Reproduction and Genetics</i> , 2001, 18, 650-654.	1.2	10
58	Cellular and Morphological Traits of Oocytes Retrieved from Aging Mice after Exogenous Ovarian Stimulation. <i>Biology of Reproduction</i> , 2001, 65, 141-150.	1.2	102
59	Long-Term Effects of Postovulatory Aging of Mouse Oocytes on Offspring: A Two-Generational Study. <i>Biology of Reproduction</i> , 1999, 61, 1347-1355.	1.2	102
60	Origin and ploidy of multipronuclear zygotes. <i>Reproduction, Fertility and Development</i> , 1999, 11, 273.	0.1	17
61	Effects of maternal ageing and dietary antioxidant supplementation on ovulation, fertilisation and embryo development in vitro in the mouse. <i>Reproduction, Nutrition, Development</i> , 1998, 38, 499-508.	1.9	23
62	Potential effects of age-associated oxidative stress on mammalian oocytes/embryos. <i>Molecular Human Reproduction</i> , 1996, 2, 717-724.	1.3	238
63	Sex selection may be inadvertently performed in in-vitro fertilization embryo transfer programmes. <i>Human Reproduction</i> , 1995, 10, 2992-2998.	0.4	58
64	Clinical experience with preimplantation diagnosis of sex by dual fluorescent in situ hybridization. <i>Journal of Assisted Reproduction and Genetics</i> , 1994, 11, 132-143.	1.2	117
65	Effects of Stimulation or Inhibition of Lipid Peroxidation on Freezing-Thawing of Mouse Embryos. <i>Biology of Reproduction</i> , 1993, 49, 1362-1368.	1.2	55
66	Embryo biopsy strategies for preimplantation diagnosis. <i>Fertility and Sterility</i> , 1993, 59, 943-952.	0.5	72
