

Matthew D Lieberman

List of Publications by Citations

Source: <https://exaly.com/author-pdf/4525017/matthew-d-lieberman-publications-by-citations.pdf>

Version: 2024-04-24

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

#	Paper	IF	Citations
186	Does rejection hurt? An fMRI study of social exclusion. <i>Science</i> , 2003 , 302, 290-2	33.3	2506
185	Social cognitive neuroscience: a review of core processes. <i>Annual Review of Psychology</i> , 2007 , 58, 259-89	26.1	1378
184	Type I and Type II error concerns in fMRI research: re-balancing the scale. <i>Social Cognitive and Affective Neuroscience</i> , 2009 , 4, 423-8	4	1030
183	Why rejection hurts: a common neural alarm system for physical and social pain. <i>Trends in Cognitive Sciences</i> , 2004 , 8, 294-300	14	830
182	Putting feelings into words: affect labeling disrupts amygdala activity in response to affective stimuli. <i>Psychological Science</i> , 2007 , 18, 421-8	7.9	811
181	Intuition: a social cognitive neuroscience approach. <i>Psychological Bulletin</i> , 2000 , 126, 109-37	19.1	572
180	Neural correlates of dispositional mindfulness during affect labeling. <i>Psychosomatic Medicine</i> , 2007 , 69, 560-5	3.7	505
179	The emergence of social cognitive neuroscience.. <i>American Psychologist</i> , 2001 , 56, 717-734	9.5	473
178	The sunny side of fairness: preference for fairness activates reward circuitry (and disregarding unfairness activates self-control circuitry). <i>Psychological Science</i> , 2008 , 19, 339-47	7.9	406
177	Watching social interactions produces dorsomedial prefrontal and medial parietal BOLD fMRI signal increases compared to a resting baseline. <i>NeuroImage</i> , 2004 , 21, 1167-73	7.9	378
176	Neural pathways link social support to attenuated neuroendocrine stress responses. <i>NeuroImage</i> , 2007 , 35, 1601-12	7.9	367
175	Mindfulness-Based Stress Reduction training reduces loneliness and pro-inflammatory gene expression in older adults: a small randomized controlled trial. <i>Brain, Behavior, and Immunity</i> , 2012 , 26, 1095-101	16.6	316
174	Attachment figures activate a safety signal-related neural region and reduce pain experience. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2011 , 108, 11721-6	11.5	309
173	A picture is worth: partner photographs reduce experimentally induced pain. <i>Psychological Science</i> , 2009 , 20, 1316-8	7.9	296
172	Serotonin modulates behavioral reactions to unfairness. <i>Science</i> , 2008 , 320, 1739	33.3	268
171	An fMRI investigation of race-related amygdala activity in African-American and Caucasian-American individuals. <i>Nature Neuroscience</i> , 2005 , 8, 720-2	25.5	267
170	Integrating automatic and controlled processes into neurocognitive models of social cognition. <i>Brain Research</i> , 2006 , 1079, 86-97	3.7	251

169	Craving love? Enduring grief activates brain's reward center. <i>NeuroImage</i> , 2008 , 42, 969-72	7.9	238
168	The neural correlates of placebo effects: a disruption account. <i>NeuroImage</i> , 2004 , 22, 447-55	7.9	233
167	"I know you are but what am I?!": neural bases of self- and social knowledge retrieval in children and adults. <i>Journal of Cognitive Neuroscience</i> , 2007 , 19, 1323-37	3.1	224
166	Predicting persuasion-induced behavior change from the brain. <i>Journal of Neuroscience</i> , 2010 , 30, 8421-46.6		205
165	Evidence-based and intuition-based self-knowledge: an fMRI study. <i>Journal of Personality and Social Psychology</i> , 2004 , 87, 421-35	6.5	203
164	From neural responses to population behavior: neural focus group predicts population-level media effects. <i>Psychological Science</i> , 2012 , 23, 439-45	7.9	201
163	Reflexion and reflection: A social cognitive neuroscience approach to attributional inference. <i>Advances in Experimental Social Psychology</i> , 2002 , 199-249	4.2	198
162	Neural correlates of direct and reflected self-appraisals in adolescents and adults: when social perspective-taking informs self-perception. <i>Child Development</i> , 2009 , 80, 1016-38	4.9	196
161	Neural responses to emotional stimuli are associated with childhood family stress. <i>Biological Psychiatry</i> , 2006 , 60, 296-301	7.9	196
160	The neural components of empathy: predicting daily prosocial behavior. <i>Social Cognitive and Affective Neuroscience</i> , 2014 , 9, 39-47	4	183
159	Social status modulates neural activity in the mentalizing network. <i>NeuroImage</i> , 2012 , 60, 1771-7	7.9	172
158	Neural activity during health messaging predicts reductions in smoking above and beyond self-report. <i>Health Psychology</i> , 2011 , 30, 177-85	5	172
157	Do amnesics exhibit cognitive dissonance reduction? The role of explicit memory and attention in attitude change. <i>Psychological Science</i> , 2001 , 12, 135-40	7.9	170
156	Subjective responses to emotional stimuli during labeling, reappraisal, and distraction. <i>Emotion</i> , 2011 , 11, 468-80	4.1	169
155	Identifying the what, why, and how of an observed action: an fMRI study of mentalizing and mechanizing during action observation. <i>Journal of Cognitive Neuroscience</i> , 2011 , 23, 63-74	3.1	168
154	Understanding genetic risk for aggression: clues from the brain's response to social exclusion. <i>Biological Psychiatry</i> , 2007 , 61, 1100-8	7.9	168
153	The effects of poor quality sleep on brain function and risk taking in adolescence. <i>NeuroImage</i> , 2013 , 71, 275-83	7.9	164
152	The neural correlates of empathy: experience, automaticity, and prosocial behavior. <i>Journal of Cognitive Neuroscience</i> , 2012 , 24, 235-45	3.1	164

151	An experimental study of shared sensitivity to physical pain and social rejection. <i>Pain</i> , 2006 , 126, 132-8	8	162
150	In the trenches of real-world self-control: neural correlates of breaking the link between craving and smoking. <i>Psychological Science</i> , 2011 , 22, 498-506	7.9	152
149	Feelings into words: contributions of language to exposure therapy. <i>Psychological Science</i> , 2012 , 23, 1086-91	6.9	152
148	Evidence for social working memory from a parametric functional MRI study. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2012 , 109, 1883-8	11.5	148
147	Neuroscience. Pains and pleasures of social life. <i>Science</i> , 2009 , 323, 890-1	33.3	148
146	Frontal-amygdala connectivity alterations during emotion downregulation in bipolar I disorder. <i>Biological Psychiatry</i> , 2013 , 73, 127-35	7.9	147
145	Dispositional mindfulness and depressive symptomatology: correlations with limbic and self-referential neural activity during rest. <i>Emotion</i> , 2010 , 10, 12-24	4.1	146
144	The dorsal anterior cingulate cortex is selective for pain: Results from large-scale reverse inference. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015 , 112, 15250-5	11.5	145
143	Is there a genetic contribution to cultural differences? Collectivism, individualism and genetic markers of social sensitivity. <i>Social Cognitive and Affective Neuroscience</i> , 2010 , 5, 203-11	4	140
142	An event-related fMRI study of artificial grammar learning in a balanced chunk strength design. <i>Journal of Cognitive Neuroscience</i> , 2004 , 16, 427-38	3.1	140
141	The neural correlates of implicit and explicit self-relevant processing. <i>NeuroImage</i> , 2010 , 50, 701-8	7.9	138
140	Neural bases of moderation of cortisol stress responses by psychosocial resources. <i>Journal of Personality and Social Psychology</i> , 2008 , 95, 197-211	6.5	135
139	Randomized controlled trial of cognitive behavioral therapy and acceptance and commitment therapy for social phobia: outcomes and moderators. <i>Journal of Consulting and Clinical Psychology</i> , 2014 , 82, 1034-48	6.5	133
138	Why introverts can't always tell who likes them: multitasking and nonverbal decoding. <i>Journal of Personality and Social Psychology</i> , 2001 , 80, 294-310	6.5	131
137	Approaching the bad and avoiding the good: lateral prefrontal cortical asymmetry distinguishes between action and valence. <i>Journal of Cognitive Neuroscience</i> , 2010 , 22, 1970-9	3.1	130
136	Personality from a controlled processing perspective: an fMRI study of neuroticism, extraversion, and self-consciousness. <i>Cognitive, Affective and Behavioral Neuroscience</i> , 2005 , 5, 169-81	3.5	129
135	Neural sensitivity to eudaimonic and hedonic rewards differentially predict adolescent depressive symptoms over time. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2014 , 111, 6600-5	11.5	126
134	The peculiar longevity of things not so bad. <i>Psychological Science</i> , 2004 , 15, 14-9	7.9	126

133	Fairness and cooperation are rewarding: evidence from social cognitive neuroscience. <i>Annals of the New York Academy of Sciences</i> , 2007 , 1118, 90-101	6.5	122
132	Self-affirmation alters the brain's response to health messages and subsequent behavior change. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2015 , 112, 1977-82	11.5	119
131	Time spent with friends in adolescence relates to less neural sensitivity to later peer rejection. <i>Social Cognitive and Affective Neuroscience</i> , 2012 , 7, 106-14	4	119
130	Is Political Cognition Like Riding a Bicycle? How Cognitive Neuroscience Can Inform Research on Political Thinking. <i>Political Psychology</i> , 2003 , 24, 681-704	3.6	116
129	Neural correlates of focused attention during a brief mindfulness induction. <i>Social Cognitive and Affective Neuroscience</i> , 2013 , 8, 40-7	4	114
128	Gaining while giving: an fMRI study of the rewards of family assistance among white and Latino youth. <i>Social Neuroscience</i> , 2010 , 5, 508-18	2	114
127	An integrative model of the neural systems supporting the comprehension of observed emotional behavior. <i>NeuroImage</i> , 2012 , 59, 3050-9	7.9	111
126	Dissociating modality-specific and supramodal neural systems for action understanding. <i>Journal of Neuroscience</i> , 2012 , 32, 3575-83	6.6	111
125	Functional magnetic resonance imaging responses relate to differences in real-world social experience. <i>Emotion</i> , 2007 , 7, 745-54	4.1	111
124	The Emerging Study of Positive Empathy. <i>Social and Personality Psychology Compass</i> , 2015 , 9, 57-68	3	110
123	The neural basis of rationalization: cognitive dissonance reduction during decision-making. <i>Social Cognitive and Affective Neuroscience</i> , 2011 , 6, 460-7	4	110
122	Correlations in Social Neuroscience Aren't Voodoo: Commentary on Vul et al. (2009). <i>Perspectives on Psychological Science</i> , 2009 , 4, 299-307	9.8	110
121	The busy social brain: evidence for automaticity and control in the neural systems supporting social cognition and action understanding. <i>Psychological Science</i> , 2013 , 24, 80-6	7.9	106
120	The face of rejection: rejection sensitivity moderates dorsal anterior cingulate activity to disapproving facial expressions. <i>Social Neuroscience</i> , 2007 , 2, 238-53	2	105
119	Putting Feelings Into Words: Affect Labeling as Implicit Emotion Regulation. <i>Emotion Review</i> , 2018 , 10, 116-124	4.6	104
118	Inhibitory spillover: intentional motor inhibition produces incidental limbic inhibition via right inferior frontal cortex. <i>NeuroImage</i> , 2009 , 47, 705-12	7.9	104
117	Impulsive choice and altruistic punishment are correlated and increase in tandem with serotonin depletion. <i>Emotion</i> , 2010 , 10, 855-62	4.1	102
116	Serotonin modulates striatal responses to fairness and retaliation in humans. <i>Journal of Neuroscience</i> , 2013 , 33, 3505-13	6.6	99

115	The lasting effect of words on feelings: words may facilitate exposure effects to threatening images. <i>Emotion</i> , 2008 , 8, 307-17	4.1	97
114	Using Neuroscience to Broaden Emotion Regulation: Theoretical and Methodological Considerations. <i>Social and Personality Psychology Compass</i> , 2009 , 3, 475-493	3	84
113	The phenomenology of error processing: the dorsal ACC response to stop-signal errors tracks reports of negative affect. <i>Journal of Cognitive Neuroscience</i> , 2012 , 24, 1753-65	3.1	84
112	Longitudinal change in the neural bases of adolescent social self-evaluations: effects of age and pubertal development. <i>Journal of Neuroscience</i> , 2013 , 33, 7415-9	6.6	83
111	Dissociable neural systems support retrieval of how and why action knowledge. <i>Psychological Science</i> , 2010 , 21, 1593-8	7.9	83
110	Longitudinal Changes in Prefrontal Cortex Activation Underlie Declines in Adolescent Risk Taking. <i>Journal of Neuroscience</i> , 2015 , 35, 11308-14	6.6	82
109	Introversion and working memory: central executive differences. <i>Personality and Individual Differences</i> , 2000 , 28, 479-486	3.3	80
108	Social, self, (situational), and affective processes in medial prefrontal cortex (MPFC): Causal, multivariate, and reverse inference evidence. <i>Neuroscience and Biobehavioral Reviews</i> , 2019 , 99, 311-328 ⁹		79
107	The quality of adolescents' peer relationships modulates neural sensitivity to risk taking. <i>Social Cognitive and Affective Neuroscience</i> , 2015 , 10, 389-98	4	78
106	Meaningful family relationships: neurocognitive buffers of adolescent risk taking. <i>Journal of Cognitive Neuroscience</i> , 2013 , 25, 374-87	3.1	78
105	Neural correlates of affect processing and aggression in methamphetamine dependence. <i>Archives of General Psychiatry</i> , 2011 , 68, 271-82		78
104	Thank Yous and Welcomes: SCAN turns Two. <i>Social Cognitive and Affective Neuroscience</i> , 2008 , 3, 191-194		78
103	PT710. Vasopressin increases empathic responding among those high in primary psychopathy. <i>International Journal of Neuropsychopharmacology</i> , 2016 , 19, 58-59	5.8	78
102	Using SMS text messaging to assess moderators of smoking reduction: Validating a new tool for ecological measurement of health behaviors. <i>Health Psychology</i> , 2011 , 30, 186-94	5	75
101	An fMRI study of causal judgments. <i>European Journal of Neuroscience</i> , 2005 , 22, 1233-8	3.5	75
100	Creating buzz: the neural correlates of effective message propagation. <i>Psychological Science</i> , 2013 , 24, 1234-42	7.9	72
99	Sleep variability in adolescence is associated with altered brain development. <i>Developmental Cognitive Neuroscience</i> , 2015 , 14, 16-22	5.5	71
98	Neural regions associated with self control and mentalizing are recruited during prosocial behaviors towards the family. <i>NeuroImage</i> , 2011 , 58, 242-9	7.9	70

97	The Common Neural Basis of Exerting Self-Control in Multiple Domains 2010 , 141-161		67
96	Ventral striatum activation to prosocial rewards predicts longitudinal declines in adolescent risk taking. <i>Developmental Cognitive Neuroscience</i> , 2013 , 3, 45-52	5.5	66
95	Attributional inference across cultures: similar automatic attributions and different controlled corrections. <i>Personality and Social Psychology Bulletin</i> , 2005 , 31, 889-901	4.1	65
94	The role of automaticity and attention in neural processes underlying empathy for happiness, sadness, and anxiety. <i>Frontiers in Human Neuroscience</i> , 2013 , 7, 160	3.3	63
93	Normal amygdala activation but deficient ventrolateral prefrontal activation in adults with bipolar disorder during euthymia. <i>NeuroImage</i> , 2012 , 59, 738-44	7.9	62
92	The common and distinct neural bases of affect labeling and reappraisal in healthy adults. <i>Frontiers in Psychology</i> , 2014 , 5, 221	3.4	61
91	Differences in cortical activity between methamphetamine-dependent and healthy individuals performing a facial affect matching task. <i>Drug and Alcohol Dependence</i> , 2008 , 93, 93-102	4.9	61
90	Randomized controlled trial of expressive writing for psychological and physical health: the moderating role of emotional expressivity. <i>Anxiety, Stress and Coping</i> , 2014 , 27, 1-17	3.1	60
89	Altered age-related trajectories of amygdala-prefrontal circuitry in adolescents at clinical high risk for psychosis: a preliminary study. <i>Schizophrenia Research</i> , 2012 , 134, 1-9	3.6	59
88	Incidental regulation of attraction: the neural basis of the derogation of attractive alternatives in romantic relationships. <i>Cognition and Emotion</i> , 2011 , 25, 490-505	2.3	57
87	Neural mechanisms of social influence in adolescence. <i>Social Cognitive and Affective Neuroscience</i> , 2016 , 11, 100-9	4	56
86	Cognitive mediators of treatment for social anxiety disorder: comparing acceptance and commitment therapy and cognitive-behavioral therapy. <i>Behavior Therapy</i> , 2014 , 45, 664-77	4.8	56
85	Affect labeling enhances exposure effectiveness for public speaking anxiety. <i>Behaviour Research and Therapy</i> , 2015 , 68, 27-36	5.2	54
84	Person-specific theory of mind in medial pFC. <i>Journal of Cognitive Neuroscience</i> , 2015 , 27, 1-12	3.1	53
83	Social working memory: neurocognitive networks and directions for future research. <i>Frontiers in Psychology</i> , 2012 , 3, 571	3.4	52
82	Social working memory and its distinctive link to social cognitive ability: an fMRI study. <i>Social Cognitive and Affective Neuroscience</i> , 2015 , 10, 1338-47	4	49
81	The default mode of human brain function primes the intentional stance. <i>Journal of Cognitive Neuroscience</i> , 2015 , 27, 1116-24	3.1	49
80	Overlapping neural substrates between intentional and incidental down-regulation of negative emotions. <i>Emotion</i> , 2012 , 12, 229-35	4.1	49

79	Advancing understanding of affect labeling with dynamic causal modeling. <i>NeuroImage</i> , 2013 , 82, 481-8	7.9	48
78	Social Cognitive Neuroscience 2010 ,		48
77	Vasopressin, but not oxytocin, increases empathic concern among individuals who received higher levels of paternal warmth: A randomized controlled trial. <i>Psychoneuroendocrinology</i> , 2015 , 51, 253-61	5	46
76	Empathy: A Social Cognitive Neuroscience Approach. <i>Social and Personality Psychology Compass</i> , 2009 , 3, 94-110	3	46
75	BIS, BAS, and response conflict: Testing predictions of the revised reinforcement sensitivity theory. <i>Personality and Individual Differences</i> , 2009 , 46, 586-591	3.3	42
74	Attentional bias and emotional reactivity as predictors and moderators of behavioral treatment for social phobia. <i>Behaviour Research and Therapy</i> , 2013 , 51, 669-79	5.2	37
73	Treatment for social anxiety disorder alters functional connectivity in emotion regulation neural circuitry. <i>Psychiatry Research - Neuroimaging</i> , 2017 , 261, 44-51	2.9	36
72	The neural correlates of persuasion: a common network across cultures and media. <i>Journal of Cognitive Neuroscience</i> , 2010 , 22, 2447-59	3.1	36
71	Amygdala reactivity in healthy adults is correlated with prefrontal cortical thickness. <i>Journal of Neuroscience</i> , 2010 , 30, 16673-8	6.6	33
70	Self-affirmation activates brain systems associated with self-related processing and reward and is reinforced by future orientation. <i>Social Cognitive and Affective Neuroscience</i> , 2016 , 11, 621-9	4	30
69	Evidence That Default Network Connectivity During Rest Consolidates Social Information. <i>Cerebral Cortex</i> , 2019 , 29, 1910-1920	5.1	28
68	Neural mechanisms of impulse control in sexually risky adolescents. <i>Developmental Cognitive Neuroscience</i> , 2013 , 6, 23-9	5.5	28
67	Modulating the neural bases of persuasion: why/how, gain/loss, and users/non-users. <i>Social Cognitive and Affective Neuroscience</i> , 2017 , 12, 283-297	4	28
66	Getting the word out: neural correlates of enthusiastic message propagation. <i>Frontiers in Human Neuroscience</i> , 2012 , 6, 313	3.3	27
65	Ascribing beliefs to ingroup and outgroup political candidates: neural correlates of perspective-taking, issue importance and days until the election. <i>Philosophical Transactions of the Royal Society B: Biological Sciences</i> , 2012 , 367, 731-43	5.8	27
64	Principles, processes, and puzzles of social cognition: an introduction for the special issue on social cognitive neuroscience. <i>NeuroImage</i> , 2005 , 28, 745-56	7.9	27
63	Why People Are Always Thinking about Themselves: Medial Prefrontal Cortex Activity during Rest Primes Self-referential Processing. <i>Journal of Cognitive Neuroscience</i> , 2018 , 30, 714-721	3.1	26
62	Neural and psychological predictors of treatment response in irritable bowel syndrome patients with a 5-HT ₃ receptor antagonist: a pilot study. <i>Alimentary Pharmacology and Therapeutics</i> , 2008 , 28, 344-52	6.1	26

61	Neural responses to social threat and predictors of cognitive behavioral therapy and acceptance and commitment therapy in social anxiety disorder. <i>Psychiatry Research - Neuroimaging</i> , 2017 , 261, 52-64 ^{2.9}	2.9	25
60	Null results of oxytocin and vasopressin administration across a range of social cognitive and behavioral paradigms: Evidence from a randomized controlled trial. <i>Psychoneuroendocrinology</i> , 2019 , 107, 124-132	5	25
59	Altered emotion regulation capacity in social phobia as a function of comorbidity. <i>Social Cognitive and Affective Neuroscience</i> , 2015 , 10, 199-208	4	24
58	Education and the social brain. <i>Trends in Neuroscience and Education</i> , 2012 , 1, 3-9	3.7	23
57	A geographical history of social cognitive neuroscience. <i>NeuroImage</i> , 2012 , 61, 432-6	7.9	23
56	Effects of self-transcendence on neural responses to persuasive messages and health behavior change. <i>Proceedings of the National Academy of Sciences of the United States of America</i> , 2018 , 115, 9974-9979 ^{11.5}	11.5	23
55	Interactive effects of three core goal pursuit processes on brain control systems: goal maintenance, performance monitoring, and response inhibition. <i>PLoS ONE</i> , 2012 , 7, e40334	3.7	21
54	The mere green effect: An fMRI study of pro-environmental advertisements. <i>Social Neuroscience</i> , 2017 , 12, 400-408	2	20
53	Social in, social out: How the brain responds to social language with more social language. <i>Communication Monographs</i> , 2015 , 82, 31-63	1.7	19
52	Adolescents' emotional competence is associated with parents' neural sensitivity to emotions. <i>Frontiers in Human Neuroscience</i> , 2014 , 8, 558	3.3	19
51	What zombies can't do: A social cognitive neuroscience approach to the irreducibility of reflective consciousness 2009 , 293-316		17
50	Writing content predicts benefit from written expressive disclosure: Evidence for repeated exposure and self-affirmation. <i>Cognition and Emotion</i> , 2016 , 30, 258-74	2.3	16
49	Grounding the neuroscience of behavior change in the sociocultural context. <i>Current Opinion in Behavioral Sciences</i> , 2015 , 5, 58-63	4	16
48	Oxytocin, but not vasopressin, impairs social cognitive ability among individuals with higher levels of social anxiety: a randomized controlled trial. <i>Social Cognitive and Affective Neuroscience</i> , 2016 , 11, 1272-9	4	16
47	Tools of the Trade Multivoxel pattern analysis in fMRI: a practical introduction for social and affective neuroscientists. <i>Social Cognitive and Affective Neuroscience</i> , 2020 , 15, 487-509	4	15
46	Social Working Memory Training Improves Perspective-Taking Accuracy. <i>Social Psychological and Personality Science</i> , 2016 , 7, 381-389	4.3	15
45	Links between parental depression and longitudinal changes in youths' neural sensitivity to rewards. <i>Social Cognitive and Affective Neuroscience</i> , 2016 , 11, 1262-71	4	14
44	Examining Positive and Negative Affect as Outcomes and Moderators of Cognitive-Behavioral Therapy and Acceptance and Commitment Therapy for Social Anxiety Disorder. <i>Behavior Therapy</i> , 2019 , 50, 1112-1124	4.8	14

43	What's outside the black box?: The status of behavioral outcomes in neuroscience research. <i>Psychological Inquiry</i> , 2011 , 22, 100-107	2	14
