#	ARTICLE	IF	CITATIONS
1	Estimation of physiologic ability and surgical stress (E-PASS) as a new prediction scoring system for postoperative morbidity and mortality following elective gastrointestinal surgery. <i>Surgery Today</i> , 1999, 29, 219-225.	0.7	198
2	Systemic inflammatory response syndrome and organ dysfunction following gastrointestinal surgery. <i>Critical Care Medicine</i> , 1997, 25, 1994-2000.	0.4	157
3	Does postoperative morbidity worsen the oncological outcome after radical surgery for gastrointestinal cancers? A systematic review of the literature. <i>Annals of Gastroenterological Surgery</i> , 2017, 1, 11-23.	1.2	85
4	Comparative effectiveness of the tumour diagnostics, CA 19-9, CA 125 and carcinoembryonic antigen in patients with diseases of the digestive system.. <i>Gut</i> , 1987, 28, 323-329.	6.1	79
5	Clinical Significance of Serum CA125 Values in Patients with Cancers of the Digestive System. <i>American Journal of the Medical Sciences</i> , 1986, 292, 30-34.	0.4	75
6	Evaluation of Serum CA125 Values in Healthy Individuals and Pregnant Women. <i>American Journal of the Medical Sciences</i> , 1986, 292, 25-29.	0.4	71
7	Estimation of physiologic ability and surgical stress (E-PASS) for a surgical audit in elective digestive surgery. <i>Surgery</i> , 2004, 135, 586-594.	1.0	71
8	Evaluation of an Estimation of Physiologic Ability and Surgical Stress (E-PASS) Scoring System to Predict Postoperative Risk: A Multicenter Prospective Study. <i>Surgery Today</i> , 2001, 31, 569-574.	0.7	66
9	Human gastric carcinoid detected during long-term antiulcer therapy of H2 receptor antagonist and proton pump inhibitor. <i>Digestive Diseases and Sciences</i> , 1998, 43, 253-257.	1.1	64
10	Intracellular accumulation of unconjugated bilirubin inhibits phytohemagglutinin-induced proliferation and interleukin-2 production of human lymphocytes. <i>Digestive Diseases and Sciences</i> , 1996, 41, 1468-1474.	1.1	58
11	Prediction of Anastomotic Leak and its Prognosis in Digestive Surgery. <i>World Journal of Surgery</i> , 2011, 35, 716-722.	0.8	50
12	Does remnant gastric cancer really differ from primary gastric cancer? A systematic review of the literature by the Task Force of Japanese Gastric Cancer Association. <i>Gastric Cancer</i> , 2016, 19, 339-349.	2.7	44
13	Elastase Activity Enhances the Adhesion of Neutrophil and Cancer Cells to Vascular Endothelial Cells. <i>Journal of Surgical Research</i> , 2000, 94, 153-158.	0.8	43
14	A Multicenter Prospective Study of Surgical Audit Systems. <i>Annals of Surgery</i> , 2011, 253, 194-201.	2.1	42
15	Survivin expression predicts early recurrence in early-stage breast cancer. <i>Anticancer Research</i> , 2007, 27, 2803-8.	0.5	42
16	Unconjugated bilirubin inhibits in vitro cytotoxic T lymphocyte activity of human lymphocytes. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , 1996, 1317, 65-70.	1.8	39
17	E-PASS (The Estimation of Physiologic Ability and Surgical Stress) Scoring System Helps the Prediction of Postoperative Morbidity and Mortality in Thoracic Surgery. <i>European Surgical Research</i> , 2004, 36, 249-255.	0.6	34
18	Unconjugated bilirubin inhibits in vitro major histocompatibility complex-unrestricted cytotoxicity of human lymphocytes. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , 1996, 1316, 29-34.	1.8	33

#	ARTICLE	IF	CITATIONS
19	Maximal Sterile Barrier Precautions Do Not Reduce Catheter-Related Bloodstream Infections in General Surgery Units. <i>Annals of Surgery</i> , 2010, 251, 620-623.	2.1	28
20	Value of general surgical risk models for predicting postoperative liver failure and mortality following liver surgery. <i>Journal of Surgical Oncology</i> , 2012, 106, 898-904.	0.8	28
21	Estimation of Physiologic Ability and Surgical Stress (E-PASS) as a New Prediction Scoring System for Postoperative Morbidity and Mortality Following Elective Gastrointestinal Surgery. <i>Surgery Today</i> , 1999, 29, 219-225.	0.7	27
22	One-hour oral glucose tolerance test plasma glucose at gestational diabetes diagnosis is a common predictor of the need for insulin therapy in pregnancy and postpartum impaired glucose tolerance. <i>Journal of Diabetes Investigation</i> , 2018, 9, 1370-1377.	1.1	25
23	Less-invasive surgery for gastric cancer prolongs survival in patients over 80 years of age. <i>Surgery Today</i> , 1999, 29, 842-848.	0.7	24
24	Estimation of Surgical Costs Using a Prediction Scoring System. <i>Archives of Surgery</i> , 2002, 137, 481-5.	2.3	23
25	Evaluation of modified Estimation of Physiologic Ability and Surgical Stress in gastric carcinoma surgery. <i>Gastric Cancer</i> , 2012, 15, 7-14.	2.7	21
26	Immunologic Effects of Levamisole in Mice and Humans. <i>Journal of Immunotherapy</i> , 1995, 17, 47-57.	1.2	20
27	Treatment option of endoscopic stent insertion or gastrojejunostomy for gastric outlet obstruction due to gastric cancer: a propensity score-matched analysis. <i>Gastric Cancer</i> , 2020, 23, 667-676.	2.7	20
28	Tumor Necrosis Factor ?? Acts on Cultured Human Vascular Endothelial Cells to Increase the Adhesion of Pancreatic Cancer Cells. <i>Pancreas</i> , 2000, 21, 392-398.	0.5	18
29	Intracellular accumulation of cholesteryl esters suppresses production of lipopolysaccharide-induced interleukin 1 by rat peritoneal macrophages. <i>Biochemical and Biophysical Research Communications</i> , 1989, 160, 874-880.	1.0	17
30	New Prediction Rule for Mortality in Acute Mesenteric Ischemia. <i>Digestion</i> , 2009, 80, 104-111.	1.2	17
31	Value of general surgical risk models for predicting postoperative morbidity and mortality in pancreatic resections for pancreatobiliary carcinomas. <i>Journal of Hepato-Biliary-Pancreatic Sciences</i> , 2014, 21, 599-606.	1.4	17
32	Value of E-PASS models for predicting postoperative morbidity and mortality in resection of perihilar cholangiocarcinoma and gallbladder carcinoma. <i>Hpb</i> , 2016, 18, 271-278.	0.1	15
33	Evaluation of Modified Estimation of Physiologic Ability and Surgical Stress in Colorectal Carcinoma Surgery. <i>Diseases of the Colon and Rectum</i> , 2011, 54, 1293-1300.	0.7	14
34	Flow cytometric measurement of intracellular bilirubin in human peripheral blood mononuclear cells exposed to unconjugated bilirubin. <i>Clinical Biochemistry</i> , 1992, 25, 277-283.	0.8	13
35	Curatively resected primary malignant melanoma of the esophagus: Report of a case. <i>Surgery Today</i> , 1993, 23, 820-824.	0.7	13
36	Quality of gastric cancer care in designated cancer care hospitals in Japan. <i>International Journal for Quality in Health Care</i> , 2013, 25, 418-428.	0.9	13

#	ARTICLE	IF	CITATIONS
37	The development and validation of the Calculation of post-Operative Risk in Emergency Surgery (CORES) model. <i>Surgery Today</i> , 2014, 44, 1443-1456.	0.7	12
38	Estimation of Physiologic Ability and Surgical Stress (E-PASS) versus modified E-PASS for prediction of postoperative complications in elderly patients who undergo gastrectomy for gastric cancer. <i>International Journal of Clinical Oncology</i> , 2017, 22, 80-87.	1.0	11
39	Clinical TNM staging for esophageal, gastric, and colorectal cancers in the era of neoadjuvant therapy: A systematic review of the literature. <i>Annals of Gastroenterological Surgery</i> , 2021, 5, 404-418.	1.2	11
40	Risk factors for catheter-related bloodstream infections in adult hospitalized patients – multicenter cohort study. <i>Scandinavian Journal of Infectious Diseases</i> , 2013, 45, 773-779.	1.5	10
41	Validation of an assessment tool: Estimation of Postoperative Overall Survival for Gastric Cancer. <i>European Journal of Surgical Oncology</i> , 2018, 44, 515-523.	0.5	9
42	Dose-related comparison of antibody-dependent cellular cytotoxicity with chimeric and native murine monoclonal antibody 17-1A. <i>International Journal of Gastrointestinal Cancer</i> , 1994, 15, 43-50.	0.4	8
43	Comparison of surgical outcome using the prediction scoring system of E-PASS for thoracic surgery. <i>General Thoracic and Cardiovascular Surgery</i> , 2006, 54, 391-395.	0.4	8
44	Evaluation of Modified Estimation of Physiologic Ability and Surgical Stress in Patients Undergoing Surgery for Choledochocystolithiasis. <i>World Journal of Surgery</i> , 2014, 38, 1177-1183.	0.8	8
45	Comparative study on quick sequential organ failure assessment, systemic inflammatory response syndrome and the shock index in prehospital emergency patients: single-site retrospective study. <i>Acute Medicine &amp; Surgery</i> , 2019, 6, 131-137.	0.5	8
46	Characterization of bilirubin transport system by human peripheral blood mononuclear cells. <i>Journal of Leukocyte Biology</i> , 1992, 51, 2-6.	1.5	6
47	A case of an omphalomesenteric duct remnant in an adult treated with laparoscopic surgery. <i>International Journal of Surgery Case Reports</i> , 2015, 8, 179-181.	0.2	6
48	Estimation of Physiologic Ability and Surgical Stress (E-PASS system) in patients with esophageal squamous cell carcinoma undergoing resection. <i>Esophagus</i> , 2008, 5, 81-86.	1.0	5
49	Evaluation of Estimation of Physiologic Ability and Surgical Stress to predict in-hospital mortality in cardiac surgery. <i>Journal of Anesthesia</i> , 2011, 25, 481-491.	0.7	5
50	The EPOS-C Score: An Integration of Independent, Tumor- and Patient-Associated Risk Factors to Predict 5-years Overall Survival Following Colorectal Cancer Surgery. <i>World Journal of Surgery</i> , 2015, 39, 1567-1577.	0.8	5
51	Less-Invasive Surgery for Gastric Cancer Prolongs Survival in Patients Over 80 Years of Age. <i>Surgery Today</i> , 1999, 29, 842-848.	0.7	5
52	Partial purification and characterization of CA19-9 antigen from the ascitic fluid of a patient with pancreatic cancer. <i>Clinical Biochemistry</i> , 1989, 22, 363-368.	0.8	4
53	Preliminary study of surgical audit for overall survival following gastric cancer resection. <i>Gastric Cancer</i> , 2015, 18, 138-146.	2.7	4
54	Inter-rater reliability of the American Society of Anesthesiologists physical status rating for emergency gastrointestinal surgery. <i>Acute Medicine &amp; Surgery</i> , 2017, 4, 161-165.	0.5	4

#	ARTICLE	IF	CITATIONS
55	Development and validation of grade-based prediction models for postoperative morbidity in gastric cancer resection using a Japanese web-based nationwide registry. <i>Annals of Gastroenterological Surgery</i> , 2019, 3, 544-551.	1.2	4
56	A Case Report of Primary Signet-Ring Cell Carcinoma of the Vermiform Appendix. <i>Japanese Journal of Gastroenterological Surgery</i> , 2006, 39, 1424-1428.	0.0	4
57	Decreased interleukin generation in patients with cancer of the digestive system. A correlation between interleukin 1 and interleukin 2 production. <i>The Japanese Journal of Surgery</i> , 1988, 18, 527-532.	0.2	2
58	Advice for prevention of inadvertent respiratory placement of nasogastric feeding tube. <i>International Journal of Risk and Safety in Medicine</i> , 2008, 20, 241-247.	0.3	2
59	A case of cardiac tamponade shock due to bleeding from an advanced thymoma. <i>General Thoracic and Cardiovascular Surgery</i> , 2013, 61, 723-727.	0.4	2
60	Clinical evaluation of tumor markers CA 19-9 and CA 125 in diseases of the digestive system: Diagnostic usefulness especially in carcinoma of the pancreas and biliary tract.. <i>Japanese Journal of Gastroenterological Surgery</i> , 1985, 18, 1687-1692.	0.0	2
61	A Case of Advanced Rectal Cancer, Conducted Anal Function-preserving Surgery after releasing of Invagination. <i>Japanese Journal of Gastroenterological Surgery</i> , 2008, 41, 695-699.	0.0	2
62	Accelerated cytokine responses of elderly patients result in a significant increase of systemic inflammatory response syndrome and postoperative complications following gastrointestinal surgery. <i>International Congress Series</i> , 2003, 1255, 143-147.	0.2	1
63	Surgical management of partial dentures in the cervicothoracic esophagus. <i>Esophagus</i> , 2016, 13, 270-275.	1.0	1
64	Evaluation of Surgical Audit Systems 'POSSUM and P-POSSUM' in Emergency Digestive Surgery. <i>Japanese Journal of Gastroenterological Surgery</i> , 2008, 41, 373-379.	0.0	1
65	Maximal Sterile Barrier Precautions do Not Reduce Catheter-Related Bloodstream Infections in General Surgery Units. <i>Annals of Surgery</i> , 2011, 253, 1235.	2.1	0
66	No Reason to Conclude That Maximal Sterile Barrier Precautions Do Not Reduce Catheter-Related Blood Stream Infections. <i>Annals of Surgery</i> , 2011, 253, 213-214.	2.1	0
67	Author's reply: Stent-in-stent technique resolves late stent obstruction. <i>Gastric Cancer</i> , 2020, 23, 562-562.	2.7	0
68	Evaluation of Endoscopic Surgery by a Prediction Scoring System 'E-PASS' for Postsurgical Risk.. <i>Japanese Journal of Gastroenterological Surgery</i> , 2001, 34, 375-380.	0.0	0
69	A Case of Thoracic Esophageal Cancer with Brain and Scapula Metastases Remains Progression Free for 21 Months after Multidisciplinary Therapy. <i>Japanese Journal of Gastroenterological Surgery</i> , 2008, 41, 1910-1915.	0.0	0
70	Prevention of central venous catheter-related blood stream infection. <i>Journal of the Japanese Society of Intensive Care Medicine</i> , 2012, 19, 185-189.	0.0	0
71	CHARACTERISTICS OF ACUTE ABDOMEN IN AGED-PATIENTS AND THEIR TOLERANCE TO OPERATION. <i>The Journal of the Japanese Practical Surgeon Society</i> , 1984, 45, 287-296.	0.0	0
