citing authors

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 1  | Clinical TNM staging for esophageal, gastric, and colorectal cancers in the era of neoadjuvant therapy: A systematic review of the literature. <i>Annals of Gastroenterological Surgery</i> , 2021, 5, 404-418.  | 1.2 | 11        |
| 2  | Author's reply: Stent-in-stent technique resolves late stent obstruction. <i>Gastric Cancer</i> , 2020, 23, 562-562.   | 2.7 | 0         |
| 3  | Treatment option of endoscopic stent insertion or gastrojejunostomy for gastric outlet obstruction due to gastric cancer: a propensity score-matched analysis. <i>Gastric Cancer</i> , 2020, 23, 667-676.  | 2.7 | 20        |
| 4  | Development and validation of grade-based prediction models for postoperative morbidity in gastric cancer resection using a Japanese web-based nationwide registry. <i>Annals of Gastroenterological Surgery</i> , 2019, 3, 544-551.                                     | 1.2 | 4         |
| 5  | Comparative study on quick sequential organ failure assessment, systemic inflammatory response syndrome and the shock index in prehospital emergency patients: single-site retrospective study. <i>Acute Medicine &amp; Surgery</i> , 2019, 6, 131-137.                  | 0.5 | 8         |
| 6  | One-hour oral glucose tolerance test plasma glucose at gestational diabetes diagnosis is a common predictor of the need for insulin therapy in pregnancy and postpartum impaired glucose tolerance. <i>Journal of Diabetes Investigation</i> , 2018, 9, 1370-1377.       | 1.1 | 25        |
| 7  | Validation of an assessment tool: Estimation of Postoperative Overall Survival for Gastric Cancer. <i>European Journal of Surgical Oncology</i> , 2018, 44, 515-523.   | 0.5 | 9         |
| 8  | Does postoperative morbidity worsen the oncological outcome after radical surgery for gastrointestinal cancers? A systematic review of the literature. <i>Annals of Gastroenterological Surgery</i> , 2017, 1, 11-23.  | 1.2 | 85        |
| 9  | Inter-rater reliability of the American Society of Anesthesiologists physical status rating for emergency gastrointestinal surgery. <i>Acute Medicine &amp; Surgery</i> , 2017, 4, 161-165.  | 0.5 | 4         |
| 10 | Estimation of Physiologic Ability and Surgical Stress (E-PASS) versus modified E-PASS for prediction of postoperative complications in elderly patients who undergo gastrectomy for gastric cancer. <i>International Journal of Clinical Oncology</i> , 2017, 22, 80-87. | 1.0 | 11        |
| 11 | Surgical management of partial dentures in the cervicothoracic esophagus. <i>Esophagus</i> , 2016, 13, 270-275.  | 1.0 | 1         |
| 12 | Value of E-PASS models for predicting postoperative morbidity and mortality in resection of perihilar cholangiocarcinoma and gallbladder carcinoma. <i>Hpb</i> , 2016, 18, 271-278.  | 0.1 | 15        |
| 13 | Does remnant gastric cancer really differ from primary gastric cancer? A systematic review of the literature by the Task Force of Japanese Gastric Cancer Association. <i>Gastric Cancer</i> , 2016, 19, 339-349.  | 2.7 | 44        |
| 14 | A case of an omphalomesenteric duct remnant in an adult treated with laparoscopic surgery. <i>International Journal of Surgery Case Reports</i> , 2015, 8, 179-181.  | 0.2 | 6         |
| 15 | The EPOS-CC Score: An Integration of Independent, Tumor- and Patient-Associated Risk Factors to Predict 5-years Overall Survival Following Colorectal Cancer Surgery. <i>World Journal of Surgery</i> , 2015, 39, 1567-1577.   | 0.8 | 5         |
| 16 | Preliminary study of surgical audit for overall survival following gastric cancer resection. <i>Gastric Cancer</i> , 2015, 18, 138-146.  | 2.7 | 4         |
| 17 | Value of general surgical risk models for predicting postoperative morbidity and mortality in pancreatic resections for pancreatobiliary carcinomas. <i>Journal of Hepato-Biliary-Pancreatic Sciences</i> , 2014, 21, 599-606.   | 1.4 | 17        |
| 18 | Evaluation of Modified Estimation of Physiologic Ability and Surgical Stress in Patients Undergoing Surgery for Choledochocystolithiasis. <i>World Journal of Surgery</i> , 2014, 38, 1177-1183.   | 0.8 | 8         |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 19 | The development and validation of the Calculation of post-Operative Risk in Emergency Surgery (CORES) model. <i>Surgery Today</i> , 2014, 44, 1443-1456.                                    | 0.7 | 12        |
| 20 | Risk factors for catheter-related bloodstream infections in adult hospitalized patients – multicenter cohort study. <i>Scandinavian Journal of Infectious Diseases</i> , 2013, 45, 773-779. | 1.5 | 10        |
| 21 | A case of cardiac tamponade shock due to bleeding from an advanced thymoma. <i>General Thoracic and Cardiovascular Surgery</i> , 2013, 61, 723-727.   | 0.4 | 2         |
| 22 | Quality of gastric cancer care in designated cancer care hospitals in Japan. <i>International Journal for Quality in Health Care</i> , 2013, 25, 418-428.                                   | 0.9 | 13        |
| 23 | Value of general surgical risk models for predicting postoperative liver failure and mortality following liver surgery. <i>Journal of Surgical Oncology</i> , 2012, 106, 898-904.           | 0.8 | 28        |
| 24 | Evaluation of modified Estimation of Physiologic Ability and Surgical Stress in gastric carcinoma surgery. <i>Gastric Cancer</i> , 2012, 15, 7-14.  | 2.7 | 21        |
| 25 | Prevention of central venous catheter-related blood stream infection. <i>Journal of the Japanese Society of Intensive Care Medicine</i> , 2012, 19, 185-189.                                | 0.0 | 0         |
| 26 | Maximal Sterile Barrier Precautions do Not Reduce Catheter-Related Bloodstream Infections in General Surgery Units. <i>Annals of Surgery</i> , 2011, 253, 1235.                             | 2.1 | 0         |
| 27 | Evaluation of Modified Estimation of Physiologic Ability and Surgical Stress in Colorectal Carcinoma Surgery. <i>Diseases of the Colon and Rectum</i> , 2011, 54, 1293-1300.                | 0.7 | 14        |
| 28 | No Reason to Conclude That Maximal Sterile Barrier Precautions Do Not Reduce Catheter-Related Blood Stream Infections. <i>Annals of Surgery</i> , 2011, 253, 213-214.                       | 2.1 | 0         |
| 29 | A Multicenter Prospective Study of Surgical Audit Systems. <i>Annals of Surgery</i> , 2011, 253, 194-201.   | 2.1 | 42        |
| 30 | Evaluation of Estimation of Physiologic Ability and Surgical Stress to predict in-hospital mortality in cardiac surgery. <i>Journal of Anesthesia</i> , 2011, 25, 481-491.                  | 0.7 | 5         |
| 31 | Prediction of Anastomotic Leak and its Prognosis in Digestive Surgery. <i>World Journal of Surgery</i> , 2011, 35, 716-722.   | 0.8 | 50        |
| 32 | Maximal Sterile Barrier Precautions Do Not Reduce Catheter-Related Bloodstream Infections in General Surgery Units. <i>Annals of Surgery</i> , 2010, 251, 620-623.                          | 2.1 | 28        |
| 33 | New Prediction Rule for Mortality in Acute Mesenteric Ischemia. <i>Digestion</i> , 2009, 80, 104-111.   | 1.2 | 17        |
| 34 | Estimation of Physiologic Ability and Surgical Stress (E-PASS system) in patients with esophageal squamous cell carcinoma undergoing resection. <i>Esophagus</i> , 2008, 5, 81-86.          | 1.0 | 5         |
| 35 | Advice for prevention of inadvertent respiratory placement of nasogastric feeding tube. <i>International Journal of Risk and Safety in Medicine</i> , 2008, 20, 241-247.                    | 0.3 | 2         |
| 36 | Evaluation of Surgical Audit Systems 'POSSUM and P-POSSUM' in Emergency Digestive Surgery. <i>Japanese Journal of Gastroenterological Surgery</i> , 2008, 41, 373-379.                      | 0.0 | 1         |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | A Case of Thoracic Esophageal Cancer with Brain and Scapula Metastases Remains Progression Free for 21 Months after Multidisciplinary Therapy. Japanese Journal of Gastroenterological Surgery, 2008, 41, 1910-1915.                                   | 0.0 | 0         |
| 38 | A Case of Advanced Rectal Cancer, Conducted Anal Function-preserving Surgery after releasing of Invagination. Japanese Journal of Gastroenterological Surgery, 2008, 41, 695-699.  | 0.0 | 2         |
| 39 | Survivin expression predicts early recurrence in early-stage breast cancer. Anticancer Research, 2007, 27, 2803-8.   | 0.5 | 42        |
| 40 | Comparison of surgical outcome using the prediction scoring system of E-PASS for thoracic surgery. General Thoracic and Cardiovascular Surgery, 2006, 54, 391-395.   | 0.4 | 8         |
| 41 | A Case Report of Primary Signet-Ring Cell Carcinoma of the Vermiform Appendix. Japanese Journal of Gastroenterological Surgery, 2006, 39, 1424-1428.   | 0.0 | 4         |
| 42 | E-PASS (The Estimation of Physiologic Ability and Surgical Stress) Scoring System Helps the Prediction of Postoperative Morbidity and Mortality in Thoracic Surgery. European Surgical Research, 2004, 36, 249-255.                                    | 0.6 | 34        |
| 43 | Estimation of physiologic ability and surgical stress (E-PASS) for a surgical audit in elective digestive surgery. Surgery, 2004, 135, 586-594.  | 1.0 | 71        |
| 44 | Accelerated cytokine responses of elderly patients result in a significant increase of systemic inflammatory response syndrome and postoperative complications following gastrointestinal surgery. International Congress Series, 2003, 1255, 143-147. | 0.2 | 1         |
| 45 | Estimation of Surgical Costs Using a Prediction Scoring System. Archives of Surgery, 2002, 137, 481-5.   | 2.3 | 23        |
| 46 | Evaluation of an Estimation of Physiologic Ability and Surgical Stress (E-PASS) Scoring System to Predict Postoperative Risk: A Multicenter Prospective Study. Surgery Today, 2001, 31, 569-574.   | 0.7 | 66        |
| 47 | Evaluation of Endoscopic Surgery by a Prediction Scoring System 'E-PASS' for Postsurgical Risk.. Japanese Journal of Gastroenterological Surgery, 2001, 34, 375-380.   | 0.0 | 0         |
| 48 | Tumor Necrosis Factor ?? Acts on Cultured Human Vascular Endothelial Cells to Increase the Adhesion of Pancreatic Cancer Cells. Pancreas, 2000, 21, 392-398.   | 0.5 | 18        |
| 49 | Elastase Activity Enhances the Adhesion of Neutrophil and Cancer Cells to Vascular Endothelial Cells. Journal of Surgical Research, 2000, 94, 153-158.   | 0.8 | 43        |
| 50 | Less-invasive surgery for gastric cancer prolongs survival in patients over 80 years of age. Surgery Today, 1999, 29, 842-848.   | 0.7 | 24        |
| 51 | Estimation of physiologic ability and surgical stress (E-PASS) as a new prediction scoring system for postoperative morbidity and mortality following elective gastrointestinal surgery. Surgery Today, 1999, 29, 219-225.                             | 0.7 | 198       |
| 52 | Less-Invasive Surgery for Gastric Cancer Prolongs Survival in Patients Over 80 Years of Age. Surgery Today, 1999, 29, 842-848.   | 0.7 | 5         |
| 53 | Estimation of Physiologic Ability and Surgical Stress (E-PASS) as a New Prediction Scoring System for Postoperative Morbidity and Mortality Following Elective Gastrointestinal Surgery. Surgery Today, 1999, 29, 219-225.                             | 0.7 | 27        |
| 54 | Human gastric carcinoid detected during long-term antiulcer therapy of H2 receptor antagonist and proton pump inhibitor. Digestive Diseases and Sciences, 1998, 43, 253-257.   | 1.1 | 64        |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 55 | Systemic inflammatory response syndrome and organ dysfunction following gastrointestinal surgery. <i>Critical Care Medicine</i> , 1997, 25, 1994-2000.   | 0.4 | 157       |
| 56 | Unconjugated bilirubin inhibits in vitro major histocompatibility complex-unrestricted cytotoxicity of human lymphocytes. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , 1996, 1316, 29-34.   | 1.8 | 33        |
| 57 | Unconjugated bilirubin inhibits in vitro cytotoxic T lymphocyte activity of human lymphocytes. <i>Biochimica Et Biophysica Acta - Molecular Basis of Disease</i> , 1996, 1317, 65-70.  | 1.8 | 39        |
| 58 | Intracellular accumulation of unconjugated bilirubin inhibits phytohemagglutinin-induced proliferation and interleukin-2 production of human lymphocytes. <i>Digestive Diseases and Sciences</i> , 1996, 41, 1468-1474.                                      | 1.1 | 58        |
| 59 | Immunologic Effects of Levamisole in Mice and Humans. <i>Journal of Immunotherapy</i> , 1995, 17, 47-57.   | 1.2 | 20        |
| 60 | Dose-related comparison of antibody-dependent cellular cytotoxicity with chimeric and native murine monoclonal antibody 17-1A. <i>International Journal of Gastrointestinal Cancer</i> , 1994, 15, 43-50.  | 0.4 | 8         |
| 61 | Curatively resected primary malignant melanoma of the esophagus: Report of a case. <i>Surgery Today</i> , 1993, 23, 820-824.   | 0.7 | 13        |
| 62 | Characterization of bilirubin transport system by human peripheral blood mononuclear cells. <i>Journal of Leukocyte Biology</i> , 1992, 51, 2-6.   | 1.5 | 6         |
| 63 | Flow cytometric measurement of intracellular bilirubin in human peripheral blood mononuclear cells exposed to unconjugated bilirubin. <i>Clinical Biochemistry</i> , 1992, 25, 277-283.  | 0.8 | 13        |
| 64 | Partial purification and characterization of CA19-9 antigen from the ascitic fluid of a patient with pancreatic cancer. <i>Clinical Biochemistry</i> , 1989, 22, 363-368.  | 0.8 | 4         |
| 65 | Intracellular accumulation of cholesteryl esters suppresses production of lipopolysaccharide-induced interleukin 1 by rat peritoneal macrophages. <i>Biochemical and Biophysical Research Communications</i> , 1989, 160, 874-880.                           | 1.0 | 17        |
| 66 | Decreased interleukin generation in patients with cancer of the digestive system. A correlation between interleukin 1 and interleukin 2 production. <i>The Japanese Journal of Surgery</i> , 1988, 18, 527-532.  | 0.2 | 2         |
| 67 | Comparative effectiveness of the tumour diagnostics, CA 19-9, CA 125 and carcinoembryonic antigen in patients with diseases of the digestive system.. <i>Gut</i> , 1987, 28, 323-329.  | 6.1 | 79        |
| 68 | Evaluation of Serum CA125 Values in Healthy Individuals and Pregnant Women. <i>American Journal of the Medical Sciences</i> , 1986, 292, 25-29.  | 0.4 | 71        |
| 69 | Clinical Significance of Serum CA125 Values in Patients with Cancers of the Digestive System. <i>American Journal of the Medical Sciences</i> , 1986, 292, 30-34.  | 0.4 | 75        |
| 70 | Clinical evaluation of tumor markers CA 19-9 and CA 125 in diseases of the digestive system: Diagnostic usefulness especially in carcinoma of the pancreas and biliary tract.. <i>Japanese Journal of Gastroenterological Surgery</i> , 1985, 18, 1687-1692. | 0.0 | 2         |
| 71 | CHARACTERISTICS OF ACUTE ABDOMEN IN AGED-PATIENTS AND THEIR TOLERANCE TO OPERATION. <i>The Journal of the Japanese Practical Surgeon Society</i> , 1984, 45, 287-296.  | 0.0 | 0         |
