#	ARTICLE	IF	CITATIONS
1	The first international roundtable on "organ donation after circulatory death by medical assistance in dying" demonstrates increasing incidence of successful patient-driven procedure. American Journal of Transplantation, 2022, 22, 999-1000.	4.7	10
2	Outcomes of lung transplantation from organ donation after medical assistance in dying: First North American experience. American Journal of Transplantation, 2022, 22, 1637-1645.	4.7	6
3	Lung donation after medical assistance in dying at home. American Journal of Transplantation, 2021, 21, 415-418.	4.7	14
4	Evaluating the diagnostic accuracy of point-of-care ultrasound for cholelithiasis and cholecystitis in a Canadian emergency department. Canadian Journal of Emergency Medicine, 2021, 23, 626-630.	1.1	11
5	The variable impact of the overdose crisis on organ donation among five Canadian provinces: a retrospective study. Canadian Journal of Anaesthesia, 2021, 68, 846-854.	1.6	3
6	Successful lung transplantation from lungs procured 12 hours after withdrawal of life-sustaining therapy: Changing the paradigm of controlled DCD donors?. Journal of Heart and Lung Transplantation, 2021, 40, 1020-1021.	0.6	4
7	Paving the Road for the Adoption of Normothermic Regional Perfusion in Canada. , 2021, 3, e0553.		6
8	Initial lung transplantation experience with uncontrolled donation after cardiac death in North America. American Journal of Transplantation, 2020, 20, 1574-1581.	4.7	42
9	Amélioration de la qualité de l'interruption des traitements de maintien en vie lors du don d'organes: proposition d'un cadre et d'outils d'aide à la mise en œuvre. Canadian Journal of Anaesthesia, 2020, 67, 6 1549-1556.		6
10	Implication des patients dans un forum de consensus canadien pour le don du cœur après un décès circulatoire. Canadian Journal of Anaesthesia, 2020, 67, 1738-1748.	1.6	2
11	Improving end-of-life care in the emergency department: Development of a standardized approach to an imminently dying patient. Canadian Journal of Emergency Medicine, 2020, 22, 626-628.	1.1	6
12	CAEP, CCCS, and CNSF Position Statement "Management of devastating brain injuries in the emergency department: Enhancing neuroprognostication and maintaining the opportunity for organ and tissue donation. Canadian Journal of Emergency Medicine, 2020, 22, 658-660.	1.1	8
13	Maintaining the permanence principle for death during in situ normothermic regional perfusion for donation after circulatory death organ recovery: A United Kingdom and Canadian proposal. American Journal of Transplantation, 2020, 20, 2017-2025.	4.7	93
14	Organ donation after cardiocirculatory death following withdrawal of non-invasive positive pressure ventilation: a historical cohort study. Canadian Journal of Anaesthesia, 2020, 67, 774-776.	1.6	0
15	Organ Donation after Medical Assistance in Dying "Canada's First Cases. New England Journal of Medicine, 2020, 382, 576-577.	27.0	24
16	<p>Evaluating the Implementation of Ontario's Organ and Tissue Donation Physician Leadership Model: Mapping a Way Forward<p>. Journal of Healthcare Leadership, 2020, Volume 12, 27-34.	3.9	1
17	Organ donation in patients on extracorporeal membrane oxygenation: considerations for determination of death and withdrawal of life support. Canadian Journal of Anaesthesia, 2020, 67, 1035-1043.	1.6	10
18	CAEP, CCCS, and CNSF Position Statement "Management of devastating brain injuries in the emergency department: Enhancing neuroprognostication and maintaining the opportunity for organ and tissue donation " Addendum. Canadian Journal of Emergency Medicine, 2020, 22, E17.	1.1	0

#	ARTICLE	IF	CITATIONS
19	Organ donation – emergency medicine's call to action. Canadian Journal of Emergency Medicine, 2019, 21, 569-571.	1.1	2
20	A Multicenter Qualitative Investigation of the Experiences and Perspectives of Substitute Decision Makers Who Underwent Organ Donation Decisions. Progress in Transplantation, 2018, 28, 343-348.	0.7	22
21	Point-of-care ultrasound to diagnose appendicitis in a Canadian emergency department. Canadian Journal of Emergency Medicine, 2018, 20, 732-735.	1.1	11
22	A multicentre investigation of organ and tissue donation education for critical care residents. Canadian Journal of Anaesthesia, 2018, 65, 1120-1128.	1.6	4
23	Hamilton-DONATE: a city-wide pilot observational study of the ICU management of deceased organ donors. Canadian Journal of Anaesthesia, 2018, 65, 1110-1119.	1.6	3
24	Canada-DONATE study protocol: a prospective national observational study of the medical management of deceased organ donors. BMJ Open, 2017, 7, e018858.	1.9	8
25	Optic nerve sheath diameter sonography for the diagnosis of increased intracranial pressure: a systematic review and meta-analysis protocol. BMJ Open, 2017, 7, e016194.	1.9	16
26	Dedicated time for deliberate practice: one emergency medicine program's approach to point-of-care ultrasound (PoCUS) training. Canadian Journal of Emergency Medicine, 2015, 17, 558-561.	1.1	25
27	Use of point of care sonography by emergency physicians. Canadian Journal of Emergency Medicine, 2012, 14, 106-112.	1.1	55
28	A low-fidelity simulation curriculum addresses needs identified by faculty and improves the comfort level of senior internal medicine resident physicians with inhospital resuscitation*. Critical Care Medicine, 2010, 38, 1899-1903.	0.9	25
29	Analgesia in undifferentiated abdominal pain: Is it safe?. Canadian Journal of Emergency Medicine, 2007, 9, 114-117.	1.1	1
