#	ARTICLE	IF	CITATIONS
1	The sense of coherence scale in a clinical nursing perspective: A scoping review. <i>Journal of Clinical Nursing</i> , 2022, 31, 1428-1439.	1.4	5
2	Supporting health literacy using an interactive app for symptom management during radiotherapy for prostate cancer. <i>Patient Education and Counseling</i> , 2021, 104, 381-386.	1.0	11
3	A prospective cohort study of self-reported computerised medical history taking for acute chest pain: protocol of the CLEOS-Chest Pain Danderyd Study (CLEOS-CPDS). <i>BMJ Open</i> , 2020, 10, e031871.	0.8	11
4	Reduced symptom burden with the support of an interactive app during neoadjuvant chemotherapy for breast cancer – A randomized controlled trial. <i>Breast</i> , 2020, 51, 85-93.	0.9	63
5	Engagement in an Interactive App for Symptom Self-Management during Treatment in Patients With Breast or Prostate Cancer: Mixed Methods Study. <i>Journal of Medical Internet Research</i> , 2020, 22, e17058.	2.1	52
6	Using an Interactive App for Symptom Reporting and Management Following Pancreatic Cancer Surgery to Facilitate Person-Centered Care: Descriptive Study. <i>JMIR MHealth and UHealth</i> , 2020, 8, e17855.	1.8	30
7	Decreased symptom burden following surgery due to support from an interactive app for symptom management for patients with pancreatic and periampullary cancer. <i>Acta Oncologica</i> , 2019, 58, 1307-1314.	0.8	36
8	Development and Feasibility of an Interactive Smartphone App for Early Assessment and Management of Symptoms Following Pancreaticoduodenectomy. <i>Cancer Nursing</i> , 2019, 42, E1-E10.	0.7	36
9	Symptoms and self-care following pancreaticoduodenectomy: Perspectives from patients and healthcare professionals - Foundation for an interactive ICT application. <i>European Journal of Oncology Nursing</i> , 2017, 26, 36-41.	0.9	17
10	Early detection and management of symptoms using an interactive smartphone application (Interaktor) during radiotherapy for prostate cancer. <i>Supportive Care in Cancer</i> , 2017, 25, 2195-2204.	1.0	76
11	Effects of an interactive mHealth innovation for early detection of patient-reported symptom distress with focus on participatory care: protocol for a study based on prospective, randomised, controlled trials in patients with prostate and breast cancer. <i>BMC Cancer</i> , 2017, 17, 466.	1.1	37
12	Adherence to Report and Patient Perception of an Interactive App for Managing Symptoms During Radiotherapy for Prostate Cancer: Descriptive Study of Logged and Interview Data. <i>JMIR Cancer</i> , 2017, 3, e18.	0.9	43
13	Patients'™ Perspective on Participation in Care With or Without the Support of a Smartphone App During Radiotherapy for Prostate Cancer: Qualitative Study. <i>JMIR MHealth and UHealth</i> , 2017, 5, e107.	1.8	20
14	Symptoms and self-care strategies during and six months after radiotherapy for prostate cancer – Scoping the perspectives of patients, professionals and literature. <i>European Journal of Oncology Nursing</i> , 2016, 21, 139-145.	0.9	26
15	Head and neck cancer patients'™ perceptions of quality of life and how it is affected by the disease and enteral tube feeding during treatment. <i>Uppsala Journal of Medical Sciences</i> , 2015, 120, 280-289.	0.4	26
16	Measurement properties of the 13-item sense of coherence scale using Rasch analysis. <i>Quality of Life Research</i> , 2015, 24, 1455-1463.	1.5	35
17	Feasibility of an interactive ICT-platform for early assessment and management of patient-reported symptoms during radiotherapy for prostate cancer. <i>European Journal of Oncology Nursing</i> , 2015, 19, 523-528.	0.9	42
18	Family caregivers of women with breast cancer in Iran report high psychological impact six months after diagnosis. <i>European Journal of Oncology Nursing</i> , 2014, 18, 630-635.	0.9	20

#	ARTICLE	IF	CITATIONS
19	Self-reported quality of life in long-term survivors of childhood lymphoblastic malignancy treated with hematopoietic stem cell transplantation versus conventional therapy. <i>Pediatric Blood and Cancer</i> , 2013, 60, 1382-1387.	0.8	24
20	Sense of Coherence and Need for Support Among Long-Term Survivors of Childhood Cancer. <i>Cancer Nursing</i> , 2012, 35, E43-E49.	0.7	8
21	Sexual function and experience among long-term survivors of childhood cancer. <i>European Journal of Cancer</i> , 2011, 47, 397-403.	1.3	55
22	Long-term survivors of childhood cancer report quality of life and health status in parity with a comparison group. <i>Pediatric Blood and Cancer</i> , 2010, 55, 337-343.	0.8	27
23	Positive and negative consequences of childhood cancer influencing the lives of young adults. <i>European Journal of Oncology Nursing</i> , 2009, 13, 164-170.	0.9	52
