

Ruey-Lung Hwang

List of Publications by Year in Descending Order

Source: <https://exaly.com/author-pdf/4573160/ruey-lung-hwang-publications-by-year.pdf>

Version: 2024-04-10

This document has been generated based on the publications and citations recorded by exaly.com. For the latest version of this publication list, visit the link given above.

The third column is the impact factor (IF) of the journal, and the fourth column is the number of citations of the article.

40 papers	2,292 citations	21 h-index	42 g-index
42 ext. papers	2,599 ext. citations	5.7 avg, IF	5.27 L-index

#	Paper	IF	Citations
40	Strengthening Taiwan's Green Building Certification System from Aspects of Productivity and Energy Costs to Provide a Healthier Workplace. <i>Atmosphere</i> , 2022 , 13, 118	2.7	0
39	Creating glazed facades performance map based on energy and thermal comfort perspective for office building design strategies in Asian hot-humid climate zone. <i>Applied Energy</i> , 2022 , 311, 118689	10.7	2
38	Analysis of Incorporating a Phase Change Material in a Roof for the Thermal Management of School Buildings in Hot-Humid Climates. <i>Buildings</i> , 2021 , 11, 248	3.2	2
37	Considerations on envelope design criteria for hybrid ventilation thermal management of school buildings in hot-humid climates. <i>Energy Reports</i> , 2021 , 7, 5834-5845	4.6	1
36	Performance-rating-based approach to formulate a new envelope index for commercial buildings in perspective of energy efficiency and thermal comfort. <i>Applied Energy</i> , 2020 , 264, 114725	10.7	9
35	Evaluation and mapping of building overheating risk and air conditioning use due to the urban heat island effect. <i>Journal of Building Engineering</i> , 2020 , 32, 101726	5.2	8
34	Generating hourly local weather data with high spatially resolution and the applications in bioclimatic performance. <i>Science of the Total Environment</i> , 2019 , 653, 1262-1271	10.2	7
33	A study on the parameter ranges of the locally supplied air in a task ambient conditioning system with chest exposure. <i>Science and Technology for the Built Environment</i> , 2018 , 24, 238-247	1.8	6
32	Occupants' Behavior in Taiwan 2018 , 247-251		
31	Comfort Temperature and Preferred Temperature in Taiwan 2018 , 155-163		2
30	Simplification and adjustment of the energy consumption indices of office building envelopes in response to climate change. <i>Applied Energy</i> , 2018 , 230, 460-470	10.7	16
29	Spatial and temporal analysis of urban heat island and global warming on residential thermal comfort and cooling energy in Taiwan. <i>Energy and Buildings</i> , 2017 , 152, 804-812	7	26
28	Future trends of residential building cooling energy and passive adaptation measures to counteract climate change: The case of Taiwan. <i>Applied Energy</i> , 2016 , 184, 1230-1240	10.7	82
27	Parametric study on energy and thermal performance of school buildings with natural ventilation, hybrid ventilation and air conditioning. <i>Indoor and Built Environment</i> , 2016 , 25, 1148-1162	1.8	16
26	The influence of air-conditioning managerial scheme in hybrid-ventilated classrooms on students' thermal perception. <i>Indoor and Built Environment</i> , 2015 , 24, 761-770	1.8	5
25	Influence of Urban Microclimate on Air-Conditioning Energy Needs and Indoor Thermal Comfort in Houses. <i>Advances in Meteorology</i> , 2015 , 2015, 1-9	1.7	8
24	Implementation of green building specification credits for better thermal conditions in naturally ventilated school buildings. <i>Building and Environment</i> , 2015 , 86, 141-150	6.5	36

23	Effect of fee-for-service air-conditioning management in balancing thermal comfort and energy usage. <i>International Journal of Biometeorology</i> , 2014 , 58, 1941-50	3.7	8
22	Outdoor thermal comfort characteristics in the hot and humid region from a gender perspective. <i>International Journal of Biometeorology</i> , 2014 , 58, 1927-39	3.7	60
21	Satisfaction of occupants toward indoor environment quality of certified green office buildings in Taiwan. <i>Building and Environment</i> , 2014 , 72, 232-242	6.5	132
20	Carbon dioxide emissions generated by energy consumption of hotels and homestay facilities in Taiwan. <i>Tourism Management</i> , 2014 , 42, 13-21	10.8	87
19	Thermal Comfort for Urban Parks in Subtropics: Understanding Visitor Perceptions, Behavior and Attendance. <i>Advances in Meteorology</i> , 2013 , 2013, 1-8	1.7	31
18	Quantification of the effect of thermal indices and sky view factor on park attendance. <i>Landscape and Urban Planning</i> , 2012 , 107, 137-146	7.7	133
17	Linking occupants thermal perception and building thermal performance in naturally ventilated school buildings. <i>Applied Energy</i> , 2012 , 94, 355-363	10.7	81
16	Effect of thermal adaptation on seasonal outdoor thermal comfort. <i>International Journal of Climatology</i> , 2011 , 31, 302-312	3.5	148
15	Building envelope regulations on thermal comfort in glass facade buildings and energy-saving potential for PMV-based comfort control. <i>Building and Environment</i> , 2011 , 46, 824-834	6.5	84
14	Seasonal effects of urban street shading on long-term outdoor thermal comfort. <i>Building and Environment</i> , 2011 , 46, 863-870	6.5	199
13	Effects of temperature steps on human skin physiology and thermal sensation response. <i>Building and Environment</i> , 2011 , 46, 2387-2397	6.5	104
12	Comparison of the evaluation method for building energy consumption in Taiwan-EEWH with USGBC-LEED Green Building Rating System 2011 ,		3
11	2011 ,		2
10	Passenger thermal perceptions, thermal comfort requirements, and adaptations in short- and long-haul vehicles. <i>International Journal of Biometeorology</i> , 2010 , 54, 221-30	3.7	21
9	Influence of waste eggshell powder on combustion characteristics of cork-based materials. <i>Materials Letters</i> , 2010 , 64, 987-989	3.3	
8	Shading effect on long-term outdoor thermal comfort. <i>Building and Environment</i> , 2010 , 45, 213-221	6.5	375
7	Investigating the adaptive model of thermal comfort for naturally ventilated school buildings in Taiwan. <i>International Journal of Biometeorology</i> , 2009 , 53, 189-200	3.7	75
6	Thermal perceptions, general adaptation methods and occupant's idea about the trade-off between thermal comfort and energy saving in hot-humid regions. <i>Building and Environment</i> , 2009 , 44, 1128-1134	6.5	116

5	Subjective responses and comfort reception in transitional spaces for guests versus staff. <i>Building and Environment</i> , 2008 , 43, 2013-2021	6.5	25
4	An improved assessment model of variable frequency-driven direct expansion air-conditioning system in commercial buildings for Taiwan green building rating system. <i>Building and Environment</i> , 2007 , 42, 3582-3588	6.5	12
3	Patient thermal comfort requirement for hospital environments in Taiwan. <i>Building and Environment</i> , 2007 , 42, 2980-2987	6.5	81
2	Thermal Comfort Requirements for Occupants of Semi-Outdoor and Outdoor Environments in Hot-Humid Regions. <i>Architectural Science Review</i> , 2007 , 50, 357-364	2.6	100
1	Field experiments on thermal comfort in campus classrooms in Taiwan. <i>Energy and Buildings</i> , 2006 , 38, 53-62	7	160
