| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 1  | Early eradication of pathogens from middle ear fluid during antibiotic treatment of acute otitis media is associated with improved clinical outcome. <i>Pediatric Infectious Disease Journal</i> , 1998, 17, 776-782.                              | 1.1 | 175       |
| 2  | Introduction and Proliferation of Multidrug-Resistant <i>Streptococcus pneumoniae</i> Serotype 19A Clones That Cause Acute Otitis Media in an Unvaccinated Population. <i>Journal of Infectious Diseases</i> , 2009, 199, 776-785.                 | 1.9 | 170       |
| 3  | Bacteriologic and clinical efficacy of amoxicillin/clavulanate vs. azithromycin in acute otitis media. <i>Pediatric Infectious Disease Journal</i> , 2000, 19, 95-104.   | 1.1 | 169       |
| 4  | Impaired Bacteriologic Response to Oral Cephalosporins in Acute Otitis Media Caused by Pneumococci with Intermediate Resistance to Penicillin. <i>Pediatric Infectious Disease Journal</i> , 1996, 15, 980-985.                                    | 1.1 | 166       |
| 5  | Near-Elimination of Otitis Media Caused by 13-Valent Pneumococcal Conjugate Vaccine (PCV) Serotypes in Southern Israel Shortly After Sequential Introduction of 7-Valent/13-Valent PCV. <i>Clinical Infectious Diseases</i> , 2014, 59, 1724-1732. | 2.9 | 149       |
| 6  | Bacteriologic Efficacies of Oral Azithromycin and Oral Cefaclor in Treatment of Acute Otitis Media in Infants and Young Children. <i>Antimicrobial Agents and Chemotherapy</i> , 2000, 44, 43-50.  | 1.4 | 140       |
| 7  | <i>Haemophilus influenzae</i> : a significant pathogen in acute otitis media. <i>Pediatric Infectious Disease Journal</i> , 2004, 23, 1142-52.   | 1.1 | 130       |
| 8  | Resistance pattern of middle ear fluid isolates in acute otitis media recently treated with antibiotics. <i>Pediatric Infectious Disease Journal</i> , 1998, 17, 463-469.  | 1.1 | 94        |
| 9  | Bacteriologic and clinical efficacy of high dose amoxicillin for therapy of acute otitis media in children. <i>Pediatric Infectious Disease Journal</i> , 2003, 22, 405-412.   | 1.1 | 90        |
| 10 | Acute Otitis Media Caused by <i>Streptococcus pyogenes</i> in Children. <i>Clinical Infectious Diseases</i> , 2005, 41, 35-41.   | 2.9 | 87        |
| 11 | Impact of Widespread Introduction of Pneumococcal Conjugate Vaccines on Pneumococcal and Nonpneumococcal Otitis Media. <i>Clinical Infectious Diseases</i> , 2016, 63, 611-618.  | 2.9 | 86        |
| 12 | Bacteriologic and clinical efficacy of one day vs. three day intramuscular ceftriaxone for treatment of nonresponsive acute otitis media in children. <i>Pediatric Infectious Disease Journal</i> , 2000, 19, 1040-1045.                           | 1.1 | 84        |
| 13 | Bacteriologic and clinical efficacy of trimethoprim-sulfamethoxazole for treatment of acute otitis media. <i>Pediatric Infectious Disease Journal</i> , 2001, 20, 260-264.   | 1.1 | 78        |
| 14 | Acute mastoiditis in Southern Israel: a twelve year retrospective study (1990 through 2001). <i>Pediatric Infectious Disease Journal</i> , 2003, 22, 878-883.  | 1.1 | 77        |
| 15 | Acute otitis media in infants younger than two months of age: microbiology, clinical presentation and therapeutic approach. <i>Pediatric Infectious Disease Journal</i> , 2002, 21, 669-674.   | 1.1 | 76        |
| 16 | Potential Contribution by Nontypable <i>Haemophilus influenzae</i> in Protracted and Recurrent Acute Otitis Media. <i>Pediatric Infectious Disease Journal</i> , 2009, 28, 466-471.  | 1.1 | 72        |
| 17 | Recurrent acute otitis media occurring within one month from completion of antibiotic therapy: relationship to the original pathogen. <i>Pediatric Infectious Disease Journal</i> , 2003, 22, 209-215.   | 1.1 | 68        |
| 18 | Bacteriologic efficacy of a three-day intramuscular ceftriaxone regimen in nonresponsive acute otitis media. <i>Pediatric Infectious Disease Journal</i> , 1998, 17, 1126-1131.  | 1.1 | 65        |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 19 | Bacterial eradication in the treatment of otitis media. <i>Lancet Infectious Diseases</i> , The, 2002, 2, 593-604.  | 4.6 | 61        |
| 20 | Epidemiologic and Microbiologic Characteristics of Culture-Positive Spontaneous Otorrhea in Children With Acute Otitis Media. <i>Pediatric Infectious Disease Journal</i> , 2009, 28, 381-384.  | 1.1 | 54        |
| 21 | Can acute otitis media caused by <i>Haemophilus influenzae</i> be distinguished from that caused by <i>Streptococcus pneumoniae</i> ?. <i>Pediatric Infectious Disease Journal</i> , 2003, 22, 509-514.   | 1.1 | 53        |
| 22 | Salmonella diskitis in a 2-year old immunocompetent child. <i>Scandinavian Journal of Infectious Diseases</i> , 2005, 37, 232-234.  | 1.5 | 50        |
| 23 | Large Dosage Amoxicillin/Clavulanate, Compared With Azithromycin, for the Treatment of Bacterial Acute Otitis Media in Children. <i>Pediatric Infectious Disease Journal</i> , 2005, 24, 525-532.   | 1.1 | 48        |
| 24 | Nasopharyngeal carriage of multidrug-resistant <i>Streptococcus pneumoniae</i> in institutionalized HIV infected and HIV-negative children in Northeastern Romania. <i>International Journal of Infectious Diseases</i> , 1999, 3, 211-215.               | 1.5 | 44        |
| 25 | Bacteriologic and clinical efficacy of oral gatifloxacin for the treatment of recurrent/nonresponsive acute otitis media: an open label, noncomparative, double tympanocentesis study. <i>Pediatric Infectious Disease Journal</i> , 2003, 22, 943-949.   | 1.1 | 43        |
| 26 | A Multicenter, Open Label, Double Tympanocentesis Study of High Dose Cefdinir in Children With Acute Otitis Media at High Risk of Persistent or Recurrent Infection. <i>Pediatric Infectious Disease Journal</i> , 2006, 25, 211-218.                     | 1.1 | 43        |
| 27 | Mixed Pneumococcalâ€“Nontypeable <i>Haemophilus influenzae</i> Otitis Media Is a Distinct Clinical Entity With Unique Epidemiologic Characteristics and Pneumococcal Serotype Distribution. <i>Journal of Infectious Diseases</i> , 2013, 208, 1152-1160. | 1.9 | 43        |
| 28 | Title is missing!. <i>Pediatric Infectious Disease Journal</i> , 2003, 22, 509-514.   | 1.1 | 42        |
| 29 | Will Reduction of Antibiotic Use Reduce Antibiotic Resistance?. <i>Pediatric Infectious Disease Journal</i> , 2006, 25, 981-986.  | 1.1 | 40        |
| 30 | An Open-Label, Double Tympanocentesis Study of Levofloxacin Therapy in Children With, or at High Risk for, Recurrent or Persistent Acute Otitis Media. <i>Pediatric Infectious Disease Journal</i> , 2006, 25, 1102-1109.                                 | 1.1 | 37        |
| 31 | Is Bilateral Acute Otitis Media Clinically Different Than Unilateral Acute Otitis Media?. <i>Pediatric Infectious Disease Journal</i> , 2007, 26, 589-592.  | 1.1 | 36        |
| 32 | Strategies for the Prevention of Neonatal Candidiasis. <i>Pediatrics and Neonatology</i> , 2012, 53, 83-89.   | 0.3 | 33        |
| 33 | Nosocomial bloodstream infections in children and adolescents in southern Israel: A 10-year prospective study (1992â€“2001). <i>Scandinavian Journal of Infectious Diseases</i> , 2005, 37, 177-183.  | 1.5 | 31        |
| 34 | Current management of pediatric acute otitis media. <i>Expert Review of Anti-Infective Therapy</i> , 2010, 8, 151-161.  | 2.0 | 30        |
| 35 | Cytology of middle ear fluid during acute otitis media. <i>Pediatric Infectious Disease Journal</i> , 2002, 21, 57-60.  | 1.1 | 27        |
| 36 | The Challenge of Recalcitrant Acute Otitis Media. <i>Pediatric Infectious Disease Journal</i> , 2007, 26, S8-S11.   | 1.1 | 27        |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 37 | Septic arthritis in children: Updated epidemiologic, microbiologic, clinical and therapeutic correlations. <i>Pediatrics and Neonatology</i> , 2020, 61, 325-330.  | 0.3 | 27        |
| 38 | Distribution, dynamics and antibiotic resistance patterns of <i>Streptococcus pneumoniae</i> serotypes causing acute otitis media in children in southern Israel during the 10 year-period before the introduction of the 7-valent pneumococcal conjugate vaccine. <i>Vaccine</i> , 2011, 29, 4202-4209. | 1.7 | 25        |
| 39 | Central venous catheter-associated bloodstream infections. <i>Pediatric Blood and Cancer</i> , 2012, 59, 410-414.  | 0.8 | 25        |
| 40 | CYTOKINE ANALYSIS OF MIDDLE EAR EFFUSIONS DURING ACUTE OTITIS MEDIA: SIGNIFICANT REDUCTION IN TUMOR NECROSIS FACTOR ALPHA CONCENTRATIONS CORRELATES WITH BACTERIAL ERADICATION. <i>Pediatric Infectious Disease Journal</i> , 1999, 18, 301-303.   | 1.1 | 24        |
| 41 | Nasopharyngeal Carriage of <i>Streptococcus pneumoniae</i> at the Completion of Successful Antibiotic Treatment of Acute Otitis Media Predisposes to Early Clinical Recurrence. <i>Journal of Infectious Diseases</i> , 2005, 191, 1869-1875.  | 1.9 | 23        |
| 42 | Acute mastoiditis in children under 15 years of age in Southern Israel following the introduction of pneumococcal conjugate vaccines: A 4-year retrospective study (2009-2012). <i>International Journal of Pediatric Otorhinolaryngology</i> , 2014, 78, 1599-1604.                                     | 0.4 | 23        |
| 43 | Community-acquired complicated intra-abdominal infections in children hospitalized during 1995-2004 at a paediatric surgery department. <i>Scandinavian Journal of Infectious Diseases</i> , 2009, 41, 720-726.  | 1.5 | 20        |
| 44 | Complicated otitis media and its implications. <i>Vaccine</i> , 2008, 26, G16-G19.   | 1.7 | 19        |
| 45 | Failure to Achieve Early Bacterial Eradication Increases Clinical Failure Rate in Acute Otitis Media in Young Children. <i>Pediatric Infectious Disease Journal</i> , 2008, 27, 200-206.   | 1.1 | 19        |
| 46 | Severe Acute Mastoiditis Admission is Not Related to Delayed Antibiotic Treatment for Antecedent Acute Otitis Media. <i>Pediatric Infectious Disease Journal</i> , 2016, 35, 162-165.  | 1.1 | 19        |
| 47 | Persistence of Pathogens Despite Clinical Improvement in Antibiotic-Treated Acute Otitis Media Is Associated With Clinical and Bacteriologic Relapse. <i>Pediatric Infectious Disease Journal</i> , 2008, 27, 296-301.   | 1.1 | 17        |
| 48 | Current data on acute haematogenous osteomyelitis in children in Southern Israel: epidemiology, microbiology, clinics and therapeutic consequences. <i>International Orthopaedics</i> , 2016, 40, 1987-1994.   | 0.9 | 17        |
| 49 | Epidemiological, Diagnostic, Clinical, and Therapeutic Aspects of <i>Brucella</i> Bacteremia in Children in Southern Israel: A 7-Year Retrospective Study (2005-2011). <i>Vector-Borne and Zoonotic Diseases</i> , 2015, 15, 195-201.  | 0.6 | 16        |
| 50 | A prospective study of the patterns and dynamics of colonization with <i>Candida</i> spp. in very low birth weight neonates. <i>Scandinavian Journal of Infectious Diseases</i> , 2013, 45, 842-848.   | 1.5 | 15        |
| 51 | The effect of vaccination on <i>Streptococcus pneumoniae</i> resistance. <i>Current Infectious Disease Reports</i> , 2008, 10, 182-191.  | 1.3 | 14        |
| 52 | Challenges in the Management of Acute Mastoiditis in Children. <i>Current Infectious Disease Reports</i> , 2015, 17, 479.  | 1.3 | 14        |
| 53 | Adherence to acute otitis media treatment guidelines among primary health care providers in Israel. <i>Brazilian Journal of Infectious Diseases</i> , 2014, 18, 355-359.   | 0.3 | 12        |
| 54 | Clinical Outcome in Children With Culture-Negative Acute Otitis Media. <i>Pediatric Infectious Disease Journal</i> , 2009, 28, 1105-1110.  | 1.1 | 11        |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 55 | Panel 7. Otolaryngology - Head and Neck Surgery, 2013, 148, E102-E121.  | 1.1 | 11        |
| 56 | Parental acceptability of the watchful waiting approach in pediatric acute otitis media. World Journal of Clinical Pediatrics, 2016, 5, 198.  | 0.6 | 11        |
| 57 | Acute Otitis Media in Children Aged Less Than 2 Years. Paediatric Drugs, 2006, 8, 337-346.  | 1.3 | 10        |
| 58 | Follow-up after infants younger than 2 months of age with urinary tract infection in Southern Israel: epidemiologic, microbiologic and disease recurrence characteristics. Brazilian Journal of Infectious Diseases, 2016, 20, 19-25.   | 0.3 | 10        |
| 59 | Antibiotic susceptibility, serotype distribution and vaccine coverage of nasopharyngeal and oropharyngeal Streptococcus pneumoniae in a day-care centre in St. Petersburg, Russia. Scandinavian Journal of Infectious Diseases, 2007, 39, 293-298.  | 1.5 | 9         |
| 60 | Epidemiologic and Microbiologic Characteristics of Occult Bacteremia Among Febrile Children in Southern Israel, Before and After Initiation of the Routine Antipneumococcal Immunization (2005-2012). Pediatrics and Neonatology, 2016, 57, 378-384.  | 0.3 | 9         |
| 61 | Community-acquired bloodstream infections in children <math>\leq</math> one month old in southern Israel (1992-2001): Epidemiological, clinical and microbiological aspects. Scandinavian Journal of Infectious Diseases, 2006, 38, 604-612.  | 1.5 | 8         |
| 62 | The Infectious and Noninfectious Etiology, Clinical Picture and Outcome of Neutropenia in Immunocompetent Hospitalized Children. Pediatric Infectious Disease Journal, 2018, 37, 570-575.   | 1.1 | 8         |
| 63 | Studying PCV impact on clinical presentation of otitis media helps to understand its pathogenesis. Vaccine, 2019, 37, 1-6.  | 1.7 | 8         |
| 64 | Streptococcus pneumoniae Serotypes and Antibiotic Susceptibility Patterns in Middle Ear Fluid Isolates During Acute Otitis Media and Nasopharyngeal Isolates During Community-acquired Alveolar Pneumonia in Central Romania. Pediatric Infectious Disease Journal, 2017, 36, 151-154.                                  | 1.1 | 7         |
| 65 | Urinary tract infections in children <math>\leq</math> 2 years of age hospitalized in a tertiary medical center in Southern Israel: epidemiologic, imaging, and microbiologic characteristics of first episode in life. European Journal of Clinical Microbiology and Infectious Diseases, 2020, 39, 955-963.           | 1.3 | 7         |
| 66 | Epidemiological trends and patterns of antimicrobial resistance of Shigella spp. isolated from stool cultures in two different populations in Southern Israel. Diagnostic Microbiology and Infectious Disease, 2014, 78, 287-291.   | 0.8 | 6         |
| 67 | Acute otitis media in infants younger than two months of age: Epidemiologic and microbiologic characteristics in the era of pneumococcal conjugate vaccines. International Journal of Pediatric Otorhinolaryngology, 2019, 119, 123-130.  | 0.4 | 6         |
| 68 | Severe Pneumonia Caused by Methicillin-Resistant <i>Staphylococcus pseudintermedius</i> in an Oncology Patient: Case Report and Literature Review. Microbial Drug Resistance, 2022, 28, 222-228.  | 0.9 | 6         |
| 69 | An outbreak of hemolytic uremic syndrome in southern Romania during 2015-2016: Epidemiologic, clinical, laboratory, microbiologic, therapeutic and outcome characteristics. Pediatrics and Neonatology, 2019, 60, 87-94.  | 0.3 | 5         |
| 70 | Impact of the 13-valent pneumococcal conjugate vaccine (PCV13) on acute mastoiditis in children in southern Israel: A 12-year retrospective comparative study (2005-2016). International Journal of Pediatric Otorhinolaryngology, 2021, 140, 110485.   | 0.4 | 5         |
| 71 | The Epidemiologic, Microbiologic and Clinical Picture of Bacteremia among Febrile Infants and Young Children Managed as Outpatients at the Emergency Room, before and after Initiation of the Routine Anti-Pneumococcal Immunization. International Journal of Environmental Research and Public Health, 2016, 13, 723. | 1.2 | 4         |
| 72 | First UTI episode in life in infants <math>\leq</math> 1 year of age: Epidemiologic, clinical, microbiologic and disease recurrence characteristics. Pediatrics and Neonatology, 2020, 61, 613-619.   | 0.3 | 4         |

| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 73 | Pediatric Carbon Monoxide Poisoning in Southern Israel. <i>Pediatric Emergency Care</i> , 2020, 36, 532-536.  | 0.5 | 3         |
| 74 | Comparison of the etiologic, microbiologic, clinical and outcome characteristics of febrile vs. non-febrile neutropenia in hospitalized immunocompetent children. <i>European Journal of Clinical Microbiology and Infectious Diseases</i> , 2020, 39, 2415-2426. | 1.3 | 3         |
| 75 | The etiologic, microbiologic, clinical and outcome characteristics of immunocompetent young children <2 years of age hospitalized with acute neutropenia. <i>Pediatrics and Neonatology</i> , 2021, 62, 26-35.  | 0.3 | 3         |
| 76 | Performance of risk stratification criteria in the management of febrile young infants younger than three months of age. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2018, 107, 496-503.  | 0.7 | 2         |
| 77 | Group A streptococcal brain abscess in children: two case reports and a review of the literature. <i>Infectious Diseases</i> , 2018, 50, 145-149.   | 1.4 | 2         |
| 78 | Central venous catheter-associated bloodstream infections in children diagnosed with intestinal failure in Southern Israel. <i>European Journal of Clinical Microbiology and Infectious Diseases</i> , 2020, 39, 517-525.   | 1.3 | 2         |
| 79 | Early versus late-onset necrotizing enterocolitis in very low birth infants in the neonatal intensive care unit. <i>Pediatric Surgery International</i> , 2022, 38, 235-240.  | 0.6 | 2         |
| 80 | About half of children under age 3 whose parents suspected acute otitis media do not have the diagnosis; restless sleep, ear rubbing, crying, irritability and fever are not predictive. <i>Evidence-Based Medicine</i> , 2010, 15, 186-187.                      | 0.6 | 1         |
| 81 | Antibiotic treatment of acute otitis media in children: to wait or not to wait?. <i>Clinical Investigation</i> , 2011, 1, 903-906.  | 0.0 | 1         |
| 82 | Purpuric rash and fever among hospitalized children aged 0–18 years: Comparison between clinical, laboratory, therapeutic and outcome features of patients with bacterial versus viral etiology. <i>Pediatrics and Neonatology</i> , 2019, 60, 556-563.           | 0.3 | 1         |
| 83 | Post-operative clinical course in children undergoing mastoidectomy due to complicated acute mastoiditis. <i>European Archives of Oto-Rhino-Laryngology</i> , 2021, , 1.  | 0.8 | 1         |
| 84 | Listeria Meningitis in an Immunocompetent Adolescent. <i>Israel Medical Association Journal</i> , 2020, 22, 195-196.  | 0.1 | 1         |
| 85 | Epidemiologic, microbiologic and imaging characteristics of urinary tract infections in hospitalized children < 2 years of age diagnosed with anatomic abnormalities of the urinary tract. <i>Pediatrics and Neonatology</i> , 2022, , .                          | 0.3 | 1         |
| 86 | Campylobacter gastroenteritis associated with convulsions: Case report and review of the literature. <i>Journal of Pediatric Infectious Diseases</i> , 2015, 05, 199-201.   | 0.1 | 0         |
| 87 | Urinary tract infection in young infants discharged from the emergency room with normal urinalysis. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2019, 108, 745-750.   | 0.7 | 0         |
| 88 | Near-elimination of occult bacteraemia caused by pneumococcal vaccine serotypes following sequential introduction of 7-valent/13-valent PCVs. <i>Acta Paediatrica, International Journal of Paediatrics</i> , 2021, , .   | 0.7 | 0         |
| 89 | Rapidly Progressing Fatal Neurobrucellosis in a Healthy Child in an Endemic Area in Southern Israel. <i>Israel Medical Association Journal</i> , 2017, 19, 125-127.   | 0.1 | 0         |
| 90 | Clinical and Laboratory Findings in Jewish and Bedouin Patients in Southern Israel Who Were Diagnosed with Factor VII Deficiency. <i>Israel Medical Association Journal</i> , 2019, 21, 318-321.  | 0.1 | 0         |
