#	ARTICLE	IF	CITATIONS
1	Incidence and prevalence of juvenile idiopathic arthritis in the United Kingdom, 2000â€“2018: results from the Clinical Practice Research Datalink. <i>Rheumatology</i> , 2022, 61, 2548-2554.	0.9	21
2	Data protection, information governance and the potential erosion of ethnographic methods in health care?. <i>Sociology of Health and Illness</i> , 2022, 44, 211-217.	1.1	4
3	Prospective epidemiological study of juvenile-onset systemic lupus erythematosus in the UK and Republic of Ireland. <i>Rheumatology</i> , 2022, 61, 4097-4106.	0.9	3
4	The Role of Age in Delays to Rheumatological Care in Juvenile Idiopathic Arthritis. <i>Journal of Rheumatology</i> , 2022, 49, 1037-1041.	1.0	2
5	OA21â€fContinuing specialist care beyond age 16 in young people with juvenile idiopathic arthritis: a descriptive study using electronic health records in England. <i>Rheumatology</i> , 2022, 61, .	0.9	0
6	OA31â€fYouth-led development of an animated film to aid recruitment to a national youth advisory group for adolescent and young adult rheumatology. <i>Rheumatology</i> , 2022, 61, .	0.9	1
7	P175â€fWork Ready Champions for Young People: the role of occupational therapy in addressing the pre-vocational and early-employment needs of young people with long term health conditions. <i>Rheumatology</i> , 2022, 61, .	0.9	0
8	P161â€fExperiences of virtual research involvement activities: from the perspectives of young people and researchers. <i>Rheumatology</i> , 2022, 61, .	0.9	1
9	The Your Rheum story: involvement of young people in rheumatology research. <i>BMC Rheumatology</i> , 2022, 6, .	0.6	2
10	Common Functional Ability Score for Young People With Juvenile Idiopathic Arthritis. <i>Arthritis Care and Research</i> , 2021, 73, 947-954.	1.5	2
11	Self-Management Support for Young People with Chronic Conditions: Roles and Views of Professionals. , 2021, , 85-105.		0
12	P121â€fThe efficacy of treatment interventions on fatigue in adolescents with juvenile idiopathic arthritis: a literature review. <i>Rheumatology</i> , 2021, 60, .	0.9	0
13	Developmentally appropriate transitional care during the Covid-19 pandemic for young people with juvenile-onset rheumatic and musculoskeletal diseases: the rationale for a position statement. <i>Pediatric Rheumatology</i> , 2021, 19, 136.	0.9	8
14	Identifying the content and context of pain within paediatric rheumatology healthcare professional curricula in the UK: a summative content analysis. <i>Pediatric Rheumatology</i> , 2021, 19, 129.	0.9	4
15	The impact of arthritis on the educational and early work experiences of young people: a qualitative secondary analysis. <i>International Journal of Adolescent Medicine and Health</i> , 2021, 33, .	0.6	5
16	Comparing Proxy, Adolescent, and Adult Assessments of Functional Ability in Adolescents With Juvenile Idiopathic Arthritis. <i>Arthritis Care and Research</i> , 2020, 72, 517-524.	1.5	3
17	Presentation, Treatment Response and Short-Term Outcomes in Paediatric Multisystem Inflammatory Syndrome Temporally Associated with SARS-CoV-2 (PIMS-TS). <i>Journal of Clinical Medicine</i> , 2020, 9, 3293.	1.0	56
18	Adolescentsâ€™ experiences of fluctuating pain in musculoskeletal disorders: a qualitative systematic review and thematic synthesis. <i>BMC Musculoskeletal Disorders</i> , 2020, 21, 645.	0.8	13

#	ARTICLE	IF	CITATIONS
19	Validation of novel patient-centred juvenile idiopathic arthritis-specific patient-reported outcome and experience measures (PROMs/PREMs). <i>Pediatric Rheumatology</i> , 2020, 18, 91.	0.9	10
20	Delivering developmentally appropriate health care: Roles for psychologists as members of the multi-disciplinary health care team. <i>Clinical Child Psychology and Psychiatry</i> , 2020, 25, 579-593.	0.8	4
21	Characterizing pain flares in adolescent inflammatory and non-inflammatory musculoskeletal disorders: A qualitative study using an interpretative phenomenological approach. <i>European Journal of Pain</i> , 2020, 24, 1785-1796.	1.4	4
22	Shifting the mindset—adolescent and young adult rheumatology in transition. <i>Lancet Rheumatology</i> , The, 2020, 2, e236-e244.	2.2	4
23	<p>Young Minds: Mental Health and Transitional Care in Adolescent and Young Adult Rheumatology</p>. <i>Open Access Rheumatology: Research and Reviews</i> , 2020, Volume 12, 309-321.	0.8	5
24	Facilitating transition of young people with long-term health conditions from children's to adults' healthcare services — implications of a 5-year research programme. <i>Clinical Medicine</i> , 2020, 20, 74-80.	0.8	31
25	The prevention and treatment of glucocorticoid-induced osteopaenia in juvenile rheumatic disease: A randomised double-blind controlled trial. <i>EClinicalMedicine</i> , 2019, 12, 79-87.	3.2	24
26	A UK study: vocational experiences of young adults with juvenile idiopathic arthritis. <i>Pediatric Rheumatology</i> , 2019, 17, 54.	0.9	0
27	Healthcare transition in pediatric liver transplantation: The perspectives of pediatric and adult healthcare professionals. <i>Pediatric Transplantation</i> , 2019, 23, e13530.	0.5	11
28	P10—fCAPTURE JIA: paper data collection feasibility and acceptability pilot. <i>Rheumatology</i> , 2019, 58, .	0.9	0
29	P21—fFeasibility of the Learning and Exercise to Avert Pain (LEAP) programme: an evaluation of a group therapy intervention for young people with chronic musculoskeletal pain. <i>Rheumatology</i> , 2019, 58, .	0.9	0
30	P31—fChildhood onset ANCA-associated vasculitis: retrospective experience in single tertiary centre. <i>Rheumatology</i> , 2019, 58, .	0.9	0
31	P36—fAdolescents—™ experiences of fluctuating pain in musculoskeletal disorders: a qualitative systematic review and thematic synthesis. <i>Rheumatology</i> , 2019, 58, .	0.9	1
32	P37—fExploring the experience of pain flares in adolescent inflammatory and non-inflammatory musculoskeletal disorders: a phenomenological study. <i>Rheumatology</i> , 2019, 58, .	0.9	1
33	P33—fAdolescent and young adult health training needs of healthcare professionals including rheumatology. <i>Rheumatology</i> , 2019, 58, .	0.9	1
34	Transitional Care in Rheumatology: a Review of the Literature from the Past 5—Years. <i>Current Rheumatology Reports</i> , 2019, 21, 57.	2.1	30
35	Research priority setting by young people with rheumatic musculoskeletal disease. <i>Archives of Disease in Childhood</i> , 2019, 104, 204.1-204.	1.0	5
36	Can we normalise developmentally appropriate health care for young people in UK hospital settings? An ethnographic study. <i>BMJ Open</i> , 2019, 9, e029107.	0.8	12

#	ARTICLE	IF	CITATIONS
37	Facilitating the transition of young people with long-term conditions through health services from childhood to adulthood: the Transition research programme. Programme Grants for Applied Research, 2019, 7, 1-244.	0.4	21
38	Long-term Outcomes Following Achievement of Clinically Inactive Disease in Juvenile Idiopathic Arthritis. Arthritis and Rheumatology, 2018, 70, 1519-1529.	2.9	28
39	Making healthcare work for young people. Archives of Disease in Childhood, 2018, 103, 623-623.	1.0	11
40	Untimely illness: When diagnosis does not match age-related expectations. Health Expectations, 2018, 21, 730-740.	1.1	13
41	The age of adolescence and young adulthood. The Lancet Child and Adolescent Health, 2018, 2, e6.	2.7	19
42	Experiences of employment among young people with juvenile idiopathic arthritis: a qualitative study. Disability and Rehabilitation, 2018, 40, 1921-1928.	0.9	27
43	P41 A UK study: vocational experiences of young adults with juvenile idiopathic arthritis. Rheumatology, 2018, 57, .	0.9	0
44	P24 United Kingdom survey of access to psychology services for adolescents and young adults with rheumatic and musculoskeletal disease. Rheumatology, 2018, 57, .	0.9	1
45	296 UK survey of young adults with juvenile idiopathic arthritis and their vocational experiences. Rheumatology, 2018, 57, .	0.9	0
46	Update on the epidemiology, risk factors and disease outcomes of Juvenile idiopathic arthritis. Best Practice and Research in Clinical Rheumatology, 2018, 32, 206-222.	1.4	47
47	What do young people with rheumatic conditions in the UK think about research involvement? A qualitative study. Pediatric Rheumatology, 2018, 16, 35.	0.9	13
48	Are we there yet? An update on transitional care in rheumatology. Arthritis Research and Therapy, 2018, 20, 5.	1.6	12
49	EULAR/PreS standards and recommendations for the transitional care of young people with juvenile-onset rheumatic diseases. Annals of the Rheumatic Diseases, 2017, 76, 639-646.	0.5	157
50	The Role of Pharmacists in Caring for Young People With Chronic Illness. Journal of Adolescent Health, 2017, 60, 219-225.	1.2	21
51	Sleep in adolescents and young adults. Clinical Medicine, 2017, 17, 424-428.	0.8	99
52	Helping Health Services to Meet the Needs of Young People with Chronic Conditions: Towards a Developmental Model for Transition. Healthcare (Switzerland), 2017, 5, 77.	1.0	26
53	What do young people with rheumatic disease believe to be important to research about their condition? A UK-wide study. Pediatric Rheumatology, 2017, 15, 53.	0.9	30
54	Adding to the transitional care evidence base for future national guidance. BMJ, The, 2016, 354, i3710.	3.0	1

#	ARTICLE	IF	CITATIONS
55	Transition of care for adolescents from paediatric services to adult health services. The Cochrane Library, 2016, 2016, CD009794.	1.5	239
56	Health professionals' and managers' definitions of developmentally appropriate healthcare for young people: conceptual dimensions and embedded controversies. Archives of Disease in Childhood, 2016, 101, 628-633.	1.0	52
57	Being as Normal as Possible: How Young People Ages 16-25 Years Evaluate the Risks and Benefits of Treatment for Inflammatory Arthritis. Arthritis Care and Research, 2016, 68, 1288-1294.	1.5	15
58	Study protocol: Determining what young people with rheumatic disease consider important to research (the Young People's Opinions Underpinning Rheumatology Research - YOURR project). Research Involvement and Engagement, 2016, 2, 22.	1.1	10
59	The Role of the Pharmacist in the Support of Young People With Chronic Illness, through the Exemplar of Juvenile Arthritis. Journal of Adolescent Health, 2016, 58, S16.	1.2	1
