| #  | ARTICLE   | IF  | CITATIONS |
|----|---|-----|-----------|
| 1  | Improved assessment of middle ear recurrent/residual cholesteatomas using temporal subtraction CT. Japanese Journal of Radiology, 2022, 40, 271-278.  | 2.4 | 3         |
| 2  | Preoperative prediction for mastoid extension of middle ear cholesteatoma using temporal subtraction serial HRCT studies. European Radiology, 2022, , 1.  | 4.5 | 2         |
| 3  | Preoperative predictive criteria for mastoid extension in pars flaccida cholesteatoma in assessments using temporal bone high-resolution computed tomography. Auris Nasus Larynx, 2021, 48, 609-614.  | 1.2 | 4         |
| 4  | Congenital cholesteatoma assessment based on staging and classification criteria for middle ear cholesteatoma proposed by the Japan Otological Society. Auris Nasus Larynx, 2021, 48, 201-206.  | 1.2 | 1         |
| 5  | Nationwide survey of middle ear cholesteatoma surgery cases in Japan: Results from the Japan Otological society registry using the JOS staging and classification system. Auris Nasus Larynx, 2021, 48, 555-564.  | 1.2 | 7         |
| 6  | Non-echoplanar diffusion weighed imaging and T1-weighted imaging for cholesteatoma mastoid extension. Auris Nasus Larynx, 2021, 48, 846-851.  | 1.2 | 6         |
| 7  | Transcanal endoscopic approach for pars flaccida cholesteatoma using a 70-degree angled endoscope. European Archives of Oto-Rhino-Laryngology, 2021, 278, 1283-1288.  | 1.6 | 3         |
| 8  | The relationships among mastoid air cell development, tympanic sinus depth, and residual disease after surgery in children with congenital cholesteatoma. Acta Oto-Laryngologica, 2020, 140, 286-288.   | 0.9 | 1         |
| 9  | A quantitative study of the suppression of the development of the mastoid air cells by the presence of congenital cholesteatoma. Acta Oto-Laryngologica, 2019, 139, 557-560.  | 0.9 | 2         |
| 10 | Otosclerosis: anatomical distribution of otosclerotic loci analyzed by high-resolution computed tomography. European Archives of Oto-Rhino-Laryngology, 2019, 276, 1335-1340.   | 1.6 | 6         |
| 11 | Partial Epithelialâ€“Mesenchymal Transition Was Observed Under p63 Expression in Acquired Middle Ear Cholesteatoma and Congenital Cholesteatoma. Otology and Neurotology, 2019, 40, e803-e811.  | 1.3 | 7         |
| 12 | International Collaborative Assessment of the Validity of the EAONO-JOS Cholesteatoma Staging System. Otology and Neurotology, 2019, 40, 630-637.   | 1.3 | 21        |
| 13 | Nationwide survey of congenital cholesteatoma using staging and classification criteria for middle ear cholesteatoma proposed by the Japan Otological Society. Auris Nasus Larynx, 2019, 46, 346-352.   | 1.2 | 12        |
| 14 | Clinical Characteristics of Pars Tensa Cholesteatoma: A Comparative Study of Area-Based Classification Systems Proposed by the Japanese Otological Society and the European Academy of Otology & Neuro-Otology. Journal of International Advanced Otology, 2019, 15, 184-188. | 1.0 | 6         |
| 15 | Practical analysis of pars flaccida cholesteatoma with classification and staging system proposed by Japan Otological Society: a comparative study. Acta Oto-Laryngologica, 2018, 138, 977-980.   | 0.9 | 3         |
| 16 | Creating an Optimal 3D Printed Model for Temporal Bone Dissection Training. Annals of Otology, Rhinology and Laryngology, 2017, 126, 530-536.   | 1.1 | 32        |
| 17 | Risk Factors of Recurrence in Pediatric Congenital Cholesteatoma. Otology and Neurotology, 2017, 38, 1463-1469.   | 1.3 | 16        |
| 18 | Bisphosphonate-associated ear canal osteonecrosis: a case report and review of the literature. Acta Oto-Laryngologica Case Reports, 2017, 2, 107-110.   | 0.2 | 3         |

| #  | ARTICLE  | IF  | CITATIONS |
|----|--|-----|-----------|
| 19 | Staging and classification criteria for middle ear cholesteatoma proposed by the Japan Otological Society. <i>Auris Nasus Larynx</i> , 2017, 44, 135-140.  | 1.2 | 66        |
| 20 | EAONO/JOS Joint Consensus Statements on the Definitions, Classification and Staging of Middle Ear Cholesteatoma. <i>Journal of International Advanced Otology</i> , 2017, 13, 1-8.   | 1.0 | 181       |
| 21 | Surgical treatment for markedly advanced petrous apex cholesteatoma via the translabyrinthine and trans-sphenoidal approach. <i>Journal of Laryngology and Otology</i> , 2016, 130, S209-S210.   | 0.8 | 0         |
| 22 | Practicality Analysis of JOS Staging System for Retraction Pocket Cholesteatoma: Japan Multicenter Study (2009~2011). <i>Journal of Laryngology and Otology</i> , 2016, 130, S203-S203.  | 0.8 | 0         |
| 23 | Current trends of cholesteatoma surgery in Japan: Results from the Japan Otological Society Registry using 2015 JOS Staging and Classification System. <i>Journal of Laryngology and Otology</i> , 2016, 130, S42-S42.                       | 0.8 | 0         |
| 24 | Practicality analysis of JOS staging system for congenital cholesteatoma: Japan Multicenter study (2009~2010). <i>Journal of Laryngology and Otology</i> , 2016, 130, S63-S64.   | 0.8 | 0         |
| 25 | Development of the mastoid air cell system in children with congenital cholesteatoma. <i>Journal of Laryngology and Otology</i> , 2016, 130, S237-S237.  | 0.8 | 0         |
| 26 | Nationwide Survey of middle ear cholesteatoma surgery cases in Japan: Results from the Japan Otological Society Registry using 2015 JOS Staging and Classification System. <i>Journal of Laryngology and Otology</i> , 2016, 130, S240-S240. | 0.8 | 0         |
| 27 | Practicality Analysis of JOS Staging System for Cholesteatoma Secondary to a Pars tensa Perforation: Japan Multicenter Study (2009~2010). <i>Journal of Laryngology and Otology</i> , 2016, 130, S248-S248.                                  | 0.8 | 0         |
| 28 | Pediatric middle ear cholesteatoma: the comparative study of congenital cholesteatoma and acquired cholesteatoma. <i>European Archives of Oto-Rhino-Laryngology</i> , 2016, 273, 1155-1160.  | 1.6 | 15        |
