#	Paper	IF	Citations
187	Psychometric Properties of the Hebrew Modified Dental Anxiety Scale in Adult Israeli Population.. <i>International Journal of Environmental Research and Public Health</i> , 2022 , 19,	4.6	1
186	Fear of Recurrence in Chinese Cancer Patients: Prevalence, Correlates, and Network Analysis.. <i>Frontiers in Psychiatry</i> , 2022 , 13, 803543	5	0
185	What is the prevalence of fear of cancer recurrence in cancer survivors and patients? A systematic review and individual participant data meta-analysis.. <i>Psycho-Oncology</i> , 2022 ,	3.9	7
184	Unveiling the Association between Body Image Dissatisfaction and Dental Anxiety. <i>Surgeries</i> , 2022 , 3, 92-100	0.4	0
183	Uncertainty and Fears Around Sustainability: A Qualitative Exploration of the Emotional Reactions of Dental Practitioners and Dental Care Professionals During COVID-19.. <i>Frontiers in Oral Health</i> , 2021 , 2, 799158	0.8	0
182	Dental anxiety, child-oral health related quality of life and self- esteem in children and adolescents: a systematic review and meta-analysis. <i>Community Dental Health</i> , 2021 , 38, 119-126	0.9	0
181	Risk stratification for poor health-related quality of life following head and neck cancer through the aid of a one-page item prompt list. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2021 ,	2.9	1
180	Improving quality of life through the routine use of the patient concerns inventory for head and neck cancer patients: main results of a cluster preference randomised controlled trial. <i>European Archives of Oto-Rhino-Laryngology</i> , 2021 , 278, 3435-3449	3.5	9
179	Exploring the Effect of the COVID-19 Pandemic on the Dental Team: Preparedness, Psychological Impacts and Emotional Reactions.. <i>Frontiers in Oral Health</i> , 2021 , 2, 669752	0.8	3
178	Communicating With Parents and Preschool Children: A Qualitative Exploration of Dental Professional-Parent-Child Interactions During Paediatric Dental Consultations to Prevent Early Childhood Caries. <i>Frontiers in Public Health</i> , 2021 , 9, 669395	6	
177	How are emotional distress and reassurance expressed in medical consultations for people with long-term conditions who were unable to receive curative treatment? A pilot observational study with huntingtonB disease and prostate cancer. <i>Pilot and Feasibility Studies</i> , 2021 , 7, 119	1.9	
176	Using the Patient Concerns Inventory in the identification of fatigue following treatment for head and neck cancer. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2021 , 50, 865-872	2.9	0
175	Communication strategies to encourage child participation in an oral health promotion session: An exemplar video observational study. <i>Health Expectations</i> , 2021 , 24, 700-708	3.7	3
174	Using Co-design With Breast Cancer Patients and Radiographers to Develop "KEW" Communication Skills Training. <i>Frontiers in Psychology</i> , 2021 , 12, 629122	3.4	0
173	The Relationship Between Fears of Cancer Recurrence and Patient Gender: A Systematic Review and Meta-Analysis. <i>Frontiers in Psychology</i> , 2021 , 12, 640866	3.4	7
172	Which Head and Neck Cancer Patients Are Most at Risk of High Levels of Fear of Cancer Recurrence. <i>Frontiers in Psychology</i> , 2021 , 12, 671366	3.4	1
171	Implementing the Smile4life intervention for people experiencing homelessness: a path analytical evaluation. <i>BMC Oral Health</i> , 2021 , 21, 383	3.7	

170	Re: More evidences are needed in reducing the suicide risk in head and neck cancer patients. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2021 , 59, 971-972	1.4	
169	Prediction of emotional exhaustion over the course of the COVID-19 pandemic in primary care dental staff: an intensive longitudinal study. <i>BMJ Open</i> , 2021 , 11, e054827	3	0
168	A controlled pilot trial of a nurse-led intervention (Mini-AFTERc) to manage fear of cancer recurrence in patients affected by breast cancer. <i>Pilot and Feasibility Studies</i> , 2020 , 6, 60	1.9	4
167	Improving quality of life through the routine use of the patient concerns inventory for head and neck cancer patients: baseline results in a cluster preference randomised controlled trial. <i>European Archives of Oto-Rhino-Laryngology</i> , 2020 , 277, 3435-3447	3.5	7
166	High Fear of Cancer Recurrence in Chinese Newly Diagnosed Cancer Patients. <i>Frontiers in Psychology</i> , 2020 , 11, 1287	3.4	7
165	Depression, drugs and dental anxiety in prisons: A mediation model explaining dental decay experience. <i>Community Dentistry and Oral Epidemiology</i> , 2020 , 48, 248-255	2.8	4
164	The relationship between fears of cancer recurrence and patient age: A systematic review and meta-analysis. <i>Cancer Reports</i> , 2020 , 3, e1235	1.5	9
163	Virtual Reality Relaxation to Decrease Dental Anxiety: Immediate Effect Randomized Clinical Trial. <i>JDR Clinical and Translational Research</i> , 2020 , 5, 312-318	2.2	7
162	Risk-based, 6-monthly and 24-monthly dental check-ups for adults: the INTERVAL three-arm RCT. <i>Health Technology Assessment</i> , 2020 , 24, 1-138	4.4	6
161	Identifying the key characteristics of clinical fear of cancer recurrence: An international Delphi study. <i>Psycho-Oncology</i> , 2020 , 29, 430-436	3.9	29
160	Association of depression and anxiety with different aspects of dental anxiety in pregnant mothers and their partners. <i>Community Dentistry and Oral Epidemiology</i> , 2020 , 48, 137-142	2.8	3
159	Screening for fear of cancer recurrence: Instrument validation and current status in early stage lung cancer patients. <i>Journal of the Formosan Medical Association</i> , 2020 , 119, 1101-1108	3.2	1
158	Communication, Trust and Dental Anxiety: A Person-Centred Approach for Dental Attendance Behaviours. <i>Dentistry Journal</i> , 2020 , 8,	3.1	6
157	Loneliness and quality of life after head and neck cancer. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2020 , 58, 959-965	1.4	8
156	Using a patient prompt list to raise concerns in oncology clinics does not necessarily lead to longer consultations. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2020 , 58, 1164-1171	1.4	3
155	Best practice in reducing the suicide risk in head and neck cancer patients: a structured review. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2020 , 58, e6-e15	1.4	6
154	Specialist breast cancer nurses' views on implementing a fear of cancer recurrence intervention in practice: a mixed methods study. <i>Supportive Care in Cancer</i> , 2020 , 28, 201-210	3.9	6
153	Community-based oral health interventions for people experiencing homelessness: a scoping review. <i>Community Dental Health</i> , 2020 , 37, 150-160	0.9	0

152	Effect of Psychological Intervention on Fear of Cancer Recurrence: A Systematic Review and Meta-Analysis. <i>Journal of Clinical Oncology</i> , 2019 , 37, 2899-2915	2.2	98
151	Fear of cancer recurrence in adolescent and young adult cancer survivors: A systematic review of the literature. <i>Psycho-Oncology</i> , 2019 , 28, 675-686	3.9	35
150	Modelling reassurances of clinicians with hidden Markov models. <i>BMC Medical Research Methodology</i> , 2019 , 19, 11	4.7	3
149	The psychometric properties of the CFSS-DS for schoolchildren in Saudi Arabia: A confirmatory factor analytic approach. <i>International Journal of Paediatric Dentistry</i> , 2019 , 29, 489-495	3.1	2
148	Prevalence and clinical and psychological correlates of high fear of cancer recurrence in patients newly diagnosed with head and neck cancer. <i>Head and Neck</i> , 2019 , 41, 3187-3200	4.2	17
147	Automated screening for distress: A perspective for the future. <i>European Journal of Cancer Care</i> , 2019 , 28, e13033	2.4	16
146	Development of an interaction coding scheme (PaeD-TrICS) to record the triadic communication behaviours in preventive dental consultations with preschool child patients and families: a video-based observational study. <i>BMC Oral Health</i> , 2019 , 19, 162	3.7	4
145	An observational mixed-methods approach to investigate the fear of cancer recurrence cognitive and emotional model by Lee-Jones with women with breast cancer during radiotherapy treatment. <i>Ecancermedicalscience</i> , 2019 , 13, 984	2.7	1
144	Psychometric properties of the Chinese version Fear of Cancer Recurrence Questionnaire-7 (FCR-7).. <i>Professional Psychology: Research and Practice</i> , 2019 , 50, 376-383	2.2	5
143	Communication skills training for the radiotherapy team to manage cancer patientsRemotional concerns: a systematic review. <i>BMJ Open</i> , 2019 , 9, e025420	3	5
142	Recording communication in primary dental practice: an exploratory study of interactions between dental health professionals, children and parents. <i>British Dental Journal</i> , 2019 , 227, 887-892	1.2	3
141	Patient centred consultation, satisfaction and young patients: A cross-country analysis. <i>Patient Education and Counseling</i> , 2019 , 102, 782-789	3.1	1
140	Developing the International Association for Communication in Healthcare (EACH) to address current challenges of health communication. <i>Patient Education and Counseling</i> , 2019 , 102, 1217-1221	3.1	4
139	Emotional talk of patients with breast cancer during review appointments with therapeutic radiographers: effects on fears of cancer recurrence. <i>Supportive Care in Cancer</i> , 2019 , 27, 2143-2151	3.9	6
138	A single-session intervention (the Mini-AFTERc) for fear of cancer recurrence: A feasibility study. <i>Psycho-Oncology</i> , 2018 , 27, 2668-2670	3.9	16
137	Does emotional talk vary with fears of cancer recurrence trajectory? A content analysis of interactions between women with breast cancer and their therapeutic radiographers. <i>Journal of Psychosomatic Research</i> , 2018 , 106, 41-48	4.1	10
136	Improving quality of life through the routine use of the patient concerns inventory for head and neck cancer patients: a cluster preference randomized controlled trial. <i>BMC Cancer</i> , 2018 , 18, 444	4.8	19
135	Fear of cancer recurrence in oral and oropharyngeal cancer patients: An investigation of the clinical encounter. <i>European Journal of Cancer Care</i> , 2018 , 27, e12785	2.4	9

134	Assessment of anxiety. <i>British Dental Journal</i> , 2018 , 224, 843-844	1.2	
133	Design and development of a complex narrative intervention delivered by text messages to reduce binge drinking among socially disadvantaged men. <i>Pilot and Feasibility Studies</i> , 2018 , 4, 105	1.9	2
132	Unidimensional scales for fears of cancer recurrence and their psychometric properties: the FCR4 and FCR7. <i>Health and Quality of Life Outcomes</i> , 2018 , 16, 30	3	28
131	A feasibility study of the Mini-AFTER telephone intervention for the management of fear of recurrence in breast cancer survivors: a mixed-methods study protocol. <i>Pilot and Feasibility Studies</i> , 2018 , 4, 22	1.9	6
130	A mixed-methods feasibility study protocol to assess the communication behaviours within the dental health professional-parent-child triad in a general dental practice setting. <i>Pilot and Feasibility Studies</i> , 2018 , 4, 136	1.9	5
129	Texting to Reduce Alcohol Misuse (TRAM): main findings from a randomized controlled trial of a text message intervention to reduce binge drinking among disadvantaged men. <i>Addiction</i> , 2018 , 113, 1609	4.6	13
128	High levels of socioeconomic deprivation do not inhibit patients' communication of concerns in head and neck cancer review clinics. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2018 , 56, 536-539	1.4	4
127	Text message intervention to reduce frequency of binge drinking among disadvantaged men: the TRAM RCT. <i>Public Health Research</i> , 2018 , 6, 1-156	1.7	2
126	Development, acceptability and feasibility of a communication skills training package for therapeutic radiographers to reduce fear of recurrence development in breast cancer patients (FORECAST2). <i>Pilot and Feasibility Studies</i> , 2018 , 4, 148	1.9	2
125	Implementing an Oral Health Intervention for People Experiencing Homelessness in Scotland: A Participant Observation Study. <i>Dentistry Journal</i> , 2018 , 6,	3.1	1
124	The existence and importance of patients' mental images of their head and neck cancer: A qualitative study. <i>PLoS ONE</i> , 2018 , 13, e0209215	3.7	1
123	Fear of cancer recurrence trajectory during radiation treatment and follow-up into survivorship of patients with breast cancer. <i>BMC Cancer</i> , 2018 , 18, 1002	4.8	7
122	INTERVAL (investigation of NICE technologies for enabling risk-variable-adjusted-length) dental recalls trial: a multicentre randomised controlled trial investigating the best dental recall interval for optimum, cost-effective maintenance of oral health in dentate adults attending dental primary care. <i>BMC Oral Health</i> , 2018 , 18, 135	3.7	12
121	Investigating the effect of Alcohol Brief Interventions within accident and emergency departments using a data informatics methodology. <i>Drug and Alcohol Dependence</i> , 2018 , 188, 47-52	4.9	2
120	Does dental undergraduate education and postgraduate training enable intention to provide inhalation sedation in primary dental care? A path analytical exploration. <i>European Journal of Dental Education</i> , 2017 , 21, 193-199	2.5	3
119	Current state and future prospects of research on fear of cancer recurrence. <i>Psycho-Oncology</i> , 2017 , 26, 424-427	3.9	48
118	The relationship between cancer patients' fear of recurrence and chemotherapy: A systematic review and meta-analysis. <i>Journal of Psychosomatic Research</i> , 2017 , 98, 55-63	4.1	29
117	The importance of acknowledgement of emotions in routine patient psychological assessment: The example of the dental setting. <i>Patient Education and Counseling</i> , 2017 , 100, 2102-2105	3.1	10

116	The social gradient in oral health: Is there a role for dental anxiety?. <i>Community Dentistry and Oral Epidemiology</i> , 2017 , 45, 348-355	2.8	3
115	Alcohol and disadvantaged men: A feasibility trial of an intervention delivered by mobile phone. <i>Drug and Alcohol Review</i> , 2017 , 36, 468-476	3.2	10
114	Neuropsychological functioning and chronic methadone use: A systematic review and meta-analysis. <i>Neuroscience and Biobehavioral Reviews</i> , 2017 , 73, 23-38	9	23
113	Engagement in the Overdose Risk InFoRmation (ORION) e-Health Tool for Opioid Overdose Prevention and Self-Efficacy: A Preliminary Study. <i>Cyberpsychology, Behavior, and Social Networking</i> , 2017 , 20, 762-768	4.4	6
112	Verona Coding Definitions of Emotional Sequences (VR-CoDES): Conceptual framework and future directions. <i>Patient Education and Counseling</i> , 2017 , 100, 2303-2311	3.1	34
111	Assessing the psychometric and ecometric properties of neighborhood scales using adolescent survey data from urban and rural Scotland. <i>Population Health Metrics</i> , 2017 , 15, 11	3	4
110	The relationship between cancer patient's fear of recurrence and radiotherapy: a systematic review and meta-analysis. <i>Psycho-Oncology</i> , 2017 , 26, 738-746	3.9	30
109	Towards objective and reproducible study of patient-doctor interaction: Automatic text analysis based VR-CoDES annotation of consultation transcripts. <i>Annual International Conference of the IEEE Engineering in Medicine and Biology Society IEEE Engineering in Medicine and Biology Society Annual International Conference</i> , 2017 , 2017, 2638-2641	0.9	5
108	Using the simplified case mix tool (sCMT) to identify cost in special care dental services to support commissioning. <i>Community Dental Health</i> , 2017 , 34, 56-59	0.9	0
107	Electronic communication based interventions for hazardous young drinkers: A systematic review. <i>Neuroscience and Biobehavioral Reviews</i> , 2016 , 68, 880-890	9	17
106	Adult Dental Anxiety: Recent Assessment Approaches and Psychological Management in a Dental Practice Setting. <i>Dental Update</i> , 2016 , 43, 388-9, 391-92, 394	0.3	1
105	Decision support in addiction: The development of an e-health tool to assess and prevent risk of fatal overdose. The ORION Project. <i>Computer Methods and Programs in Biomedicine</i> , 2016 , 133, 207-216	6.9	3
104	Looked after young people: Reducing health inequalities through an evidence- and theory-informed intervention. <i>Health Education Journal</i> , 2016 , 75, 811-822	1.5	4
103	A single-item screening question for fear of recurrence in head and neck cancer. <i>European Archives of Oto-Rhino-Laryngology</i> , 2016 , 273, 1235-42	3.5	27
102	The Video Interaction Guidance approach applied to teaching communication skills in dentistry. <i>European Journal of Dental Education</i> , 2016 , 20, 94-101	2.5	3
101	Lifestyle change in the cancer setting using the teachable moment protocol for a proof-of-concept pilot in a urology service. <i>Pilot and Feasibility Studies</i> , 2016 , 2, 65	1.9	7
100	Quality of life considerations in head and neck cancer: United Kingdom National Multidisciplinary Guidelines. <i>Journal of Laryngology and Otology</i> , 2016 , 130, S49-S52	1.8	38
99	From normal response to clinical problem: definition and clinical features of fear of cancer recurrence. <i>Supportive Care in Cancer</i> , 2016 , 24, 3265-8	3.9	208

98	Psychological management for head and neck cancer patients: United Kingdom National Multidisciplinary Guidelines. <i>Journal of Laryngology and Otology</i> , 2016 , 130, S45-S48	1.8	13
97	School-based health education programmes, health-learning capacity and child oral health-related quality of life. <i>Health Education Journal</i> , 2016 , 75, 698-711	1.5	9
96	Using fundamental frequency of cancer survivors' speech to investigate emotional distress in out-patient visits. <i>Patient Education and Counseling</i> , 2016 , 99, 1971-1977	3.1	3
95	How head and neck consultants manage patients' emotional distress during cancer follow-up consultations: a multilevel study. <i>European Archives of Oto-Rhino-Laryngology</i> , 2015 , 272, 2473-81	3.5	18
94	Do multimorbidity and deprivation influence patients' emotional expressions and doctors' responses in primary care consultations?--An exploratory study using multilevel analysis. <i>Patient Education and Counseling</i> , 2015 , 98, 1063-70	3.1	6
93	Further analysis of the emotional consequences of head and neck cancer as reflected by the Patients' Concerns Inventory. <i>British Journal of Oral and Maxillofacial Surgery</i> , 2015 , 53, 711-8	1.4	13
92	Internet-assisted delivery of cognitive behavioural therapy (CBT) for childhood anxiety: systematic review and meta-analysis. <i>Journal of Anxiety Disorders</i> , 2015 , 29, 83-92	10.9	78
91	Why do women not return family history forms when referred to breast cancer genetics services? A mixed-method study. <i>Health Expectations</i> , 2015 , 18, 1735-43	3.7	1
90	Maternal and paternal contribution to intergenerational psychosocial transmission of paan chewing. <i>Community Dentistry and Oral Epidemiology</i> , 2015 , 43, 289-97	2.8	6
89	Validation of the Malay version of the Modified Dental Anxiety Scale and the prevalence of dental anxiety in a Malaysian population. <i>Journal of Investigative and Clinical Dentistry</i> , 2015 , 6, 313-20	2.3	9
88	Summary of: Understanding emotionally relevant situations in primary dental practice. 2. Reported effects of emotionally charged situations. <i>British Dental Journal</i> , 2015 , 219, 448-9	1.2	
87	Applying the Verona coding definitions of emotional sequences (VR-CoDES) in the dental context involving patients with complex communication needs: An exploratory study. <i>Patient Education and Counseling</i> , 2014 , 97, 180-7	3.1	7
86	Prediction of nursery school-aged children who refuse fluoride varnish administration in a community setting: a Childsmile investigation. <i>International Journal of Paediatric Dentistry</i> , 2014 , 24, 245-51	3.1	5
85	Fear of Cancer Recurrence Among Breast Cancer Survivors. <i>Current Breast Cancer Reports</i> , 2014 , 6, 219-228	2.8	12
84	Association between depression and non-fatal overdoses among drug users: a systematic review and meta-analysis. <i>Drug and Alcohol Dependence</i> , 2014 , 134, 12-21	4.9	40
83	Is disgust the driver behind the selection of images for UK tobacco packets?. <i>Health Education Journal</i> , 2014 , 73, 522-529	1.5	4
82	Job leaving intentions and occupation-related beliefs amongst preregistered dental nurses in Scotland: the mediating role of work engagement and personal accomplishment. <i>Community Dentistry and Oral Epidemiology</i> , 2014 , 42, 11-9	2.8	9
81	A mobile phone intervention to reduce binge drinking among disadvantaged men: study protocol for a randomised controlled cost-effectiveness trial. <i>Trials</i> , 2014 , 15, 494	2.8	9

80	Why are people afraid of the dentist? Observations and explanations. <i>Medical Principles and Practice</i> , 2014 , 23, 295-301	2.1	45
79	The relationship of dental caries and dental fear in Malaysian adolescents: a latent variable approach. <i>BMC Oral Health</i> , 2014 , 14, 19	3.7	15
78	Fear of recurrence among head and neck cancer survivors: longitudinal trends. <i>Psycho-Oncology</i> , 2013 , 22, 807-13	3.9	83
77	UK population norms for the modified dental anxiety scale with percentile calculator: adult dental health survey 2009 results. <i>BMC Oral Health</i> , 2013 , 13, 29	3.7	69
76	Fear of cancer recurrence in adult cancer survivors: a systematic review of quantitative studies. <i>Journal of Cancer Survivorship</i> , 2013 , 7, 300-22	5.1	572
75	Obesity and dental caries in children: a systematic review and meta-analysis. <i>Community Dentistry and Oral Epidemiology</i> , 2013 , 41, 289-308	2.8	152
74	The psychological experience of living with head and neck cancer: a systematic review and meta-synthesis. <i>Psycho-Oncology</i> , 2013 , 22, 2648-63	3.9	108
73	Is the effectiveness of tobacco image-based warning labels likely to vary by socio-demographic variable? Findings from an online survey of 19,000 members of the UK Public. <i>Health Education Journal</i> , 2013 , 72, 351-362	1.5	6
72	The Parental Dental Concerns Scale (PDCS): its development and initial psychometric properties. <i>Community Dentistry and Oral Epidemiology</i> , 2013 , 41, 541-50	2.8	1
71	Psychosocial interventions for patients with head and neck cancer. <i>The Cochrane Library</i> , 2013 , CD009444	4.2	58
70	How Do medical students respond to emotional cues and concerns expressed by simulated patients during OSCE consultations?—a multilevel study. <i>PLoS ONE</i> , 2013 , 8, e79166	3.7	13
69	Reducing alcohol-related harm in disadvantaged men: development and feasibility assessment of a brief intervention delivered by mobile telephone. <i>Public Health Research</i> , 2013 , 1, 1-138	1.7	12
68	What is the most fearful intervention in ambulatory oral surgery? Analysis of an outpatient clinic. <i>International Journal of Oral and Maxillofacial Surgery</i> , 2012 , 41, 1284-90	2.9	30
67	Neuropsychological consequences of chronic opioid use: a quantitative review and meta-analysis. <i>Neuroscience and Biobehavioral Reviews</i> , 2012 , 36, 2056-68	9	155
66	Development of a novel coding scheme (SABICS) to record nurse-child interactive behaviours in a community dental preventive intervention. <i>Patient Education and Counseling</i> , 2012 , 88, 268-76	3.1	9
65	A phase II clinical trial of a dental health education program delivered by aboriginal health workers to prevent early childhood caries. <i>BMC Public Health</i> , 2012 , 12, 681	4.1	16
64	Using the verona coding definitions of emotional sequences (VR-CoDES) and health provider responses (VR-CoDES-P) in the dental context. <i>Patient Education and Counseling</i> , 2012 , 89, 205-8	3.1	18
63	The prevalence of dental anxiety across previous distressing experiences. <i>Journal of Anxiety Disorders</i> , 2011 , 25, 232-6	10.9	68

62	Systematic review of the effect of dental staff behaviour on child dental patient anxiety and behaviour. <i>Patient Education and Counseling</i> , 2011 , 85, 4-13	3.1	31
61	A systematic review and meta-analysis of face-to-face communication of tailored health messages: implications for practice. <i>Patient Education and Counseling</i> , 2011 , 85, 348-55	3.1	58
60	Development of the Verona coding definitions of emotional sequences to code health providers' responses (VR-CoDES-P) to patient cues and concerns. <i>Patient Education and Counseling</i> , 2011 , 82, 149-55	3.1	123
59	Coding patient emotional cues and concerns in medical consultations: the Verona coding definitions of emotional sequences (VR-CoDES). <i>Patient Education and Counseling</i> , 2011 , 82, 141-8	3.1	159
58	Is the routine recording of primary care consultations possible and desirable? Lessons for researchers from a consultation with multiple stakeholders. <i>Patient Education and Counseling</i> , 2011 , 82, 247-53	3.1	8
57	Poly-substance use and related harms: a systematic review of harm reduction strategies implemented in recreational settings. <i>Neuroscience and Biobehavioral Reviews</i> , 2011 , 35, 1186-202	9	14
56	The perceived sexual health needs of looked after young people: findings from a qualitative study led through a partnership between public health and health psychology. <i>Journal of Public Health</i> , 2011 , 33, 86-92	3.5	9
55	The Arabic version of the modified dental anxiety scale. Psychometrics and normative data for 15-16 year olds. <i>Journal of King Abdulaziz University, Islamic Economics</i> , 2011 , 32, 725-9	1.1	17
54	The relationship between dental anxiety and dental decay experience in antenatal mothers. <i>European Journal of Oral Sciences</i> , 2010 , 118, 59-65	2.3	9
