4	Toward a basic science of communication in serious illness. <i>Patient Education and Counseling</i> , 2022, 105, 1963-1969.	1.0	13
5	Reply to "Empathic communication: The premise of inclusive care for historically excluded populations". <i>Cancer</i> , 2022, 128, 2838-2839.	2.0	0
6	Virtual environments to study emotional responses to clinical communication: A scoping review. <i>Patient Education and Counseling</i> , 2021, 104, 2922-2935.	1.0	7
7	Physician empathy according to physicians: A multi-specialty qualitative analysis. <i>Patient Education and Counseling</i> , 2021, 104, 2425-2431.	1.0	10
8	What is empathy? Oncology patient perspectives on empathic clinician behaviors. <i>Cancer</i> , 2021, 127, 4258-4265.	2.0	35
9	Preferences for mHealth physical activity interventions during chemotherapy for breast cancer: a qualitative evaluation. <i>Supportive Care in Cancer</i> , 2020, 28, 1919-1928.	1.0	18
10	Compassionate and Clinical Behavior of Residents in a Simulated Informed Consent Encounter. <i>Anesthesiology</i> , 2020, 132, 159-169.	1.3	8
11	Breast cancer survivors' preferences for social support features in technology-supported physical activity interventions: findings from a mixed methods evaluation. <i>Translational Behavioral Medicine</i> , 2020, 10, 423-434.	1.2	19
12	Preferences for patient-centered care among cancer survivors 5 years post-diagnosis. <i>Patient Education and Counseling</i> , 2020, 103, 1601-1605.	1.0	8
13	Effect of a Mobile Monitoring System vs Usual Care on Depression Symptoms and Psychological Health. <i>JAMA Network Open</i> , 2020, 3, e1919403.	2.8	12
14	Is Technology Enhancing or Hindering Interpersonal Communication? A Framework and Preliminary Results to Examine the Relationship Between Technology Use and Nonverbal Decoding Skill. <i>Frontiers in Psychology</i> , 2020, 11, 611670.	1.1	12
15	The academic-industry divide in health communication: A call for increased partnership. <i>Patient Education and Counseling</i> , 2019, 102, 2330-2334.	1.0	1
16	Think globally and verify locally: Progressing an international evidence base in patient-clinician communication research. <i>Patient Education and Counseling</i> , 2019, 102, 1579-1580.	1.0	1
17	Personal Narrative: Raising Awareness of Adolescent and Young Adult Cancer Survivors in Similarly Aged University Students. <i>Journal of Adolescent and Young Adult Oncology</i> , 2019, 8, 434-441.	0.7	4
18	Effects of communication about uncertainty and oncologist gender on the physician-patient relationship. <i>Patient Education and Counseling</i> , 2019, 102, 1613-1620.	1.0	24

#	ARTICLE	IF	CITATIONS
19	Breast cancer survivorsâ€™ preferences for mHealth physical activity interventions: findings from a mixed methods study. <i>Journal of Cancer Survivorship</i> , 2019, 13, 292-305.	1.5	33
20	To Know Anotherâ€™s Pain: A Meta-analysis of Caregiversâ€™ and Healthcare Providersâ€™ Pain Assessment Accuracy. <i>Annals of Behavioral Medicine</i> , 2018, 52, 662-685.	1.7	26
21	Addressing Career-Related Needs in Adolescent and Young Adult Cancer Survivors: University Career Service Professionals' Experience and Resources. <i>Journal of Adolescent and Young Adult Oncology</i> , 2018, 7, 245-248.	0.7	5
22	Physician gender and apologies in clinical interactions. <i>Patient Education and Counseling</i> , 2018, 101, 836-842.	1.0	5
23	The impact of acute pain self-efficacy on pain intensity and the accurate recall of pain. <i>Health Psychology Report</i> , 2018, , .	0.5	3
24	Measuring nonverbal behavior in clinical interactions: A pragmatic guide. <i>Patient Education and Counseling</i> , 2018, 101, 2209-2218.	1.0	31
25	The impact of obesity on perceived patientâ€™centred communication. <i>Obesity Science and Practice</i> , 2018, 4, 338-346.	1.0	10
26	Gendered Perceptions in Healthcare. , 2018, , 53-66.		0
27	Correlates of the positive psychological byproducts of cancer: Role of family caregivers and informational support. <i>Palliative and Supportive Care</i> , 2017, 15, 693-703.	0.6	10
28	Communication between oncologists and lymphoma survivors during follow-up consultations: A qualitative analysis. <i>Journal of Psychosocial Oncology</i> , 2017, 35, 513-530.	0.6	10
29	Integrating knowledge across domains to advance the science of health behavior: overcoming challenges and facilitating success. <i>Translational Behavioral Medicine</i> , 2017, 7, 98-105.	1.2	16
30	Cancer survivors as activated patients: Exploring the relationship between cancer history and patient activation. <i>Journal of Psychosocial Oncology</i> , 2017, 35, 239-247.	0.6	6
31	Nonverbal Communication as a Pain Reliever: The Impact of Physician Supportive Nonverbal Behavior on Experimentally Induced Pain. <i>Health Communication</i> , 2017, 32, 970-976.	1.8	29
32	Behavioral Indicators on a Mobile Sensing Platform Predict Clinically Validated Psychiatric Symptoms of Mood and Anxiety Disorders. <i>Journal of Medical Internet Research</i> , 2017, 19, e75.	2.1	101
33	Training people to be interpersonally accurate. , 2016, , 253-269.		9
34	Health Self-Efficacy Among Populations with Multiple Chronic Conditions: the Value of Patient-Centered Communication. <i>Advances in Therapy</i> , 2016, 33, 1440-1451.	1.3	89
35	Access to Cancer Care and General Medical Care Services Among Cancer Survivors in the United States. <i>Public Health Reports</i> , 2016, 131, 783-790.	1.3	15
36	Quality of Patient-Provider Communication Among Cancer Survivors: Findings From a Nationally Representative Sample. <i>Journal of Oncology Practice</i> , 2016, 12, e964-e973.	2.5	37

#	ARTICLE	IF	CITATIONS
37	Trends in cancer survivors' experience of patient-centered communication: results from the Health Information National Trends Survey (HINTS). <i>Journal of Cancer Survivorship</i> , 2016, 10, 1067-1077.	1.5	70
38	Financial Hardship Associated With Cancer in the United States: Findings From a Population-Based Sample of Adult Cancer Survivors. <i>Journal of Clinical Oncology</i> , 2016, 34, 259-267.	0.8	387
39	Cancer-Related Information Seeking Among Cancer Survivors: Trends Over a Decade (2003-2013). <i>Journal of Cancer Education</i> , 2016, 31, 348-357.	0.6	113
40	Discussion increases efficacy when training accurate perception of patients' affect. <i>Journal of Applied Social Psychology</i> , 2015, 45, 355-362.	1.3	8
41	Reliability and Validity of Nonverbal Thin Slices in Social Interactions. <i>Personality and Social Psychology Bulletin</i> , 2015, 41, 199-213.	1.9	44
42	Healthcare providers' accuracy in assessing patients' pain: A systematic review. <i>Patient Education and Counseling</i> , 2015, 98, 1197-1206.	1.0	31
43	Socioeconomic and Sociodemographic Predictors of Cancer-Related Information Sources Used by Cancer Survivors. <i>Journal of Health Communication</i> , 2015, 20, 204-210.	1.2	28
44	Survivors of Childhood Cancer in the United States: Prevalence and Burden of Morbidity. <i>Cancer Epidemiology Biomarkers and Prevention</i> , 2015, 24, 653-663.	1.1	401
45	How Patient-Centered Do Female Physicians Need to Be? Analogue Patients' Satisfaction With Male and Female Physicians' Identical Behaviors. <i>Health Communication</i> , 2015, 30, 894-900.	1.8	36
46	Cancer survivors' receipt of treatment summaries and implications for patient-centered communication and quality of care. <i>Patient Education and Counseling</i> , 2015, 98, 1274-1279.	1.0	43
47	Reply to E. Zanet et al. <i>Journal of Clinical Oncology</i> , 2014, 32, 3905-3906.	0.8	0
48	Racial and Ethnic Disparities in Patient-Provider Communication, Quality-of-Care Ratings, and Patient Activation Among Long-Term Cancer Survivors. <i>Journal of Clinical Oncology</i> , 2014, 32, 4087-4094.	0.8	97
49	Provision and Discussion of Survivorship Care Plans Among Cancer Survivors: Results of a Nationally Representative Survey of Oncologists and Primary Care Physicians. <i>Journal of Clinical Oncology</i> , 2014, 32, 1578-1585.	0.8	163
50	Cancer Survivors' Use of Numerous Information Sources for Cancer-Related Information: Does More Matter?. <i>Journal of Cancer Education</i> , 2014, 29, 488-496.	0.6	25
51	Long-term effect of communication training on the relationship between physicians' self-efficacy and performance. <i>Patient Education and Counseling</i> , 2013, 91, 180-185.	1.0	68
52	Patient satisfaction with physician errors in detecting and identifying patient emotion cues. <i>Patient Education and Counseling</i> , 2013, 93, 56-62.	1.0	26
53	Training clinicians to accurately perceive their patients: Current state and future directions. <i>Patient Education and Counseling</i> , 2013, 92, 328-336.	1.0	25
54	Can Naive Viewers Put Themselves in the Patients' Shoes?. <i>Medical Care</i> , 2013, 51, e16-e21.	1.1	61

#	ARTICLE	IF	CITATIONS
