#	ARTICLE	IF	CITATIONS
1	A systematic scoping review of interventions to optimise medication prescribing and adherence in older adults with cancer. <i>Research in Social and Administrative Pharmacy</i> , 2022, 18, 2392-2402.	3.0	7
2	General practitioners' experiences with, views of, and attitudes towards, general practice-based pharmacists: a cross-sectional survey. , 2022, 23, 6.		12
3	The Multimorbidity Collaborative Medication Review And Decision Making (MyComrade) study: a protocol for a cross-border pilot cluster randomised controlled trial. <i>Pilot and Feasibility Studies</i> , 2022, 8, 73.	1.2	5
4	Oral antibiotic use and early-onset colorectal cancer: findings from a case-control study using a national clinical database. <i>British Journal of Cancer</i> , 2022, 126, 957-967.	6.4	28
5	Interventions to improve medicines optimisation in older people with frailty in primary care: a systematic review. <i>International Journal of Pharmacy Practice</i> , 2022, 30, 297-304.	0.6	5
6	A systematic review of interventions to reduce anticholinergic burden in older people with dementia in primary care. <i>International Journal of Geriatric Psychiatry</i> , 2022, 37, .	2.7	5
7	Creating opportunities for patient participation in managing medications across transitions of care through formal and informal modes of communication. <i>Health Expectations</i> , 2022, 25, 1807-1820.	2.6	5
8	A systematic review of older patients' experiences and perceptions of communication about managing medication across transitions of care. <i>Research in Social and Administrative Pharmacy</i> , 2021, 17, 273-291.	3.0	43
9	On the frontline against COVID-19: Community pharmacists' contribution during a public health crisis. <i>Research in Social and Administrative Pharmacy</i> , 2021, 17, 2032-2035.	3.0	232
10	Enhancing community pharmacists' provision of medication adherence support to older adults: A mixed methods study using the Theoretical Domains Framework. <i>Research in Social and Administrative Pharmacy</i> , 2021, 17, 406-418.	3.0	14
11	The burden of psychotropic and anticholinergic medicines use in care homes: population-based analysis in 147 care homes. <i>Age and Ageing</i> , 2021, 50, 183-189.	1.6	11
12	Appropriate and inappropriate polypharmacy—Choosing the right strategy. <i>British Journal of Clinical Pharmacology</i> , 2021, 87, 84-86.	2.4	14
13	Developing pharmacist-facilitated medicines review services for community-dwelling Māori older adults in New Zealand — A qualitative study exploring stakeholder views. <i>Health and Social Care in the Community</i> , 2021, 29, 564-573.	1.6	5
14	Potentially inappropriate prescribing in dementia, multi-morbidity and incidence of adverse health outcomes. <i>Age and Ageing</i> , 2021, 50, 457-464.	1.6	28
15	Managing medicines in the time of COVID-19: implications for community-dwelling people with dementia. <i>International Journal of Clinical Pharmacy</i> , 2021, 43, 275-279.	2.1	14
16	"I just take them because I know the people that give them to me": A theory-informed interview study of community-dwelling people with dementia and carers' perspectives of medicines management. <i>International Journal of Geriatric Psychiatry</i> , 2021, 36, 883-891.	2.7	1
17	A systematic review of general practice-based pharmacists' services to optimize medicines management in older people with multimorbidity and polypharmacy. <i>Family Practice</i> , 2021, 38, 509-523.	1.9	24
18	Utilising te Tiriti o Waitangi to approach health intervention development and research: pharmacist-facilitated medicines review interventions for Māori older adults. <i>Journal of Primary Health Care</i> , 2021, 13, 124-131.	0.6	6

#	ARTICLE	IF	CITATIONS
19	Withdrawal or continuation of cholinesterase inhibitors or memantine or both, in people with dementia. The Cochrane Library, 2021, 2021, .	2.8	11
20	Hormone replacement therapy in women with cancer and risk of cancer-specific mortality and cardiovascular disease: a protocol for a cohort study from Scotland and Wales. BMC Cancer, 2021, 21, 313.	2.6	1
21	An external pilot cluster randomised controlled trial of a theory-based intervention to improve appropriate polypharmacy in older people in primary care (PolyPrime): study protocol. Pilot and Feasibility Studies, 2021, 7, 77.	1.2	8
22	Development of a core outcome set for clinical trials aimed at improving antimicrobial stewardship in care homes. Antimicrobial Resistance and Infection Control, 2021, 10, 52.	4.1	2
23	Interventions to optimize medication use in nursing homes: a narrative review. European Geriatric Medicine, 2021, 12, 551-567.	2.8	15
24	Interprofessional and Intraprofessional Communication about Older People's Medications across Transitions of Care. International Journal of Environmental Research and Public Health, 2021, 18, 3925.	2.6	3
25	Development and feasibility testing of an evidence-based training programme for pharmacist independent prescribers responsible for the medicines-related activities within care homes. International Journal of Pharmacy Practice, 2021, 29, 376-384.	0.6	6
26	Exposure to Ranitidine and Risk of Bladder Cancer: A Nested Case-Control Study. American Journal of Gastroenterology, 2021, 116, 1612-1619.	0.4	12
27	Clinical expertise, advocacy and enhanced autonomy – Acceptability of a pharmacist-facilitated medicines review intervention for community-dwelling Māori older adults. Exploratory Research in Clinical and Social Pharmacy, 2021, 2, 100010.	1.0	5
28	Development of criteria for identifying potentially inappropriate prescribing in older adults with cancer receiving palliative care (PIP-CPC). Journal of Geriatric Oncology, 2021, 12, 1193-1199.	1.0	3
29	Feasibility of a pharmacist-facilitated medicines review intervention for community-dwelling Māori older adults. Exploratory Research in Clinical and Social Pharmacy, 2021, 2, 100018.	1.0	4
30	An Update on Medication Use in Older Adults: a Narrative Review. Current Epidemiology Reports, 2021, 8, 108-115.	2.4	12
31	Protocol for a process evaluation of an external pilot cluster randomised controlled trial of a theory-based intervention to improve appropriate polypharmacy in older people in primary care: the PolyPrime study. Trials, 2021, 22, 449.	1.6	4
32	Prescribing practices, patterns, and potential harms in patients receiving palliative care: A systematic scoping review. Exploratory Research in Clinical and Social Pharmacy, 2021, 3, 100050.	1.0	6
33	Ethnic Variations in the Quality Use of Medicines in Older Adults: Māori and Non-Māori in Aotearoa New Zealand. Drugs and Aging, 2021, 38, 205-217.	2.7	10
34	Knowledge and Power Relations in Older Patients' Communication About Medications Across Transitions of Care. Qualitative Health Research, 2021, 31, 1049732321110434.	2.1	4
35	Process evaluation for the Care Homes Independent Pharmacist Prescriber Study (CHIPPS). BMC Health Services Research, 2021, 21, 1041.	2.2	11
36	Learning From Consultations Conducted by Community Pharmacists in Northern Ireland for Nonprescription Sildenafil: A Qualitative Study Using the Theoretical Domains Framework. Sexual Medicine, 2021, 9, 100440-100440.	1.6	1

#	ARTICLE	IF	CITATIONS
37	STOPP/START interventions to improve medicines management for people aged 65 years and over: a realist synthesis. <i>Health Services and Delivery Research</i> , 2021, 9, 1-118.	1.4	2
38	Towards patient-centred communication in the management of older patients' medications across transitions of care: A focused ethnographic study. <i>Journal of Clinical Nursing</i> , 2021, , .	3.0	3
39	The Association Between Drug Burden Index (DBI) and Health-Related Outcomes: A Longitudinal Study of the "Oldest Old"™ (LiLACS NZ). <i>Drugs and Aging</i> , 2020, 37, 205-213.	2.7	10
40	A pharmacist-led medicines review intervention in community-dwelling Māori older adults—a feasibility study protocol. <i>Research in Social and Administrative Pharmacy</i> , 2020, 16, 1264-1271.	3.0	6
41	Systematic review and narrative synthesis of pharmacist provided medicines optimisation services in care homes for older people to inform the development of a generic training or accreditation process. <i>International Journal of Pharmacy Practice</i> , 2020, 28, 207-219.	0.6	14
42	Brief interventions targeting long-term benzodiazepine and Z-drug use in primary care: a systematic review and meta-analysis. <i>Addiction</i> , 2020, 115, 1618-1639.	3.3	43
43	Impact of a global leader on pharmaceutical practice and policy around the world. <i>Journal of Pharmaceutical Policy and Practice</i> , 2020, 13, .	2.4	0
44	Protocol for the process evaluation of a cluster randomised controlled trial to determine the effectiveness and cost-effectiveness of independent pharmacist prescribing in care home: the CHIPPS study. <i>Trials</i> , 2020, 21, 439.	1.6	8
45	Developing evidence-based guidance for assessment of suspected infections in care home residents. <i>BMC Geriatrics</i> , 2020, 20, 59.	2.7	8
46	Interventions to optimise medication prescribing and adherence in older people with cancer: A systematic scoping review. <i>Research in Social and Administrative Pharmacy</i> , 2020, 16, 1627-1631.	3.0	1
47	Does potentially inappropriate prescribing predict an increased risk of admission to hospital and mortality? A longitudinal study of the "oldest old"™. <i>BMC Geriatrics</i> , 2020, 20, 28.	2.7	14
48	Improving medicines management for people with dementia in primary care: a qualitative study of healthcare professionals to develop a theory-informed intervention. <i>BMC Health Services Research</i> , 2020, 20, 120.	2.2	14
49	Protocol for a cluster randomised controlled trial to determine the effectiveness and cost-effectiveness of independent pharmacist prescribing in care homes: the CHIPPS study. <i>Trials</i> , 2020, 21, 103.	1.6	10
50	Application of the intervention Complexity Assessment Tool for Systematic Reviews within a Cochrane review: an illustrative case study. <i>HRB Open Research</i> , 2020, 3, 31.	0.6	2
51	Importance of Mixed Methods Research in Pharmacy Practice. , 2020, , 137-154.		1
52	A multifaceted intervention to reduce antimicrobial prescribing in care homes: a non-randomised feasibility study and process evaluation. <i>Health Services and Delivery Research</i> , 2020, 8, 1-150.	1.4	0
53	"It is through shared conversation, that I understand"-Māori older adults' experiences of medicines and related services in Aotearoa New Zealand. <i>New Zealand Medical Journal</i> , 2020, 133, 33-46.	0.5	4
54	The Care Home Independent Prescribing Pharmacist Study (CHIPPS)—a non-randomised feasibility study of independent pharmacist prescribing in care homes. <i>Pilot and Feasibility Studies</i> , 2019, 5, 89.	1.2	23

#	ARTICLE	IF	CITATIONS
55	A systematic overview of systematic reviews evaluating interventions addressing polypharmacy. <i>American Journal of Health-System Pharmacy</i> , 2019, 76, 1777-1787.	1.0	23
56	Ageing and medicines: research solutions to a demographic challenge. <i>International Journal of Pharmacy Practice</i> , 2019, 27, 403-403.	0.6	0
57	A systematic review of pharmacists' interventions to support medicines optimisation in patients with visual impairment. <i>International Journal of Clinical Pharmacy</i> , 2019, 41, 1400-1407.	2.1	9
58	Trends and impact of antimicrobial resistance on older inpatients with urinary tract infections (UTIs): A national retrospective observational study. <i>PLoS ONE</i> , 2019, 14, e0223409.	2.5	12
59	Interventions to Improve Antimicrobial Stewardship for Older People in Care Homes: A Systematic Review. <i>Drugs and Aging</i> , 2019, 36, 355-369.	2.7	19
60	Unintended discontinuation of medication following hospitalisation: a retrospective cohort study. <i>BMJ Open</i> , 2019, 9, e024747.	1.9	11
61	Family involvement in managing medications of older patients across transitions of care: a systematic review. <i>BMC Geriatrics</i> , 2019, 19, 95.	2.7	45
62	A systematic review of pharmacist-led medicines review services in New Zealand – is there equity for Māori older adults?. <i>Research in Social and Administrative Pharmacy</i> , 2019, 15, 1383-1394.	3.0	11
63	Multifaceted intervention to Reduce Antimicrobial Prescribing in Care Homes: a process evaluation of a UK-based non-randomised feasibility study. <i>BMJ Open</i> , 2019, 9, e032185.	1.9	8
64	The development of a Core Outcome Set for medicines management interventions for people with dementia in primary care. <i>Age and Ageing</i> , 2019, 48, 260-266.	1.6	8
65	Statin use and survival in patients with gastric cancer in two independent population-based cohorts. <i>Pharmacoepidemiology and Drug Safety</i> , 2019, 28, 460-470.	1.9	19
66	Development of a core outcome set for trials investigating the long-term management of bronchiectasis. <i>Chronic Respiratory Disease</i> , 2019, 16, 147997231880416.	2.4	8
67	The Role of Core Outcome Sets for Pharmaceutical Care Research. , 2019, , 129-140.		1
68	Implementation of Pharmaceutical Care in Nursing Homes. , 2019, , 225-233.		2
69	A qualitative exploration of proxy decision makers' expectations of prescribed medications for people with advanced dementia. <i>Palliative Medicine</i> , 2018, 32, 1114-1123.	3.1	5
70	Care of older people – pharmacy's contribution: call for papers. <i>International Journal of Pharmacy Practice</i> , 2018, 26, 3-3.	0.6	0
71	Low-Dose Aspirin Use Does Not Increase Survival in 2 Independent Population-Based Cohorts of Patients With Esophageal or Gastric Cancer. <i>Gastroenterology</i> , 2018, 154, 849-860.e1.	1.3	31
72	Low-dose aspirin use and survival in colorectal cancer: results from a population-based cohort study. <i>BMC Cancer</i> , 2018, 18, 228.	2.6	26

#	ARTICLE	IF	CITATIONS
73	Core Outcome Set for Trials Aimed at Improving the Appropriateness of Polypharmacy in Older People in Primary Care. <i>Journal of the American Geriatrics Society</i> , 2018, 66, 1206-1212.	2.6	63
74	In vivo and qualitative studies investigating the translational potential of microneedles for use in the older population. <i>Drug Delivery and Translational Research</i> , 2018, 8, 307-316.	5.8	22
75	Improving adherence to multiple medications in older people in primary care: Selecting intervention components to address patient-reported barriers and facilitators. <i>Health Expectations</i> , 2018, 21, 138-148.	2.6	50
76	Interventions to improve the appropriate use of polypharmacy for older people. <i>The Cochrane Library</i> , 2018, 2018, CD008165.	2.8	253
77	Criteria required for an acceptable point-of-care test for UTI detection: Obtaining consensus using the Delphi technique. <i>PLoS ONE</i> , 2018, 13, e0198595.	2.5	10
78	The association between polypharmacy and medication regimen complexity and antibiotic use in bronchiectasis. <i>International Journal of Clinical Pharmacy</i> , 2018, 40, 1342-1348.	2.1	7
79	A feasibility study of a theory-based intervention to improve appropriate polypharmacy for older people in primary care. <i>Pilot and Feasibility Studies</i> , 2018, 4, 23.	1.2	15
80	Community pharmacists' views of using a screening tool to structure medicines use reviews for older people: findings from qualitative interviews. <i>International Journal of Clinical Pharmacy</i> , 2018, 40, 1086-1095.	2.1	10
81	Interventions for enhancing adherence to treatment in adults with bronchiectasis. <i>The Cochrane Library</i> , 2017, 2017, CD011023.	2.8	5
82	Low-dose aspirin use and survival in breast cancer patients: A nationwide cohort study. <i>Cancer Epidemiology</i> , 2017, 47, 20-27.	1.9	20
83	Statin use after esophageal cancer diagnosis and survival: A population based cohort study. <i>Cancer Epidemiology</i> , 2017, 48, 124-130.	1.9	16
84	Beliefs about prescribed medication among older patients with polypharmacy: a mixed methods study in primary care. <i>British Journal of General Practice</i> , 2017, 67, e507-e518.	1.4	65
85	Low-dose aspirin use and survival in breast cancer patients: A nationwide cohort study. <i>Cancer Epidemiology</i> , 2017, 48, 158.	1.9	2
86	Evaluating the prevalence of potentially inappropriate prescribing in older adults in intermediate care facilities: a cross-sectional observational study. <i>International Journal of Clinical Pharmacy</i> , 2017, 39, 527-535.	2.1	9
87	Theory-Based Interventions to Improve Medication Adherence in Older Adults Prescribed Polypharmacy: A Systematic Review. <i>Drugs and Aging</i> , 2017, 34, 97-113.	2.7	84
88	REDUCING POTENTIALLY INAPPROPRIATE PRESCRIBING FOR OLDER PEOPLE IN PRIMARY CARE: COST-EFFECTIVENESS OF THE OPTI-SCRIPT INTERVENTION. <i>International Journal of Technology Assessment in Health Care</i> , 2017, 33, 494-503.	0.5	16
89	Core Outcome Sets: reaching consensus on what to measure in research. <i>International Journal of Pharmacy Practice</i> , 2017, 25, 251-252.	0.6	1
90	Potentially inappropriate prescribing and its association with health outcomes in middle-aged people: a prospective cohort study in Ireland. <i>BMJ Open</i> , 2017, 7, e016562.	1.9	12

#	ARTICLE	IF	CITATIONS
91	Interventions to Improve Medicines Management for People with Dementia: A Systematic Review. <i>Drugs and Aging</i> , 2017, 34, 907-916.	2.7	22
92	Development of a core outcome set for effectiveness trials aimed at optimising prescribing in older adults in care homes. <i>Trials</i> , 2017, 18, 175.	1.6	45
93	Supporting prescribing in older people with multimorbidity and significant polypharmacy in primary care (SPPiRE): a cluster randomised controlled trial protocol and pilot. <i>Implementation Science</i> , 2017, 12, 99.	6.9	36
94	Interventions to optimise prescribing for older people in care homes. <i>The Cochrane Library</i> , 2016, 2016, CD009095.	2.8	173
95	Digoxin use after diagnosis of prostate cancer and survival: a population-based cohort study. <i>Pharmacoepidemiology and Drug Safety</i> , 2016, 25, 1099-1103.	1.9	11
96	Metformin use and survival after colorectal cancer: A population-based cohort study. <i>International Journal of Cancer</i> , 2016, 138, 369-379.	5.1	47
97	Exploring the prevalence of and factors associated with pain: a cross-sectional study of community-dwelling people with dementia. <i>Health and Social Care in the Community</i> , 2016, 24, 270-282.	1.6	31
98	PIPc study: development of indicators of potentially inappropriate prescribing in children (PIPc) in primary care using a modified Delphi technique. <i>BMJ Open</i> , 2016, 6, e012079.	1.9	25
99	GPs' and community pharmacists' opinions on medication management at transitions of care in Ireland. <i>Family Practice</i> , 2016, 33, 172-178.	1.9	22
100	Prescribing of Psychoactive Drugs for Older People in Nursing Homes: An Analysis of Treatment Culture. <i>Drugs - Real World Outcomes</i> , 2016, 3, 121-130.	1.6	10
101	A cross-sectional evaluation of community pharmacists' perceptions of intermediate care and medicines management across the healthcare interface. <i>International Journal of Clinical Pharmacy</i> , 2016, 38, 1380-1389.	2.1	5
102	Foreword: Special issue "geriatric drug therapy. <i>International Journal of Pharmaceutics</i> , 2016, 512, 331.	5.2	0
103	Why have a special issue on methods used in clinical pharmacy practice research?. <i>International Journal of Clinical Pharmacy</i> , 2016, 38, 599-600.	2.1	2
104	Statin use and survival in colorectal cancer: Results from a population-based cohort study and an updated systematic review and meta-analysis. <i>Cancer Epidemiology</i> , 2016, 45, 71-81.	1.9	57
105	A process evaluation of a cluster randomised trial to reduce potentially inappropriate prescribing in older people in primary care (OPTI-SCRIPT study). <i>Trials</i> , 2016, 17, 386.	1.6	31
106	A change in behaviour: getting the balance right for research and policy. <i>International Journal of Clinical Pharmacy</i> , 2016, 38, 1027-1031.	2.1	0
107	Potentially Inappropriate Prescribing Among People with Dementia in Primary Care: A Retrospective Cross-Sectional Study Using the Enhanced Prescribing Database. <i>Journal of Alzheimer's Disease</i> , 2016, 52, 1503-1513.	2.6	47
108	Development of an intervention to improve appropriate polypharmacy in older people in primary care using a theory-based method. <i>BMC Health Services Research</i> , 2016, 16, 661.	2.2	72
