#	Paper	IF	Citations
341	Effective training strategies for teaching communication skills to physicians: an overview of systematic reviews. <i>Patient Education and Counseling</i> , 2011 , 84, 152-62	3.1	293
340	Episodes of Low Back Pain. <i>Spine</i> , 2002 , 27, 2409-2416	3.3	268
339	The effectiveness of worksite physical activity programs on physical activity, physical fitness, and health. <i>Clinical Journal of Sport Medicine</i> , 2003 , 13, 106-17	3.2	256
338	Effectiveness of web-based interventions on patient empowerment: a systematic review and meta-analysis. <i>Journal of Medical Internet Research</i> , 2010 , 12, e23	7.6	248
337	Design of a RCT evaluating the (cost-) effectiveness of a lifestyle intervention for male construction workers at risk for cardiovascular disease: the health under construction study. <i>BMC Public Health</i> , 2008 , 8, 1	4.1	231
336	Physical and psychosocial problems in cancer survivors beyond return to work: a systematic review. <i>Psycho-Oncology</i> , 2014 , 23, 481-92	3.9	192
335	Conceptual frameworks of individual work performance: a systematic review. <i>Journal of Occupational and Environmental Medicine</i> , 2011 , 53, 856-66	2	164
334	Pushing and pulling in relation to musculoskeletal disorders: a review of risk factors. <i>Ergonomics</i> , 1998 , 41, 757-81	2.9	152
333	The effect of lifting during work on low back pain: a health impact assessment based on a meta-analysis. <i>Occupational and Environmental Medicine</i> , 2014 , 71, 871-7	2.1	146
332	Physical activity for people with a disability: a conceptual model. <i>Sports Medicine</i> , 2004 , 34, 639-49	10.6	142
331	Do highly physically active workers die early? A systematic review with meta-analysis of data from 193 696 participants. <i>British Journal of Sports Medicine</i> , 2018 , 52, 1320-1326	10.3	140
330	The relation between work-induced neuroendocrine reactivity and recovery, subjective need for recovery, and health status. <i>Journal of Psychosomatic Research</i> , 2001 , 50, 29-37	4.1	130
329	Epidemiologic evidence on manual materials handling as a risk factor for back disorders: a systematic review. <i>International Journal of Industrial Ergonomics</i> , 1999 , 24, 389-404	2.9	127
328	Episodes of low back pain: a proposal for uniform definitions to be used in research. <i>Spine</i> , 2002 , 27, 2409-16	3.3	127
327	The Relationship Between Shift Work and Metabolic Risk Factors: A Systematic Review of Longitudinal Studies. <i>American Journal of Preventive Medicine</i> , 2016 , 50, e147-e157	6.1	118
326	The effects of shift work on body weight change - a systematic review of longitudinal studies. <i>Scandinavian Journal of Work, Environment and Health</i> , 2011 , 37, 263-75	4.3	116
325	Does musculoskeletal discomfort at work predict future musculoskeletal pain?. <i>Ergonomics</i> , 2008 , 51, 637-48	2.9	115

324	The association between physical activity and neck and low back pain: a systematic review. <i>European Spine Journal</i> , 2011 , 20, 677-89	2.7	112
323	Lifestyle-focused interventions at the workplace to reduce the risk of cardiovascular disease—a systematic review. <i>Scandinavian Journal of Work, Environment and Health</i> , 2010 , 36, 202-15	4.3	110
322	Development of an individual work performance questionnaire. <i>International Journal of Productivity and Performance Management</i> , 2012 , 62, 6-28	2.3	106
321	Effectiveness of physical activity programs at worksites with respect to work-related outcomes. <i>Scandinavian Journal of Work, Environment and Health</i> , 2002 , 28, 75-84	4.3	105
320	The effectiveness of physical and organisational ergonomic interventions on low back pain and neck pain: a systematic review. <i>Occupational and Environmental Medicine</i> , 2010 , 67, 277-85	2.1	101
319	Mechanical loading of the low back and shoulders during pushing and pulling activities. <i>Ergonomics</i> , 2004 , 47, 1-18	2.9	99
318	Effect of individual counseling on physical activity fitness and health: a randomized controlled trial in a workplace setting. <i>American Journal of Preventive Medicine</i> , 2003 , 24, 218-26	6.1	96
317	The Physical Activity Scale for Individuals with Physical Disabilities: test-retest reliability and comparison with an accelerometer. <i>Journal of Physical Activity and Health</i> , 2007 , 4, 96-100	2.5	94
316	Psychosocial work characteristics in relation to neck and upper limb symptoms. <i>Pain</i> , 2005 , 114, 47-53	8	91
315	The relation between body mass index and musculoskeletal symptoms in the working population. <i>BMC Musculoskeletal Disorders</i> , 2013 , 14, 238	2.8	88
314	Statistical power and measurement allocation in ergonomic intervention studies assessing upper trapezius EMG amplitude. A case study of assembly work. <i>Journal of Electromyography and Kinesiology</i> , 2002 , 12, 45-57	2.5	85
313	Costs, benefits and effectiveness of worksite physical activity counseling from the employer's perspective. <i>Scandinavian Journal of Work, Environment and Health</i> , 2004 , 30, 36-46	4.3	82
312	Process evaluation of a workplace health promotion intervention aimed at improving work engagement and energy balance. <i>Journal of Occupational and Environmental Medicine</i> , 2013 , 55, 19-26	2	77
311	Working postures and activities of lorry drivers: a reliability study of on-site observation and recording on a pocket computer. <i>Applied Ergonomics</i> , 1992 , 23, 331-6	4.2	75
310	Gender differences in the relations between work-related physical and psychosocial risk factors and musculoskeletal complaints. <i>Scandinavian Journal of Work, Environment and Health</i> , 2004 , 30, 261-78	4.3	75
309	Is there a gender difference in the effect of work-related physical and psychosocial risk factors on musculoskeletal symptoms and related sickness absence?. <i>Scandinavian Journal of Work, Environment and Health</i> , 2009 , 35, 85-95	4.3	73
308	Sustained body weight reduction by an individual-based lifestyle intervention for workers in the construction industry at risk for cardiovascular disease: results of a randomized controlled trial. <i>Preventive Medicine</i> , 2010 , 51, 240-6	4.3	64
307	The influence of chronic health problems and work-related factors on loss of paid employment among older workers. <i>Journal of Epidemiology and Community Health</i> , 2015 , 69, 1058-65	5.1	62

306	Effectiveness of a worksite lifestyle intervention on vitality, work engagement, productivity, and sick leave: results of a randomized controlled trial. <i>Scandinavian Journal of Work, Environment and Health</i> , 2013 , 39, 66-75	4.3	62
305	Factors associated with non-participation and drop-out in a lifestyle intervention for workers with an elevated risk of cardiovascular disease. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2009 , 6, 80	8.4	61
304	Successfully improving physical activity behavior after rehabilitation. <i>American Journal of Health Promotion</i> , 2007 , 21, 153-9	2.5	60
303	The influence of chronic health problems on work ability and productivity at work: a longitudinal study among older employees. <i>Scandinavian Journal of Work, Environment and Health</i> , 2014 , 40, 473-82	4.3	60
302	Office workers' risk factors for the development of non-specific neck pain: a systematic review of prospective cohort studies. <i>Occupational and Environmental Medicine</i> , 2012 , 69, 610-8	2.1	59
301	Evaluation of an mHealth intervention aiming to improve health-related behavior and sleep and reduce fatigue among airline pilots. <i>Scandinavian Journal of Work, Environment and Health</i> , 2014 , 40, 557-68	4.3	58
300	Low-back and shoulder complaints among workers with pushing and pulling tasks. <i>Scandinavian Journal of Work, Environment and Health</i> , 2002 , 28, 293-303	4.3	58
299	Effectiveness of a worksite mindfulness-related multi-component health promotion intervention on work engagement and mental health: results of a randomized controlled trial. <i>PLoS ONE</i> , 2014 , 9, e84118	3.7	57
298	Evaluation of occupational health interventions using a randomized controlled trial: challenges and alternative research designs. <i>Scandinavian Journal of Work, Environment and Health</i> , 2015 , 41, 491-503	4.3	57
297	Health, job characteristics, skills, and social and financial factors in relation to early retirement--results from a longitudinal study in the Netherlands. <i>Scandinavian Journal of Work, Environment and Health</i> , 2014 , 40, 186-94	4.3	56
296	Construct validity of the individual work performance questionnaire. <i>Journal of Occupational and Environmental Medicine</i> , 2014 , 56, 331-7	2	55
295	Efficient one-day sampling of mechanical job exposure data--a study based on upper trapezius activity in cleaners and office workers. <i>AIHA Journal: A Journal for the Science of Occupational and Environmental Health and Safety</i> , 2003 , 64, 196-211		55
294	Gender differences in self-reported physical and psychosocial exposures in jobs with both female and male workers. <i>Journal of Occupational and Environmental Medicine</i> , 2005 , 47, 244-52	2	54
293	Work-related disease in general practice: a systematic review. <i>Family Practice</i> , 2005 , 22, 197-204	1.9	54
292	Short and long term effects of a lifestyle intervention for construction workers at risk for cardiovascular disease: a randomized controlled trial. <i>BMC Public Health</i> , 2011 , 11, 836	4.1	52
291	A worksite vitality intervention to improve older workers' lifestyle and vitality-related outcomes: results of a randomised controlled trial. <i>Journal of Epidemiology and Community Health</i> , 2012 , 66, 1071-8 ^{5.1}		51
290	Effect of job rotation on need for recovery, musculoskeletal complaints, and sick leave due to musculoskeletal complaints: a prospective study among refuse collectors. <i>American Journal of Industrial Medicine</i> , 2005 , 47, 394-402	2.7	51
289	In musculoskeletal epidemiology are we asking the unanswerable in questionnaires on physical load?. <i>Scandinavian Journal of Work, Environment and Health</i> , 1999 , 25, 81-3	4.3	51

288	Associations of work-related factors and work engagement with mental and physical health: a 1-year follow-up study among older workers. <i>Journal of Occupational Rehabilitation</i> , 2015 , 25, 86-95	3.6	50
287	Physical conditioning as part of a return to work strategy to reduce sickness absence for workers with back pain. <i>The Cochrane Library</i> , 2013 , CD001822	5.2	50
286	Pathways through which health influences early retirement: a qualitative study. <i>BMC Public Health</i> , 2013 , 13, 292	4.1	48
285	The association between shift work and sick leave: a systematic review. <i>Occupational and Environmental Medicine</i> , 2012 , 69, 701-12	2.1	48
284	The effect of tape, braces and shoes on ankle range of motion. <i>Sports Medicine</i> , 2001 , 31, 667-77	10.6	48
283	A research framework for the development and implementation of interventions preventing work-related musculoskeletal disorders. <i>Scandinavian Journal of Work, Environment and Health</i> , 2017 , 43, 526-539	4.3	48
282	Loading and unloading by lorry drivers and musculoskeletal complaints. <i>International Journal of Industrial Ergonomics</i> , 1993 , 12, 13-23	2.9	47
281	Software-recorded and self-reported duration of computer use in relation to the onset of severe arm-wrist-hand pain and neck-shoulder pain. <i>Occupational and Environmental Medicine</i> , 2011 , 68, 502-9	2.1	46
280	Assessment of exposure to pushing and pulling in epidemiological field studies: an overview of methods, exposure measures, and measurement strategies. <i>International Journal of Industrial Ergonomics</i> , 1999 , 24, 417-429	2.9	46
279	Trial-based economic evaluations in occupational health: principles, methods, and recommendations. <i>Journal of Occupational and Environmental Medicine</i> , 2014 , 56, 563-72	2	44
278	Why older workers work beyond the retirement age: a qualitative study. <i>BMC Public Health</i> , 2017 , 17, 672	4.1	43
277	A participatory return-to-work intervention for temporary agency workers and unemployed workers sick-listed due to musculoskeletal disorders: results of a randomized controlled trial. <i>Journal of Occupational Rehabilitation</i> , 2011 , 21, 313-24	3.6	43
276	An evaluation of methods assessing the physical demands of manual lifting in scaffolding. <i>Applied Ergonomics</i> , 2005 , 36, 213-22	4.2	42
275	Group-based measurement strategies in exposure assessment explored by bootstrapping. <i>Scandinavian Journal of Work, Environment and Health</i> , 2001 , 27, 125-32	4.3	41
274	Effectiveness of a worksite mindfulness-based multi-component intervention on lifestyle behaviors. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2014 , 11, 9	8.4	40
273	Sustained employability and health-related quality of life in cancer survivors up to four years after diagnosis. <i>Acta Oncologica</i> , 2017 , 56, 174-182	3.2	39
272	Process variables in organizational stress management intervention evaluation research: a systematic review. <i>Scandinavian Journal of Work, Environment and Health</i> , 2016 , 42, 371-381	4.3	39
271	Effectiveness of an intervention at construction worksites on work engagement, social support, physical workload, and need for recovery: results from a cluster randomized controlled trial. <i>BMC Public Health</i> , 2012 , 12, 1008	4.1	37

270	Return to work and occupational physicians' management of common mental health problems--process evaluation of a randomized controlled trial. <i>Scandinavian Journal of Work, Environment and Health</i> , 2010 , 36, 488-98	4.3	35
269	The effectiveness of participatory ergonomics to prevent low-back and neck pain--results of a cluster randomized controlled trial. <i>Scandinavian Journal of Work, Environment and Health</i> , 2011 , 37, 383-93	4.3	35
268	Cancer survivors' perspectives and experiences regarding behavioral determinants of return to work and continuation of work. <i>Disability and Rehabilitation</i> , 2017 , 39, 2164-2172	2.4	34
267	Effect of job rotation on work demands, workload, and recovery of refuse truck drivers and collectors. <i>Human Factors</i> , 2004 , 46, 437-48	3.8	34
266	Intervention mapping for development of a participatory return-to-work intervention for temporary agency workers and unemployed workers sick-listed due to musculoskeletal disorders. <i>BMC Public Health</i> , 2009 , 9, 216	4.1	33
265	Process evaluation of a participatory ergonomics programme to prevent low back pain and neck pain among workers. <i>Implementation Science</i> , 2010 , 5, 65	8.4	33
264	Evaluation of ergonomic adjustments of catering carts to reduce external pushing forces. <i>Applied Ergonomics</i> , 2002 , 33, 117-27	4.2	33
263	A participatory return-to-work program for temporary agency workers and unemployed workers sick-listed due to musculoskeletal disorders: a process evaluation alongside a randomized controlled trial. <i>Journal of Occupational Rehabilitation</i> , 2012 , 22, 127-40	3.6	31
262	Position sense acuity of the upper extremity and tracking performance in subjects with non-specific neck and upper extremity pain and healthy controls. <i>Journal of Rehabilitation Medicine</i> , 2010 , 42, 876-83 ³⁻⁴		31
261	Objectively Measured Total and Occupational Sedentary Time in Three Work Settings. <i>PLoS ONE</i> , 2016 , 11, e0149951	3.7	31
260	The effectiveness of a construction worksite prevention program on work ability, health, and sick leave: results from a cluster randomized controlled trial. <i>Scandinavian Journal of Work, Environment and Health</i> , 2013 , 39, 456-67	4.3	31
259	Shift work, sleep disturbances and social jetlag in healthcare workers. <i>Journal of Sleep Research</i> , 2019 , 28, e12802	5.8	31
258	A life course perspective on working beyond retirement--results from a longitudinal study in the Netherlands. <i>BMC Public Health</i> , 2016 , 16, 499	4.1	30
257	Participatory ergonomics to reduce exposure to psychosocial and physical risk factors for low back pain and neck pain: results of a cluster randomised controlled trial. <i>Occupational and Environmental Medicine</i> , 2011 , 68, 674-81	2.1	30
256	World at work: truck drivers. <i>Occupational and Environmental Medicine</i> , 2012 , 69, 291-5	2.1	30
255	What are possible barriers and facilitators to implementation of a Participatory Ergonomics programme?. <i>Implementation Science</i> , 2010 , 5, 64	8.4	30
254	Effectiveness of a Worksite Intervention for Male Construction Workers on Dietary and Physical Activity Behaviors, Body Mass Index, and Health Outcomes: Results of a Randomized Controlled Trial. <i>American Journal of Health Promotion</i> , 2018 , 32, 795-805	2.5	29
253	Work adjustments in a representative sample of employees with a chronic disease in the Netherlands. <i>Journal of Occupational Rehabilitation</i> , 2013 , 23, 200-8	3.6	29

252	Predictors of having paid work in older workers with and without chronic disease: a 3-year prospective cohort study. <i>Journal of Occupational Rehabilitation</i> , 2014 , 24, 563-72	3.6	29
251	Back pain: Prevention and management in the workplace. <i>Best Practice and Research in Clinical Rheumatology</i> , 2015 , 29, 483-94	5.3	29
250	Prospective research on musculoskeletal disorders in office workers (PROMO): study protocol. <i>BMC Musculoskeletal Disorders</i> , 2006 , 7, 55	2.8	29
249	Economic evaluations of occupational health interventions from a corporate perspective - a systematic review of methodological quality. <i>Scandinavian Journal of Work, Environment and Health</i> , 2010 , 36, 273-88	4.3	29
248	Shift Work and Respiratory Infections in Health-Care Workers. <i>American Journal of Epidemiology</i> , 2019 , 188, 509-517	3.8	29
247	The Vital@Work Study. The systematic development of a lifestyle intervention to improve older workers' vitality and the design of a randomised controlled trial evaluating this intervention. <i>BMC Public Health</i> , 2009 , 9, 408	4.1	28
246	Immunological effects of shift work in healthcare workers. <i>Scientific Reports</i> , 2019 , 9, 18220	4.9	28
245	Domains and determinants of retirement timing: A systematic review of longitudinal studies. <i>BMC Public Health</i> , 2018 , 18, 1083	4.1	28
244	Measuring individual work performance: identifying and selecting indicators. <i>Work</i> , 2014 , 48, 229-38	1.6	27
243	Mindful "Vitality in Practice": an intervention to improve the work engagement and energy balance among workers; the development and design of the randomised controlled trial. <i>BMC Public Health</i> , 2011 , 11, 736	4.1	27
242	Consensus-based findings and recommendations for estimating the costs of health-related productivity loss from a company's perspective. <i>Scandinavian Journal of Work, Environment and Health</i> , 2007 , 33, 122-30	4.3	27
241	Neuroendocrine reactivity and recovery from work with different physical and mental demands. <i>Scandinavian Journal of Work, Environment and Health</i> , 2000 , 26, 306-16	4.3	27
240	Stay@Work: Participatory Ergonomics to prevent low back and neck pain among workers: design of a randomised controlled trial to evaluate the (cost-)effectiveness. <i>BMC Musculoskeletal Disorders</i> , 2008 , 9, 145	2.8	26
239	How does occupational physical activity influence health? An umbrella review of 23 health outcomes across 158 observational studies. <i>British Journal of Sports Medicine</i> , 2020 , 54, 1474-1481	10.3	26
238	Effect of education on non-specific neck and low back pain: A meta-analysis of randomized controlled trials. <i>Manual Therapy</i> , 2016 , 22, 31-41		25
237	The relative contribution of work exposure, leisure time exposure, and individual characteristics in the onset of arm-wrist-hand and neck-shoulder symptoms among office workers. <i>International Archives of Occupational and Environmental Health</i> , 2012 , 85, 651-66	3.2	25
236	A process evaluation of a worksite vitality intervention among ageing hospital workers. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2011 , 8, 58	8.4	25
235	'All those things together made me retire': qualitative study on early retirement among Dutch employees. <i>BMC Public Health</i> , 2013 , 13, 516	4.1	24

234	Temporal changes in occupational sitting time in the Danish workforce and associations with all-cause mortality: results from the Danish work environment cohort study. <i>International Journal of Behavioral Nutrition and Physical Activity</i> , 2015 , 12, 71	8.4	24
233	Differential effects of mental and physical health and coping style on work ability: a 1-year follow-up study among aging workers. <i>Journal of Occupational and Environmental Medicine</i> , 2013 , 55, 1238-43	2	24
232	Economic evaluations of occupational health interventions from a company's perspective: a systematic review of methods to estimate the cost of health-related productivity loss. <i>Journal of Occupational Rehabilitation</i> , 2011 , 21, 90-9	3.6	24
231	Relation between perceived health and sick leave in employees with a chronic illness. <i>Journal of Occupational Rehabilitation</i> , 2011 , 21, 211-9	3.6	24
230	Precision of estimates of mean and peak spinal loads in lifting. <i>Journal of Biomechanics</i> , 2002 , 35, 979-82.	2.9	24
229	Effect of a redesigned two-wheeled container for refuse collecting on mechanical loading of low back and shoulders. <i>Ergonomics</i> , 2003 , 46, 543-60	2.9	24
228	Development and validation of a physical and psychosocial job-exposure matrix in older and retired workers. <i>Annals of Occupational Hygiene</i> , 2014 , 58, 152-70		23
227	Cost-effectiveness and cost-benefit of a lifestyle intervention for workers in the construction industry at risk for cardiovascular disease. <i>Journal of Occupational and Environmental Medicine</i> , 2011 , 53, 610-7	2	23
226	Meeting the challenges of implementing an intervention to promote work ability and health-related quality of life at construction worksites: a process evaluation. <i>Journal of Occupational and Environmental Medicine</i> , 2011 , 53, 1483-91	2	23
225	Challenges at work and financial rewards to stimulate longer workforce participation. <i>Human Resources for Health</i> , 2009 , 7, 70	4.6	23
224	Work-related physical and psychosocial risk factors for sick leave in patients with neck or upper extremity complaints. <i>International Archives of Occupational and Environmental Health</i> , 2007 , 80, 733-41	3.2	23
223	Evaluation of methods to assess push/pull forces in a construction task. <i>Applied Ergonomics</i> , 2001 , 32, 509-16	4.2	23
222	Validity of a diary estimating exposure to tasks, activities, and postures of the trunk. <i>International Archives of Occupational and Environmental Health</i> , 1994 , 66, 173-8	3.2	23
221	What makes men and women with musculoskeletal complaints decide they are too sick to work?. <i>Scandinavian Journal of Work, Environment and Health</i> , 2008 , 34, 107-12	4.3	23
220	Shift workers have a similar diet quality but higher energy intake than day workers. <i>Scandinavian Journal of Work, Environment and Health</i> , 2016 , 42, 459-468	4.3	23
219	Psychosomatic complaints and unwinding of sympathoadrenal activation after work. <i>Stress and Health</i> , 1998 , 14, 7-12		22
218	The role of ability, motivation, and opportunity to work in the transition from work to early retirement--testing and optimizing the Early Retirement Model. <i>Scandinavian Journal of Work, Environment and Health</i> , 2015 , 41, 24-35	4.3	22
217	The contribution of work and lifestyle factors to socioeconomic inequalities in self-rated health - a systematic review. <i>Scandinavian Journal of Work, Environment and Health</i> , 2019 , 45, 114-125	4.3	22

216	The effect of a health promotion intervention for construction workers on work-related outcomes: results from a randomized controlled trial. <i>International Archives of Occupational and Environmental Health</i> , 2015 , 88, 789-98	3.2	21
215	VIP in construction: systematic development and evaluation of a multifaceted health programme aiming to improve physical activity levels and dietary patterns among construction workers. <i>BMC Public Health</i> , 2012 , 12, 89	4.1	21
214	Effectiveness of a questionnaire based intervention programme on the prevalence of arm, shoulder and neck symptoms, risk factors and sick leave in computer workers: a cluster randomised controlled trial in an occupational setting. <i>BMC Musculoskeletal Disorders</i> , 2010 , 11, 99	2.8	21
213	A systematic review of the cost-effectiveness of worksite physical activity and/or nutrition programs. <i>Scandinavian Journal of Work, Environment and Health</i> , 2012 , 38, 393-408	4.3	21
212	Is an imbalance between physical capacity and exposure to work-related physical factors associated with low-back, neck or shoulder pain?. <i>Scandinavian Journal of Work, Environment and Health</i> , 2006 , 32, 190-7	4.3	21
211	The effect of over-commitment and reward on trapezius muscle activity and shoulder, head, neck, and torso postures during computer use in the field. <i>American Journal of Industrial Medicine</i> , 2013 , 56, 1190-200	2.7	20
210	Intervention mapping for the development of a strategy to implement the insurance medicine guidelines for depression. <i>BMC Public Health</i> , 2011 , 11, 9	4.1	20
209	Cost-effectiveness of a participatory return-to-work intervention for temporary agency workers and unemployed workers sick-listed due to musculoskeletal disorders: design of a randomised controlled trial. <i>BMC Musculoskeletal Disorders</i> , 2010 , 11, 60	2.8	20
208	Test-retest reliability and validity of self-reported duration of computer use at work. <i>Scandinavian Journal of Work, Environment and Health</i> , 2008 , 34, 113-9	4.3	20
