citing authors

#	ARTICLE	IF	CITATIONS
1	Memory enhancing activity of Glycyrrhiza glabra in mice. Journal of Ethnopharmacology, 2004, 91, 361-365.	4.1	205
2	Antidepressant-like activity of Glycyrrhiza glabra L. in mouse models of immobility tests. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2006, 30, 449-454.	4.8	120
3	Ascorbic Acid: a Promising Memory-Enhancer in Mice. Journal of Pharmacological Sciences, 2003, 93, 129-135.	2.5	112
4	Thymoquinone produced antianxiety-like effects in mice through modulation of GABA and NO levels. Pharmacological Reports, 2011, 63, 660-669.	3.3	86
5	Improvement of Mouse Memory by Myristica fragrans Seeds. Journal of Medicinal Food, 2004, 7, 157-161.	1.5	78
6	Antidepressant-like activity of gallic acid in mice subjected to unpredictable chronic mild stress. Fundamental and Clinical Pharmacology, 2013, 27, 409-418.	1.9	78
7	Evaluation of anti-diabetic activity of glycyrrhizin-loaded nanoparticles in nicotinamide-streptozotocin-induced diabetic rats. European Journal of Pharmaceutical Sciences, 2017, 106, 220-230.	4.0	75
8	Comparative Brain Cholinesterase-Inhibiting Activity of Glycyrrhiza glabra, Myristica fragrans, Ascorbic Acid, and Metrifonate in Mice. Journal of Medicinal Food, 2006, 9, 281-283.	1.5	69
9	Improvement of antihyperglycemic activity of nano-thymoquinone in rat model of type-2 diabetes. Chemico-Biological Interactions, 2018, 295, 119-132.	4.0	67
10	GABAergic and nitriergic modulation by curcumin for its antianxiety-like activity in mice. Brain Research, 2010, 1352, 167-175.	2.2	61
11	Antidepressant-Like Activity of <i>n</i> -Hexane Extract of Nutmeg ( <i>Myristica fragrans</i> ) Seeds in Mice. Journal of Medicinal Food, 2006, 9, 84-89.	1.5	56
12	Memory-Enhancing Activity of Palmatine in Mice Using Elevated Plus Maze and Morris Water Maze. Advances in Pharmacological Sciences, 2012, 2012, 1-7.	3.7	51
13	Antidepressant-like activity of ellagic acid in unstressed and acute immobilization-induced stressed mice. Pharmacological Reports, 2012, 64, 796-807.	3.3	49
14	Involvement of NO-cGMP pathway in anti-anxiety effect of aminoguanidine in stressed mice. Progress in Neuro-Psychopharmacology and Biological Psychiatry, 2009, 33, 1502-1507.	4.8	47
15	Memory-Strengthening Activity of Glycyrrhiza glabra in Exteroceptive and Interoceptive Behavioral Models. Journal of Medicinal Food, 2004, 7, 462-466.	1.5	46
16	Antianxiety-Like Activity of Gallic Acid in Unstressed and Stressed Mice: Possible Involvement of Nitriergic System. Neurochemical Research, 2012, 37, 487-494.	3.3	46
17	Behavioral and biochemical evidences for antidepressant-like activity of palmatine in mice subjected to chronic unpredictable mild stress. Pharmacological Reports, 2014, 66, 1-9.	3.3	42
18	Possible Involvement of Monoaminergic Neurotransmission in Antidepressant-like activity of <i>Emblica officinalis</i> Fruits in Mice. CNS Neuroscience and Therapeutics, 2012, 18, 419-425.	3.9	41

#	ARTICLE	IF	CITATIONS
19	Inosine improves cognitive function and decreases aging-induced oxidative stress and neuroinflammation in aged female rats. <i>Inflammopharmacology</i> , 2018, 26, 1317-1329.	3.9	38
20	Chitosan-Gellan Gum Bipolymeric Nanohydrogelsâ€™a Potential Nanocarrier for the Delivery of Epigallocatechin Gallate. <i>BioNanoScience</i> , 2017, 7, 508-520.	3.5	36
21	Evidences for the involvement of monoaminergic and GABAergic systems in antidepressant-like activity of garlic extract in mice. <i>Indian Journal of Pharmacology</i> , 2008, 40, 175.	0.7	35
22	Antiepileptic activity of ellagic acid, a naturally occurring polyphenolic compound, in mice. <i>Journal of Functional Foods</i> , 2014, 10, 364-369.	3.4	30
23	Conjugation of epigallocatechin gallate and piperine into a zein nanocarrier: implication on antioxidant and anticancer potential. <i>Advances in Natural Sciences: Nanoscience and Nanotechnology</i> , 2018, 9, 035011.	1.5	27
24	Possible Underlying Influence of p38MAPK and NF-Î²B in the Diminished Anti-anxiety Effect of Diazepam in Stressed Mice. <i>Journal of Pharmacological Sciences</i> , 2011, 116, 257-263.	2.5	23
25	Inhibition of MAO and GABA: probable mechanisms for antidepressant-like activity of <i>Nardostachys jatamansi</i> DC. in mice. <i>Indian Journal of Experimental Biology</i> , 2008, 46, 212-8.	0.0	23
26	Antidepressant-like activity of plumbagin in unstressed and stressed mice. <i>Pharmacological Reports</i> , 2015, 67, 1024-1032.	3.3	22
27	Evaluation of the antidepressant-like activity of <i>Convolvulus pluricaulis choisy</i> in the mouse forced swim and tail suspension tests. <i>Medical Science Monitor</i> , 2007, 13, BR155-61.	1.1	21
28	Antihyperlipidemic Activity of <i>Aloe succotrina</i> in Rats: Possibly Mediated by Inhibition of HMG-CoA Reductase. <i>ISRN Pharmacology</i> , 2014, 2014, 1-9.	1.6	18
29	Possible involvement of GABAergic and nitriergic systems for antianxiety-like activity of piperine in unstressed and stressed mice. <i>Pharmacological Reports</i> , 2014, 66, 885-891.	3.3	16
30	Behavioral and biochemical evidences for nootropic activity of boldine in young and aged mice. <i>Biomedicine and Pharmacotherapy</i> , 2018, 97, 895-904.	5.6	13
31	Evaluation of antidepressant-like activity of aqueous and ethanolic extracts of <i>Terminalia bellirica</i> Roxb. fruits in mice. <i>Indian Journal of Experimental Biology</i> , 2007, 45, 610-6.	0.0	13
32	Evidence for involvement of the monoaminergic system in antidepressant-like activity of an ethanol extract of <i>Boerhaavia diffusa</i> and its isolated constituent, punarnavine, in mice. <i>Pharmaceutical Biology</i> , 2014, 52, 767-774.	2.9	12
33	Behavioral and Biochemical Evidences for Antidepressant-Like Activity of <i>Celastrus Paniculatus</i> Seed Oil in Mice. <i>Basic and Clinical Neuroscience</i> , 2016, 7, 49-56.	0.6	12
34	Differential effects of nitric oxide synthase inhibitors on anxiety in unstressed and stressed mice. <i>Indian Journal of Experimental Biology</i> , 2010, 48, 365-72.	0.0	10
35	Protective effect of hesperetin against haloperidol-induced orofacial dyskinesia and catalepsy in rats. <i>Nutritional Neuroscience</i> , 2018, 21, 667-675.	3.1	9
36	Potential of nootropic activity of EGCG loaded nanosuspension by piperine in swiss male albino mice. <i>Future Journal of Pharmaceutical Sciences</i> , 2018, 4, 296-302.	2.8	9

#	ARTICLE	IF	CITATIONS
37	AMELIORATION OF HALOPERIDOL-INDUCED OROFACIAL DYSKINESIA AND CATALEPSY BY ELLAGIC ACID IN RATS. <i>International Journal of Research in Ayurveda and Pharmacy</i> , 2016, 7, 222-227.	0.1	4
38	Improvement of Learning and Memory by Morin, A Flavonoid in Young and Aged Mice. <i>Pharmacologia</i> , 2016, 7, 75-82.	0.3	4
39	Shatavari: A nature's gift for autism. <i>Asian Journal of Bio Science</i> , 2019, 14, 12-21.	0.1	1
40	ANTIDEPRESSANT-LIKE ACTIVITY OF FLOWERS OF TECOMELLA UNDULATA IN MICE SUBJECTED TO CHRONIC UNPREDICTABLE MILD STRESS. <i>Asian Journal of Pharmaceutical and Clinical Research</i> , 2019, 12, 130.	0.3	0
41	Antidepressant-like activity of ethanol extract of leaves of <i>Caesalpinia pulcherrima</i> in unstressed and stressed mice. <i>Brazilian Journal of Pharmaceutical Sciences</i> , 0, 57, .	1.2	0
